SUBJECT : Civilian Travel to destinations outside Italy.

TO : G-5 AFHQ (2)

1. Transportation Sub-Commission has received from Displaced Persons and Repatriation Sub-Commission and Liaison Branch at this HQ. a number of applications for the movement of civilians to various destinations outside Italy. These applications to travel have been received after requests have first been agreed by G-2 at AFHQ. At present, applications total 150 persons for 25 different countries as attached summary.

2. The present method is for Transportation Sub-Commission to inform G-4 (Mov & Tn) of the number waiting to leave Italy with their respective destinations. When shipping is available for civilians, after meeting Military requirements, this HQ. is informed. The passengers are then called forward by Displaced Persons and Repatriation Sub-Commission or Liaison Branch to the port of embarkation. The movement of civilians to embarking port is not possible until steamer accomodation is assured, owing to housing problems at Taranto or Naples.

3. Under reference AG.371.2/013 GBI-O dated 2 August 1945, AFHQ announced that Military Travel Authorisations are no longer required for travel from Italy, and their issue has ceased except that Military permits continue to be required for travel to Austria and Germany. Under reference AC/14018/8/PS dated 7 August 1945, this HQ. made a similar announcement, adding that no further action will be taken at this Headquarters with regard to outstanding applications for Military Travel Authorisations. It is not clear, however, to the embassies, legations and consulates concerned, that while a Military Travel Authorisation is no longer required, no civilian passenger can leave Italy without a Military Travel Order, which is the permission to use military transport, there being no civil means of transport available. Hence the AFHQ letter of 2 August, referred to above, needs amplification to bring out this point.

4. In view of the present staff situation, it is not possible for Transportation Sub-Commission to undertake the

Hence the AFHQ letter of 2 August, referred to above, needs amplification to bring out this point.

4. In view of the present staff situation, it is not possible for Transportation Sub-Commission to undertake the detailed arrangements for a large number of civilians, and as sailings become more frequent demands will certainly increase. One officer would have to devote most of his day to these requests and to the numerous callers that are bound to make their appearance. This officer's functions would be more or less those of a travel agent for civilians, whose movement is of little importance to this HQ.

1573

Declassified E.O. 12356 Section 3.3/NND No. 785021

5. It is therefore requested that consideration be given to the approval of some civilian organisation(s), such as Cooks or American Express, receiving requests from civilians once they have papers in order for travel. Bids would then be made for shipping space by the Travel Agency or Agencies on G-4 (Mov & Tn) AFHQ. When space is allocated, passengers would be called forward to port as instructed by G-4 (Mov & Tn). This method has been followed in Middle East with, it is understood, complete success.

6. If this proposal is agreed, please inform this HQ. if you will approach the firm(s) chosen to complete details, or whether the matter should be taken in hand by this HQ. Any agreement would have to include some form of remmuneration which they might well recover from the passenger and the adoption of a special travel order in lieu of the existing military travel order.

7. When shipping is impossible and air travel is authorised, similar arrangements could doubtless apply.

8. It is requested we be given early advice of your views on this proposal, in order that this civilian travel to destinations outside Italy may be put on a workable basis as early as possible.

17th August, 1945.

To: Movements Division, Transport Sub-Commission, AC HQ.

From: The Resident Representative, IGCR, Italy.

Reference conversation with Major Constable, 16.8.45.

1. I am receiving a number of appeals from refugees of all sorts for transport facilities out of Italy, and especially to England. Many want to go to France, and a great number to America.

2. In the majority of cases they have no visas, and their chance of getting one in the immediate future is small. Sometimes they say they will get their visa for certain in a week or two, and ask me whether they can get the necessary authority for transport "pending receipt of visa". To save subsequent delay.
I invariably answer that this is impossible. Is this correct?

3. I have one case (the attached) in which the applicant has got his visa to go to England, for the reasons given. He states that "the Allied Commission has told him that he will have to wait months for transport".
I am not particularly sponsoring his case, but should like to be in a position to tell these people something a little more definite about their prospects, especially that their names have been recorded on some priority list (if this is possible) and that they will not have others coming in front of them who might not have such a good case.

4. Do recommendations from this office serve any useful purpose, and to whom should they be made?

5. Can we assume that, when a recommendation has been made, the applicant's name will be recorded on some waiting list under some order of priority, and that no further action on our part or that of the applicant is necessary or desirable?

6. We should be grateful for a directive of some sort showing the situation as it is likely to be for the next few months.

Reference your letter 18/60 of the 23rd July 1945. The above-named has made application to this Department and we have now received a communication from the Home Office authorising a visa covering a stay of three months in the United Kingdom, provided he obtains transport and the permit to leave and return to Italy. When he has complied with the latter condition he will be given an introduction to the Allied Commission who will deal with the question of transport.

Subject: - Ber Scharf.

