A few bids have been made
for cork movements to Northern
Italy - Many other shippers
have not made proper bids.

I have insisted that unless
proper bids are made - no action
can be taken either by
ITMA RE or A.C. In Sub Com.

Ref. 35079

SUBJECT : Export of Cork

TO : Ministry of Industry and Commerce

The Industrialist Union of Sassari has presented to this Alto Commissariato, the critical situation in which the local producers of cork find themselves because of the great difficulties hindering the exportation of this product to the continent, where it is much requested.

The cork industry in Sardinia is one of the most important industries of the island because of the capitals invested and the number of laborers employed. It is presently in danger of being paralyzed by the lack of transport, and is menaced, by competition, by Spain and Portugal.

We therefore beg you to take this problem into due consideration with the purpose of assigning to the movement of cork from the Island an adequate tonnage.

We make present too, that the cork Industrialist of the Continent have made similar request through the Federazione Italiana delle Industrie del Legno.
