Ref. C-9

9 January 1945

SUBJECT: Shipment of Bulk and Bagged Wheat

TO : Headquarters, Allied Commission, APO 394

1. In the light of recent experience, this Section approached G-4, pointing out that the ports of Castellammare and Bari cannot accept more than 21,000 and 7,000 tons bulk wheat respectively per month.

2. Accordingly, G-4 were asked to ensure that the necessary modifications were made in our call-forward figures for February and March, involving additions of 9,000 and 3,000 tons respectively to the bagged wheat figures, so that the totals might remain unaltered.

3. G-4 discussed the subject with a liaison officer from PEMBARK at present in this country and state that it is difficult to obtain bags in the U.S. and that this shortage of bags has already delayed the shipment of wheat to this theatre. For this reason, far from increasing the proportion of bagged wheat, the U.S. authorities wish us to accept as much bulk wheat as possible.

4. The Chief of Transportation, accompanied by Major Ackermann of G-4, inspected the ports of Castellammare and Torre Annunziata on January 4th. Capt. Palmer was also present.

5. Their report states:

(a) That ships with less than 25 feet draft can be berthed and discharged at Castellammare at a maximum rate of 1500 tons bulk wheat per day, operating 24 hours per day.

(b) That ships drawing not more than 17'6" can berth and discharge at Torre Annunziata at a maximum rate of 600 tons bulk wheat per day, operating 24 hours per day.

(c) That ships exceeding 17'6" must first be lightened at Castellammare, afterwards completing at Torre Annunziata, in order to attain the maximum combined discharge rate.

988

(d) That the maximum potential combined capacity is 63,000 tons per month.

HEADQUARTERS

0014

Declassified E.O. 12356 Section 3.3/NND No. 785021

(e) That allowing for each sucker to be out of action for about 4 hours daily, also for men standing by owing to bad weather and for movement into and out of berth, there is no reason why 30,000 and 35,000 tons of bulk wheat cannot be discharged at the two ports.

(f) That to avoid wheat discharge being interrupted by unloading of salt and barley, salt should be bagged at loading port and maximum use should be made at both ports of existing equipment for accelerating bag handling operations.

(g) That a survey of available spares should be made and new parts should be requisitioned, so that a bag conveyer can be provided to transport bagged cargoes to chute or silo ports.

6. Brigadier A.T. de Rhe Philippe of M&Tn (Br) is now investigating conditions at Bari.

7. In order to achieve a quick "turn round", U.S. port of embarkation has been asked to include not more than one bulk wheat ship in any one five day convoy.

8. It will be seen that Movements allege that the potential bulk handling facilities of Castellammare and Torre Annunziata should be sufficient to handle more than the total quantity requisitioned for the whole Mainland.

9. It is urgently requested that steps should be taken to carry out the recommendations made and that a full report should be submitted to this Headquarters without delay.

For the Acting Assistant Chief of Staff, G-5:

C. ELLIS, Major,
Economics & Supply Div.

1. Reference is made to your letter AC/26/123/Tn/S, subject as above.

2. Based on requisitions placed with the Requisition Division, or demands made to AFHQ, for supplies to be imported during that period no tonnages can be bid for acceptance into those ports at that time.

3. Tonnage imports are planned for the month of April and as procurement of all items has not been firmly established as yet, it is possible that deliveries requested for April will be coming forward in May. Should firm information in this connection be received, we will keep you advised.

98. COFFEE FOR S. FRANCE. (See para. 81)

S.S. "LYCAON" is now loading 4,000 tons coffee and 1,100 tons palm kernels ex PORT BOUET and completing with 1,150 tons ground nuts ex DAKAR.

Owing to its length (455 ft) this vessel cannot berth in SETE and an alternative port of discharge has been requested.

The balance of 2,120 tons coffee, 1,100 tons palm kernels and 1,150 tons ground nuts will be loaded on "LaGARTO".

99. WHEAT - BALKANS

Requisition was submitted for 117,185 tons bagged wheat ex N. AMERICA for civil account in the BALKANS in Jan and made up as under :-

PREVEZA	9,549	SUSAK/FIUME/TRIESTE	33,454
SALONIKA	16,435	SPLIT	7,379
CHIOS	3,074	DUBROVNIK	15,251
HERAKLION	5,724	YUGOSLAVIA via SALONIKA	5,510
PIRAEUS	18,431	DURAZZO	4,378

So far, however, only three wheat ships have been notified for the BALKANS for JAN arrival and these are in UGS 65. Reception or diversion is now being considered.

100. SEED POTATOES - BALKANS (See paras 84 & 93)

Allocation of seed potatoes has been made by the War Office as follows :-

PIRAEUS	2552 tons
SALONIKA	2220 "
HERKLE	350 "
DUBROVNIK	1700 "
MIDEAST	80 "
	6902 "

973

The consignment of 3,387 tons for SPLIT has been cancelled.

Owing to the present situation in the BALKANS, cargoes may not be acceptable at the above ports, in which event vessels will be diverted to ITALY.

SUBJECT: Januery Movements of Food and Agricultural Supplies

TO : Merritt H. Taylor
Director, Transportation Sub-Commission

1. Based on first quarter estimates there will be no significant changes in requirements or availabilities of the following food items for January as compared to the data given on the charts for December:

Olive oil, Lard, Butter
Citrus Fruit
Salt
Wheat and Barley
Wine
Animal, Fish and Dairy Proteins

2. There will be a fairly uniform reduction of 20 percent in the availability of Perishable Vegetables as compared to the figures on the charts you already have. Since there is no possibility of imports in this group, a similar reduction of 20 percent will have to be made in the requirements, therefore, a uniform 20 percent reduction in the movements shown on your present charts will yield approximately the correct figures for January.

3. A 10 percent reduction in the movements of non-Perishable Vegetables and Nuts will give you the desired figures for January.

4. There are no significant changes in Charcoal and Fuelwood.

5. There will be no Coffee for distribution. The original map on this item was drawn up at a time when there was some discussion of possible imports.

6. There will be no January figures available on agricultural supplies. Items in this category are all dependent on so many factors of import and domestic industry that the program cannot be "firm" until approximately the middle of January at which time we should have very satisfactory figures covering the month of February.

92. FERTILISERS - BALKANS (see para 74)

Owing to the shipping position and present BALKAN situation, it is considered possible that a reduction in imports will be necessary. This will entail a cut in the import of fertilisers to YUGOSLAVIA.

Spring requirements for BALKANS will therefore be as follows. Supply responsibility has not yet been allocated.

Declassified E.O. 12356 Section 3.3/NND No. 785021

90. IRON ORE.

A report had been received that iron ore was stockpiled in ELBA - and this had been allocated to U.K. Washington has, however, been informed that the port is unsuitable for loading ocean-going ships of the type required for the export to U.K.

