414/1/Tn 3

SUBJECT : Line 242 - Albacina to Civitanova Marche

TO : Rail Division, Tn. Sub-Commission

1. A considerable amount of road transport is at present permanently employed, lifting grain from Macerata Province to Railheads.
2. The rehabilitation of line 242 would effect a considerable saving in M.T.
3. Will you please report on extent of damage to this line, the cost of repair and time necessary to carry out repairs.
4. If the line is so heavily damaged that repair would prove a lengthy job, rail access to line 86 or 87 would prove most advantageous.
