This is MOC 417.

Subject is Italo/Swedish agreement. *FOUO 93*1. MOC 364, 392 and COM 339 refer. *FOUO 89*

2. Italo/Swedish agreement provides for exchange of goods value approximately 50 million Swedish crowns in 6 months, renewable for further 6 months periods until revoked by either country with one month notice. Increase of quotas of goods may be mutually agreed.

3. Agreement signed but awaiting exchange of notes to implement it. ALCOM have stated no objection to immediate implementation providing there is no shipment of outstanding RCL allocations which are now only citric acid, tartaric acid and 1946 balance of lemon oil.

4. ALCOM cannot understand why no action can be taken on MOC 392 when allocations requested in MOC 364 were considered without question in accordance with usual practice. By action in para 3, ALCOM is in effect policing Swedens adherence to combined board regulations. This is of course an untenable position.

5. In view of short time, said to be 3 weeks, before Swedish ports ice up consider that delay in referring matter to Sweden would impose regrettable restrictions of both countries.

5. Request that you immediately either (A) act on MOC 392 or (B) confirm that we can forthwith tell Italian Government that so far as ALCOM responsibility is concerned there is no objection to finalization of Italo Swedish agreement.

1. The following extract of Circular letter No JAM/9 of 10 October issued by NWT(R) Med. is passed to you for information.

1. The following is copy of Mast 9984 received from London and I shall be glad if you will be guided accordingly.
"1. It is new the Ministry policy that all liner loadings commencing with loadings against November programmes to UK must be for named ports of discharge.
Ministries of Food and Supply have been asked to indicate to shippers and shipping areas ports of discharge required for their cargoes and private shippers must be instructed to ascertain from the receivers the discharge port required where this is not already known.
Above contemplates that it may not always be possible for liners to load to their prewar discharge ports but that the going vessel must be loaded for the port of discharge required for the cargo.
There will be no objection to two port discharge where this is necessary."
2. Mast 9964 from London also advises that similar procedure should be applied to vessels proceeding to discharge in the Middle East.
3. Above contemplates that it may not always be possible for liners to load to their prewar discharge ports but that the going vessel must be loaded for the port of discharge required for the cargo.

"We have had replies from all areas to messages addressed to them in regard to suggested closing down of MIDDLE EAST DIVERSION ROOM all of which are favourable and indicate that it is practical proposition load vessels in their area for actual required ports of discharge in MIDDLE EAST. In one or two cases stipulation is made provided suppliers indicate to consignors ports of discharge required and this is of course essential. We have therefore decided all vessels bound for MIDDLE EAST commencing to load on or after 15th. October in all areas should load named port or ports of discharge. We are requesting all interested supply departments to instruct their shippers as necessary to enable this programme to be carried out. This action implies need for liner operators berthing ships for required ports of discharge.

- 2 -

Please confirm that action being taken accordingly your area".

As a general principle it would be advisable to ensure that all cargoes loaded from this area should be loaded for named port (s) and thus revert to peace time practice insofar as this is possible. "

Circular No. JAM/9

Ministry of War Transport
Mediterranean Representative,

Naples.

10th October, 1945.

Subject:- Vessels loading for named
Ports of discharge.

1. The following is copy of Mast 9984 received from London and I shall be glad if you will be guided accordingly.

- " 1. It is new the Ministry policy that all liner loadings commencing with loadings against November programmes to UK must be for named Ports of discharge.
2. Ministries of Food and Supply have been asked to indicate to shippers and shipping areas Ports of discharge required for their cargoes and private shippers must be instructed to ascertain from the receivers the discharge port required where this is not already known.
3. Above contemplates that it may not always be possible for liners to load to their prewar discharge ports but that the going vessel must be loaded for the port of discharge required for the cargo.
4. There will be no objection to two port discharge where this is necessary."

2. Mast 9964 from London also advises that similar procedure should be applied to vessels proceeding to discharge in the Middle East.

