Dear Mr. Minister,

Receipt is acknowledged of your letter 304/C/201 dated 2 March 1945.

Owing to the acute lack of shipping tonnage available at the present time it is regretted that it is not normally possible to allocate a specific vessel or vessels to operate for one employer.

A special case will however be made of your request, and the matter will be put before the next meeting of the Mediterranean Shipping Board for their decision. You will be notified of this as soon as possible.

Meanwhile a copy is enclosed of A.C. Shipping Instruction No.8, giving full details of procedure for bidding for shipping space. In your case bids should be submitted to the Regional Transportation Officer, Emilia Region, for onward transmission to this Headquarters. The port of Rimini is not yet open, but it is hoped that it will be so by the end of April.

Yours very truly

Thru the CO-GE-NA of Naples, I sent to that Commission on last October 1944 a regular application to obtain the allocation of a m/schooner to ship that stuffy with enclosed permit authorizing the export from Sicily of 10 tons of pure alcohol for industrial use.

As the transportation mean has not yet been allocated, I would appreciate very much if, being eventually impossible to assign me a m/schooner, it would be returned me the permit which I sent with the application.

1. Ref your RCS 091.31/2/1/12 A dated 3 March.

2. The matter appears irregular but Naples advise that the schooner was allotted as the goods were known to be available and there was no outstanding bid for the schooner to lift at Palermo.

3. It is understood that Capt. Smith has spoken to you and suggested that since the goods are available bidders place a bid to put the matter in order.

4. The matter is being taken up with Schooner Control to ensure that this does not occur again.

1. Reference is made to this Office's Bid NA/41 sent to you on 9th Nov 44 on behalf of Pietro COZZI for 48 tons of merchandise from Palermo to Anzio.

2. In response to this bid the M/V 225 IL NUOVO IMPERO (70T) was allocated on 13th Dec 1944 arrived on 24 Dec 44 and sailed for Anzio on 8 Jan 1945 with the goods specified. As the understanding between this Office and the R.Dogana was not then so complete as now the shipper succeeded in obtaining clearance without the copies of bids properly endorsed by an Officer of A.C. - though even at that time it was well known in Palermo that this system was in force.

3. On 14 Feb 45 the same M/V was re-allocated to this shipper on the same bid number. This Office, being somewhat surprised, sent a signal to the Schooner Control (Capt.Smith) requesting an explanation on 16 February 1945 and warning Schooner Control that no clearance would be given until the matter was cleared up. No reply has yet been received.

4. The M/V is now once more in port and Cozzi requests leave to load. This Office, not being at all satisfied, has refused permission until such time as some explanation is forthcoming or until you instruct us to allow the lift. 1859

5. Strong exception is taken here to this affair; Cozzi on his own shewing loaded about 48 tons on a 48 tons bid and then requested CoGeNa Naples to send the vessel back for a further load. His request has as you will perceive, been fulfilled without a word of explanation or excuse to us.

1. Reference is made to your 582/153/Tn 3 dated 26 Feb 45 regarding the allocation of M/V MARIA DELLA MANNA to Sig. Bernardini.

2. The bid N° as quoted by you is 373/272/250/45 and as quoted by the Schooner Control 1029/250/373/272. The applicant showed us a copy of a bid numbered 373/272 by the Chamber of Commerce who approved it on 7 Nov 1944.

3. This bid, however, was never presented in this Office, hence it was neither registered nor approved nor forwarded to you. No allocations should therefore have been made against it and we shall be obliged if you will ensure that no more are made. It is assumed that Bernardini submitted the bid direct to the CoGeNa Office in Naples - a trick which has been known to be succesful on more than one occasion.

4. In this connection we would point out that there is a Bid now properly current for this shipper viz: N°315/180 NA/7 submitted to you on 20 Oct 44 against which to date two allocations have been made : Maria della Manna has been "switched" to this Bid by this Office. It is suggested that it be left to the discretion of this Office to request further schooners against this Bid direct from Schooner Control if on enquiry we find Bernardini is in actual possession of goods prepared for shipment.

