265. ASSIGNMENT OF MILITARY RESPONSIBILITY - ALBANIA (Section 261).

It is considered improbable that UNRRA will be able to take over responsibility for ~~shipment~~ on 1 Jul as negotiations for the completion of UNRRA/ALBANIA agreement are presently in progress. Consideration has however been received from UNRRA ALBANIA that necessary action will be taken by UNRRA to set up shipping programme for Aug arrivals.

It has been recommended that:-

- (a) The balance of the Balkan Stockpile is required for ALBANIA be handed over to UNRRA as at 30 Jun.
- (b) Responsibility for relief to ALBANIA be assumed by UNRRA as at 1 Aug with an additional proviso that supply of requirements for ALBANIA relief for arrival during Aug and subsequent months be responsibility of UNRRA as already arranged.

Subject: - 0-4 (ADV & T) WEEKLY REPORT
TO HQHQ ON CIVIL SUPPLY

257. URGENT URGENT BUREAU, TULLY, SICILY AND BARRAGE

Statement is attached at Appendix "A".

258. AUG SUBSISTENCE REQUIREMENTS - AUSTRIA.

Given below are allocations against Aug subsistence requirements for AUSTRIA (all in metric tons):-

Item	Amount allocated	Requirement responsibility
Sugar	2,250	U.S.
Milk, Dry, Skim	250	U.S.

These allocations do not constitute approval of any requirement and allocations for other items will be given when supply responsibility is known.

259. FLOUR, AUSTRIA.

Report has been submitted to SHARP that the requirement of 3750 metric tons of flour per fortnight for the U.S./French zones (excluding all Vienna) be provided and lifted by SHARP - should provisioning action not be possible, the diversion of vessels now allocated has been proposed. Alternatively arrangements could be made for the transfer to SHARP of a proportion of CCC credit of 120,000 tons allocated to SHARP for AUSTRIA but not yet called forward.

260. WHEAT

Requirements for Wheat have been given as

WHEAT	100,000 tons
WHEAT	800
WHEAT	60,000 tons (spread over 1 year)

General has not been received from AUSTRIA.

for 1950-51

Item. Amount Allocated Procurement Responsibility
 U.S.
 U.S.
 Sugar 2,256
 Milk, Dry, SKM 260

252. FLOR, AUSTRIA.
 A proposal has been submitted to UNRRA that the requirement of 3750 met long tons of flour per fortnight for the U.S./French zone (excluding GAO VIKAR) be provided and lifted by UNRRA. Should providing action not be possible, the diversion of vessels now at sea to UNRRA of a proportionately arrangement could be made for the transfer to UNRRA but proportion of 600 credit of 120,000 tons allocated to UNRRA for AUGRIA but not yet called forward.

260. FRUITES
 Requirements for Pyrites have been given as
 FRANCE 100,000 tons
 BELGIUM 100,000 tons
 SWITZERLAND 60,000 tons (spread over 1 year)

No demand has yet been received from NETHERLANDS.
 Total availability is 100,000 tons of which it is proposed to allocate 50,000 tons to FRANCE pending a decision regarding Swiss requirements.

261. TERMINATION OF MILITARY RESPONSIBILITY - GERMANY.

WASHINGTON has stated that following discussions with UNRRA, 1 Jul is believed to be a convenient date for the termination of military responsibility for GERMANY, with the exception of RUL. UNRRA will take over the responsibility for the Balkan stockpile received for GERMANY which has not been shipped or loaded for shipment up to 30 Jun.
 UNRRA comments have been requested.

262. AUG SUBSISTENCE REQUIREMENTS BY US - ITALY.

Allocation of Aug subsistence requirements for ITALY are given below (all in metric tons):-

It has been suggested that approx 3000 tons of MONTANA and
other cereals of wheat need be shipped ex ITALY to DUEET as Italian
wheat has been found to be largely immune to stocks of yellow rust,
and that an equivalent quantity of Egyptian wheat be shipped to
ITALY. If this proposal is not suitable, arrangements might be
made to replace wheat for ITALY ex U.S. AMERICA.

