6. The Leonidas Polk is discharging completely at Oran, and the civilian supplies carried in her will be transhipped to Palermo as soon as possible, with the exception of the 45 tons of bean seed which will be transhipped to Naples. This latter is being made a matter of urgency in order that the seed may be planted in time for this year's harvest.

7. Of the two flour/wheat ships from Australia in this period, the J.C. Osgood is scheduled for complete discharge at Bari, and the David Lublin will lighten at Palermo before proceeding to Crotone to complete discharge. Replacement of the cargo of S.S. Goulandris, which discharged in Mideast during April, has now been asked for in June instead of in May.

8. Sugar due for April and May has been loaded on two vessels carrying 2100 and 3600 tons respectively and bound for Naples in maintenance period 11 - 20 May.

9. Changes for the maintenance period 21 - 30 April for which provision was notified in MGS letter of 16 April are:-

- (a) Empire Chubb carrying approximately 300 tons sugar did not sail in GUS 37, and will now sail in GUS 38 for Cagliari.
- (b) The Button Gwinett HR 117 (BA 313) sailed direct to Cagliari and therefore transshipment was not necessary.

Ref. MGS/C-16

4 May 1944

SUBJECT: Procedure to be Followed in Obtaining Shipping
for Exports

TO : HQ A.C.C. for Economics Section

1. Since this HQ letter MGS/E-104 of 5 April was sent to you, some of the difficulties connected with export shipping have been re-examined and after consultation with MWT and WSA representatives here, the procedure has been modified.

2. MWT and WSA representatives at the ports concerned can frequently offer space to A.C.C. without reference to Algiers. It would be a waste of time and valuable shipping space to reject these offers on the grounds that notification of the actual vessel concerned had not been received from M.G.S.

3. WSA (AFHQ) have a reefer twice a month returning to U.S.A. from Naples via Palermo. These reefers will usually be able to accommodate A.C.C. cargoes.

4. In view of the foregoing it is therefore proposed to amend the procedure as follows:

(a) Policy matters relating to quantities and destinations of commodities for export will be cleared between M.G.S. and A.C.C. in the first place as hitherto.

(b) When goods have been released by M.G.S. as a result of procedure in (a) above, A.C.C. will contact MWT and WSA representatives on the spot who will either offer such space as may be available or will secure vessels through their own channels.

(c) As soon as possible after loading A.C.C. will be responsible for notifying M.G.S. of each shipment giving name of ship and tonnages loaded by commodities. Apart from the need for the maintenance of proper records by M.G.S., this information is required early by appropriate supply authorities in U.K. and U.S.A.

5. Agreed MWT, WSA and M & Tn.

SUBJECT: Hemp - Shipments to U.K.

TO : Regional Commissioner, Region III
(Attention: Economics & Supply Division)

1. The next opportunity to ship Hemp to U.K. will be on 12 May from Naples. This will be another service ship. The name of the ship will be communicated by separate letter.
2. We have been instructed to load 300 tons on this ship.
3. Due to lack of warehouse facilities the movement of hemp from Frattunagglione to Naples was suspended when the 400 tons were entered into Via Bologna warehouse. In order to take advantage of the opportunity to ship on 12 May it is necessary to transport approximately 30 tons per day from Frattunagglione.
4. Hemp Control Office report that at least 800 tons are available for collection.
5. Kindly inform without delay the arrangement made to receive the hemp.

ACC/50-4/FOOD

SUBJECT: Wheat and Flour - May arrivals.

TO : Transportation Sub-Commission

1. Reference your ACC Tn/96/101 dated 30 April 44.
2. AFHQ allocation has been amended to approximate amounts shown in our ACC/50-4/FOOD of 18 April 1944, subject to port acceptances of destinations desired by us, plus the addition of one wheat ship to Sicily of about 8,000 tons.
3. No information has been received yet of the "ANATINA" but it is possible that this ship will not now be carrying flour, as another flour ship has now been signalled to lighten in Palermo by discharging 1,500 tons flour and complete discharge of 7,620 tons flour at Crotona. E.T.A. at Crotona is about 7/8 May.

SUBJECT: Wheat & Flour for May arrivals

TO : Transportation Sub-Commission, ACC
c/o Mov & Tr., HQ AAI (Adm Ech) (Rear) C.M.F.

1. Your ACC Tn/96/92 dated 16 April 1944 refers.
2. It is regretted that latest cable advices are still lacking in definite information as to dates and ports of arrival of May imports of Wheat & Flour.
3. It is probable however that of the ships scheduled to arrive (some of which may not arrive until June)
 - a. about 32000 tons grain will come into Castellammare for distribution to mills and warehouses in Region III (chiefly Torre Annunziata and Naples area).
 - b. about 9000 tons will come into Naples for Naples Province.
 - c. About 19000 tons will come into Bari for distribution in Apulia (mainly Bari Province).
 - d. about 9000 tons will come into Brindisi for distribution in Brindisi, Lecce, Taranto, provinces.
 - e. about 9000 tons will come into Reggio/Crotone for distribution throughout Region VII.
4. Above is only submitted as an estimate but should be substantially correct. Further concrete information will be sent as received.

Subject: Wheat & Flour for May arrivals

1. Appendix 'A' attached shows the present anticipated arrivals of ships carrying Flour and Wheat in May.

2. The final ports of discharge of these ships will be arranged in conjunction with FLAMBO, when the dates of their arrival in EGYPT are firm.

3. It will be noted that all the Flour definitely programmed for May is to be loaded into one ship, the S.S. 'MUTINA'. In view of the necessity for a wide distribution of this flour and the desirability of discharging the ship at one port to speed up turnaround, it is suggested that the ship might discharge at PALERMO, from which port the flour could be distributed by coaster, etc., to final destination.