Ber Scharf, a stateless national, formerly Russian, was born in Berdichev, Russia, on 17.1.1885, and is at present residing at VII Varese 46, Rome. The Jewish Refugees Committee at Bloomsbury House has been endeavouring to obtain a British visa for Mr. Scharf to enable him to come to this country to visit his wife who has been ill since 1939. The Home Office Aliens Department replied to the Jewish Refugees Committee on the 10th July, reference S.24655, that if Mr. Scharf could obtain transport to the United Kingdom and any necessary permit to leave Italy and return there after his visit, he should apply to the British Passport Control Office in Rome or the nearest British Consul for a visa for a visit to the United Kingdom. The Jewish Refugees Committee tells me that this is the first case of the kind that it has had and they would appreciate it if you could ascertain what arrangements can be made to enable Mr. Scharf to come to this country. Mr. Scharf's relatives here have been advised by the Jewish Refugees Committee to suggest to him that he should communicate with the representative of the Refugee Committee "Delasem" at Lungotevere, Sansio 2, Rome. Will you please let me have your comments in due course.

AC/612A/55/Tn.3 20 August 1945

SUBJECT : Civilian Travel to destinations outside Italy.

TO : G-5 AFHQ (2)

1. Transportation Sub-Commission has received from Displaced Persons and Repatriation Sub-Commission and Liaison Branch at this HQ. a number of applications for the movement of civilians to various destinations outside Italy. These applications to travel have been received after requests have first been agreed by G-2 at AFHQ. At present, applications total 150 persons for 25 different countries as attached summary.

2. The present method is for Transportation Sub-Commission to inform G-4 (Mov & Tn) of the number waiting to leave Italy with their respective destinations. When shipping is available for civilians, after meeting Military requirements, this HQ. is informed. The passengers are then called forward by Displaced Persons and Repatriation Sub-Commission or Liaison Branch to the port of embarkation. The movement of civilians to embarking port is not possible until steamer accomodation is assured, owing to housing problems at Taranto or Naples.

3. Under reference AG.371.2/013 GBI-O dated 2 August 1945, AFHQ announced that Military Travel Authorisations are no longer required for travel from Italy, and their issue has ceased except that Military permits continue to be required for travel to Austria and Germany. Under reference AC/14018/8/PS dated 7 August 1945, this HQ. made a similar announcement, adding that no further action will be taken at this Headquarters with regard to outstanding applications for Military Travel Authorisations. It is not clear, however, to the embassies, legations and consulates concerned, that while a Military Travel Authorisation is no longer required, no civilian passenger can leave Italy without a Military Travel Order, which is the permission to use military transport, there being no civil means of transport available. Hence the AFHQ letter of 2 August, referred to above, needs amplification to bring out this point.

1554

4. In view of the present staff situation, it is not possible for Transportation Sub-Commission to undertake the detailed arrangements for a large number of civilians, and as sailings become more frequent demands will certainly increase. One officer would have to devote most of his day to these requests and to the numerous callers that are bound to make their appearance. This officer's functions would be more or less those of a travel agent for civilians, whose movement is of little importance to this HQ.

Declassified E.O. 12356 Section 3.3/NND No. 785021

5. It is therefore requested that consideration be given to the approval of some civilian organisation(s), such as Cooks or American Express, receiving requests from civilians once they have papers in order for travel. Bids would then be made for shipping space by the Travel Agency or Agencies on G-4 (Mov & Tn) AFHQ. When space is allocated, passengers would be called forward to port as instructed by G-4 (Mov & Tn). This method has been followed in Middle East with, it is understood, complete success.

6. If this proposal is agreed, please inform this HQ. if you will approach the firm(s) chosen to complete details, or whether the matter should be taken in hand by this HQ. Any agreement would have to include some form of remmuneration which they might well recover from the passenger and the adoption of a special travel order in lieu of the existing military travel order.

7. When shipping is impossible and air travel is authorised, similar arrangements could doubtless apply.

8. It is requested we be given early advice of your views on this proposal, in order that this civilian travel to destinations outside Italy may be put on a workable basis as early as possible.

Under reference AG.371.2/013 GBI-O dated 2 August 1945, AFHQ announced that Military Travel Authorisations are no longer required for travel from Italy, and their issue has ceased except that Military permits continue to be required for travel to Austria and Germany. Under reference AC/14018/8/PS dated 7 August 1945, this HQ. made a similar announcement, adding that no further action will be taken at this Headquarters with regard to outstanding applications for Military Travel Authorisations. It is not clear, however, to the embassies, legations and consulates concerned, that while a Military Travel Authorisation is no longer required, no civilian passenger can leave Italy without a Military Travel Order, which is the permission to use military transport, there being no civil means of transport available. Hence the AFHQ letter of 2 August, referred to above, needs amplification to bring out this point.

