1. Reference your unreferenced letter dated 26 May enclosing copy of a letter from your Port Representative in Naples.

2. As stated to you verbally, it would appear that your Port Representative is unaware that there is a Transportation Section attached to A.M.G. Naples Comune, who are responsible for advising and assisting co-ordination of transportation within their Area. This Section has a Port Liaison Officer whose duties are to smooth over the problems enumerated by your Representative.

3. For both your and Mr. Herrick's information, appended below are the names and telephone numbers of the Officers in the Transportation Section located at Naples.

4. It is requested, that future complaints of this nature should first be taken up locally with the Port Liaison Officer by your Port Officer, before referring back to this H.Q.

May 26th, 1945

TO : : Maj. Godfrey
Transportation S/C, A.C.

FROM : War Shipping Adm., Rome

SUBJECT : I.C.E.

Attached herewith is copy of a letter from Mr. Herrick, W.S.A. Port Repr. at Naples, which is self explanatory.

We have also received additional information from Mr. Herrick that the S.S. Samuel Parker carried 4 tons of snuff tobacco and 17 tons of lemon essence from Palermo to Naples for transhipment to the U.S.A. Mr. Herrick advises that he has no shipping papers on these items as yet, but if these papers are submitted, he can ship this cargo on the S.S. Zacapa now discharging at Naples.

WAR SHIPPING ADMINISTRATION

Naples, May 22, 1945

TO : Port Repr., Rome

FROM : Port Repr., Naples

SUBJECT : I.C.E.

Many thanks for your letter of May 13th relative to the above subject.

In connection with the last shipment which went forward on the S.S. ABANGAREZ, as informed your office by telephone, this shipment consisted of 77 casks and 6 bags of talc and 570 casks of citrus peel. I still have yet to receive the papers covering the shipment of the citrus peel and the cargo was only loaded as a result of assurance from your office that the permits would be forthcoming.

This shipment, in a way, was no different than previous ones, and it took continual pounding to get any action, and the Water Division was continually calling here because the cargo was not coming down, all this in spite of the fact that I was assured several times they had sufficient trucks. They were supposed to start back-piling two days before the ship was scheduled to arrive, which they said they could do. Actually the cargo did not start to come down until the night before the ship arrived. Fortunately, we had two days in which to make the convoy, but with this amount of acrgo, and the arrangements that were made with the dock authorities, the whole business should have been loaded within 24 hours.

Instructions were given to the Water Division that if the cargo was not down in time, to sail the vessel, but this is not always easy to do, as it might turn out that the stowage of the cargo, expecting further lots, would necessitate shoreing up that which is is the ship, as a result of part of it being shut out.

It simply simmers down to the point that where they commit themselves for a shipment and are told when to have it down, it is absolutely necessary that they do so. I wish you would again impress this on Major Godfrey and see if he can't do something to get these people in line to carry out their obligations on previously agreed-to arrangements.

1. We refer to your letter Ref. AC/618/230/Tn.3 of 24 April.

2. We have notified TROOPERS of the necessity of obtaining M.O.F. authority.

3. On 6 March TROOPERS sent a cable PAT 31, which emanated from the Ministry of Food, asking us to expedite shipment and we have just received a letter dated 19 April, addressed to M.O.F. Representative, Rome, confirming this and asking if the telegram has been received.

4. Major Gent is now in London and this is one of the matters he will get cleared up, as the information given by M.O.F. London to M.W.T. London seems quite contrary to their instructions to us.

To Transportation Sub Commission, H.Q., ALLIED COMMISSION.
From M.W.T.R. MEDITERRANEAN
Subject: Exports to the U.K.

Receipt is acknowledged of your letter, AC/618/203/TM3, of the 5th April, 1945, and due note is taken of the additional consignments.

As explained to you in a previous letter, we have no advice from London that these have been purchased by the Ministry of Food and, until such time as we receive instructions from the Ministry of War Transport calling them forward to U.K. on behalf of the Ministry of Food, we can take no action.

In the circumstances, it would be useless indicating any port for shipment.

You already have received from me the May requirements for the U.K. from Italy.

