Ministero dell' Agricoltura e Foreste

Prot.n. A/VIII/1298

29 May 1945

Subject : SS "Funny Brunner" from Gallipoli to Civitavecchia

1) We answer to letter n0 51-7/155/Food of 21 inst. - (2) *see 20*

2. The S/S Fanny Brunner which arrived at Gallipoli 15 inst. at 12 o'clock started the loading operations on the 16th and ended them on the 23 inst. the quantity shipped is of about 2.219 tons with an average daily loading of 315.7 tons (holidays not included).

3) Greater speed in the loading has not been possible because the Allied Office of Lecce has not assigned on time the cars for the transferring of the wine from the place of production to the loading port, and this has happened because the said office did not retain immediate the arrival of the steamer in matter. Further more at Gallipoli at the same time as the "Fanny Brunner" were two other ships to be loaded one the Miseno destined to Torre Annunziata and the "Angeletta" destined to Cagliari.

4) Considering what has just been stated, the daily average of loading can be considered normal.

5) We have given instructions to the exporters of Puglia so that a certain quantity of wine may always be on hand near the port of loading in order that the future steamer be loaded with the greatest speed possible.
