HEADQUARTERS ALLIED COMMISSION  
APO 394  
ECONOMIC SECTION

Ref.: 13018/F  
1 December 1945

SUBJECT: Transfers of Supplies and Materials from Italy to Venezia Giulia.  
TO: All concerned (distribution list at end of memorandum)

1. The Allied Commission has inquired of AFHQ, G-5 Section for a statement of policy respecting the transfer into Venezia Giulia of imported supplies on which the Italian Government has taken title. In a letter dated 12 September, the Chief Administrative Officer, Civil Affairs Office of AFHQ, notified that no objection would be offered to the transfer of imported items to that part of Venezia Giulia in the area lying west of the Morgan Line. TAM Cable 630 from CCS directs that civilian supplies for Venezia Giulia remain a military responsibility.

2. Imported supplies moved from Italy into Venezia Giulia may be transferred from

(a) Civilian supplies imported into Italy to prevent disease and unrest under combined military responsibility (Category A Supplies);

(b) Civilian supplies imported into Italy by the Italian Government, and charged against the fund set up in the U.S. Treasury representing the lire expenditure of U.S. troops in Italy and other Italian credits (Category B Supplies); and

(c) Civilian supplies imported into Italy under the 100 million dollar supply program of the Foreign Economic Administration (Category C Supplies).

It will be appreciated that Civilian Supplies of Categories B and C may be unloaded in Venezia Giulia so that, in fact, title never passes to the Italian Government.

Separate accounting records are required to be maintained at AFHQ Headquarters level for each of the three supply programs, because of the different arrangements under which charges are made against the Italian Government for the value of the goods. It will be necessary that the receiving, warehousing, distributing and accounting records of the agents for the Italian Government: Istituto Nazionale per il Commercio Estero, Federazione Italiana dei Consorzi Agrari, or Ufficio Centrale Carboni della Direzione Generale delle Ferrovie dello Stato, clearly show the particular programs under which supplies are imported into Italy. To accomplish this separate records must be maintained by them for each program, corresponding to the related records in the

Venezia Giulia of imported goods. In a letter dated 12 September, the Chief Administrative Officer, Civil Affairs Office of AFHQ, notified that no objection would be offered to the transfer of imported items to that part of Venezia Giulia in the area lying west of the Morgan Line. TAW Cable 890 from CCS directs that civilian supplies for Venezia Giulia remain a military responsibility.

2. Imported supplies moved from Italy into Venezia Giulia may be transferred from

(a) Civilian supplies imported into Italy to prevent disease and unrest under combined military responsibility (Category A Supplies);

(b) Civilian supplies imported into Italy by the Italian Government, and charged against the fund set up in the U.S. Treasury representing the lire expenditure of U.S. troops in Italy and other Italian credits (Category B Supplies); and

(c) Civilian supplies imported into Italy under the 100 million dollar supply program of the Foreign Economic Administration (Category C Supplies).

It will be appreciated that Civilian Supplies of Categories B and C may be unloaded in Venezia Giulia so that, in fact, title never passes to the Italian Government.

3. Separate accounting records are required to be maintained at AC Headquarters level for each of the three supply programs, because of the different arrangements under which charges are made against the Italian Government for the value of the goods. It will be necessary that the receiving, warehousing, distributing and accounting records of the agents for the Italian Government: Istituto Nazionale per il Commercio Estero, Federazione Italiana dei Consorzi Agrari, or Ufficio Centrale Carboni della Direzione Generale delle Ferrovie dello Stato, clearly show the particular programme under which supplies are imported into Italy. To accomplish this separate records must be maintained by them for each programme, corresponding to the related records in the Allied Commission. This requirement is essential, not only for charging the value of supplies against the Italian Government, but also for making allowance for credit for any supplies shipped from Italy to Venezia Giulia.

4. In the case of imported supplies taken on charge by the Italian Government and thereafter shipped from Italy into Venezia Giulia, the Italian Government, or the Italian Railways, as the case

DIST  
AFHQ BR  
Nov Div  
Dec Div

- 3 -

may be, must show on the related shipping documents, in the manner hereinafter prescribed, the supply programme under which the goods were furnished by the Allied Nations.

5. In connection with imported supplies (markings TOG and UK) furnished to Italy under the combined military responsibility, procedure has already been established for goods later transferred from Italy to Venezia Giulia. In such cases the agent of the Italian Government, who had previously acknowledged receipt of the imports on behalf of the Italian Government, has been allowed credit for the quantities transferred to Venezia Giulia. This credit is effected on the basis of a receiving report given by the port Liaison Officer or other AC representative making the shipment. The document serves to relieve the Italian Government of the charge, and to transfer the same to the account of AMG, Venezia Giulia. No change will be made in this procedure. The combined military supply programme for Italy (as distinguished from Venezia Giulia) was terminated with the August loadings except for some minor exceptions.

6. In connection with imported supplies (markings YT) purchased by Italy in the United States from the Troop Pay Fund and other Italian credits (Category B Supplies), particular attention is invited to the restrictive authorization of the Chief Administrative Officer that such supplies may be transferred "to that part of Venezia Giulia West of the Morgan Line". Thus imported "Category B" supplies transferred from Italy are limited for distribution by the XIII Corps to a defined area. When supplies previously taken on charge by the Italian Government as imports under "Category B" are transferred to Venezia Giulia, the Sub-Commission operating the transfer will make all necessary arrangements with IAT, the Federazione or the State Railways, and with the Port Liaison Officer or other AC officer handling the shipment. When it is needed, the respective agent of the Italian Government will prepare a transfer voucher in quadruplicate showing the consignee as XIII Corps AMG Venezia Giulia, the commodity, and the quantity. The transfer voucher will state that the shipment is made from U.S. Troop Pay etc., "Category B" Supplies. All copies of the transfer voucher will be retained by IAT, the Federazione or the State Railways and countersigned by the AC officer handling the shipment. The original transfer voucher will be forwarded to the Chief Accountant, Allied Supply Accounting Agency; the duplicates to the Supply Accountant, XIII Corps Venezia Giulia; the triplicate to the Transportation Sub-Commission; and the quadruplicate will be retained by IAT, the Federazione or the State Railways. It is important to note that transfers of supplies procured with YT funds will only be made after obtaining concurrence of the Italian Government.

