SUBJECT: Export to Malta.

TO : Transportation Sub-Commission. ✓

see also (3)

1. There is an agreed six months programme of exports to Malta. The various commodities still to be shipped amount to approximately 5,500 tons, including a weekly shipment of 140 tons of Citrus Fruit.

2. Last year Malta was able to make its own arrangements for moving the goods from Sicily to Malta. It is understood that this arrangement is no longer possible.

3. The weekly shipment of 140 tons of Citrus Fruit comes forward regularly to Syracuse. The other goods come forward, as arrangements can be made by Export Division, Sicily Region, also to Syracuse. There is only one item of 350 tons of salt which will come forward to Trapani. 3108

4. In order to have a steady flow of exports to Malta, and to permit the total quantity required to be shipped in the period agreed, it is suggested that a weekly allocation of 200 tons of shipping space, available at Syracuse, should be made. This suggestion is based on the weekly 140 tons of Citrus Fruit and the fact that the remaining cargo space could be utilised to ship other commodities as they come forward. It is certain that this 200 tons of space per week could be fully employed.
