Dear McClure,

I am sure God would be most jealous if such boyfriends as "force majure, action by the King's Enemies, restraint of Rulers and Princes" etc stole the thunder from para 2 of AC/620/4/Tn 3. of 19th March.

SUBJECT : A.C. Key Shipping List No.1
w.e. 12 March 1945

1. Attached at Appendix 'A' and at Appendix 'B', respectively, will be found the latest forward shipping programmes, both import and export, covering vessels scheduled to arrive at (a) Italian Mainland Ports and (b) Sicily and Sardinia. At Appendix 'C' is a list of vessels stemmed but not yet allocated to discharging Ports which, when firm, will be published as amendments to this Key Shipping List, as necessary.

2. It should be borne in mind by all concerned that, while both Ports and arrival dates are firm to date, last minute alterations may be necessary due to changes in the overall shipping Policy or Acts of God. When this occurs, Regions concerned will be advised by letter or signal from this H.Q.

Transportation Sub-Commission
(Movements Division)

AJS/vh

Tel: Ext. 518

9th March, 1945.

372/220/Tn.3.

SUBJECT: Transport of Grain.

TO : The Regional Commissioner,
H.Q. Lazio Umbria Region.

1. Reference your Sitrep No. 3087, dated 7th March 1945.

2. There was a decrease in the quantity of grain imported into Rome during February, as it was necessary to impose cuts on the movement of grain due to high military priorities; however, the grain and pasta position has recently improved, and according to the returns sent to us through the Food Sub-Commission the grain stock on the 6th March was 31 days, and pasta stock 23 days. It is anticipated that the grain position should improve during March.

3. The amount of fruit and vegetables accepted by APBO for movement to Rome from Naples and the South for the week 26th February to 4th March was approximately 3,500 tons, an average of 500 tons per day. The acceptance of these bids over military lines does not necessarily mean that the traffic moves, because shortage of railway wagons may necessitate a cut. So far this Sub-Commission has been unable to get any accurate figures for movement of stores by rail, though steps have been taken as a result of which this information will become available weekly. (Rail Memorandum No.4, dated 23rd February, 1945, refers, copy of which was sent to you.) We shall be grateful if you can tell us from where you obtained the firm figure of 240 tons daily for fruit and vegetable imports.

4. You will see from the Shipping Information Programmes, dated 27th February and 4th March respectively, Ref. AC/620/1 Tn.3, and AC/600/2/Tn.3, that both wine and salt shipments are set up for import through Civitavecchia. Some of these ships are already discharging. Your statement therefore that there are still no signs of the March salt is not clear. The inaccuracies of the arrival dates of ships, and the changes made, are regretted but

it is hoped that this will improve as soon as the instructions contained in Shipping Memorandums Nos. 5 and 6 are more effectively carried out.

5. This Sub-Commission will be very pleased to give you any information possible on future arrivals, but you will find that a great deal of this information is now being circulated in the programmes which are being issued to your Headquarters.