1. The first step in the process of creating a new product is to identify a market need. This involves conducting market research to determine what consumers want and what problems they are trying to solve. Once a need is identified, the next step is to develop a concept for a product that addresses that need. This is often done through brainstorming and sketching. The third step is to create a prototype, which is a preliminary model of the product. This allows the designer to test the product and make improvements before moving forward. The final step is to launch the product into the market and monitor its performance. This involves tracking sales, customer feedback, and market trends to ensure the product is successful and making adjustments as needed.

22. Barley ex Iraq for Italy

Original civil account requirements for barley from Iraq were estimated at 20,000 tons per month till October. However, in view of the fact that the total amount of grain being requisitioned for August, September and October is only 5935, barley tons monthly, it is considered unlikely that the whole 20000 tons will be approved from Iraq by COS. Iraqis and ICAGI have been so informed, to assist the consideration of shipping arrangements.

Details of the berths to be utilized over are as follows:-

- (a) Berth 56. Full liberty berth (discharge over tanker bulk).
- (b) Berth 57. Steam-to berth for Italian Naval craft.
- (c) Berth 58. Deep Coaster berth.
- (d) Berths 59 and 60. 2 partial liberty berths (also used by Allied tankers probably 10 days per month).

None of the above berths is radi-surveilled.

237. CAPACITY OF SHIPING YARD.

Subject to the availability of shipping, the following commodities will be ready for shipment early in June, consigned to INSTITUTO COMERCIAL ESTERO in MARSEILLE:-

- (a) Cotton. 15000 bales (to be loaded preferably ex Gulf of Mexico ports).
- (b) 190 x 24 - 3 ton trucks } (Weight approx 1665 short tons).
- 314 x 12 ton trucks }

244. DISCUSSION AND ANALYSIS.

Requests have been received from JMWAVE/IN for the ports of BRUNO and ALMA to be used for distribution of WAVE. This has been agreed provided the additional tonnage involved can be handled, and it is provided that these ports be maintained by containers and not by ex-boat, though this will be dependent upon the source of supply of stores.

The above estimates are exclusive of POL and coal requirements.

229. MARKING OF UNRRA SHIPMENTS:

It has been reported that confusion is arising owing to UNRRA Supplies, bearing conflicting markings, being received in vessels carrying military supplies. A spot check on 'CHILDERS HILL' revealed bags of peas which bore both U.S. and UNRRA markings. No census have, however, been reported of UNRRA supplies bearing no markings. WASHINGTON has been asked to ensure that all items bear the approved UNRRA lettering in black, 4 to 6 inches high.

The above estimates are exclusive of POL and coal requirements.

229. MARKING OF BOMB, SHIPMENTS:

It has been reported that confusion is arising owing to UNRA supplies, bearing conflicting markings, being received in vessels carrying military supplies. A spot check on 'CHAMBER HALL' revealed bags of peas which bore both UNRA and UNRA markings. No mixed bags, however, been reported of UNRA supplies bearing no markings. HALLMARK has been asked to ensure that all items bear the approved UNRA lettering in black, 4 to 6 inches high.

234. SALT FOR THE ARMY

There has been a salt shortage for the Army, as follows, as supplied from the:

Month	Quantity
May	2,000
Jun	10,000
Jul	10,000
Aug	7,000

It has been pointed out to the fact that salt can be supplied from the following sources:

- (a) 12,000 tons per month with a rate of 10,000 tons per month
- (b) 12,000 tons per month with a rate of 10,000 tons per month (normal rate of loading - 10,000 tons per day)

In view of the fact that salt is required in large quantities for the production of explosives, it is recommended that the following salt be supplied from the following sources:

1. U.S. Army, 3 dwt, for the production of explosives (Nov. 1944)

10/10/44

DISTRIBUTION: 1.0 for the Secretary of Defense

THE SECRETARY OF DEFENSE (G-10) (G-10) (G-10)

THE SECRETARY OF DEFENSE (G-10) (G-10) (G-10)

THE SECRETARY OF DEFENSE (G-10) (G-10) (G-10)

NOV 15 1944

(b) 12,000 tons refined ground marine salt at a rate of 3,000 tons per month (Normal rate of loading - 500 tons per day)

In view of the lunar shortage in Saudi Arabia, SAUDI have been requested to investigate the possibility of procuring salt from ARABIA, SOUSSER and SAUDI.

ATTN: FOR THE DEPARTMENT

Gen (Moy & Tol) 5/013/011

7 Apr 45

Tel: Freedom 31

Subject: Gen (Moy & Tol) Weekly Report
to HHC of Civil 500.

205. ITAL SUBSISTENCE REQUIREMENTS - 511.

All verbal requirements as given in para 157 were based upon a 350 tonne requirement for the whole of Italy. It is apparent that this must be fulfilled owing to the difficulties of internal transportation and port acceptance limitations.

The fuel requirement has therefore been reduced to 150,000 tonnes and the balance of 60,000 tonnes has been cancelled.

206. CURRENT WHEAT SUPPLY, ITALY.

Statement is at at Appx 1.

207. WHEAT FOR JUDGEMENTS, (See para 151).

Information has been received from a division that shipping can be made available to lift wheat to JUDGEMENTS via ex CORPORA but in view of information received from the Russian representative in JUDGEMENTS that there was no knowledge of this offer, 100,000 MT have been asked to investigate the position.

It is considered most probable that this wheat, if available, will be in bulk.

208. WHEAT FOR JUDGEMENTS, (See para 151).

The following information has been requested from the JUDGEMENTS regarding vehicles submitted to lift 1,000 tonnes wheat from LIC TA to JUDGEMENTS.

(a) Name of vendor.

(b) STA LIC TA.

The JAL requirement has therefore been reduced to 165,000 tons and the balance of 66,000 tons has been cancelled.

206. CARACAN WHEAT SHIPS, ITALY.

Statement is att at Appx '11.

207. WHEAT FOR JUGOSLAVIA. (See para 151).

Notification has been received from Washington that shipping can be made available to lift wheat to JUGOSLAVIA on CONST. JZA but in view of information received from the Russian representative in BUCHAREST that there was no knowledge of this offer, AOC HUSSARIA have been asked to investigate the position.

It is considered most probable that this wheat, if available, will be in bulk.

208. SULPHUR FOR JUGOSLAVIA. (See para 199).

The following information has been requested from the JUGOSLAVS regarding vessels scheduled to lift 1,000 tons sulphur from LIC JA to JUGOSLAVIA:

- (a) Name of vessel.
- (b) ETA LIC JA.
- (c) Ultimate destination.

This information will be advised to HQ Allied Commission, ROME, 112 repeated to the High Commissioner SICILY, ASHQ and MYTH Med.

Application has been made by the JUGOSLAVS for a supplementary 1,000 tons sulphur, but this is at present under consideration.

193. Wheat - General (See para 195)

It is estimated that maximum consumption of bulk wheat in 40 follows :-

- (a) GERMANY - 42,000 tons (including SWISS/GERMAN cargoes)
 - (b) CZECHOSLOVAKIA - Nil.
 - (c) ITALY - 30,000 tons
 - (d) GREECE - 10,000 tons
 - (e) SWEDEN - 10,000 tons
 - (f) AUSTRIA - Nil
- all figures should be largely, but position will be revised when conditions in foreign ports fully known.

194. SWISS Wheat cargoes (See para 192).

As "SWISS Wheat" has been allotted as a carry vessel between IT LY (N) SWISS, and it was agreed by MEMO that this vessel be fitted to carry, under "special" conditions, the maximum number of passengers within the margin of safety.