91. CIVIL SUPS - BALKANS - MARCH. (See para 71)

(b) In view of the present situation in the BALKANS the War Office has been asked what is the latest date by which cancelling orders can be received for seed potatoes.

94. SEEDS - BALKANS.

Immediate procurement action has been requested for the 6330 tons seeds for spring sowing .

95. FEB SUBSISTENCE REQUIREMENTS FOR S.FRANCE (See para 68)

CCAC have approved the call forward from the UNITED STATES of the following :-

ITEM	TONS
Wheat	20,000
Sugar	5,750
Fats	750
Milk evaporated	900
" powdered	1,500

96. BARLEY. - ITALY. (See para 76)

It has been requested that no adulterants be considered for Feb arrival onwards for the following reasons :-

(a) IRAQ Barley is very dirty, and 15% impurity is claimed by the consignees.

(b) Milling has to be 75% extraction.

(c) (a) and (b) make it clear that approx 7 barley ships are needed to replace 5 wheat ships. Should the import of barley continue, this would be on a basis of 20,000 tons barley to 14,000 tons wheat.

(d) Reasonable dilution cannot be achieved owing to internal TN difficulties which prohibit spread from discharge areas.

Your SPTAA X-52711 of 19 December shows 4 ships containing bulk wheat expected to sail for ITALY in UCS 65. In view of limited facilities for discharge bulk wheat request future requirements be allocated as evenly as possible over each of 3 convoys per month in order that ships may be turned round within their convoy cycle. Monthly call fwd of 30000 bulk to MITE and 10000 to HUNG cannot be satisfactorily accepted all in 1 convoy. Agreed MTTN WSA.

TO : Regional Commissioner Sardegna Region
(Attn: Regional Supply Officer Lt.Cl. Chayton)

1. Ref letter IC/1801 - 19 Dec. 1944.

2. A meeting was held 22 Dec 1944 with representatives of Rome, Azienda Servizi Annonari " Lazio Umbria Region (Economics & Supply and Agriculture Division) Transportation Sub-Commission and Food Sub-Commission.

3. Rome "ASA" Representative stated that 3 to 4 days was the maximum time that could be allotted from the time of Slaughtering the lambs, until the Carcasses would have to be available to the consumer for eating.

4. Transportation Sub-Commission Representatives advised that there was very little likelihood that the Lamb Carcasses could be loaded and shipped by water from Sardegna to Civitavecchia or Anzio and unloaded within 3 to 4 days from time of starting to load at Sardegna.

5. ASA then decided that they would not attempt, at this time the importation of Lamb Carcasses from Sardegna.

6. In view of the above, as long as the present shipping situation exists, the proposed program is dropped.

18 Dec 44.

Dear Colonel,

13. BARLEY.

(a) AGWAR has been told in LAC 897 that investigations as to suitability of barley as an adulterant in ITALY indicate none should be shipped to ITALY when January arrivals have been met. Reasons are:

(i) 15% claimed as impurity by consignees. IRAQ barley is very dirty.

(ii) Milling has to be 75% extraction.

(iii) From (a) and (b) it is clear that approx 7 barley ships are needed to replace 5 wheat ships. This uneconomical use of shipping during a period of critical shortage is serious.

(iv) Inability to achieve reasonable dilution as internal transportation difficulties prohibit spread from discharge area.

(b) AGWAR has been asked not to consider adulterants from Feb arrivals onwards. If barley must continue to be imported it should be noted that basis will now be taken as 20,000 barley equals 14,000 wheat.

(c) I am enclosing spare copy of 5/41/1-GDM of 18 Nov from which you will see that barley shipments against programme have, in any case, been most disappointing.

14. CEREAL SHIPMENTS DEC AND JAN ARRIVAL

(a) I am enclosing two appendices which represent my best guess at what has been set up against Dec and Jan programmes. There are two ways of looking at the cereal programme. One is ships set up against the programme, regardless of whether they slip back till later months. The other is to consider the actual arrivals within the period. The statements are compiled the first way. We will need these when your signal arrives.

945

(b) I arranged with G-5 for a TWX to go to WASHINGTON asking what was on UGS 63, 64 and 65, but up to writing there is no answer as there seems to be no TWX conference on Sundays. The infm I have shown on the Jan sheet is helped by notes brought over by a WASHINGTON rep.

(c) After you had phoned to say your signal was on the way, I

(c) After you had phoned to say your signal was on the way, I thought that the form for Jan might be:-

	43,343	bagged said to be set up.
	25,000	bulk " " " " "
	10,000	barley which G-5 will bid ex PALESTINE.
	78,343	This is the least we know.
Add	10,000	Barley from BASRA if MWT arrangements work for Jan
	88,343	best we can hope for
less	8,000	if PH264 or PH299 should be E. COWDRAY.
=	80,343	

as Jan tonnage

S/26

If you care to regard Dec backlog now arriving in Jan, the figure would be approx 43000. We will see how this affects it, when

we get your signal. We should then also have our TWX reply.

15. TIMETABLE OF EVENTS AND ACTION TO BE TAKEN.

If I get time, I am hoping I may be able to work out a suggested timetable of events, dates of submission, action to be taken, where due, etc. - on the lines of the one we did for UNRRA.

16. ELBA.

ELBA is not a SHAEF responsibility and that part of the G-5 letter is cancelled.

17. FORT MINGAN

WASHINGTON Liaison Offr states :

(a) FORT MINGAN in UGS 63 is a collier.

(b) 1 Wheat ship has been set up ex AUSTRALIA for Dec arrival. I am clarifying both points with M.W.T.R.

To : [redacted]

1. Ref this H.Q. letter S/43/2-(XX) of 26 Nov, to which no reply has yet been received.

2. The only shipment applied for programme of 10,000 tons so far advised is that of the MARSDALE now nearly due with only 7,500 tons.

3. From S/43/2-(XX) of 26 Nov it will be remembered that a deficiency of 25th, tons existed from the Oct and Nov programmes this with the 21,692 tons remaining to be shipped for Dec arrival represents a total deficiency of 26,692 tons as at end Dec.

4. As the present normal allocation is [redacted] is critical, it may continue that there will be no ships bringing the remainder of the heavy or programmed ships in Jan.

5. [redacted] in order to [redacted] Nov requested that 10,000 tons [redacted] early and 20,000 tons [redacted] should make up the Jan programme for [redacted], with which [redacted] concurred (S/43 of 19 Nov). No bdl has been made by duty to the [redacted] heavy to arrive in the first two periods in Jan. It is assumed, therefore, that 10,000 tons will be lost or taken [illegible] from [redacted] for arrival during the last period in Jan.