1. The functions of the Priorities Board is to establish the broad Policies under which allocation will be made. The Board is expected to arrive at Policies which will properly consider the needs of all sections of AC and Italian Government. Operations, as in the past, are delegated to Allocating Sub-Commissions so there will be no delay in the day to day interpretation and applications of the Board's directives. Moreover, each Allocating Sub-Commission with respect to its segment of supply or economic activity is regarded as the chief source of data and counsel on which the Board directives will be based.

2. Under the above concept of the respective functions of the Board and the Allocating Sub-Commissions, the Board would be ill-advised to render decisions with respect to single movements problems

1. The functions of the Priorities Board is to establish the broad Policies under which allocation will be made. The Board is expected to arrive at Policies which will properly consider the needs of all sections of AC and Italian Government. Operations, as in the past, are delegated to Allocating Sub-Commissions so there will be no delay in the day to day interpretation and applications of the Board's directives. Moreover, each Allocating Sub-Commission with respect to its segment of supply or economic activity is regarded as the chief source of data and counsel on which the Board directives will be based.

2. Under the above concept of the respective functions of the Board and the Allocating Sub-Commissions, the Board would be ill-advised to render decisions with respect to single movements problems without having first established a basic policy arrived at after due consideration of the total movements problem. The Board must rely on the Sub-Commission to collect, interpret and present data which will present the problem in its entirety. Likewise, the Board should receive recommendations from the Sub-Commission as to the basic policies and considerations which should govern the day to day operating decisions of the Sub-Commission as the allocating agency.

Declassified E.O. 12356 Section 3.3/NND No. 785021

3. It is felt that reference 1, 2 and 3 above deal with individual movements on which the Board should not act prior to the policy discussions indicated in Para 2. The Sub-Commission should continue to decide such issues, as in the past, until a general Board directive can be issued on the basis of facts and recommendations presented by the Sub-Commission.

4. With respect to reference 4 above, Mr Cleveland routed your 4 March letter to me and the other related letters are copies which have been routed to me for information. Mr Cleveland pointed out that the question of allocating port facilities or capacities was closely related to the movements problem and suggested, therefore, that it should be dealt with by Priorities Board as a part of the movements problem. The suggestion that a monthly meeting of the major bidders and an AFHQ representative was regarded as excellent provided forecasted required movements could be developed as a basis for AC claims. Appropriate priorities applied to the forecasted movements would naturally become one important factor in supporting the AC claim for port facilities. It is suggested that the material you present to the Board include your recommendations on coordinating the allocation of port facilities with the movements program.

5. It is evident that the Transportation S/C has been delayed in making its first presentation to the Priorities Board by the failure of other Sub-Commissions to observe the reporting and forecasting requirements set forth in Para 9 - a of Procedural Bullettin No.1 It is suggested that the Board Secretariat and the Transportation S/C collaborate closely between now and April 5 in procuring the records and forecats required on that date so that the over-all movements problem can be presented and discussed in the next regular Board meeting which is scheduled for April 16.

6. As a first step in carrying out the above suggestion. I have sent a letter to each Sub-Commission calling attention to the forecasting requirement and asking for their data on the required data. I am also making a Parallel request on the Government through the Institute of Statistics.

SUBJECT: Export of Olive Oil from Italy

FROM : Food Sub-Commission

TO : Director, Transportation Sub-Commission

1. It has been reported to this Sub-Commission that certain quantities of olive oil were being exported from Italy by the French.

2. This information was first alluded to in PWB Bulletin No. 42 dated 2 March 1945 (produced by D Section) in which it was stated that the matter had been discussed at an interview between Sig. Cuomo (Naples Food Director) and a PWB Officer.

3. The following sentence appeared in the said Bulletin: "Oil supplies are being exported by the Allies in large quantities although there is such a critical need for it at home".

4. Lt. Colonel Simpson, Zone Commissioner, Naples Zone, took the matter up with Mr. Cuomo and PWB when Sig. Cuomo stated that it was the French who were exporting it and that, as a matter of fact, an alteration had been made in the typescript where the word "French" was deleted and the word "Allies" inserted.

5. It is quite possible that French ships calling at Italian ports are buying black-market oil.

6. It will be much appreciated if Transportation Sub-Commission will instruct their officers at the various ports to look out for instances of this illegal export of olive oil, with the cooperation of the competent Italian authorities, and confiscate any oil found, reporting all such cases to this Sub-Commission.