ROME

I take the liberty to call your attention on what follows.
On the 6th of November 1944 I had from this Chamber of Commerce
and export-permit for 100 tons of citrus-fruits for Iortici. The
number of the permit is 023/16 dated 6/11/1944.
Up to now I Received no informations from that office. Therefore
I beg you to allocate a craft to operate a first shipment of 50 tons
as soon as possible.
The commodities will surely be spoiled within a short time;and if
that office will not allocate me a m/schooner I will support a serious
loss.
I know that many exporters have renounced to operate the m/schooner
assigned by that office,therefore I beg you to allocate me one of
these crafts,being all my commodities ready.
If I have not the possibility to load I will be ruined;involving
in my distress also my five sons.

Many thanks,

Faithfully yours

Headquarters A.A. Transportation Sub. Commission.

R O M A

Mi pregio la presente per comunicarVi quanto sopresso:

In data 6 Novembre 1944 mi fu congesso da questa Camera di Commercio un permesso d'esportazione di Tonn. 100 di agrumi per la destinazione di Anzio detto permesso é il N° 025/ 16 del 6/11/1944.

Sin'oggi non ho avuta nessuna segnalazione da Codesto Spett. Ufficio.

Pertanto Vi prego caldamente di voler assegnare qualche natante anche per una prima spedizione di Tonn. 50 al più presto possibile .

La merce é troppo matura costretto di raccoglierla entro un breve tempo, quindi se Codesto Spett. Ufficio non mi segnalerà il natante, io subirò una fortissima perdita.

Sono a conoscenza che molti esportatori hanno rifiutato il natante già assegnato da Codesto Spett. Ufficio, Vi prego caldamente se potete assegnarmi qualche Motoveliero di questi rifiutati, perché io ho la merce prontissima, e se per caso sfortunato non imbarco sono rovinato, pane credetemi che toglierò ai miei cinque figlioli.

In attesa rindraziandoVi anticipatamente Vi saluto distintamente.

FILE : RES 091.31/2/12 A. 17 February 1945.

SUBJECT : Schooner Bids - Lupo Raimondo.

TO : H.Q. Allied Commission for T/N Sub-Com.

1. Reference is made to my bids NA/26 forwarded to you on 31 Oct 1944 and NA/116 forwarded to you on 29 Dec 1944.

2. It is desired to remind you that no allocation has yet been notified of tonnages in respect of either of these bids. It is admitted that part of bid NA/116 being for agrumi is no longer admissible; nevertheless it is thought that tonnage might ~~be~~ properly be allocated to the trigonella, nocciole and noci amounting to 270 tons.

3. The applicant's feeling of annoyance at the absence of allocations is intensified by the fact that he himself is owner of a schooner in the Pool which has just been allocated to someone else in Sicily.

4. This Office hopes you will be kind enough to look into the question of these bids at an early date and let us know your intentions.

SUBJECT : Schooner bids - GASPARE COMPAGNO.

TO : H.Q. All.Comm. for T/N Sub-Comm.

1. The bid of Sig. Gaspare Compagno was handed in to this Office one day in the latter half of January 1945, it had been accepted by the Chamber of Commerce on the 29th Dec 1944. Being unable to account for the delay in passing to us the person who brought it was informed that the method of bidding had been modified and that we should be obliged to re-submit as a "1945 bid" on Form S.B.2.
He was asked to keep in touch with us to learn whether or not the Chamber of Commerce would ratify their approval since this Office was aware that the High Commissioner had given fresh instructions to the Chamber on the subject of the eligibility of persons to bid for export. He did not, however, do so.

2. The bid in question was returned to us to-day by the Chamber of Commerce after having been, with a number of others, under consideration for three weeks. It has been refused without any reason given; the matter will therefore be taken up by this Office with the Chamber, and, if necessary with the High Commissioner.

3. The Chamber of Commerce has up till now been regrettably slow in the matter of reviewing bids submitted for their approval, but have recently undertaken to expedite this process by means of more frequent sittings of their Export Board.

4781

4. This Office feels sure you will lose no opportunity of impressing on all bidders making enquiries from you the desirability of making a preliminary approach to this Office with such queries : these receive invariably prompt and sympathetic attention on our part.

ROME

On December 14th 44, owing to our application, this Chamber of Commerce released us a permit No.0778/1200, to ship to Portici for Naples, 10 tons of juice of liquorice and 10 tons root of liquorice. Then we asked to that Commission thru the Chamber of Commerce, the allocation of a m/schooner to despatch the above mentioned Commodities to the Port of Portici.