This work will be carried out on completion of the present voyage.

195. SWISS Wheat ships - ITALY.

Statement is set at Appendix 11.

196. Statement of SWISS Wheat cargoes.

Official Declaration has been entered that "SWISS Wheat", which has arrived from Germany, has been taken from SWISS Wheat.

- (c) ITALY - 2,000 tons
 (d) SICILY - 3,000 tons
 (e) SARDINIA - 3,000 tons
 (f) AUSTRIA -

All cargoes should be bagged, but position will be reviewed when conditions in forward ports fully known.

194. SIXTH FERRY SERVICE (See para 182).

SS "COMPTONCHIO" has been allotted as a ferry vessel between ITALY and SICILY, and it was agreed by MEMB that this vessel be fitted to carry, under "picnic" conditions, the maximum number of passengers within the margin of safety.

This work will be carried out on completion of the present voyage.

195. CURRENT WHEAT SHIPS - ITALY.

Statement is att as appendix 'A'.

196. MOVEMENT OF ANIMALS FROM SARDINIA.

Allied Commission have estimated that "LANOIA", which has been allotted to carry cattle, sheep and horses from SARDINIA to CIVITAVECCHIA, will clear all outstanding bids and cover all requirements in the immediate future.

This H.Q. will be advised of numbers listed on each trip.

THIS INFORMATION

Subject: G-4 (Mov & Tr) Weekly Reports
to HEADQUARTERS ON CIVIL SHIPS.

13. REPORT - GENERAL (See para 10)

It is considered that maximum cooperation is being given in the following:-

- (a) GREECE - 45,000 tons (including GREEK/ITALIAN cargo)
- (b) YUGOSLAVIA - 142.
- (c) ITALY - 54,000 tons
- (d) SICILY - 4,000 tons
- (e) SARDINIA - 8,000 tons
- (f) AUSTRIA - all cargo should be biggest, but position will be reviewed when conditions in forward ports fully known.

14. SICILY REINFORCEMENTS (See para 102)

SS "MILITARY" has been allotted as a ferry vessel between Italy and Sicily. It is agreed by G-4 that this vessel be fixed to carry, under "priority" conditions, the maximum number of passengers within the capacity of safety.

This work will be carried out in completion of the present voyage.

15. GENERAL REINFORCEMENTS - ITALY.

Statement is set at Appendix A.

16. MOVEMENT OF AIRLINES FROM SICILY.

TABLE OF DISBURSEMENTS FOR THE YEAR 1964

Owing to transportation difficulties 6 of the 10 Canadian Wheat Ships scheduled for May arrival in ITALY will not arrive in May. Every effort is being made to make these cargoes available at the earliest possible date in May, and it has been requested that the maximum amount be called for in bulk due to the severe limitation on on bags and bagging facilities, as it will be necessary to increase the proportion of bulk shipment to this, and other, theatres.

Due to the increasing requirements for civilian feeding in all theatres, it has become apparent that unless immediate action is taken to increase additional bulk unloading facilities, producer countries will be in a position in which it will be most difficult, if not impossible, to provide enough bagged wheat or flour to meet all requirements. Immediate inquiries are now being made in ITALY, GREECE and YUGOSLAVIA on what action can be taken to increase bulk facilities. The review will consider what daily rate of discharge could be achieved in case of absolute need if it were necessary to use bags from the present imports of bagged wheat to bag imported bulk wheat either in ships held or ashore.

186. BARLEY - ITALY - (See para 156)

For the period Dec to Mar a total of 73,752 tons of barley ex ITALY had been called forward at the rate of 19,688 tons per month.

Imports up to the end of Mar totalled 55,327 tons leaving a deficit of 18,425 tons, which has been cancelled.

