SUBJECT. Line 221 Roccastrada to Montopescali

TO. Planning Staff (TN.2)

1. Ref attached copy letter mines-500 dated 27th June 1945 received from Industry Sub-commission, and the various enclosures thereto.

2. Will you please study the possibility of reconstructing this section of line 221. The enclosures indicate there is a considerable tonnage for movement from Roccastrada, most of which will not bear the expense of movement by road.

3. Please advise the results of your investigations, and if authority for reconstruction is given please state expected date of completion.

Line 221.

SUBJECT: Railway Line Between Roccastrada and Montepescali.

TO : Transportation Sub-Commission, HQ. A.C.
Attn. Lt. Col. Baker ←

1. Reference the attached translation of a letter received at HQ Mining Division, 26 June 1945, requesting, that if possible, repairs to the Railway line Roccastrada to Montepescali be given a priority over the portion now under repair.

2. The Mining Division, Industry Sub-Commission, concurs in this request, inasmuch as Silica sand and Kaolin are in great demand now throughout Italy and repairing the subject stretch of railway will provide a rail outlet for these products.

3. Enclosed are Mining Division Reports concerning the properties that will benefit by these railroad repairs. Other information is available if desired. Any assistance on this matter will be appreciated.
