• **Protein** is the building block of life. It is made up of amino acids. The body uses protein to build and repair tissues, produce enzymes and hormones, and fight off infections. Protein is also important for the immune system.

• **Carbohydrates** are the body's main source of energy. They are made up of sugars and starches. The body uses carbohydrates to produce glucose, which is the body's primary source of energy. Carbohydrates are also important for the brain and nervous system.

• **Fats** are the body's main source of energy. They are made up of fatty acids. The body uses fats to produce energy, build and repair tissues, and produce hormones. Fats are also important for the brain and nervous system.

• **Vitamins** are essential for the body's health. They are made up of organic compounds. The body uses vitamins to produce energy, build and repair tissues, and produce hormones. Vitamins are also important for the immune system.

• **Minerals** are essential for the body's health. They are made up of inorganic compounds. The body uses minerals to produce energy, build and repair tissues, and produce hormones. Minerals are also important for the immune system.

6/15/54

London (10/12/44) (10/12/44)

London has received two vessels of 10 feet each simultaneously and
own discharges a total of 750 tons per day.

London (10/12/44) (10/12/44) - London (10/12/44) (10/12/44)

There are three and a half at night in London, but only one can be
entire because of the shortage of electric power for the operation of
the coal transporters. I should tell you that the London
works provided it in discharging coal. London may be lightened
for London either at night or daytime. London up to 10 feet may put
in at night for discharges into London.

The bulk of the coal discharged at night is for London. London
and London have a combined capacity of 1,000 tons per day.

SUBJECT: 40 Flour discharged ex "WESTON HANCO" and "MIRIA"

TO: ALLIED COMMANDER:
TRANSPORTATION COMMUNICATIONS UNIT

RE: Warrent's
CENTRAL ITALY
Tele: BRIGLIA 6260
May 5/45/1
23 Mar 45

10

1. Reference your 22/545/10/Th 3 of 9 Mar 45 addressed to Port Commandant, ANCONA and enclosing report from AGO Officer, ANCONA Depots.

2. This HQ has been informed that canvas flour slings were used on both vessels. The local Superintendent in his report stated that no mention was made by your officers during the vessel's discharge that rope slings were being used.

3. It is requested that in future similar communications be addressed to this HQ, which controls the port of ANCONA.

WTL: WCN

TR 5/0

Subject: ASACIA Shipping Programme

ASACIA POWER TRANSMISSION

6-6 (Nov & Dec) 5/219/222

13 Jan 45

201. FRIEDMAN 222

1. The attached Appendix gives details of the shipping programme for the part of ASACIA as at present planned.

2. It is proposed to circulate a new programme at intervals of four days but it should be noted that day to day changes are inevitable owing to vessel arrivals and the necessity to maintain continuous berth occupancy at ASACIA. It is not practicable to circulate amendments to and when they occur but an up-to-date program will always be available for inspection in this Branch. Major amendments of an operational nature will, of course, be notified immediately.