But as we have not yet received the allocation of a m/schooner we beg that Commission not to consider our application for a m/schooner, because owing to the delay we cannot anymore despatch those commodities.

We inform you that on the same time we have sent a cable and a letter to the Cogena at Naples saying that we renounced to the application for a m/schooner to load these 20 tons of liquorice.

1. Reference your Bid NA/144 dated 5 January, - 500 tons of Gypsum, Porto Empedocle to Sulmona.

2. It is noted that only 50 tons can be loaded a day. Since a coaster will probably be nominated for this traffic, this is unsatisfactory and a minimum of 300 tons a day should be able to be loaded.

3. Is the material (500 tons) now at the port of shipment and can 300 tons be loaded per day?

1. At the moment local Sicilian prodice is mainly shipped by schooners to various parts of Italy in small quantities varying between 20-200 tons.

2. Except in the case of wine and citrus fruit to Civitavecchia, no bids have been put forward for the movement of Foodstuffs in quantities of 1000 tons and over by coasters.

3. In view of the large tonnage involved in these bids, are the other bids made for actual commodities available?

4. It is essential that bids are carefully scrutinised and that bidders are not bidding for tonnage in excess of their requirements which only leads to an unfair advantage being obtained by a few.

TO : H.Q. Allied Commission
for Transportation Sub-Com. (64)

1. Reference is made to your AC/582/64/Tn 3 dated 29 Jan 1945.

2. This Office finds after enquiry that the firm Fedesport, as you suspect, does not possess the specified goods - owing to the delay in allocation they were obliged to dispose of these locally.

3. It is therefore suggested that you should cancel Bid NA/106 forthwith.

4. This firm have also outstanding bid Nº NA/100 for 200 tons trigonella from Licata to Anzio. The Schooner Control have recently allocated one vessel to lift from Licata - Civitavecchia which is expected to load about 60 tons. The firm have requested this Office to reduce the total tonnage on this bid to 100 tons therefore one more M/V of approx. 40 tons from Licata to either Civitavecchia or Anzio will suffice their requirements under Bid Nº NA/100. They have no other goods requiring lift by schooner.

5. We should be obliged if you would confirm this alteration and cancellation to us for entry in our records please. 4736

SUBJECT : Schooner bids - Agrumi Palermo - Giulianova.

TO : H.Q. T/N Sub-Com. c/o Southern Region, A.C., for Capt. Smith (Schooner Control).

1. Reference is made to Bid 843/2845 Palermo-Giulianova of which you have forwarded us a copy and to your letter of 29 Jan. 1945 in reference to same.

2. This projected lift was discussed on 3 Feb. 1945 (on receipt of your a/m letter) with the applicant, Sig. Giuseppe GUTTADAURO.

3. The applicant said that at the time he originally enquired about the proposed movement the Agrumi were green, but this was nearly two months ago (he says). Now, however, he feels that he cannot possibly guarantee that oranges and manderins of a sufficiently unripe nature can be found for the long sea voyage. Any shipped, therefore, will almost certainly arrive in Teramo quite unfit for consumption.

4. Unless, therefore, the T/N Sub-Com. can arrange for him a very short sea-trip only (the lift to be completed by road and/or rail without delay) he desires to cancel his bids and withdrew from the transaction.

5. This Office, therefore, undertook to communicate his views and wishes to you and H.Q., A.C. forthwith. It is suggested that, pending other arrangements, no schooners should be yet allocated in response to the Bid in question. 4732

6. As you will doubtless note, a copy of this letter has been forwarded direct to H.Q. A.C. for their information. It is suggested that you should take the matter up with T/N Sub-Com. with a view to making arrangements for a quick lift if possible.

It was however made out on the form S B 2 which was not due to come into use in this Region until 1 Jan 1945. It bore the Chamber of Commerce Palermo approval dated 5 Jan 1945.

3. It was therefore desirable (to avoid confusion and misunderstanding with the R.Dogana) either that the date of application should be changed or the bid re-issued by the Chamber of Commerce on Form S B 1. The bid was accordingly re-submitted to the Chamber of Commerce together with a number of new bids prepared under our supervision for submission to the Chamber.