6. Can any information be obtained as the expected 10,000 tons from [redacted].

MIDELST	80	) Consigned ML HQ
SPLIT	3,387	) YUGOSLAVIA
DUBROVNIK	1,693	
	10,160	

Should the 2 latter ports not be open, tonnage will be diverted to Greek ports.

Advice has been requested as to the availability of the balance of 12,920 metric tons required.

88. RELIEF SUPS FOR YUGOSLAVIA:

Advice has been received that 5,000 tons of relief goods have been collected in CANADA and NEW YORK for distribution in YUGOSLAVIA and no difficulty is envisaged regarding the acceptance and distribution of these goods, whether loaded in a YUGOSLAV vessel or not.

It is presumed that these supplies will be in diminution of supplies of a similar nature not yet shipped and where duplication arises through shipments already made, the excess will be held in MIDEAST at the discretion of S.ACMED.

These tonnages were reduced to 5080 due to 3000 tons for YUGOSLAVIA being in abeyance - (this represents 5000 tons Jan allotment and 3000 tons out of 9000 tons scheduled for Feb).

The original DODECANESE tonnage for Dec and Jan has been reduced to 80 tons for all Spring needs, and MIDEAST will submit a requisition for 80 tons for Jan arrival at these ports.

4000 tons original Dec allotment for GREECE is being called forward for early arrival Jan or Feb.

78. SUPER-PHOSPHATES - GREECE (See para 65)

Approval has been requested for the supply of 10000 tons rock phosphates, and as soon as this is received shipping will be set up.

The estimated tonnage acceptances of UNRRA into Italian Mainland Ports during April 1945 are as follows:

Commodity	West Coast Naples Area	West Coast Leghorn & North	Genoa	East Coast Heel ports	East Coast Ancona & North	Venice	Grand Total
Food	8,800	4,400	---	4,400	4,400	---	22,000
Clothing, textiles & shoes	500			500			1,000
Medical & Sanitation Supplies	300	100	---	300	300	---	1,000
Misc. Supplies, Equipment, Transport, etc.	500		---	500		---	1,000
	10,100	4,500	---	5,700	4,700	---	25,000

These estimated tonnages are based on LAC 824 to CCS from AFHQ, dated 17 November 1944 and General Spofford's memorandum "Supply Requirements for UNRRA Italian Relief Operations" to AC, Ref. U-1.

It is expected that by April the conditions laid down in AFHQ MAT 436 will have been met and the UNRRA operation will be on schedule. No tonnages have been requested for Genoa and Venice, on the assumption that these may still be forward areas in which UNRRA will not be operating.

931

S/26

0098

Declassified E.O. 12356 Section 3.3/NND No. 785021

However, if, as we hope, this will not be the case, some of the Leghorn and Ancona tonnages may be diverted to these ports.

UNRRA is taking over the southern Italian camps of AC as of 1 January, with full supply responsibility as of 1 April. These camps are best served by the East Coast heel ports. The bulk of UNRRA's operation during April 1945 will probably still be in the Rome-Naples Area, which requires that about 40% of our total tonnage be accepted in the Naples Area. A good part of the tonnage may be sent to Civitavecchia as conditions require.

SUBJECT: Supply of Lambs for Rome

TO : Regional Commissioner Sardegna Region
(Attn: Regional Supply Officer, Lt. Col. Chayton)

1. Further reference to ID/1801 dated 29 November 1944 and 70-14/25/FOOD, dated 4 December. The organization exists here in Rome for the handling and distribution of the [redacted] Lambs upon their arrival from Sardegna at the Port of Civitavecchia. Furthermore it is hoped that arrangements may be made for about four schooners to run between Olbia and Civitavecchia commencing about 1 January 1945 and continuing for about one month or longer if practical. Schooners with a capacity for handling about 5,000 lambs per voyage are being sought.

2. To enable further planning, answers to the following questions will be appreciated:

(1) The name and location of the Organization in Sardegna that will be responsible for making all arrangements for delivering the carcasses packed ready for shipment and loading on the schooners.

(2) The price to the Rome organization of the carcasses loaded on the schooners. F.O.B

(3) Price of similar carcasses for Sardegnian consumption and explanation of any difference between this price and price item #2.

(4) Quantity of lambs that can be delivered packed ready for shipment and loaded in a 24 hour period.

(5) What size ship will Port at Olbia accomodate.

(6) Should the Rome Importing organization contact directly the organization at (1) above or should negotiations be carried on through an intermediary. If so whom?

3. It will be appreciated if a reply can be sent with Lt. Germann of the Agriculture Sub-Commission.

(a) If 45,000 tons wheat made available by SHAEF from Riatus area, above allocation will be cancelled.

(b) Balance of 2,750 is available out of 3,000 tons from N.AMERICA.

69. MANUFACTURE OF SOAP IN S. FRANCE .(See para 63)

Information has been received that the source of supply of approximately 2,300 tons ground nuts and 2,200 tons palm kernels will be FRENCH WEST AFRICA. The requisition will be made on U.K. 922

70. COFFEE FOR S. FRANCE (See para 68)

The delivery of 6,120 tons of green coffee ex FRENCH WEST AFRICA to S. FRANCE is required for January, and TROOPERS has been signalled to this effect.

71. CIVIL SUPS. - BALKANS (MC OUT 8231 of 28 Nov.)

(a) BALKAN requirements for arrival in YUGO-SLAV, ALBANIAN and GREEK ports for March and April have been notified as follows (net metric tons) :-

These are subject to discussions still continuing.

COMMODITY	MARCH	APRIL
WHEAT	120,500	119,100

72. BALKAN CIVIL SUBSISTENCE REQUIREMENTS

Supply responsibility for wheat for February arrival is N. AMERICA. For barley this is IRAQ.

73. SWEDISH/SWISS SHIPMENTS FOR GREECE (See para.52).

In addition to the items listed in para 52 the following have been called forward :-

COMMODITY	TONNAGE
SOAP	86
PULSES	3,500
PROCESSED MILK	1,347
SPAGHETTI	1,112
SUGAR	1,000
OTHER COMMODITIES	1.116
Total	8,161 tons.

74. FERTILISERS - GREECE

An allocation of 16,000 tons of fertiliser had been made for the GREEK Agriculture programme, but it is estimated that requirements will be far in excess of this tonnage. Firm call-forwards will be notified later.

75. SUPERPHOSPHATES - GREECE (See para 65)

Rock phosphate requirement is in addition to the 16,000 tons of fertiliser, as the local product would not be available for Spring agricultural programme.

At present the whole production would be required for GREECE, but export to other BALKAN countries may be possible at a later date.