7. In connection with imported supplies (markings YB) furnished to Italy under FIA 100-million dollar programme (Category C) and thereafter transferred to Venezia Giulia, the same requirements will apply and the same procedure will be followed, except that the transfer voucher will show that the shipment was made from FIA Programme Supplies (Category C).

the document serves to relieve the Italian Government of the charge, and to transfer the same to the account of AMG, Venezia Giulia. No change will be made in this procedure. The combined military supply programme for Italy (as distinguished from Venezia Giulia) was terminated with the August loadings except for some minor exceptions.

Thus imported "Category B" supplies transferred from Italy are limited for distribution by the XIII Corps to a defined area. When supplies previously taken on charge by the Italian Government as imports under "Category B" are transferred to Venezia Giulia, the Sub-Commission effecting the transfer will make all necessary arrangements with ICF, the Federazione or the State Railways, and with the Port Liaison Officer or other AC officer handling the shipment. When it is made, the respective agent of the Italian Government will prepare a transfer voucher in quadruplicate showing the consignee as XIII Corps AMG Venezia Giulia, the commodity, and the quantity. The transfer voucher will state that the shipment is made from U.S. Troop Pay Fte. "Category B" Supplies. All copies of the transfer voucher will be signed by ICF, the Federazione or the State Railways and countersigned by the AC officer handling the shipment. The original transfer voucher will be forwarded to the Chief Accountant, Allied Supply Accounting Agency; the duplicate to the Supply Accountant, XIII Corps Venezia Giulia; the triplicate to the Transportation Sub-Commission; and the quadruplicate will be retained by ICF, the Federazione or the State Railways. It is important to note that transfers of supplies procured with YT funds will only be made after obtaining concurrence of the Italian Government.

7. In connection with imported supplies (markings YB) furnished to Italy under FFA 100-million dollar programme (Category C) and thereafter transferred to Venezia Giulia, the same requirements will apply and the same procedure will be followed, except that the transfer voucher will show that the shipment was made from FFA programme supplies (Category C).

a. In the event that any Category B or C supplies are unloaded at Trieste direct from the original vessel, the AMG Supply Officer XIII Corps will sign the out-turn report in sextuplicate, and will forward all copies to War Shipping Administration, Rome. At the same time the AMG Supply Officer XIII Corps will also prepare a direct import receiving report in quintuplicate. Copies of the report will be distributed as follows: original and duplicate to Chief Accountant, A.S.A.A.; duplicate to

- 3 -

Supply Accountant, VIII Corps, triplicate to Transportation Sub-Commission, AG; the quadruplicate will be retained in his files.

9. The Supply Accountant in Venezia Giulia will maintain separate accounting records, where applicable, for :

- (a) Combined Military Responsibility Supplies (Category A);
- (b) Troop Pay Etc, Supplies (Category B) ; and
- (c) FFA Programme Supplies (Category C).

Statements of stock movements, schedules of imports, schedules of transfers of supplies received, and schedules of sales of supplies will be rendered separately for each of the three categories. Schedules of sales supporting the statement of stock movements under categories (a), (b) and (c) will show the respective quantities issued and the sales values according to geographical sub-divisions, Gorizia, Trieste, and Pola. Sales in Udine should be recorded separately.

2. The conference called by this HQ was held yesterday as arranged; it is regretted that representatives from AFHQ & Allied Commission were unable to attend.

3. It has been arranged that supplies planning for the territory for the period Jan/Jun 1946 will be carried out in three parts :

- (a) Imports from UK/US sources.
- (b) Imports from Italian sources.
- (c) Imports from adjoining countries.

4. Plans for category (a) - imports from UK/US sources, are proceeding and will be submitted as soon as possible. It will not, however, be possible to submit these by 12 Oct as requested.

5. Further direction is required in regard to (b) - imports from Italian sources.

Your signal FX 54913 which refers in para 4 "to secure maximum utilization of Italian resources" indicated a demand for supplies planning for all supplies from Italy - raw materials - processed and semi-processed. May confirmation from C.C.S. therefore be obtained IMMEDIATELY as to:

(1) whether it is necessary to produce NCM, or at any time, comprehensive schedules of such supplies required,

or

(2) whether in this area we may continue to procure supplies from Italy as and when required without approval from any authority other than those instituted by the Italian Government or A.M.G. in regard to the movement of supplies from one area to another.

6. The matter is one of prime importance for this HQ and your immediate attention to this matter would therefore be appreciated.

For the Senior Civil Affairs Officer.

Any balance will be applied against future VENETIA GIMIA and UDINE requirements. Future ALCON requisitions will be adjusted ~~accordingly~~.

4. AMG VENETIA GIMIA and UDINE will coordinate fully with ALCON in distribution of supplies and planning of future requirements to secure maximum utilization of Italian resources.

5. It is requested that AMG VENETIA GIMIA and UDINE submit by 12 October in coordination with and through ALCON to this HQ monthly requirements for the 6 month period beginning January 1946. These requirements will not vary from scales laid down for VENETIAN ITALY and it is presumed that they will closely approximate to those already submitted for September-December.
