Transportation & Shipping Sub-Commission

202 1 478703

370/111/70 3

21 December 1945

SUBJECT: Priority of Movement - Civilian Traffic

TO: Senior Transportation Officer
AND Naples Command

1. With reference to your weekly report for the period 19 to 25 November '45.

2. It is noted that you fail to remark on the evident mal distribution of wagons in the Naples Compartiments and only to state what action is being taken by your Office to rectify this serious position.

3. You will note that the agreed priority list for movement of civilian traffic by rail is being ignored by the Naples Compartiments as the following points will show from perusal of your report:-
a) 1092 tons of flour and grain (Priority 4) were authorized for movement, of which, only 1777 tons actually moved, leaving a balance of 1119 tons not moved.
Against this, 1701 tons of fruit and vegetables (Priority 7) were authorized for movement, of which 1810 tons actually moved, leaving a balance of only 91 tons not moved.

As box cars are required for both these commodities, it is evident that the priority list is being ignored in favour of the more lucrative traffic.

b) 1455 tons of miscellaneous traffic (Priority 19) were authorized for movement, of which, 1178 tons were actually moved, leaving a balance of only 277 tons not moved.
Against this, 718 tons Construction Materials (Priority 15), 1081 tons Timber and Plywood (Priority 16), 681 tons

1. With reference to your weekly report for the period 13 to 15 November '43.

2. It is noted that you fail to remark on the evident mal distribution of wagons in the Naples Compartiments and omit to state what action is being taken by your Office to rectify this serious position.

3. You will note that the agreed priority list for movement of civilian traffic by rail is being ignored by the Naples Compartiments as the following points will show from perusal of your report:-

a) 1932 tons of flour and grain (Priority 4) were authorized for movement, of which, only 1777 tons actually moved, leaving a balance of 155 tons not moved.
Against this, 270 tons of fruit and vegetables (Priority 7) were authorized for movement, of which 2610 tons actually moved, leaving a balance of only 91 tons not moved.

As box cars are required for both these commodities, it is evident that the priority list is being ignored in favour of the more lucrative traffic.

b) 1455 tons of miscellaneous traffic (Priority 19) were authorized for movement, of which, 1776 tons were actually moved, leaving a balance of only 277 tons not moved.
Against this, 746 tons Construction Materials (Priority 15), 1061 tons Timber and Woodwork (Priority 16), 601 tons coal and charcoal (Priority 12, 161 tons Lignite (Priority 12), and 70 tons Metals (Priority 14), did not move. 6264

4. It appears that something is radically wrong with the wagon allocation in the Naples Compartiments and this has been brought to the notice of the Headquarters ISB here for immediate action.

5. All action possible will be maintained by your Office with the Naples Compartiments of the ISB until this position is rectified.

By Command of Rear Admiral CPM

SUBJECT : Priority of Movement - Civilian Traffic

TO : Sig. Cecchetti,
1st Servizio Movimento
Genova (Marit)

1. With reference to the enclosed weekly report for the period 19 - 25 November from the Senior Transportation Officer Naples, and confirming conversation of yesterday, Sig. Cecchetti - Capt. Clinging.
2. You will note that 4993 tons of flour and grain (Priority 6) were authorized for movement, of which, only 1777 tons actually moved, leaving a balance of 3216 tons not moved. Against this, 2701 tons of fruit and vegetables (Priority 7) were authorized for movement, of which 2610 tons actually moved, leaving a balance of only 91 tons not moved. As box cars are required for both these commodities, it is evident that the agreed priority list is being ignored in favour of the more lucrative traffic.
3. You will also note that 1495 tons of miscellaneous traffic (Priority 13) were authorized for movement, of which, 1173 tons were actually moved, leaving a balance of only 322 tons not moved. Against this 746 tons Construction Materials (Priority 12), 1081 tons Timber and Berwood (Priority 15), 581 tons coal and Charcoal (Priority 12), 161 tons Lignite (Priority 12), and 70 tons Metals (Priority 14), did not move.

6263

- 2 -

4. It would appear that something is radically wrong with the wagon allocation in the Naples Compartimento and you are requested to take immediate action to rectify the present position, especially in view of the many complaints now being received from all quarters.

For the Director

G.F. BERRIDGE,
Major R.E.

5- SEGNALI DI LINEA SON ANCORA AVANTI AL TRAFFICO CON LE RAGIONI.

Linea Napoli e Scali

Sono stati iniziati i lavori per ripristinare il tratto di binario del disparto della linea Avellino-Napoli tra la officina Milano e Napoli Sestione e il bivio Perigliosa.

In corso i lavori della galleria artificiale fra le stazioni di Napoli piazza Garibaldi e Napoli via Giustiniani.

Linea Spauracchio-Minturno

In corrispondenza di molte opere d'arte ripristinate, la via provvisoria degli Alleati, si sono verificati incidenti e calamitosi tali da impedire allo stato il ripristino dell'esercizio.

Dal Km. 20.400 al Km. 25.015 non esiste più binario.

Linea Origlietta-S. Marcello

In corso i lavori di ripristino delle opere d'arte in muratura e di alcune travate metalliche.

Linea Avellino-Benevento

In corso i lavori di ricostruzione delle opere d'arte in muratura e di alcune travate metalliche.

Linea Cancello-Torre A.C.

Già eseguite le opere di appalto per le opere d'arte in muratura e striscianti per i FF.VV. di Benevento e S. Giuseppe Ven. Si procederà alla consegna dei lavori al più presto. In corso gara di appalto per la sistemazione delle OO. al Km. 22.557.

6168

Linea Avellino-Rocchetta

In corso la ricostruzione le opere d'arte in muratura e le travate metalliche al Km 37,55,70,77. In corso i lavori di levigazione della linea in precedenza della stazione di Rocchetta.

Linea Benevento-Campobasso

Strada 22. Rocchetta-Campobasso. Non sono stati ancora iniziati i lavori di ricostruzione delle opere d'arte.

Linea 22. Rocchetta-Campobasso

Strada 22. Rocchetta-Campobasso. Non sono stati ancora iniziati i lavori per la ricostruzione delle opere d'arte.

1. *Chlorophyll a* (Chl a) and *Chlorophyll b* (Chl b) are the primary photosynthetic pigments in green plants. They are responsible for capturing light energy and converting it into chemical energy through the process of photosynthesis. Chl a is the most abundant pigment, while Chl b is present in smaller amounts. Both pigments absorb light in the blue and red regions of the visible spectrum.

• *Chlorophyll a* (Chl a) is the primary photosynthetic pigment in most plants and algae. It is a green pigment that absorbs light energy in the blue and red regions of the visible spectrum. Chl a is essential for the light-dependent reactions of photosynthesis, where it converts light energy into chemical energy in the form of ATP and NADPH.