76. CEREALS - ITALY JANUARY (See para 66)

It has been agreed that 20,000 tons barley ex IRAQ be accepted for ITALY on a basis of 16,000 tons wheat equivalent, but that all other offers of barley and millet are rejected.

10,000 tons barley will be ex PALESTINE and the balance ex BASRA for January shipment.

5 December, 1944

REF : 21-2/56/Food

SUBJECT : Cereal Programme

TO : A.F.H.Q.
G-5 (Att. Economics & Supplies)

1. The situation with regard to the wheat supply of southern Italy is causing considerable anxiety now. The supply situation is now acute because of recent messages indicating that grain ships which were scheduled to arrive in the convoy period 7 - 16 December have now been put back to next convoy period, and that ships scheduled to arrive in convoy period 17 - 26 December will not now arrive until some unspecified time in January.

2. Large deficiency areas such as the Heel provinces, Calabria, Naples, have to be fed by sea, owing to the inability to get sufficient quantities of grain moved by rail, particularly as the only large surplus areas now existing, with the exception of Foggia, are well to the north of Rome.

3. A table is attached showing the situation that will arise in these deficiency areas owing to non-arrival of December wheat ships. The only way in which the impending crisis can be avoided is by:

(a) using in Naples area flour meant for Northern Stockpile. This will be done.

(b) moving urgently by rail 2000 tons grain from Foggia to BARI. It is requested that special trains be laid on for this.

(c) ensuring that wheat ships arrive by JANUARY 3 as under:

2 ships in Naples/Castellamare area
1 ship in Heel area
1 ship in Reggio/Crotone area.

4. Original planned arrivals for November and December were 100,000 tons each month. Arrivals in November were 60,000 tons and present indications are that December arrivals will be 75000 tons (wheat equivalent), a total deficiency of 35000 tons.

26 November 1944

SUBJECT: Cereal Ships - Notification of Arrival.

TO : M & Tn. (3)

1. Considerable criticism has been levelled from time to time at the authorities responsible for the efficient handling of Civilian cereal ships. Hasty diversions and last minute requests would seem to indicate lack of planning on, at least, a monthly basis.

2. In point of fact, such planning has been rendered impossible by the conflicting and inaccurate shipping information from the various shipping authorities in source countries. Every endeavour is made by AFHQ to supply the latest possible information on ship movements to the Allied Commission but even this information is hopelessly misleading until the actual vessels are in the Mediterranean when it is too late to make intelligent use both of ocean arrivals and indigenous cereals.

3. In order to support the above statement the following facts are adduced concerning December arrivals for Italy.

December Cereal Programme Italy.

A. The finalised programme for December was known on 8 November with the arrival of CAL 930. Arrivals to be expected were then as follows:-

Item	Tons	Source	Remarks
Flour	25,000	N. America)	4 unballasted ships
Wheat	7,000	N. America)	originally in UGS 59
Wheat	14,000	N. America	-
Wheat	25,000	N. America	Bulk wheat
Wheat	25,000	U.S.	Changed from flour by CAL 930.
Barley	20,000	Iraq	-
TOTAL	116,000		

B. Information as to arrivals in the first period December are naturally, at this stage, firm, and are known to be as follows:-

1. Oct & Nov backlogs:-

Ship	Source	Backlog	Wheat	Flour
Skagerak	Australia	Oct	7,598	-
Fort Beausejour	M.E.	Nov	7,462	-
Augustin Stahl	M.E.	Nov	-	3,570
Boskoop	Australia	Nov	-	7,630

2. One UGS 60 vessel Pedro Menendez with approximately 8,000 tons flour.

This information was, however, not firm until 18 November which is only 9 days before the beginning of the relevant maintenance period.

C. Earlier notification had included an MWT signal Montreal Mast 21742 of 27 October, showing following nine wheat loaders for France, Italy or Balkans to be diverted by SACMED as required:-

Catrino, Delhi, Samloyal, Samcalia, Samtweed, Samchess, Samgallian, Norman King, Princesse.

These nine wheat ships were "out of the blue" and further information was eagerly awaited.

D. The period 7 - 16 December corresponding with UGS 61 is still not finalised. Some idea of the confusion is summarised as follows:-

SPTAA signals from NYPE.

1. X50331 of 5 November announced 2 ships with flour.

2. X50960 of 18 November announced -

BA 623	Wheat	8,300
BA 624	Wheat	8,300
PH 359	Flour	8,000
PH 360	Flour	8,000

3. X48320 of 20 November added -

BA 628 C	SAM LOYAL
BA 629 C	SAMCALLA

On examination it appeared that these two vessels were listed by number in the second signal as colliers. These vessels are now known definitely to be carrying coal whereas they were nominated as wheat loaders in LWT signal of para C above.

4. Finally HRPE signal SPTAK 5808 WAT of 21 November giving consist of UGS 61 shows only one cereal ship as having sailed, the other three having slipped to UGS 62.

E. At the moment UGS 62 is thought to consist of three wheat ships together with one wheat ship shared between France and Italy and seven ships each flatted with approx. 1,200 tons bagged wheat. ~~each.~~

F. Summary

At this date (26 November) the December arrivals are far from clear. There is still no information as to:-

1. Which vessels, if any, are carrying the expected 25,000 tons BULK wheat.

2. (a) What proportion, if any, of the 9 ships in para C are actually carrying cereals.

(b) The ETA of these ships.

(c) Whether any are against the N. Africa cereal programme.

3. The ships carrying the 20,000 tons barley.

From the foregoing it will be seen that the actual arrivals at ports in Italy during December are still a matter of speculation. It is submitted that by a unification of advices from the various loading and shipping authorities it should be possible to reduce this confusion to some semblance of order. It is urged that the matter be taken up with

SUBJECT: Cereal Arrivals - Naples

FROM : Food Sub-Commission

TO : Transportation Sub-Commission

1. In view of the forthcoming possibility of an increase in the bread/pasta ration in Rome and northwards it is desired to point out that:

a. Flour milling capacity in Rome is only 300 tons per day.

b. Pasta manufacturing capacity in Rome is only about 30 tons per day.

c. If the ration is increased about 90 tons per day of pasta will have to be manufactured in Naples area and sent regularly to Rome.

2. This will increase the necessity for having ample port acceptance of cereal ships in the Naples/Castellammare area and to have adequate docks clearance there. Total grain required monthly for the next few months will be 28,000 tons, and that means an average of 3½ ships per month.

61. CIVIL SUPS REQUIREMENTS - GREECE:

(a) Inflation has prevented effective purchase of local supplies, particularly olive oil. This and other causes, including complete dislocation of internal distribution by the destruction of the entire railway system, has led to a situation where, for the time being, at least, the cities must be supported almost entirely by imported supplies. The provinces will require approx 50% imported supplies.