4729

4. A number of these bids were returned after a protracted deliberation by the Chamber of Commerce on 30 Jan 1945 among which was the bid in question. The Chamber of Commerce invited our attention to the fact that the approval previously granted by them to it had now been rescinded because the bidder was not a member, and therefore - by recent instructions of the High Commissioner - was not eligible to export from Sicily.

Our Company must import from Sardinia to Italy 50 tons of manufactured cork and 50 tons of raw ovine skins; therefore it has obtained from the Southern Region Commerce-Export & Import Department, on January the 22nd 1945, the permits N° 995 and 996.

To operate the above mentioned transport from Sardinia to Fiumicino and Rome it could be used the motorschooner DINA (200 tons-serial N° GC-GE-NA 911) of the Shipowner Luigi Cocco, captain Riccardo Costiva.

Considering the fact that the import permits have been approved by CO-GE-NA, and that the above mentioned m/schooner DINA is in condition to operate the voyage between Sardinia and Fiumicino, we take the liberty to request a regular permission in order to permit to the m/s DINA to operate the transport on our behalf.

In thanking you,

Faithfully

La n/ Compagnia deve importare dalla Sardegna in Italia Tonn. 50 di sughero lavorato e 50 Tonn. di pellame ovino grezzo: ha per questo ottenuto dalla SOUTHERN REGION Commerce - Export & Import Department, in data 22/I/1945, i permessi n. 995 e 996.

Per effettuare il suddetto trasporto dalla Sardegna a Fiumicino e Roma potrebbe usufruire del motoveliero DINA (tonn. 200 n° matricola Cogena 911) dell'armatore Luigi Cocco - capitano Riccardo Costiva -

Rome 30th January 1945

TO : ALLIED COMMISSION
Transportation Sub-Commission

SUBJECT : Glass manufacture "Meccanica and C. Ricciardi of Vietri sul mare - Main Office in Naples at Piazza Bovio N° 22

1. In agreement with this Ministry that Commission has approved the urgent manufacture of window-frames in the "S.A. Vetreria Meccanica and C. Ricciardi"; of Vietri sul Mare.

2.But to reoperate this manufacture for at least six months, it is necessary to transport from Trapani to Vietri Sul Mare nearly 1800 tons of "flinty sand" for which can be used either moto/schooners or two rail-cars per day from Trapani during all the requested period.

3. In replying to the request made by thatCommission of having all the elements necessary for the above mentioned transport, we inform you of what follows;

a) The loading operations of the sand will be done on the quay of the port of Trapani on the beach of "Curto" which is 8 miles south or directly of Trapani.
At present nearly 400 tons of sand are stored on the quays of the port and they could be shipped on m/ schooners, moored at the quay, in reason of 100 -150 tons per day.
If the weather permits it, the loading operations could also be done at the beach "of Curto" in reason of 60 tons per day.
The m/schooner operations in Trapani are in charge of Captain Salvatore Gabriele, Via Pesce N° 9 Trapani. 4709

b) The sand will be unloahded in the port of Salerno, there being no landing-places at Vietri sul Mare, and the distance from Salerno to Vietri (4 Km) will be covered with trucks.

c) The loading operations can be started at once with the assignment of two or three m/schooners of 100 - 200 tons for many voyages.
It seems that these means are availiable at Trapani (for instance: m/schooner "Maria B" "Leonardo B" , "Fratelli Barbera").

FILE : RES 091.31/2/12/A. 27 January 1945.

SUBJECT : Schooner bids - error on part of CoGeNa.

TO : H.Q. Allied Commission
for Transportation Sub.Com. ✓

1. Please note that although the m/v N° 901 MARIA LUIGIA was allocated to our bid NA/73 BARTOLO DE LUCA, she was loaded in good faith by Gustavo De Luca on account of our bid NA/16, he having been instructed to load by CoGeNa,Palermo.

817/149 -

2. CoGeNa Palermo had previously notified us that this vessel was allocated to "Sig. GUSTAVO DE LUCA" having been apparently informed to this effect by CoGeNa Naples. The error came to light to day when Gustavo De Luca called for our "clearance".