SUBJECT : Civilian Travel to destinations outside Italy

TO : G-5 AFHQ (2)

1. Transportation Sub-Commission has received from Displaced Persons and Repatriation Sub-Commission and Liaison Branch at this HQ. a number of applications for the movement of civilians to various destinations outside Italy. These applications to travel have been received after requests have first been agreed by G-2 at AFHQ. At present, applications total 150 persons for 25 different countries as attached summary.

2. The present method is for Transportation Sub-Commission to inform G-4 (Mov & Tn) of the number waiting to leave Italy with their respective destinations. When shipping is available for civilians, after meeting Military requirements, this HQ. is informed. The passengers are then called forward by Displaced Persons and Repatriation Sub-Commission or Liaison Branch to the port of embarkation. The movement of civilians to embarking port is not possible until steamer accomodation is assured, owing to housing problems at Taranto or Naples.

3. Under reference AG.371.2/013 GBI-O dated 2 August 1945, AFHQ announced that Military Travel Authorisations are no longer required for travel from Italy, and their issue has ceased except that Military permits continue to be required for travel to Austria and Germany. Under reference AC/14018/8/PS dated 7 August 1945, this HQ. made a similar announcement, adding that no further action will be taken at this Headquarters with regard to outstanding applications for Military Travel Authorisations. Hence the AFHQ letter of 2 August, referred to above, needs amplification to bring out this point.

4. In view of the present staff situation, it is not possible for Transportation Sub-Commission to undertake the detailed arrangements for a large number of civilians, and as sailings become more frequent demands will certainly increase. One officer would have to devote most of his day to these requests and to the numerous callers that are bound to make their appearance. This Officer's functions would be more or less those of a travel agent for civilians, whose movement is of little importance to this HQ.

5. It is therefore requested that consideration be given to the approval of some civilian organisation(s), such as Cooks or American Express, receiving requests from civilians once they have papers in order for travel. Bids would then be made for shipping space by the Travel Agency or Agencies on G-4 (Mov & Tn) AFHQ. When space is allocated, passengers would be called forward to port as instructed by G-4 (Mov & Tn). This method has been followed in Middle East with, it is understood, complete success.

6. If this proposal is agreed, please inform this HQ. if you will approach the firm(s) chosen to complete details, or whether the matter should be taken in hand by this HQ. Any agreement would have to include some form of remmuneration which they might well recover from the passenger and the adoption of a special travel order in lieu of the existing military travel order.

7. When shipping is impossible and air travel is authorised, similar arrangements could doubtless apply.

8. It is requested we be given early advice of your views on this proposal, in order that this civilian travel to destinations outside Italy may be put on a workable basis as early as possible.

MEMO TO COL. M. J. SIEFF

Subject : Steamship accomodation for Mrs Ilma Denaro, (nèe Greenhill-Gardyne)

I was born a British Subject, but am returning to U.K. on an Italian passport, for which the British Embassy has granted a visa in view of my being in possession of a doctor's certificate and letters stating that my mother is in a very precarious state of health.

I have registered with the Displaced Persons Sub Commission, who have forwarded my documents to A.F.H.Q.; and have informed me that I can expect travel orders to be cut within a period of fifteen to eighteen days.

As this is a compassionate case, may I ask you to assist me in securing a berth on an outgoing steamer, at or around the end of July or beginning of August.

Owing to my own personal health, I do not feel that I could cope with the across-Europe train journey and should be most grateful if you could fix me up by sea, so that I may have a badly needed rest before taking on the responsibility of my mother.

Thanking you,

ILMA DENARO,
Planning Staff.

To :- Headquarters Allied Commission,
Transportation Sub Commission.

1. Reference your letter AC/612A/4/Tn 3 dated 24th June 45.

2. As there is a considerable backlog of military personnel for shipment to MIDEAST, it is regretted that travel cannot be arranged for civilians until this is cleared.

3. It is suggested that a further application be made about Mid-July.

Movements Div., H.Q., Allied Commission.

FROM: Visa Department, British Embassy.

1. Authority has now been received entitling us to grant visas to many new categories of applicants who wish to travel to the U.K. We find, however, that at present there is no simple means by which these wouldbe travellers may apply for Travel Orders and be alotted accommodation on transport for the U.K.

2. Up to the present we have only had to issue visas, in the main, to three categories of applicant:-

a) Repatriates of British birth whose travel arrangements have been attended to by D.P. and R. Sub-Commission, A.C.

b) Individuals sponsored by an Allied Authority which has arranged the journey and obtained travel facilities.

c) Diplomats for whom travel facilities are arranged by Liaison Section of A.C.

3. Though the matter of transport is no concern of ours, we do feel that we should be in a position to inform visa applicants to whom they should apply, once we have agreed to issue a visa.

4. We suggest therefore that for convenience this problem might be handled by Movements Division, A.C., to whom applicants can be sent direct.
