SUBJECT : Salt Shipment to Venice.

TO : Itmare, Via dei Cestari, 3, Rome.

1. Confirming telephone conversation today (Lt. Marens-Capt. Hoyle), Venezia Region has advised us that no salt has arrived to date although 500 tons was supposed to be shipped 5-14 July. As a result, pressure is being put on Venezia Region to move the salt by road, which they agreed should be avoided as uneconomic.

2. Please see if something can be done to expedite the movement of the full quantity of salt bid for, as salt movement should have a very high priority in view of the general shortage in the North.

1. GENERAL

This instruction amends that part of letter this headquarters, file as above, dated 19 May 1945, subject: "Administrative Instruction, North Italy," which refers to the use of VENICE and TRIESTE.

2. INTRODUCTION

This instruction is written to accord with the situation which will obtain when command of that part of NORTHEAST ITALY which is now the responsibility of Eighth Army has passed to XIII Corps under the direct command of this headquarters.

3. OBJECT

The object of this instruction is to define the policy for the use of TRIESTE and VENICE, the establishment of depots and location of reserves and maintenance stocks at these ports.

5544

4. POLICY

The maximum use will be made of TRIESTE for the import of military maintenance and civil supplies but VENICE will be so organized that it can be used as an alternative port of entry for these supplies, should it be necessary to forego the use of TRIESTE. Present policy of holding maintenance stocks at VENICE of all items, excluding Ordnance stores, for forces in the VENEZIA GIULIA area will continue. Detailed application of this policy will be in accordance with the following paragraphs.

5. LOCATION OF HOLDING OF RESERVES AND MAINTENANCE STOCKSa. British Forces in AUSTRIA

Reserves and maintenance stocks of all commodities will be held in base installations in AUSTRIA. Authorized levels are being notified in a British Administrative Instruction shortly to be issued.

b. British Forces in VENEZIA GIULIA**SECRET**

SECRET

AFHQ ltr, AG 323/061 LOG-O
 dtd 12 July 1945, (Cont'd)

- (1) All commodities excluding ordnance stores. Reserves will be held until further notice at existing installations in ITALY. Maintenance stocks will be held at VENICE. Authorized levels are being notified in a British Administrative Instruction shortly to be issued.
 - (2) Ordnance stores. Reserves and maintenance stocks will be held at the Base Ordnance Depot, NAPLES, and at the Advanced Ordnance Depot in AUSTRIA, when established.
- c. Local reserves may be held by XIII Corps and located as decided by Commander XIII Corps. The size of these local reserves will also be decided by Commander XIII Corps but will not exceed seven (7) days without the prior authority of this headquarters.

6. USE OF TRIESTE

- a. TRIESTE will be used as a "seahead" for the import of the following:
 - (1) Military requirements (excluding bulk POL) for British forces in AUSTRIA.
 - (2) Military requirements for British forces in the VENEZIA GIULIA area.
 - (3) "Common user" items for US forces in the VENEZIA GIULIA area.
 - (4) Civil supplies (excluding bulk POL), on AMG account, for the British zone in AUSTRIA.
 - (5) Civil supplies, on AMG account, for VENEZIA GIULIA.
 - (6) Civil supplies, on UNRRA account, for JUGOSLAVIA.
 - (7) Bulk POL as in paragraph 9 below.
 - (8) Coal as in paragraph 10 below.
- b. No AFHQ depots will be established at TRIESTE. All imports for Eighth Army in AUSTRIA and XIII Corps in the VENEZIA GIULIA area will be cleared currently to base installations in AUSTRIA and to XIII Corps dumps respectively. Service port detachments will be provided as required; they will be responsible for civil supplies for AUSTRIA in addition to their normal responsibility for military maintenance supplies.
- c. All imports for Eighth Army in AUSTRIA and XIII Corps in VENEZIA GIULIA area will be marked to establish easy identification on discharge. Marking instructions will be issued separately.
- d. Details of estimated import tonnages are given at Appendix "A".

7. USE OF VENICE

- a. Depots will be established at VENICE to hold maintenance stocks of all commodities excluding ordnance for British forces in VENEZIA GIULIA and for local British requirements in NORTHEAST ITALY. Initially, until installations have been established in AUSTRIA, maintenance stocks for British forces in AUSTRIA will continue to be held at VENICE.

