1. Reference Com Airgram No. 60 - October Shipping Programme.

2. This Sub-Commission's chief difficulty is obtaining details of proposed shipping programmes, which are essential for proper planning and diversions, in sufficient time. Requests for various shipping forecasts are made by shipping and other authorities and information cannot always be supplied.

3. Com Airgram No. 52 was circulated to this Sub-Commission, but No. 60 has not been received. This airgram was referred to in Com 238 and it is requested that a copy of Com 60 be supplied as speedily as possible. If this is a lengthy document may shipping details be supplied in advance of the complete airgram being distributed. Already ships are being advised and a complete programme for the month is not in our possession. The necessity for this need hardly be stressed.
