TO : Normal Distribution for Lists; and,
Ministry of Industry and Commerce,
Salvage Office.

1. Lists of salvage materials available from Allied sources are periodically circulated by this Sub-Commission. In fairness to other Sub-Commissions who wish to bid for these materials on behalf of Italian concerns, it should be stated that the policy of this Sub-Commission is to give preference to claims made by the Italian Ministry of Industry and Commerce. This is done in order to fall in with the Italian Government's general plans for industry.

2. In order not to disappoint would-be purchasers of salvage items, whose claims are backed by Sub-Commissions in this H.Q., it is advisable that all bids from Italian concerns should be directed to the Salvage Office of the Ministry of Industry and Commerce. Only in exceptional circumstances should they be submitted to this Sub-Commission direct.

3. Lists of available salvage will continue to be circulated to all interested Sub-Commission in order that they may know, what is on the market. Concerns wishing to purchase items listed should submit their claims to the Ministry with the minimum of delay.

SUBJECT: Brass cartridges --

We call your attention to the fact that on the forwarding of brass cartridges from your depot A P O 394 to our factory of Bagno 41, for a declared weight of 185.940 tons at the departure release order T33 on the 30/II/45, it has been observed at the arrival the weight of 180.870 tons, with a difference of 5,07 tons, --

As the wagons did not seem to have been broken into on this arrival, we deem that there must be a mistake while declaring the weight at the departure and therefore please consider valid to all effects the mentioned weight of 180.890 tons. 897

We would appreciate very much a reply - Best regards -