51. MANUFACTURE OF SOAP IN S. FRANCE:

With regard to the second 90 days' period, AFHQ notified AGWAR that 2,700 tons fats could be accepted in lieu of 4,000 tons of soap. The French now wish to supply 10,000 tons of palm kernels in place of 2,700 tons fats. This quantity of palm kernels should produce considerably more than the 4,000 tons of soap originally requested. AFHQ has been asked to advise TROOPERS if this quantity can be accepted in December and, if so, CCAC will be requested to authorise.

52. SWEDISH / SWISS SHIPMENTS FOR GREECE:

AFHQ has been requested to give particulars of arrangements made for the SWEDISH ships already arrived in GREECE and proposed arrangements for ships now 'en route' Arrangements are now being negotiated through diplomatic channels for the continued use of SWEDISH ships in order that SWEDISH / SWISS relief shipments may be made up to the end of the year. Below are given details of Relief Ships for GREECE, now loading, 'en route' or at GREECE -

1. Reference is made to paragraph 3 of Allied Force Headquarters, Administrative Memorandum Number 37 dated 5 September 1944.

2. The tonnage allocation meeting for FEBRUARY 1945 was held at this headquarters on 24 OCTOBER 1944, and allocations which were approved are shown in Appendices 'A' and 'B'. These allocations represent the maximum port capacities which it is anticipated will be available to each user for the import of normal maintenance requirements.

3. The extent to which the NAPLES group of ports and HEEL ports may be required for outloadings has been taken into account in assessing the Port capacities.

4. The allocations to the United States Army and British Army include provision for cased vehicles but do not include Transportation Stores which are shown separately as a common user item.

1. Reference is made to paragraph 3, AFHQ Administrative Memorandum Number 37, dated 5 September 1944.

2. The tonnage allocation meeting for January 1945 was held at this headquarters on 23 September 1944, and allocations which were approved are shown in Appendices "A" and "B". These allocations represent the maximum port capacities which it is anticipated will be available to each user for the import of normal maintenance requirements.

3. The extent to which the NAPLES group of ports and HEEL ports may be required for outloadings has been taken into account in assessing the port capacities.

4. The allocations to the United States Army and British Army include provision for cased vehicles but do not include Transportation Stores which are shown separately as a common user item.

(a) Owing to the incorrect servicing of CAL 856, 66000 tons set up from N. AMERICA for Dec arrival had been assumed by AFHQ to be from MIDEAST. Unfortunate though this error was, had FRANCE depended on supply from N. AMERICA, the commitment could not have been met in time. This 66,000 tons was due to begin arriving 15 days after despatch of the CAL 856 allocating procurement responsibility. The programme was fortunately set up from MIDEAST stockpile.

(b) A further complication in the cereal programme had been the cuts imposed on the Dec arrival programme owing to lack of shipping in AMERICA. Attached at Appendices A, B and C is the up to date status of the programmes.

44. CEREALS GENERAL

(a) Owing to the incorrect servicing of CAL 856, 66000 tons set up from N. AMERICA for Dec arrival had been assumed by AFHQ to be from MIDDLE EAST. Unfortunate though this error was, had FRANCE depended on supply from N. AMERICA, the commitment could not have been met in time. This 66,000 tons was due to begin arriving 15 days after despatch of the CAL 856 allocating procurement responsibility. The programme was fortunately set up from MIDDLE EAST stockpile.

(b) A further complication in the cereal programme had been the cuts imposed on the Dec arrival programme owing to lack of shipping in N. AMERICA. Attached at Appendices A, B and C is the up to date status of the programmes.

Appendix A shows S. FRANCE and N. AFRICA.

Considering your WX-49293, 20th October, reference, shortage in shipping for UGS 60, 61 and 62 convoys. (Dec. Convoys)

Starting with the allocation of 105 ships to this Theater for loading both Army and civil supplies an effort has been made to adjust the cargo to the available shipping in such manner as to produce the fewest and least serious repercussions.

It is estimated that 15 ships in addition to those being supplied by the British are required to lift essential minimum civil supplies. This shipping will provide barely sufficient wheat and flour to maintain a 240-gram bread ration in the liberated portion of ITALY, to move 5 ships loads of Balkan Aid and to provide half the estimated requirement of wheat and flour for Southern FRANCE. It is intended to defer until later all shipment from the UNITED STATES of bulk commodities to SICILY, SARDINIA and the BALKANS. It is emphasized that the reduced relief shipments will bring into the Theater only the barest necessities. It may be expected that food riots will result if collapse occurs in North ITALY.

In effecting the adjustment of civil supplies it was considered economical to divert to NORTH AFRICA 20,000 tons of barley scheduled for December shipment to ITALY from IRAQ in British shipping. Barley is used 100 percent for food in NORTH AFRICA in feeding the Arab population, who eat the entire grain, whereas in diluting flour for the Italians there is a loss of 25 percent as against wheat. Shipment of wheat set up for ITALY compensates for the diversion of the barley. In view of this agreed diversion of barley to NORTH AFRICA it is requested that wheat shipments to NORTH AFRICA for December arrival be reduced correspondingly and the shipping thus released be used for lifting civil supplies to ITALY thereby reducing the demand upon Army allocated shipping from 15 to 12 ships. 867

With an eye to the reduction of Theater stocks during the past months, requisitions for supplies have been restricted to those required for current maintenance and to sustain reserves at the authorized minimum. Notwithstanding that precaution the shortage of shipping has resulted in a backlog of unshipped 5/26

0202

Declassified E.O. 12356 Section 3.3/NND No. 785021

supplies at NYPE which when added to the supplies requisitioned for December arrival aggregate 1220237 ship tons. Of the 105 ships allotted this Theater 93 will be available to lift these supplies. At the estimated rate of 8000 measurement tons per ship, 744000 tons will be delivered leaving a backlog of 470000 tons of military supplies destined for this Theater at EMBARK. This amounts to about 20 days of supply for this Theater.

After deferring those supplies the delay in shipment of which can more readily be accepted such as packing and crating materials for redeployment, PX resale items, and lumber for the winterization program, it is also necessary to defer approximately 40000 tons of critical major items of equipment including tactical and general purpose vehicles which are in short supply.

It is requested that a substantial increase be made in the shipping allotted this Theater for December arrival to insure against civil disturbances and to assure no lessening of the military effort due to lack of essential supplies.

SUBJECT: Supply Requirements for UNRRA Italian Relief Operations

TO : N.G.
A.C.