SECRET

SECRETAFHQ ltr, AG 323/061 LOG-0
atd 12 July 1945, (Cont'd)

b. VENICE will be organized, as an alternative to TRIESTE, to enable the military requirements for the VENEZIA GIULIA area and for the British zone in AUSTRIA (ie those items given in paragraph 6a above less civil supplies for JUGOSLAVIA) to be imported and cleared through the port. Import tonnages for which VENICE will be prepared to handle, if required, will be 2,500 transported military maintenance and 1,800 transported civil supplies.

c. While TRIESTE is used as the port of entry for requirements as in paragraph 6a above, imports through VENICE will be restricted to:

- (1) Military maintenance requirements for British forces in NORTH-EAST ITALY other than those in the VENEZIA GIULIA area.
- (2) Replenishment of maintenance stocks at VENICE.
- (3) Civil requirements for NORTHEAST ITALY, excluding VENEZIA GIULIA.
- (4) Bulk POL as in paragraph 9 below.
- (5) Coal as in paragraph 10 below.

d. Details of tonnages to be handled through VENICE under conditions in sub paragraphs b and c above are given in Appendix "A".

8. TURNOVER OF MAINTENANCE STOCKS AT VENICE

Maintenance stocks at VENICE will be drawn on as necessary for military maintenance requirements to ensure the turnover of stocks.

9. POL

a. Bulk facilities will be rehabilitated at TRIESTE, as second priority to VENICE, to hold bulk POL for:

- (1) Military requirements in the VENEZIA GIULIA area.
- (2) Naval requirements at TRIESTE.
- (3) Civil requirements, on AMG account, in VENEZIA GIULIA.
- (4) Civil requirements, on UNRRA account, in JUGOSLAVIA. Tonnage of bulk POL held in TRIESTE for all purposes will be limited to the minimum necessary working stocks for the requirements given above and in any event will not exceed 26,000 tons. Of this tonnage maximum holdings of 80 octane will be 9,000 tons.

b. Bulk facilities at VENICE will be used for:

- (1) Military requirements for British forces in AUSTRIA.
- (2) Civil requirements for the British zone in AUSTRIA.
- (3) Military and civil requirements for local consumption in NORTHEAST ITALY, excluding VENEZIA GIULIA.
- (4) Naval requirements at VENICE.

c. Imports of military and civil requirements for VENEZIA GIULIA area as in sub paragraph a(1)(2) and (3) above will be diverted to VENICE should it be necessary to forgo the use of TRIESTE.

SECRET

SECRET

AFHQ ltr, AG 323/061 LOG-0
atd 12 July 1945 (Cont'd)

10. COAL

a. Coal for military and civil purposes for VENEZIA GIULIA and JUGO-SLAVIA will be imported through TRIESTE. Coal for local requirements at VENICE will be imported through VENICE. Coal for the remainder of NORTHEAST ITALY will normally be imported through TRIESTE and backloaded to destination.

b. Coal for NORTHEAST ITALY will be diverted through VENICE should it be necessary to forego the use of TRIESTE.

c. VENICE will be used for the import of low grade industrial coal from the ALBONA coalfields in ISTRIA, when arrangements for this traffic to move have been made.

11. US REQUIREMENTS

Except for "common user" items United States forces in NORTHEAST ITALY will be maintained by rail and road through VERONA. "Common user" items for those forces will be a British responsibility and will be imported through TRIESTE and VENICE in accordance with the policy outlined for those items in paragraphs 6 and 7 above. Maintenance stock levels of "common user" items in British depots will include the requirements of United States forces.

12. ALLOCATION OF ADMINISTRATIVE UNITS BETWEEN VENICE AND TRIESTE

Other than essential supervisory and control personnel, administrative personnel and units will not be duplicated at VENICE to meet the contingency of a possible transfer of import tonnage from TRIESTE. If a transfer is necessary administrative units will be drawn from TRIESTE and allocated to VENICE. For the import of bulk POL duplication of administrative personnel will be unavoidable.

13. CONTROL OF TRIESTE AND VENICE

With the moving forward of Eighth Army rear boundary to the ITALO-AUSTRIAN frontier the present administrative responsibilities of Eighth Army in NORTHEAST ITALY, including control of the port of VENICE, will be transferred to XIII Corps reporting direct to this headquarters. Such minor adjustments to XIII Corps boundaries as may then be necessary will be dealt with separately. Installations at VENICE will be regarded as AFHQ installations but local control will be exercised by XIII Corps acting as the agents of this headquarters. No change in authorized reserve levels will be made without prior reference to this headquarter

14. EFFECTIVE DATE

The date on which this policy regarding the use of TRIESTE and VENICE will be effective will depend on the date by which installations have been set up, and the necessary maintenance stocks established, in AUSTRIA. This date will be
