Concerned over wagon position have lost 168 box cars within 3 weeks this week 87 no attempt from REGGIO to balance interchange in view of recent events we realize difficulties but it should be possible to give us a fixed allocation of wagons to meet dock clearance military moves and maintain the economic life of the Island in consideration of its growing importance and as one of the largest compartmentalin(?) operation we can only use 50 per cent of basic tonnage allocated.

1. Your signal 021 of 26 Apr. is ackd suggesting I discontinue sending empty wagons to Sicily. Unfortunately this does not help as I have not sent any empties to Sicily for three weeks.
2. Please refer to my letter R 37 of 3 Apr (copy to Capt Lynch). As I have not yet received information per para. 3 of that letter I am unable to act. (see also my letter R 37 of 11 Apr to Capt Lynch - copy to you)
3. Capt Lynch's weekly statement is not clear to me. He is showing a " minus " running balance each week. All I want to know is the actual number of all types on hand at, say, 1800 hrs each Saturday. Then when I know from you what quantity he is authorised to hold I can (a) make up his deficiency from here (if wagons are available) or (b) ask him to send his surplus to the mainland.

Balance of railway stock between ITALY and SICILY referred to in ACTPT 5 March cannot be facilitated by LST because intention to load railway equipment now possible through greater depth of REGGIO hard also vehicles are being carried on main deck and personnel transported NORTH AFRICA to ITALY. Recommended at MEDBO today that both MESSINA car ferries be permitted to operate until sufficient railway stock obtained.