1. UNRRA's ITALIAN RELIEF PROGRAMME is directed primarily to affording medical and nutritional assistance to nursing mothers, infants and the lower age groups of school children. It is supplementary to any A.C. relief measures and should not be confused with the programme for D.P. Refugee Camps in ITALY which UNRRA will assume responsibility for in due course.

2. UNRRA is anxious to start its Italian Relief programme as early as possible in November and tentative plans are to open in NAPLES and ROME.

3. Supplies to implement this programme will eventually be furnished from UNRRA stocks in U.S. but the shipment and flow of same cannot be scheduled to arrive before Feb. 45 - possibly not before March 45.

Operation of UNRRA programme, Nov. thru Jan. (and possibly Feb.) is therefore dependent upon necessary supplies being provided from indigenous stocks and it is hoped that A.C. will be able to meet this need from its resources. It is understood that informal talks have already taken place on this subject between A.C. and UNRRA reps.

4. Requirements. Nov. thru Jan. are as follows:-

	November	December	January	Total
Dry skim milk	150	450	600	1,200
Evaporated milk (or equivalent in condensed)	50	150	200	400
Sugar	75	225	300	600
Fats	75	225	300	600
Flour	400	1,200	1,600	3,200
Pulses	175	525	700	1,400
Farina	25	75	100	200
Fish (dried)	125	375	500	1,000
Medical	5	10	20	35
Total	1,080	3,235	4,320	8,635

In addition there will be required small quantities of salt and yeast.

In the event that the first direct shipment does not arrive by 1 Feb. 45

Total	1,080	3,235	4,320	8,635

865

In addition there will be required small quantities of salt and yeast.

In the event that the first direct shipment does not arrive by 1 Feb. 45, further provision will be required from indigenous stocks at a rate of apprex 5,000 tons monthly.

5. It will be appreciated that UNRRA needs to have a firm commitment in respect of these supplies and it is requested that A.C. please advise this H.Q. what they can provide against requirements at para 4 above.

6. To the extent that A.C. cannot provide, the only other possible source of supply is from military stocks, but it is most unlikely that much assistance will be possible from that source in view of the heavy demands which have been made on military stocks for civil account during recent months -- and which are still being made.

Declassified E.O. 12356 Section 3.3/NND No. 785021

(484

It is therefore emphasised that UNRRA operations Nov. thru Jan. will be limited almost entirely to the extent that A.C. can assist them, and although it may strain A.C. resources, it is desired that every effort be made to provide UNRRA supply requirements in full from A.C. resources.

7. Payment by UNRRA will be by repayment in kind of all A.C. stocks loaned, but such repayment cannot be counted on before direct UNRRA shipments are flowing regularly -- probably April/May at the earliest.

8. Warehousing. It is considered preferable that UNRRA should hold and control the warehousing and distribution of its supplies from the beginning of operations, and that bulk deliveries be made to them -- say, a month's requirements at a time. This requires that a small warehouse or section of an A.C. warehouse be made available to them. Request that arrangements giving effect to this be negotiated direct with UNRRA reps.

9. Transportation. Earliest possible shipment from U.S. is being requested of the following UNRRA transport: 138 x 1½ ton trucks; 25 passenger cars or weapons carriers; 25 motor cycles and 100 bicycles. Action G-5, AFHQ.

Arrangements for the assembly of a/m vehicles will be advised by G-5, AFHQ in due course.

The provision of driver and mechanic personnel, and the maintenance and garaging of this transport will be the responsibility of UNRRA. Request that A.C. assist in the recruitment of Italian drivers, mechanics etc as may be required by UNRRA.

10. Pending the delivery of UNRRA trucks it is requested that A.C. assist to the extent possible with truck transport as required for UNRRA operations. As however UNRRA will be operating to a very limited extent and only within the areas of NAPLES and ROME it is anticipated that their requirements in this connection will be small.

11. Request that five passenger cars (requisitioned) be made available for the use of UNRRA personnel pending receipt of their own cars.

12. UNRRA Requirements Feb. and March are as follows:-

864

	February	March	Total
Dry skim milk	1,800	2,400	4,200
Evaporated milk (or equivalent in condensed)	600	800	1,400

Tentative requirements April thru June are: April 22,000: May 18,000: June 13,000.

13. Every effort is being made to get port acceptance of Feb. arrivals as at 12 above, and to arrange shipment of vehicles as at 9 above, for January arrival.

These arrivals cannot however be counted upon at this time.

14. Shipping Procedure. As priorities of entry and movement of civil supp within ITALY are determined by A.C. all demands for UNRRA supplies and bids for tonnage whether from source or for coastwise or inland movement will be channelled through A.C. and will conform to standard maintenance procedure as laid down in CAL 712 and AFHQ Admin. Memo. No. 37.

Request that A.C. include 83,000 tons for UNRRA supplies when submitting tonnage requirements for March. The difference between this figure and March requirements shown at 13 above being provision for part repayment of loans made against Dec/Jan consumption.

15. Urgent action is requested please as at 5 above.

Action at 8, 9 (para 3), 10 and 11 will please be taken by A.C. with UNRRA (Italian Mission) Reps.

I have told Mr Keeney who is heading up the UNRRA Italian organisation to see you on all shipping matters.

Will you keep them straight and in channels.

UNRRA can have NO favoured treatment or any special procedure for their supplies. For all practical purposes in relation to movement they are just a part of A.C. and their tonnage requirements will be included with A.C's (although shown separately).

SUBJECT: Citrus Fruits for Piemonte Region.

TO : ~~Hq ACC, Food Sub-Commission,~~ Transportation Sub-Commission.

1. It is requested that arrangements be made to supply Piemonte Region with the following amounts of citrus fruits (arance, limoni, & mandarini) each month during the period January through May, 1945, deliveries to commence at any appropriate Ligurian port or railhead within two weeks after occupation:

PROVINCE	Amount (metric tons)
Alessandria	500
Aosta	250
Asti	250
Cuneo	620
Novara	420
Torino	1400
Vercelli	120
TOTAL	3560

2. It is suggested that such quantities of citrus fruits be brought from Sicily, preferably Catania. This would not only supply a needed food element in Piemonte but also benefit substantially the economy of Sicily which has been disrupted to some extent through the loss of its market for citrus fruits.

3. It is requested that this letter be considered as a bid in behalf of Piemonte Region for any necessary transportation, sea, rail, or motor.

LAC AIRGRAM 79, 29 October 1944

FROM : FHGEG (Concurred FHGDS)

TO : Combined Civil Affairs Committee,

SUBJECT : Cereal Program December and January.

The cereal situation as summarised in LAC Airgram 77 has changed considerably. There follows a summary of the position at this date.