3. This Office recently requested Capt. Smith to ensure that in future telephoned notice of allocation from CoGeNa Naples to CoGeNa Palermo should specify the bid numbers in all cases. Had this been arranged earlier and done in this case, it is probable that the mistake would have been brought to light before the schooner arrived in Port. This Office usually concerns itself solely with the allocation as detailed by the Schooner Control Board, as being the only authentic ones, and - although such a thing was anticipated - a similar case of confusion between bids has not, so far as we are aware,previously occurred.

4. Since it was not considered desirable to make the shipper unload and wait for a further allocation the allocation was changed to fit the circumstances of the case, i.e. from NA/73 to NA/16.

5. Bid NA/73, therefore, remains without any allocation, and it is hoped that a schooner may be allocated as soon as possible in substitution for the one withdrawn as explained.

1. Please note that although the m/v N° 901 MARIA LUIGIA was allocated to our bid NA/73 BARTOLO DE LUCA, she was loaded in good faith by Gustavo De Luca on account of our bid NA/16, he having been instructed to load by CoGeNa,Palermo.

817/149 -

2. CoGeNa Palermo had previously notified us that this vessel was allocated to "Sig. GUSTAVO DE LUCA" having been apparently informed to this effect by CoGeNa Naples. The error came to light to day when Gustavo De Luca called for our "clearance".

3. This Office recently requested Capt. Smith to ensure that in future telephoned notice of allocation from CoGeNa Naples to CoGeNa Palermo should specify the bid numbers in all cases. Had this been arranged earlier and done in this case, it is probable that the mistake would have been brought to light before the schooner arrived in Port. This Office usually concerns itself solely with the allocation as detailed by the Schooner Control Board, as being the only authentic ones, and - although such a thing was anticipated - a similar case of confusion between bids has not, so far as we are aware,previously occurred.

1. Reference is made to this Office Schooner bids Numbers NA/27 NA/28 and NA/29 and to the allocation there-to of the motor vessels 1861 SORELLE MULE' and 1177 GIOVANNI PADRE. 29/45

2. It is believed that arrangements have been made through CoGeNa Sub Agency Porto Empedocle and CoGeNa main Office Naples for the cancellation of the Sorelle Mulé at the request of the shipper.

3. The shipper further informs this Office that the one M/V 1177 Giovanni Padre will be sufficient for his requirements.

1. Reference is made to your allocation of 18 Jan 1945 923 M/V RESUSCITO to NA/17 for De Luca - salt fish - from Palermo to Portici.

2. We are now informed by CoGeNa Palermo in a letter dated 27 Jan 1945 that CoGeNa Naples have instructed them that the a/n motor/vessel is to load at Mazzara del Vallo instead of Palermo and with concentrate of grape instead of salt fish for the same shipper. This was apparently arranged at De Luca's request although this shipper has not submitted any bids for lifts of concentrate of grape nor any bids for lifts from Mazzara del Vallo.

3. We have managed to arrange with the Chamber of Commerce to approve the substitution of grape concentrate for salt fish, but would point out that they had a perfect right to disapprove had they seen fit, in which case grape concentrate could not have been loaded - allocation or no allocation.

4. We would very much prefer that variation in either route or cargo made after the allocations have been notified to this Office should be first discussed with us in case there is some such objection as in para 3 above.

1. The C.A.O. Lampedusa A.M.G. reports that the position of the Island as regards sea-transportation is not satisfactory in that the schooner (Giuseppina B) at present assigned for Lampedusa - Sicilia voyages is too slow and cannot make more than one trip per month.

2. He requests that another locally owned schooner (the Vincenzino D, about which this Office possesses no information) should be assigned to Lampedusa in addition to help with the transportation of ration supplies and a three months flour and pasta reserve.

3. This Office suggests that one well-found and powerfully engined schooner might well be allocated: if such a schooner is available which is Island-owned the advantages are, of course, obvious. The question of sea transportation between Lampedusa and Sicily is analogous to that of Pantelleria about which representations have already been made by this Office.

4. Your very early consideration of this problem is solicited. 4685

1. Subject is Bid 339/226 dated 9 October 1944 by Manifatture Cotoniere Meridionali, Naples for sea-transport of 500 tons raw-cotton Sicily-Salerno, approved by Chamber of Commerce, Palermo.