" We have had replies from all areas to message addressed to them in regard to suggested closing down of MIDDLE EAST DIVISION ROOM all of which are favourable and indicate that it is practical proposition load vessels in their area for actual required ports of discharge in MIDDLE EAST. In one or two cases stipulation is made provided suppliers indicate to consignors ports of discharge required and this is of course essential. We have therefore decided all vessels bound for MIDDLE EAST commencing to load on or after 15th October in all areas should load for named port or ports of discharge. We are requesting all interested supply departments to instruct their shippers as necessary to enable this programme to be carried out. This action implies need for liner operators berthing ships for required ports of discharge. Please confirm that action being taken accordingly your area."

3. As a general principle it would be advisable to ensure that all cargoes loaded from this area should be loaded for named Port(s) and thus revert to peace time practice insofar as this is possible.

HEADQUARTERS ALLIED COMMISSION
Office of the Chief Commissioner
APO 394

31 July 1945

My dear Mr. Prime Minister:

1. I wish to inform you that after 31 July 1945, the activities of the Allied Commission with respect to Italy's exports, will terminate. This decision refers equally to the territory which has already been returned to the jurisdiction of the Italian Government and to the territory which is at present under Allied Military Government. This means that the Allied Commission will no longer act as a channel of communication for export orders or for matters referring to the procurement or implementation of such orders.

2. Insofar as concerns the application of the decision which I now communicate to you in respect to territory under the Allied Military Government the appropriate Italian authority (which I presume will be the Istituto Commercio Estero) will carry on all export activities as a unit but, though acting as principal, will be subject to Allied Military Government control. Details of procedure will be worked out with your appropriate Ministry.

3. There are certain controls which it will be necessary for the Allied Commission to continue to retain, over Italy's export activities:

(a) In order that the Allied military and civilian supply program may not be impaired by conflicting export activities, the Allied Commission will continue to screen all declarations of exportable surpluses, will require monthly statistics of exports effected after 31 July 1945, and will have access to all other relevant data.

(b) The Allied Commission will continue to be responsible for insuring that those commodities which have been declared exportable by your Government and which fall under Category "A" (as defined in a letter written under reference AC/5127/A/Commerce dated 18 April 1945 and addressed to your Minister of Industry & Commerce) are reported to the appropriate Allied authorities and are subsequently exported to the country which such authorities shall specify.

Details of procedure to insure the implementation of sub-paragraphs (a) and (b) above will be worked out with your appropriate Ministry by Foreign Trade Division, Commerce Sub-Commission.

the Allied Commission will no longer act as a channel of communication for export orders or for matters referring to the procurement or implementation of such orders.

2. Insofar as concerns the application of the decision which I now communicate to you in respect to territory under the Allied Military Government the appropriate Italian authority (which I presume will be the Istituto Commercio Estero) will carry on all export activities as a unit but, though acting as principal, will be subject to Allied Military Government control. Details of procedure will be worked out with your appropriate Ministry.

3. There are certain controls which it will be necessary for the Allied Commission to continue to retain, over Italy's export activities:

(a) In order that the Allied military and civilian supply program may not be impaired by conflicting export activities, the Allied Commission will continue to screen all declarations of exportable surpluses, will require monthly statistics of exports effected after 31 July 1945, and will have access to all other relevant data.

(b) The Allied Commission will continue to be responsible for insuring that those commodities which have been declared exportable by your Government and which fall under Category "A" (as defined in a letter written under reference AC/5127/A/Commerce dated 18 April 1945 and addressed to your Minister of Industry & Commerce) are reported to the appropriate Allied authorities and are subsequently exported to the country which such authorities shall specify.

Details of procedure to insure the implementation of sub-paragraphs (a) and (b) above will be worked out with your appropriate Ministry by Foreign Trade Division, Commerce Sub-Commission.