INTER-OFFICE MEMORANDUM

Tel : 478704

23 March 1945

272/3/Tn 3

SUBJECT : Wheat Seed for Tripolitania

TO : Commerce Sub-Commission

Held by Rail.

1. Reference your AC/ 127/39/Commerce dated 20 March '45.

2. It is not expected there will be any great difficulty in transporting 345 tons wheat seed by rail to Port of shipment, but traffic must be bid in the normal manner.

3. However, Ravenna is not rail served and it will be necessary for this traffic to be transported by road to railhead. This may mean a road haul to Rimini, as 8 Army may not be able to agree to the use of any other forward railhead at the time movement is required.

4. It would greatly facilitate the transportation problem, if the exportable surplus could be made available in an area served by lines which are not so heavily loaded as those in forward areas.

Soon due in NAPLES port is French armed merchant cruiser QUERCY to load cargo and personnel for Southern FRANCE. This vessel will load only such cargo covered by shipping orders and armament and ammunition authorized by CINC MED. There is understood to be several hundred tons of cargo purchased locally in ITALY for French account which however may not be loaded unless it is cleared by Allied Forces Local Resources Section.

NEW SUBJECT

Commander YBERT, telephone Navy 41 advises unused cargo space may be utilised by American shipping orders.

2. Any exports of the Commodities detailed in your letter so far as France and Switzerland are concerned will depend on the following factors:-

(a) Priority being obtained to move the Commodities to the Ports. This should not be difficult for the Pyrites to Portiglione and the Zinc Blend to Cagliari. It must be remembered that C.in C. Med. will not at present permit Portiglione to be used before May, though permission has been requested to commence Shipments early April.

(b) Port acceptance capacity and clearance facilities being given in France for imports into France and Switzerland.

(c) Shipping being provided.

17 February 1945

Ref. AC/5127/A/Commerce

SUBJECT : Export Shipping.

TO : AFHQ, G-5 Section (Economics & Supply Division)

1. Reference your letter C-16, dated 27th Jan. 1945.

2. It is agreed that Transportation Sub-Commission should take over the movement side of Italian export trade; at present this work is done by Foreign Trade Section, Commerce Sub-Commission, by direct bids on W.S.A. and M.W.T. for all exports to destination outside the Mediterraneum and for Middle East.

3. As from 1 March therefore all bids for export will be made on Movements Division of Transportation S/C in the same way as bids for movements of stores by sea coast-wise or interisland are made at present. In view of the responsibility of Foreign Trade Section for control over export availabilities and allocations, all such bids will be presented or endorsed by F.T. Section. Movements Division of Transportation Sub-Commission will then bid on shipping authorities in the normal way for shipping space.

4. When giving initial advice to CG/S of export availabilities, Foreign Trade Section will clear with Movements Division to ensure that shipping and rail space can be provided for the overall tonnage involved.

Ref. AC/5127/A/Commerce

SUBJECT : Export Shipping.

TO : AFHQ, G-5 Section (Economics & Supply Division)

1. Reference your letter C-16, dated 27th Jan. 1945.

2. It is agreed that Transportation Sub-Commission should take over the movement side of Italian export trade; at present this work is done by Foreign Trade Section, Commerce Sub-Commission, by direct bids on W.S.A. and N.W.T. for all exports to destination outside the Mediterraneum and for Middle East.

3. As from 1 March therefore all bids for export will be made on Movements Division of Transportation S/C in the same way as bids for movements of stores by sea coast-wise or interisland are made at present. In view of the responsibility of Foreign Trade Section for control over export availabilities and allocations, all such bids will be presented or endorsed by F.T. Section. Movements Division of Transportation Sub-Commission will then bid on shipping authorities in the normal way for shipping space.

4. When giving initial advice to CG/S of export availabilities, Foreign Trade Section will clear with Movements Division to ensure that shipping and rail space can be provided for the overall tonnage involved.

5. The responsibility of Movements Division, Transportation S/C will include movement of cargo to port of warehouse, warehousing, hauling to shipside, and loading.

6. Shipping advices to consignee conntry and transmission of documents will continue to be made by Foreign Trade Section, Commerce S/C.

