MINISTRY OF TRANSPORT
CENTRAL COAL OFFICE

Ref. U.C.C.3/3611 13th July, 1945.

SUBJECT : s/s "PORJUS" at Messina.

TO : HQ. ALLIED COMMISSION - TRANSPORTATION SUB-COMMISSION
for inform. " " - COMMERCE S/C- COAL DIVISION
= APO 394 =

With reference to your letter AC/653/135/Tn.3 of the 24th June 1945 we state as follows :

1. The Central Coal Office, without any previous notice from the Coal Division, received in the morning of the 19th June telephonic communication from the Agenzia Marittima of Messina to the effect that the s/s "PORJUS" had arrived in that port. The said Agenzia Marittima asked that it should be confirmed to them that the vessel was actually to be discharged at Messina, since the Allied Authorities in that port had no instructions on the subject.

The Central Coal Office replied that proper instructions would be given in due time, after making inquiries at the Coal Division, AC, and that the Agenzia Marittima should comply with the instructions that the local Allied Authorities would presumably issue in the meantime; this to avoid any loss of time to the vessel.

2. The Central Coal Office, through their liaison Official, submitted immediately the question to the Coal Division, and Capt. Jones of the said Division, in the morning of the 19th June, communicated that the s/s "PORJUS" was to be discharged at Catania instead of Messina.

However, in the late afternoon of the same day, Capt. Jones, cancelling the communication given in the morning, informed that the s/s "PORJUS" was to be discharged at Messina.

We tried every means to pass this information to the Agenzia Marittima of Messina, but unsuccessfully, owing to the late hour.

3. In the meantime the Allied Command of Messina had given instructions to the Agenzia Marittima to start discharging the vessel; the discharge was commenced in the morning of the 20th June and ended on the 24th same month.

4. We take this opportunity to ask you to make arrangements for your competent Offices to communicate to the Central Coal Office, some days in advance, the expected date of arrival at the ports of each coal carrying vessel. This would be necessary to enable the Central Coal Office to inform in due time the Agenzie Marittime which, in their turn, would be then in a position to prepare the work for the reception and delivery of coal.

Declassified E.O. 12356 Section 3.3/NND No. 785021

the Coal Division, received in the morning of the 19th June tele-
phonic communication from the Agenzia Marittima of Messina to the
effect that the s/s "PORJUS" had arrived in that port. The said
Agenzia Marittima asked that it should be confirmed to them that
the vessel was actually to be discharged at Messina, since the
Allied Authorities in that port had no instructions on the subject.

The Central Coal Office replied that proper instructions would be given in due time, after making inquiries at the Coal Division, AC, and that the Agenzia Marittima should comply with the instructions that the local Allied Authorities would presumably issue in the meantime; this to avoid any loss of time to the vessel.

2. The Central Coal Office, through their liaison Official, submitted immediately the question to the Coal Division, and Capt. Jones of the said Division, in the morning of the 19th June, communicated that the s/s "PORJUS" was to be discharged at Catania instead of Messina.

However, in the late afternoon of the same day, Capt. Jones, cancelling the communication given in the morning, informed that the s/s "PORJUS" was to be discharged at Messina.

We tried every means to pass this information to the Agenzia Marittima of Messina, but unsuccessfully, owing to the late hour.

3. In the meantime the Allied Command of Messina had given instructions to the Agenzia Marittima to start discharging the vessel; the discharge was commenced in the morning of the 20th June and ended on the 24th same month.

4. We take this opportunity to ask you to make arrangements for your competent Offices to communicate to the Central Coal Office, some days in advance, the expected date of arrival at the ports of each coal carrying vessel. This would be necessary to enable the Central Coal Office to inform in due time the Agenzie Marittime which, in their turn, would be then in a position to prepare the work for the reception and delivery of coal.

Only by following this procedure will it be possible to prevent vessels from being held up at ports in consequence of missing or delayed communications regarding their arrival.

p.c. COAL DIVISION
A P O 394

In relazione alla lettera n°AC/653/135/Tn.3 del 24 giugno u.s. si fa presente quanto appresso:

1- L'Ufficio Centrale Carboni, senza alcun preavviso da parte della Coal Division, ebbe notizia dell'arrivo del carboniero" Porjus " a Messina la mattina del 19giugno u.s., a mezzo telefono, dalla propria Agenzia Marittima di quel porto la quale chiese conferma se detto piroscafo dovesse scaricare effettivamente a Messina dato che nessuna istruzione avevano le Autorità Alleate di Messina.

L'Ufficio Centrale Carboni si riservò di dare istruzioni dopo aver interpellato in proposito la Coal Division ed avvertì l'Agenzia Marittima di Messina di attenersi alle istruzioni che le Autorità Alleate del posto potevano eventualmente impartirle nel frattempo e ciò ad evitare perdita di tempo al piroscafo.

2- L'Ufficio Centrale Carboni, a mezzo del proprio Agente di collegamento, interpellò quindi subito la Coal Division ed il Cap. Jones della Coal Division fece comunicare nella mattinata del 19 giugno che il s/s"Porjus" doveva scaricare a Catania anzichè a Messina.

Senonchè nel pomeriggio inoltrato del medesimo giorno 19 lo stesso Cap. Jones, annullando la comunicazione fatta la mattina, informava che il "Porjus " doveva scaricare a Messina.

Si cercò di tutto per comunicare tale notizia a mezzo telefono all'Agenzia Marittima di Messina,ma non riuscì possibile, data l'ora inoltrata.

4673

0024

Declassified E.O. 12356 Section 3.3/NND No. 785021

3 - Frattanto dal Comando Alleato di Messina veniva dato ordine alla Agenzia Marittima di procedere allo scarico del " Porjus " che veniva iniziato la mattina del 20 giugno e che fu proseguito fino alla sua ultimazione avvenuta il giorno 24 giugno stesso.