4. Export Operations

I refer to my letter to you No. 13432/F of 18 July, and particularly to paragraph 6 thereof. It is expected that your Government will institute an effective foreign exchange control and will adopt such trade controls as are necessary to support the economic warfare objectives of the Allied Governments. The details of such objectives are to be communicated to you in the near future by the British and American Embassies in Rome. I would mention here specifically the importance of the adoption by your Government of the U. S. proclaimed and British Statutory Lists and the prohibition of trade communications or financial relations with persons named in either of these two lists. Action on this matter has been repeatedly requested by Finance Sub-Commission in correspondence with the Ministry of Treasury.

5. However, within the framework of the essential controls and regulations which your Government is expected to create and operate (controls which, I may remark in passing, are general controls imposed by all liberated countries) all countries are now free to deal directly with the appropriate Italian export authority, or with Italian private traders on a Government basis, or on a private basis, as you consider best, and through whatever channels your Government may decide.

6. Contracts and Proceeds

As from 31 July 1945, your Government will be responsible for all export contracts and further, will assume responsibility for and carry out any uncompleted contracts concluded prior to that date. This Commission will not be responsible or accountable for exports even relating to uncompleted contracts signed prior to 31 July 1945. Your Government will be responsible for making arrangements for payment of Italian exports and also for the collection of the proceeds of such exports.

7. Information regarding the accounting for export operations concluded prior to 31 July 1945, is being obtained from the recipient countries and agencies, by the Finance Sub-Commission of this Headquarters.

8. Communications and Negotiations

The U. S. Commercial Corporation, in accordance with the offer previously made to and accepted by your Government, is expected to act as your agent in the United States as from 1 August 1945, as an interim measure, pending full restoration of private trade and, for this purpose, it is expected that the U. S. Commercial Corporation will open a liaison office in Rome. From 1 August 1945, the United Kingdom Government will conduct its government buying through the British Embassy who will deal direct with the appropriate Italian authority. Other purchases will be made by private United Kingdom traders who will deal direct with that authority and contract as principals in accordance with the procedure outlined in paragraph 4, (ii) a), b), c), d) of letter AC/5127/A/Commerce dated 6 July 1945 to your Ministry of Industry & Commerce.

9. Copies of this memorandum are being issued to all Departments of the Allied Commission and to all outside interested Agencies, for compliance. You will, therefore, appreciate that immediate action by your Government is required to set up your own channels of communication and to develop the organization necessary to carry out its new and heavy responsibilities.

10. I shall appreciate, therefore, if you will inform me, as quickly as possible, of the action your Government has taken.

1. Ref Economic Section memorandum 13 dated
14th June 1945, copy attached.

2. Para 3 (b) states that the general respon-
sibility of the Allied Commission will not include the
distribution of imported supplies within Italian
Government territory.

3. At a discussion at which I was present, which
took place with General Robertson, General Spofford and
Brigadier de Rhe Philippe, it was stressed that so long
as SACMED was responsible for preventing disease and
unrest in this theatre, the Allied Commission were res-
ponsible to SACMED for seeing that imported supplies were
distributed properly. For this reason the C.A.O. gave
instructions that a minimum number of Allied Commission
Transportation Sub-Commission officers should be left in
Italian Government territory. Do you not think that
this matter should be pointed out to the Acting Vice-
President of the Economic Section in order that the
memorandum can be amended, if deemed necessary?

Subject : Export to U.K.

MWTR Med is reviewing the programme of exports to the U.K. in relation to priorities. He has requested me to ask you to kindly examine the table which follows also request you to say whether it agrees with your records.