N. TRACE.

Reference your AC/5127/2/Commerce of 15 Jan, Subject: Pumice.

1. Your a/q letter was referred to the WSA representative AFHQ who has explained the circumstances relating to the dispatch of the reference signal as follows:

"Prior to the war there was a continual movement of Pumice stone from the LIPARI Islands to the UNITED STATES. We are having considerable difficulties in the ballasting of ships and an endeavour was made to contact the firm that previously exported this material to ascertain if the possibility of resuming operations was practicable in the very near future.

It is requested that when you reply to G-5, this point be stressed, and also our great difficulty in securing suitable cargo for ballast purposes on reefer ships, which has to be package cargo on account of the reefer installation which renders it impossible to load bulk materials on those ships.

We are informed that in SICILY there are surpluses of almonds and filberts and seeds, as well as other merchandise not specified, and it is requested that G-5 investigate this and endeavour to facilitate the movement. We estimate approximately 2000 tons a month of package cargo required, and any given amount of pumice."

2. We are advising WSA that Hq. AC is being notified of the availability of reefer space, and of the offer to lift pumice. WSA is further being advised that all exports are arranged by Hq. AC upon allocation of the Combined Chiefs of Staff after commodities have been declared available for export by the AFLRB, and that exports must be arranged through the Italian Government and not with private individuals.

Ref. C-16 27 January 1945

SUBJECT Export Shipping

TO Headquarters, Allied Commission, APO 394
(Attn: Transportation Sub-Commission and
Industry Sub-Commission)
Commerce

1. The progressive centralisation of all movement matters in the Transportation Sub-Commission is leading to increased efficiency and to a more economical use of all movement facilities. It is most desirable that this centralisation should be fostered in every way.

2. It is therefore considered that the time is ripe for the transfer of the purely movements side of the Italian export trade from the ~~Industry~~ Commerce Sub-Commission to the Transportation Sub-Commission. It is clearly undesirable in the long run to have two agencies dealing with shipping matters.

3. While the procurement of vessels for exports has proceeded with reasonable smoothness it is felt that the closer contacts which exist between the Transportation Sub-Commission and the shipping anthorities at A.F.H.Q. will tend towards the speedier clearance of commodities held at ports awaiting shipment on the one hand, and will relieve the ~~Industry~~ Commerce Sub-Commission from running a shipping side line on the other.

4. Your views on the above suggestion would be welcomed.

For the Acting Assistant Chief of Staff, G-5

MEDITERRANEAN SHIPPING BOARD,
A.F.H.Q., C.M.F.

14th December, 1944.

(40)

To:- Allied Commission
(Transportation Sub-Commission)

From:-Chairman, Mediterranean Shipping Board.

Subject:- Salvage - Harbour Craft.

This matter was discussed by the Mediterranean Shipping Board to-day.

Provided you are satisfied that if these vessels were raised, that this is the proper duty which they should perform, the Mediterranean Shipping Board would recommend that the matter be taken in hand in consultation with the Naval Authorities who are responsible in this area for salvage.

What the Mediterranean Shipping Board could not agree to however, is that any private firm should be given a guarantee against requisition provided they salve their vessels.

You will appreciate that in the case of schooners, and other craft, it might be a simple matter for these vessels to be sunk in shallow waters, and a similar bargain made with us in each individual case. I am sure you will therefore agree that it would be wrong to give such a guarantee, although it might be quite feasible, under your direction, to see that the vessels were allocated into the company's service.

L. Mountbatten

Chairman, Mediterranean Shipping Board.

SUBJECT: Shipment to U.S.A.

TO : Headquarters, Allied Commission, APO 394
(Attn: Transportation Sub-Commission)

39A

Presume you have seen A.C. letter AC/5127/21/Commerce of 29 November.

1. Stores for U.S.A. ex Calabria may be moved to Reggio for shipment in accordance with the request made by Commerce Subcommission. There is a fair chance of direct lift being made in returning wheat ships.

2. Should no direct ship become available in a reasonable time after a cargo has been assembled at Reggio, it will be necessary to bid for the cargo to be moved to a convenient point such as Naples or Bari.

3. No specific tonnage can be quoted as a minimum since there is no lower limit under the conditions of paras 1 and 2 above. Should, however, a cargo of 1000 tons or more be assembled at Reggio every endeavour would be made to lift it direct to U.S.A. by routing a returning vessel via Reggio.