1. The unfortunate error in the servicing here of CAL 856 para 2 went far to confuse the issue. CAL 893 cleared the point as to the intended source of 66,000 tons wheat for FRANCE (also LAC 781). In this connection, however, it should be noted that had FRANCE depended on supply from NORTH AMERICA the commitment could not have been met in time. This 66,000 tons was due to begin arriving late October and the date of CAL 856 allocating responsibility was 15 October - our last date officially for placing January arrivals on COMZONE NATOUSA.

858

2. As MIDEAST was originally to produce 60,755 tons for FRANCE against the period 15 Oct to 15 Dec a programme had been, fortunately, set up and so far some 30,000 tons have sailed and two ships have discharged. The remainder of the 66,000 tons (LAC Airgram 77) have been phased and it is better not to disturb this program at this late stage. As will be seen in para 4, there is no urgency to reimburse MIDEAST stocks for this outloading.

3. A further complication has been the cuts imposed by signal WX 49293 -

3. A further complication has been the cuts imposed by signal WX 49293 - SPTOW 762T of 20 October. The priorities assigned by the theatre and about to be signalled by COMZONE NATOUSA have affected the cereal program as indicated in para 3 of LAC 782. This must be accepted as final. (a) Diverted to TUNISIA thereby freeing 3 ships from the AMERICA - NORTH AFRICA civil program to M.T.O. Military program.

Against BALKANS 33,600 Wheat

Total December cut FRANCE, ITALY and BALKANS - 86,600 tons

4. The cuts in para 3 do not spell disaster for the following reasons:-

(a) FRANCE. Recently able to announce smaller demand of 30,000 tons per month (LAC 741 & CAL 897). Present program will close gaps to 15 Dec when 45,000 tons of SHAEF provision should be arriving (LAC 779).

(b) ITALY. Subject to no collapse in North, 93,500 now arriving should be adequate.

(c) BALKANS. Condition of ports and late start of operations together with slow inland developments has limited relief to AD HOC parcels. 40,000 tons carried in the eight SWEDISH/SWISS ships will further ease the position. The saving to the stockpile is such that December demands can be met without further allocation. Repayment of 14,000 tons flour loaned to ITALY will materially assist (para 2 LAC 782). In round figures the BALKANS position is as follows:-

		Tons
	Ad hoc aid to GREECE	41,000
proposed	" " " " YUGOSLAVIA	5,000
	Loaned to ITALY	14,000
	Bid ex-stockpile period 17-26 Nov.	17,000
	Total	77,000

Original earmark in MIDEAST for the Balkan Stockpile (42 days) was 164,000 tons. Subtracting the 77,000 so far shipped or set up for shipment there remain 87,000 tons.

For consumption 27 November onwards must be reckoned:-

C. BALKANS

GAY 75 refers. (GAY 70 is covered by this and para 4)

(i) See para 4 this airgram. It is not envisaged that any of the BALKAN stockpile will outlast 31 Dec.

(ii) All known arrivals of SWEDISH/SWISS ships have been taken into account for December. Should others be notified reductions will be accepted accordingly.

(iii) Note you are investigating SYRIA cereal possibilities.

(iv) Presume you can apply the unused 66,000 tons para 2 of CAL 856 against January requirements, as envisaged GEN 315 para 2.

(v) Unofficial report indicates that the Piraeus bulk wheat installation is undamaged. You will be informed at once when the position is further clarified, as to what proportion, if any, of January wheat can be accepted as bulk.

Para One. Believe that your questions CAL 902 have been covered in previous correspondence. (This is LAC 766). Also Col BUTTENWIESER personally explained wheat situation in September and Col LEVIS, G5 section, Cols LUCK and TOLMIE, AC Food Sup Commission, have been in your office for purpose of giving you detailed background information since mid September.

Para Two. Specific answers follow.

A. Figures refer to 12 months requirements(see paras three and four SACMED'S letter) 1 July 44 to 30 June 45. (see also para four A of LAC 763, 19 October) Bearing of monthly deliveries should conform to ALLIED COMMISSION'S program, now before you.

B. Maize and rice. Regret areas growing these cereals not yet liberated. When available these cereals will be used to best advantage (see para 3 LAC 702).

C. That question was raised previously in CAL 714 and replied in LAC 659. AC advises additional personnel would not affect grain import requirements and still does not want them.

856

D. Para (1). Yes. However no additional trucks available

Para (2). Yes. See LAC airgram 51

Para (3). No. Tonnage requested is based on needs to implement policy of 300 gram bread ration, lift and distribute indigenous(?) supplies of all commodities.

33. CEREALS ITALY

AFHQ has requested confirmation of AGWAR that the policy is to provide a 300 gramme bread ration immediately. This policy cannot be met without increased imports. Depending on the liberation of Northern ITALY, this would mean a monthly programme for the whole of ITALY estimated at 165000 tons from Jan to Jun 45 inclusive, or beginning Dec if possible.

An alternative would be effected by using existing stocks, together with imports under the existing programme. The effect of this plan would be to exhaust the amassed grain by 1 Mar if inland tpt could

deal with it. Such a procedure could only be carried out against an absolute guarantee that stocks so used will be replaced in full to allow the 300 grammo action to be continued until the next harvest season.

34. SPANISH WHEAT SHIPS TO ITALY.

The Ministry of Production has enquired whether SPANISH ships may proceed to ITALIAN ports with cargo of 10,000 tons of wheat for ITALIANS in discharge of a balance made by ITALY to SPAIN in 1939. Permission has been given for the vessels to sail to NAPLES provided seven days' notice of sailing is given.

35. CIVIL SUBS MARSEILLES

Ref para 15, DELTAFORCE has now confirmed that 35000 tons bulk and 8000 bagged wheat can be handled each 10 day period commencing 1 Dec.

36. LEAD ZINC MINES JUGOSLAVIA.

The Ministry of Production regard it of urgent importance to ascertain the present condition of three lead zinc mines in JUGOSLAVIA and if not capable of full production, to report what machinery should be supplied or what other steps are necessary to make them so. As lead and zinc will be wanted urgently in EUROPE for rehabilitation and supplies of concentrates from elsewhere are not likely to be available, A.F.H.Q. has been requested to submit the earliest possible report.

37. PYRITES.

Ref para 4 of Report No. 1 dated 10 Sep.

(a) Port

The port of shipment is PORTIGLIONE. Ore is carried 1½ kms by overhead cable at the rate of 150 tons per hr. GERMAN forces have placed a boom from N. to E. of the coaster berth leaving the sea side open. The bay and anchorage approaches are probably mined. The local Southerly wind is considered dangerous.