Priorities for April/July shipments to U.K.:

	ITALY				SICILY				
	APRIL	MAY	JUNE	JULY	APRIL	MAY	JUNE	JULY	
× Hemp	✓ 500	✓ 200	✓ 200	✓ 200	-	✓ 420	-	-	150 Shipped
• Fruit Juice	-	-	-	-	-	-	-	-	
• Argols	-	-	✓ 380	✓ 200	-	-	-	-	
• Tartrates	-	-	(Bari)	637 1/2	-	-	-	-	
• Wines	-	-	-	-	✓ 120	-	-	-	
• Mustard	-	-	-	-	-	-	-	-	
• Seed	-	-	-	-	-	✓ 300	-	-	110 Ready
• Silk Waste	✓ All	Available	-	-	-	-	-	-	
• Raw Silk	✓ "	"	-	-	-	-	-	-	

None of the above appears to have been shipped but we have, of course, the "Lech" set up for part of the citrus juice.

Reference Allied Commission's Statement of Goods Requiring Movement for Export at 9th June and it would seem that the following items appearing therein have no priority and, therefore, cannot be shipped except on direct authority from M.W.T. London:-

Paules	Wine Lees	200 tons in bags
	Vegetable Seeds	1 1/2 " " "
Messina	✓ Citric Acid	60 " " "

From : War Shipping Administration

SUBJECT : Cargo for the U.S.A.

While in Naples I took up the matter of the allocation of shipping space for commercial cargo intended for the U.S.A. Due to the American Army outloading program it will be practically impossible to plan on getting any commercial cargo on Liberty type vessels. It will be necessary therefore, that commercial cargo intended for the U.S. be shipped to either Leghorn or Naples where it will be used for the ballasting of reefers which call at these ports several times a month as all of these reefers are destined for the east coast of the U.S. As some of the Liberties may be loaded for the Pacific, it is believed this is the best solution to the commercial cargo shipping problem that can be made at this time.

Subject: Trade at Sicilian ports.

This morning there came to my Office Mr. Alfonso Boggio, Commissioner of the Agrigento Chamber of Commerce, and since he was interested in meeting someone of Commerce Sub-Commission, Foreign Trade Division, who spoke Italian, I introduced him to Mr. Nidarkorn. They talked in a general way about the sulphur industry and gypsum exports, particularly from Porto Empedocle. Mr. Boggio explained that at Porto Empedocle 800 tons a day can be loaded, and in favorable circumstances even 1000 tons a day can be reached for a ship with at least four hatches, working an 8 hour shift, per w.w.d. Mr. Boggio explained that the safe draft at the quays is between 20 and 21 feet, after which ships should shift to the outer port where there is over 26', but owing to the silting of sand at the bar at entrance to port, the safe draft there is about 22 ft., so large ships would have to complete outside the port, which is easy from May to October.

I understand that Mr. Boggio is to have an interview with the Istituto Nazionale Commercio Estero, which may result in his getting some sulphur mine representatives to come to Rome to discuss with the Istituto and with Commerce C/C in regard to certain technical and trade matters. If any tangible results are reached, it will mean that traffic at Porto Empedocle, and also Licata (Agrigento) and Catania will be increased not only

Subject : Exports to U.K.

To : Transportation Sub-Commission
Movements Division, (Shipping Branch).

1. I have been instructed to inform you that the following items are authorised for shipment ex Italy to U.K. during the month of June:-

i) For Ministry of Supply: All raw silk
All waste silk
Hemp 200 tons.

ii) For Ministry of Food : Argols, Tartrates, etc., 380 tons ex Bari.
I have to point out that:

iii) There is an outstanding shipment of 190 tons of wine ex Sicily.
Can this be made available at Messina and at what notice?
There is a regular commitment of Services cargo to U.K. from Messina and space would be reserved for this wine if it is made available.
There is very little prospect of shipment from Palermo.

2. I am also directed to refer to signal 90777 CA.16 of 3rd. May 1945 (031505B) from Troopers for A.C. (A.C. ref: D/9757) and in particular to para 4 re briarwood. MWTB Med asks me to point out once more that any demand for shipment which is not agreed by MWT in London or inserted in their monthly programme cannot be accepted.

3. May I be informed, please, whether the wine referred to in 1 (iii) above can be made available for shipment at Messina?