1. We refer to your letter W-3 of 23 Sept. 44.

2. In view of the difficulty of getting transport to enable us to send goods from Calabria to Naples or Bari, and even to Sicilian ports, we shall be glad to know if shipments to U.S.A. from Reggio Calabria cannot be renewed temporarily.

3. In the affirmative please indicate the minimum tonnage which would have to be available.

The above concern advise us that they have several sunken boats, including two tow-boats and six ferry-boats.

The latter could be used to great advantage in loading their products on to steamers.

They are prepared to commence salvage operations should they be given a guarantee against requisition.

May we have your advice on the subject.

1 . With our letter 15th. inst. we have given you a list of all the deliveries of pyrites which have been effected from Scarlino Station to our factories. From the a/m list you will have noticed that 82 wagons were sent off from Scarlino against scheduled 174. You are also aware that traffic on the railway line has been interrupted and that it will only be reactivated in about 45 days time. As we have been informed that it is now possible to ship the pyrites from Portiglioni we have therefore prepared the following plan of supply by sea.

2.

Portici	3,600 tons
Cagliari	4,500 "
Barletta	3,500 "
Crotone	4,500 "

3 . As you know only coasters can at present load at Portiglioni but it will be possible to send there larger vessels as well, as soon as we will have rescued the tugs and the barges which were sunk.

4 . We have received no confirmation from Sicily as to the possibility of keeping our factories on the island supplied with sulphur. We would therefore feel obliged if you would kindly examine the possibility of supplying Sicily with pyrites. The requirement of our factories is the following :

Tommaso Natale (Palermo)	2,500 t.
Campofranco (Porto Empedocle)	2,000 "
Bicocca (Catania)	2,000 "
Milazzo	1,500 "

5 . Shipmentts should start as soon as possible in consideration that quantities indicated are urgently required by some of our factories in order not to have to stop their running and by some others in order to put a sufficient amount of pyrites to stock which will render their prompt reactivation possible.

1. Commerce Sub-Commission has a specialist section dealing entirely with matters pertaining to trade with non Italian territories.

2. In order to maintain a single policy and channel, all sub commissions who have occasion to quote figures or to procure commodities for export, will do so from the Foreign Trade Section of Commerce Sub-Commission and from no other source.

3. No other sub commission, or division will offer such information or procure such commodities without reference to the Foreign Trade Section of the Commerce Sub-Commission.

4. The Message Center has instructions to forward undesignated correspondence dealing with exports to Commerce Sub-Commission.

5. Where Commerce Sub-Commission does not appear on the distribution list of such correspondence then a copy will be forwarded them.

/ Copy not received by Th S/C

1. We refer to your letter SS/521/48/C of 16 Oct. 1944.

2. We have ascertained from Transportation Sub-Commission that the position is not as outlined in your s/c letter but in accordance with the following paragraphs.

3. Your para 1 (a). Warehousing and Forwarding Dept. is divorced from Food Sub-Commission and is incorporated in the Shipments Ports and Warehouse Division of the Transportation Sub-Commission.

4. Your para 1 (b). This applies to imports only.

5. a) Your para 1 (c). Foreign Trade Section, Commerce S/C, will continue to bid for steamer space through MWTR Med through the Liaison Shipping S/C for all export cargoes to Middle East or destinations outside the Mediterranean. Only for cargoes to be shipped to Mediterranean ports (except Middle East) will Foreign Trade Section bid for steamer space through Transportation Sub-Commission (Shipments, Ports and Warehouse Division).

b) Export Officers will send their bids for Railway wagons direct to Regional Transportation Officer.

6. Your para 1 (e). This applies to imports only.

7. Your para 2. As soon as we have indicated to you the name of the steamer by which goods are to be shipped, please keep in constant touch with DMWTR, Naples (phone:11704) in order to be kept up to date with the steamer's position. If they are unable to inform you - which is very unlikely - please ask ther to get the position from MWTR Med. In this way the placing of steamers at your disposal at too short notice should not arise.

8. Your para 3. This matter does not concern this Section of Commerce Sub-Commission and we have referred it to Capt. Klein for attention.