Collected shipments May to Oct incl will be 20,000 tons per month replacing the call forward of wheat in the accepted proportion. Two vessels originally set up for ITALY Apr arrival had been diverted to N. AFRICA - one of these vessels has, however, 10,000 U.S. tons for ITALY, and in order to avoid unnecessary delay in turnaround it has been agreed that the barley be accepted in ITALY in Apr.

187. BARLEY & WHEAT EX ITALY (See para 177)

The 1964 tons of wheat and 20,000 tons of barley have been programmed for May arrival.

Such items can be accepted for West Coast of ITALY at once, provided the dates are shipped in a few vessels as possible.

Statement is set at Appendix "C".

190. BALEON CIVIL REQUIREMENTS.

(a) An acute shortage of the in GRAIN has arisen owing to the destruction of 125 load carrying vehs during the civil war and C.I.S. have been notified that 120 vehs are available in KENNER. In the vehs are of a low standard it is proposed they be used in ARABIA and GILKILK areas for local food distribution of civil relief supplies. It is also understood that UNRRA in CAIRO have given approval for up to a further 1000 vehs which are surplus to be Army requirements to be sent to UNRRA if A.P.H.Q. can allocate shipping. It is emphasized that the vehs have only a short life but should be very useful on short notice in CAIRO. Enquiries are recommended on the conditions and prices.

(b) Other items available in KENNER are 1000 tons cotton seed meal and 1500 tons barley, both of which are urgently required for fodder. I'm regarding procurement and supply responsibility has been requested of C.I.S.

191. CIVIL RELIEF ARABIAN AND SYRIAN DIST.

201

All Balkan stockpile foodstuffs in KENNER are now earmarked for distribution to SYRIAN and ARABIA. In consequence of which Civil Relief requirements for ARABIAN and SYRIAN DIST will, commencing May, be met ex KENNER DIST and it is considered that tonnage which cannot be provided from this source should be laid off to A.P.H.Q.

As the majority of these tonnages will be laid off for shipment

FIGURES it is proposed that call forward be arranged direct with from GRAIN.

This proposal has been agreed by GRAIN who estimate the tonnage as 700 tons per month.

THE PRINCIPAL IS OBTAINING...

The monthly demand for the shipment of wine from RUSSIA to CIVILIA-TECHKA is approx 6000 tons. This ship went has in the past been arranged by nomination, specific contract against individual 10-day bills. Difficulty has been experienced by Allied Commission in obtaining wine to the port at the particular time required. To overcome this difficulty it has been agreed that the 1st RUSSIAN be permanently allocated for the loading of wine on Allied Commission account. This should enable Allied Commission to make arrangements for loading immediately in advance to ensure that cargo is always available for loading immediately a contract is positioned and it is hoped that a firm set for program can be established.

179. REPORTS TO HALFA

All shipments of chestnuts, walnuts, filberts, almonds and cottonseed to HALFA have been suspended until further notice.

The allocation of a permanent ferry ship between SICILY and HALFA is therefore temporarily in abeyance, requirements for fruit and salt being covered in the meantime by the allocation of schooners.

180. MEMO - CHIEF

The Turkish Government is willing to make available 20000 tons wheat for Civil Supply in GREECE, and has offered to ship this in Turkish vessels totalling 9000 tons capacity, subject to the provision of heavy fuel oil.

This wheat is acceptable provided it is of suitable quality. Fuel oil could be made available provided the issue to Turkish merchant vessels is approved by CCS.

TO: PRINCE J02

163. CYPRUS POST - MINUTE 1027 (See para 162).

It has been stated that 25,000 tons of wheat shall be released to assist in a large stockpile, subject to payment which it is proposed to make by diversion to UNCLASSIFIED of certain grain ships under lightening in 1945.

164. REPLY PRINCE - 1027 (See para 160).

The Cyprus Government is now unable to supply 600 tons and estimated 10,000 tons required for local consumption. This proposal different must therefore be considered cancelled.