2. Reference is made to your A.C. Shipping Memorandum nº 2 and to previous correspondence on the a/m subject also to our RES 091.31/2/12/A dated 25 Jan 1945 on the subject of "schooner bids - documentation".

3. It has come to the notice of this Office that allocations have been made in response to the bid named in para 1 above although this bid was not submitted through this Office and nothing is known here of its having been approved by, or transmitted to you through, any A.C. Officer.

4. It is pointed out that, had it not been by a happened fortunate change that the local agent of the Company to be able to produce copies of this bid, this Office would have been entirely at a loss to ascertain the reason for the allocation of schooners or the shipper to whom they were assigned. Thus it would not have been possible to prepare any documents to "clear" the vessels and valuable time might have been lost while enquiries were being made from the Schooner Control Board.

4682

5. The hope is therefore again expressed that you will refrain - except in cases of urgent operational necessity - from initiating and/or accepting any schooner bids otherwise than through this Office. Further it is earnestly requested that on all occasions where you do see fit to bypass this Office you will without delay pass us the information detailed in para 5 of our letter mentioned in para 2 above. This will enable the existence of such bids to be recorded in our Bid-book so that delay and uncertainty on receipt of notice of allocation may be avoided.

Our firm has send to that Sub-Commission through the A.C. of Catania the following export permits:
Nº 92 for 30 tons of carobs, Nº 93 for 25 tons of carobs, Nº 94 for 100 tons of carobs and 500 hectolitres of wine, Nº 111 for 30 tons of carobs, Nº 112 for 30 tons of carobs; Nº 113 for 25 tons of carobs; Nº 114 for 100 tons of carobs.

We beg that Sub-Commission to urge the assignment of moto-schooners through the CO-GE-NA of Naples. In fact the above mentioned commodities, considered in those permits, are ready the first since days of November and they are stored in the ports and loading bays with enormous expenses and damages. Then carobs and wine are essential products for the populations of Naples during the winter months and therefore the assignment of m/schooners will avoid all difficulties in the food supplies operations.

We would appreciate very much a reply .

Si prega codesta SUBCOMMISSION voler sollecitare l'assegnazione dei motovelieri attraverso il COGEMA di Napoli. Infatti la merce, oggetto di tali permessi, trovasi già, fin dai primi giorni del novembre scorso, depositata nei porti e nella rada di caricazione con spese e danni non indifferenti. D'altra parte le carrube ed il vino sono da considerarsi elementi essenziali del fabbisogno alimentare delle popolazioni del Napoletano in questi mesi invernali e quindi l'assegnazione dei motovelieri verrà ad ovviare alle difficoltà del predetto approvvigionamento.

SUBJECT: Bids for Shipment of goods

TO : Chamber of Commerce (Camera di Commercio)
Ragusa (Sicily)

We have received from you a number of bids for shipment of various goods as per attached list. We shall be glad if you will confirm to us whether the shippers have the goods and if they still wish to ship. On receipt of your reply, we will arrange for the allotment of schooners for those parcels for which you give us full assurance of their existence and that shippers are ready to ship.

Please bear in mind that we cannot send schooners to ports and find there is no cargo. This has recently happened in certain other provinces of Sicily, with consequent waste of tonnage which cannot be afforded in war time.

4658

TRADUZIONE.

Abbiamo ricevuto da voi delle richieste d'imbarco di varie merci come da distinta allegata. Vi preghiamo di confermare se i caricatori hanno le merci e se ancora vogliono imbarcare. Su ricezione della vostra risposta provvederemo per l'assegnazione dei motovelieri per quelle partite per le quali ci darete piena assicurazione della loro esistenza e che i caricatori sono pronti ad imbarcare.

Vorrete tenere presente che non possiamo inviare dei moto-velieri ai porti e poi non trovare il carico. Questo é avvenuto recentemente in altre provincie della Sicilia, con conseguente spreco di tonnellaggio, ciò che non si può sopportare in tempo di guerra.

A large number of bids have been sent to you from Sicily in the last two months, particularly from Catania, which have not been passed on to Naples for execution. No doubt in the majority of cases you have had reason to refuse them, but there must be at least a few from Catania which could be dealt with.

145 bids from Catania & Siracusa have been submitted to you, but we are almost in the position of having to send vessels away from these ports in ballast, for lack of bids.
