SUBJECT : Wagon Supply - Ancosa Compartimento

TO : Movements Div
(Attention Major Constable)

1. Reference is to your letters 479/16/Tn 3 of September 8th and 479/19/Tn 3 of September 11th.

2. The failure to move flour and grain during the period 20-26 August is considered to be due to faulty distribution within the Compartimento and this has been strongly taken up with IER.

3. Distribution for period 27 August to 2 September was also faulty and this, again, will be taken up with IER. The local supply of Box Cars was, however, very low and must be taken into account in assessing the cause of failure during that week.

4. During both periods, however, it will be seen that total Civil Loadings in Ancosa Compartimento exceeded programme allocation. In view of this it seems necessary to examine the position as regards allocation of types in order that a fair proportion of box cars may be obtained.

SUBJECT : Wagon Supply - Ancona Compartimento

TO : Rail Division (Tn.4.)

1. Further to this office letter 479/18/Tn.3. dated 8 Sept. '45.
2. Information just received for the week 27 August - 2 September reveals that 2005 tons of flour and grain failed to move by rail owing to lack of empties at the following stations :-

Fabriano	Chiaravalle
Jesi	Loreto
Senigallia	Osimo
Montecarotto	Castelpione

3. It is once more urged that action be taken to provide an adequate supply of wagons for this essential food movement

SUBJECT : Wagen supply - Ancona Compartimento

TO : Rail Division (Tn 4)

1. Senior Transportation Officer Ancona reports the following movement figures for the period 20 - 26 August :-
 - (a) Planned rail movement :
Flour 250 tons - grain 2700 tons
 - (b) Actually moved :
Flour 187 tons - grain 1445 tons.
2. Failure to move attributed to shortage of rail wagons at Senigallia, Chiaravalle and Fabriano. 2117
3. These stations have been "black spots" for some considerable time, and it will be seen that grain movement is and has been greatly prejudiced by what is assumed to be, bad local distribution in Ancona Compartimento.
4. It is requested that pressure be brought to bear on the ISR to correct this state of affairs.

1. Reference conversation Capt. Olling - Lt. Jeffreys of today.
2. Herewith summary of tonnage not moved during the period 17 to 21 September '45.
You will note that a large number of the reasons for non movement is put-down to shortage of wagons. 2098
3. The Senior Transportation Officer Ancona reports that loadings during the period 15-21 October in the Ancona Compartments were unsatisfactory. A large shortage of covered and low-sided wagons due to the falling of the daily supply from Bologna Bari and Rome Compartments, has provoked the impossibility to carry out many important transports of grain, flour, cement etc.

3. Loading programme for period 15-21 October have been very unsatisfactorily completed. A large shortage of covered and low-sided wagons due to the failing of the daily supply from Bologna, Bari and Rome Compartments, has provoked the impossibility to carry out many important transports of grain, flour, cement etc.

4. As per orders received from I.S.R. Central Direction Rome, and due to the hold up of traffic in Bologna Area, all the transports for the North have been interrupted with the exception for the ones carrying food. This situation was later aggravated by the breaking of a railway-bridge on the River Foglia, between Pesaro and Cattolica.

5. Actually an improvement has been reached in the supply of empties either from Bologna or Bari Compartment and it is hoped that within few days time the situation will return to the normality.

During this period a large amount of open wagons has been required for movement of sheep from Umbria Region to Lazio. I.S.R. were then obliged to use box wagons instead of open ones, when they were not available. The situation improved at the end of the week and all transports scheduled were effected.

4. As for the recent situation, a shortage of covered wagons arose at Morgnano, affecting cement movement from that station (reference phone-conversation Rothwell-Florio Thursday 11 Oct.). At date, I.S.R. Ancona has not received instructions from Rome to provide these wagons, but I.S.R. Ancona is aware of the situation. The system of allotting "Block Tonnages" for Port Clearance has proved in the past to be more satisfactory than for bids to be placed on receipt of ships' dispositions.

On line 87 all bids made have been accepted, but due to the reduced tonnage offered on line 86 it has been found necessary to cut out all cattle traffic during this period.

It was hoped that we might be able to allocate one wagon to each applicant but the permitted tonnage did not cover this and it was thought desirable to cut out the whole of the cattle rather than cause dissension among the dealers by making an allocation to just one or two.