165. REPLY PRINCE - 1027.

1027 has been notified that there are presently available for export, subject to local requirements, up to 10,000 tons of wheat, subject to payment of 2,000 tons of wheat or other.

1027 has suggested that wheat should be of British or Government origin to be distributed in accordance with plans after a further 10,000 tons and 10,000 tons in this instance have been proposed.

166. REPLY PRINCE - 1027 (See para 165).

1. For Cyprus government the export of wheat or other are as follows:-

- (a) It is not believed that requirements of distribution are favorable.
- (b) For distribution of wheat or other, but no reason can be given for a restriction.
- (c) It is understood that previous shipments were drawn from old stock, which, in all probability accounted for the satisfactory operation of the order.

2. In view of the above, it is considered that continued import of wheat or other is necessary to maintain the stockpile returning from 1027.

165. BARLEY FROM CANADA

OSR have been notified that there are presently available for export, surplus to local requirements, up to 10,000 tons currently in P&WQ stock and up to 5,000 tons surplus of CRMA.

It has been suggested that civilian agencies of British or US Governments might be interested in purchasing these items, after requirements for UK and US forces in this theatre have been met.

166. Barley - P&WQ (see para 165).

1. War Office comments on the import of barley ex UKQ are as follows:-
 - (a) It is not believed that difficulties of distribution are insuperable.
 - (b) Past irregularities of selling are admitted, but no reason can be seen for a recurrence.
 - (c) It is understood that previous shipments were drawn from old UKQ stocks, which, in all probability accounted for the unsatisfactory condition of the barley.
2. In view of the above OSR consider the continued import of barley ex UKQ most desirable, as alternatively vessels returning from MEDITERRANEAN would have to carry barley.
3. It is assumed that barley for UK is not required and it has been accepted that barley, if any arrival, will reduce the requirement ex Canada by 15,000 tons wheat.

167. CIVIL SUPPLY - MEDITERRANEAN (see para 153).

Loading ports for cereals for MEDITERRANEAN Civil Affairs programme have been notified as follows:-

DECLASSIFIED

168. GENERAL INVESTIGATION.

Statement is at at page 10.

169. PROSECUTION AND DEFENSE.

In view of all of Commission's request for a heavy coastwise movement of parties from the island and an out loading program of approx 1000 tons per ten days from the island to the mainland of the island, the matter was referred to the island regarding the use of these ports, and the following has been determined:-

(a) PROSECUTION.

(1) It is considered inadvisable that vessels should load in this port before early or as the loading pier is unprotected and open from South to North West.

(2) Vessels should not exceed 250ft in length, with a maximum draft of 15ft 6 in.

(3) As the loading pier has only 50ft length for a vessel to be alongside, and securing and hauling-off bays are nonexistent, there will have to be laid before a ship is sent in. A further limiting factor is the height from the bottom of the chute to sea level, which is only 20 ft.

(b) DEFENSE.

It is considered that there should be no difficulty in loading 1000 tons per ten days, even at this time of year.

170. PROSECUTION.

The Allied Commission report that the port of PROSECUTION is open with direct rail connections completed. BERTIN are due at 2000 (450' long) and one at 18 ft (350' long). The first vessel to arrive shall be the coaster PROSECUTION with salt.

When shipping is restricted (usually containers) the Alt. Confidentiality in 1003 is advised, and all purchasing and loading arrangements are made by that body with the Italian authorities in Sicily.

155. WHEAT SUBSISTENCE REQUIREMENTS - ITALY (See para 145).

AGMRE requested confirmation that wheat/flour allocations for May covered requirements, and a reply has been sent stating that all requirements were covered taking into account the limited port acceptance and distribution facilities.

156. SEED POTATOES - ITALY (See para 137(b)).

Infm has been received from AGMRE that the requirement of 10,000 tons of seed potatoes cannot be filled as they are not available ex U.K. Shipment cannot be made ex N. AMERICA before 7 Mar.

Haricots have been declared as a substitute.