(b) Facilities. 847

A collection hopper on the hillside at the water's edge, capacity 24,000 tons of ore, is at present holding 15,000 tons. A further 20,000 tons at present held at SARLINO sta can be sent to PORTIGLIONE by cable buckets.

(c) Method of loading

(i) Coasters (capacity 1500-2000 tons) can lie alongside the Dolphin, depth of water 18 ft, with 2 stern mooring ropes to shore, two fwd mooring ropes to buoys (two days notice necessary to lay) plus ship's anchor ahead. The dolphin carries endless cable complete with 15 cwt capacity tipping buckets which tip ore into a small hopper on the Dolphin and feed into one hold of the coaster through an adjustable feed spout. The main storage hopper on shore has 18 hand controlled feeds, 9 of which are capable of keeping sufficient flow of ore to equal the 150 tons per hr from the mine. This permits adequate reserve in the hopper to ensure the ship's figure being maintained in the event of a breakdown inland.

(ii) Rough sketch of the port of PORTIGLIONE is given overleaf.

(iii) Liberty-type ships lie at anchor in 6 to 7 fathoms of water 200 metres from the shore. Method of loading is by barge. At present 4 wooden barges of 450/500 tons capacity, 2 iron and 1 wooden tug, have been sunk in shallow water to prevent removal by GERMAN forces. Local contractors estimate that the maximum time to raise and recondition would be 45 days. Normally barges are loaded by rail trucks from the hopper to a small wooden pier which has been demolished. It has been suggested that the Dolphin be used to load barges, or if coaster and liberty loading is contemplated, that a new pier be built. Barges as above would load to two holds, at an estimated 70 tons per hr per hold. The plant can operate 24 hrs per day.

(d) Loading rate

It is estimated that by both methods 3000 tons per day can be loaded.

(e) No further info is available from WASHINGTON on the possibility of pyrites being allocated for export.

With reference to your telephone message at 4,20 p.m. on 11/10/44; the only inhabited islands within the area of Rome/Littoria Province are the Ponza Group.

No requests for fresh water have been received from any of the islands and so far as is known to the Prefects and other civil authorities no fresh water has ever been sent to them. It is therefore presumed that these have sufficient local supplies of fresh water.

At the present moment communication with these islands is very difficult.

IRISBANK	HERMION

(b) Of the above, 20,000 tons is for Nov delivery ITALY. This solves the difficulty foreseen in para 16(d).

(c) MOWT LONDON has requested MWTR Med to call fwd the required quantity, suggesting that the VITO and HERMION should be included as on completion of discharge in ITALY they could then load phosphates at BONE.

26. ITALY CEREALS, GENERAL.

The whole programme of ITALIAN cereal imports is under review and any approved changes will be tabulated in the next report.

27. BALKAN STOCKPILE, FLOUR.

Ref para 16(d) MIDEAST was required to replace 10,000 tons flour into the BALKAN stockpile in repayment of the emergency demand made on them for Oct delivery in ITALY (see 8(c)). Their [illegible] currently programmed arrivals, however, are only according to requirements. They are unable at the moment to see any possibility of replacing the present BALKAN stockpile deficiency of 9,500 tons flour.

28. CEREALS BALKANS.

(a) Ref cereal requirements tabled in para 12, it has been confirmed to WAR OFFICE that the grain demand for 115,600 tons for Dec arrival was an overall demand. Any equivalent material delivered in SWEDISH/SWISS shipping would be in diminution of it. Fuller details of the SWEDISH/SWISS ships and their cargoes are awaited.

(b) Such of the items required in para 12 as have been allocated to producer countries have been called fwd in a programme which envisages direct ship loads to BALKAN ports as far as this is practicable with the varying sources of supply. SUBJECT: Wheat/Flour, Nov/Dec.

MEMO TO: Headquarters, Allied Control Commission, APO 394.
(Attn: Mr. Antolini)

Information copy passed to Tr S/c by Econ Sect

Ref: Par 3 Minutes V.P. meeting 3 Oct.

1. CCAC has approved requests for Nov/Dec, subject only to shipping availability. Extract from CAL 813, 29 Sept follows:

a. "November. Already set up 27,000 tons bagged wheat and 20,000 tons barley. Total equivalent to 43,000 tons wheat. Of this amount 25,000 tons is for South, 18,000 tons for North. In addition for North 20,000 tons flour from Mideast and 25,000 tons flour and 7,000 tons bagged wheat from U.S. will be shipped.

Note: This may be wheat

b. December. Shipments already set up include only 20,000 tons barley equivalent to 16,000 tons wheat. This is for South. In addition requirements approved include for South 9,000 tons wheat and for North 50,000 tons wheat and 22,500 tons flour. Can you accept bulk wheat in December?

c. Statements in a. and b. of "shipments already set up" supersede all advices in previous cables.

d. 70,000 tons wheat/flour Nov requirement and 72,500 tons wheat/flour Dec requirement, all for North, are approved to provide against contingencies. If these do not arise, any unused portion of the wheat/flour will be warehoused as part of MTO stockpile."

2. Extract from CAL 830, 3 Oct gives this further information: 829

a. November. In 4 ships UGS 59 - 25,000 tons flour, 7,000 tons bagged wheat.

b. December. Availability of wheat/flour assured. Shipping not yet firm but probable. Early reply on bulk wheat requested. (this was answered in LAC 726, 6 Oct).

SUBJECT: Requirement, Tonnage Acceptances, Agriculture.

TO : Transportation Sub-Commission, Shipments, Ports & Warehousing Section.

1. Reference your ACC. Tn/S/26, requesting estimate of tonnage requirements at Italian ports, February 1945.

2. While requisitions pur forward have called for delivery during December and January, the following port acceptance requirement estimates are based upon the assumption that deliveries cannot be completed in the period requested, and that approximately 30% will be arriving in February. Coastal traffic requirements for agricultural are relatively small, too small to be anticipated at this time, and heretofore too small to affect the port acceptances.

3. Following are estimates as indicated:

West Coast, Naples area	10,000 tons
West Coast, Leghorn and North	4,500 tons
East Coast, Heel Ports	3,500 tons
East Coast, Ancona and North	9,000 tons
Genoa	16,000 tons
Venice	16,000 tons

MEDITERRANEAN SHIPPING BOARD.

A.F.H.Q.

Telephone : Freedom 225. 3rd October, 1944.

It is requested that an estimate be furnished to this Board, as soon as possible, of your likely requirements in tons for fresh water during the next three months at all ports in which you are concerned in the theatre;

(A) From shore source of supply

(B) Off shore, necessitating a water carrier.

It is urgently necessary for MEDBO to examine the situation with a view to ascertaining the needs and places for additional water boats, to maintain a demand for these to be provided from outside the area if necessary. This examination cannot be made completely without the above information.