157. ITALY SUBSISTENCE REQUIREMENTS - JUL.

Given below are subsistence requirements for ITALY for Jul, all in metric tons.

159. SHIPMENTS TO GUATEMALA

Shipments continue to be made to GUATEMALA (C-100-100-100) with the opening of GUATEMALA (GUATEMALA) and additional shipments have been set up for that port including 1 schooner, 2 M. T. ships and 1 tug boat from the coast, to arrive and set and early March. The ship is expected to be from GUATEMALA by mid-March. It is hoped during the next month to each port 1 lighted ocean-going ship.

160. SHIP POTENTIAL - BELIZE (C-100-100-100)

It is estimated that 600 tons of seed potatoes will be available and ready for shipment at the end of Feb at the earliest.

161. SHIPMENTS - GUATEMALA (C-100-100-100)

The following arrangements had been made regarding the ship of 1,000 tons dispatched for GUATEMALA:-

SHIP	TONNAGE	EX	PORT OF ORIGIN	ETA TO GUATEMALA
GUATEMALA	2,500	GUATEMALA	1600 PINAROS	Last week Feb
GUATEMALA	3,400	GUATEMALA	1000 PINAROS	Mid-March
GUATEMALA	4,000	GUATEMALA	1600 PINAROS	Mid-March

It is now understood that the ship is being dispatched from GUATEMALA and will not be available until probably mid-March owing to non-availability of cargo. The allocations of seed and other V. items are now cancelled. Further arrangements will be advised.

162. SHIPMENTS - BELIZE (C-100-100-100)

Provisional responsibility for all future requirements has been assigned to the U.S. with the exception of coffee and seed in the U.S.

163. SHIPMENTS - BELIZE (C-100-100-100)

The situation regarding stocks of wheat and flour has been

161. FERTILIZERS - BALKANS (See para 134).

The following arrangements had been made regarding the sup-
ply of 1,000 tons superphosphate for Greece :-

VESSEL	TONNAGE	EX	PORT OF DISCHARGE	ETA TO LOAD
ARVIA	2,600	CARTAGENA	1600 PIRAEUS 1000 PATRAS	Last week Feb
ARVIA VAVVATON	3,400	CARTAGENA	PIRAEUS	Mid Mar
TO BE NOMINATED	4,000	HUELVA	SALONIKA	Mar

It is now understood that superphosphates from CARTAGENA
will not be available until probably mid Mar owing to non availability
of bags. The allocations of ARVIA and ARVIA VAVVATON are now cancelled.
Further arrangements will be advised.

162. CIVIL SHIPS - BALKANS.

Procurement responsibility for all BALKAN requirements for
May arrival is U.S. with the exception of coffee and soap which are
ex U.S.

162. OFFICIALS POOL - MIDDLE EAST.

The position regarding stocks of wheat and flour has been
notified by M.E.S.C. as follows :-

Unallocated Stocks on Jan 31	-	20,000
add Feb arrivals	-	35,000
		55,000
Less Minimum Feb Releases		52,000
U.S.C.C. Stocks on Feb 28		3,000
add Mar arrivals		72,500
		75,500
Less Minimum Mar Releases		55,500
U.S.C.C. Stocks on Mar 31		10,000

From the above figures it is apparent that there is only a
stock of 3,000 tons to meet the Mar 31 requirement, and authority has
been requested to utilise the BALKAN stockpile on repayment, as it is
unlikely that cargoes will arrive early in the month, and a serious
shortage will ensue.

152. OSCARA POOL - MIDDLE EAST (Contd).

Programmed loadings for first quarter are 136,000 tons, and in addition 12,000 ex USTALALA for Jan/Feb. It is estimated that 60/70,000 tons will arrive by the end of Mar and the balance during Apr, and it has been suggested that one or more vessels be diverted for direct discharge in the BILGUS in Apr to repay this loan. This is still under consideration.