4 - Si prende occasione dall'incidente segnalato da codesta Sub - Commission per rivolgere preghiera affinchè siano date disposizioni ai competenti Uffici di comunicare all'Ufficio Centrale Carboni, con qualche giorno di anticipo su quella prevista, la data del probabile arrivo nei porti dei singoli piroscafi carbonieri. Ciò per mettere in condizioni l'Ufficio Centrale Carboni di poterne avvisare in tempo debito le dipendenti Agenzie Marittime che, a loro volta, si trovano così in condizioni di predisporre il lavoro per il ricevimento e le consegne del carbone.

Solamente seguendo tale procedura si potranno evitare soste ai piroscafi dipendenti da mancati o ritardati avvisi di arrivo nei porti.

IL DIRETTORE GENERALE

Guido Pinnarola

Each note must be numbered and each space completely filled in. THIS WORK SHEET MUST NOT BE REMOVED FROM THE CORRESPONDENCE TO WHICH ATTACHED UNTIL ACTION IS COMPLETED AND THEN FILED WITH FILE COPIES OF COMMUNICATION TO WHICH IT PERTAINS. A line will be drawn the full width of the page under each note.

SUBJECT: Ship Movements

No	Date	To	REMARKS	From
1	21/6 1945	Shipping S/C	1. Reference conversation Handley - Godfrey this morning. 2. Attached is a letter received from A.C. Liaison Officer Palermo which is self explanatory. If you agree, it is suggested that a letter might be sent to M.W.T. representatives in Sicily, pointing out that the authority for collier movements and diversions is the Coal Reception Committee A.F.H.Q., and that requests for diversions should be submitted direct to M.W.T. Caserta, repeated to M.W.T. Rome. If we could receive a copy of such a letter we would pass it on to our Liaison Officer in Palermo who will then be in the picture as regards correct procedure.	Tn. OFFICE OF THE

BRITISH MINISTRY OF WAR TRANSPORT

TELEPHONE 61328 Ext. 37

Rome, 1 July 1945.

To : Transportation Sub-Commission
Movements Division.

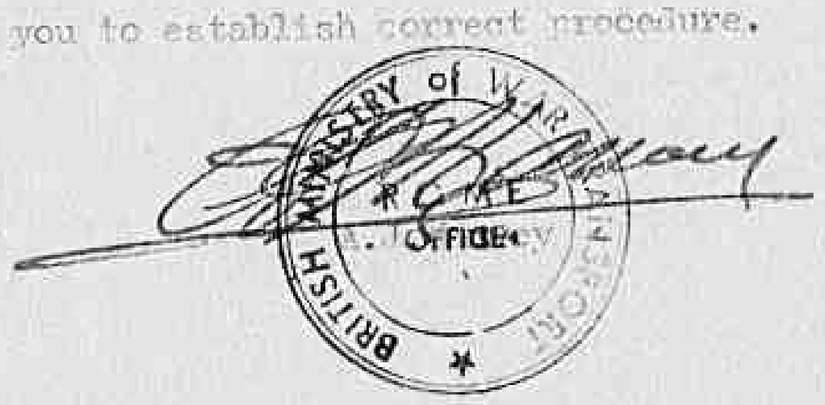

Subject : Collier Diversions.

In response to your request for ruling on the procedure to be adopted for diversion of coal cargoes, which was passed on to MMT Caserta, we have received the following reply:-

"It is Alcom Coal Division, Rome, who decide where it is "most advantageous to lay down stocks of Sardinian coal, "and the ships are ordered to these destinations after "consultation with us. It follows, therefore, that should "the High Commissioner in Sicily consider that a Sicilian "port is being "starved" of coal, he should approach Alcom "Coal Division direct or through whatever channels A.C. think "are appropriate.

"I suggest, therefore, Allied Commission instruct the High "Commissioner along these lines."

and trust this will enable you to establish correct procedure.

Enclosure:-

Original letter from A.C.Liaison Officer, Palermo dated 11/6/45. 4557

File No. AC/SIC/296/Tn.3. 5 July 1943

SUBJECT : Ship Diversions.

TO : The High Commissioner for Sicily.

1. The A.C. Liaison officer in Palermo has requested a ruling on the procedure for diversion of ships in Sicilian ports. The following method has therefore been agreed with A.F.H.Q.

2. It is A.C. Coal Division, Rome, who decide where it is most advantageous to lay down stocks of Sardinian Coal, and the ships are ordered to these destinations after consultation with A.F.H.Q. It follows, therefore, that if you consider that a Sicilian Port is being starved of Coal, you should approach A.C. Coal Division direct for a diversion to be made. If they agree, they will take up the matter with A.C., Movements (Shipping) Division. Similarly, in the case of grain ships, you should make a request direct to A.C. Food Sub-Commission.

3. It is not necessary for such requests to be channelled through the A.C. Liaison Officer, Palermo.

For the Chief Commissioner:-

L. Andrew Chance

OFFICE OF A.C. LIAISON OFFICER
c/o N.O.B.
PALERMO

FILE Civ/26

11 June 1945.

SUBJECT: Ship Movements

TO : HQ Allied Commission
APO 394

HEADQUARTERS
18 JUN 1945
A. C.

1. For some reason not clear to the Liaison Officer many requests for the diversion of coal cargoes and grain ships are brought to this officer. Not only does the High Commissioner seem to think that I must concern myself in these matters; but even the M.W.T. representatives (at Catania and Palermo) seem sure that I have the duty of intervening to obtain consent for any changing of ports or discharge.

2. Of course all I can do is forward such recommendations . Knowing nothing of the matter, I serve simply as a sort of telegraph operator in these proceedings. With the limited staff I have here it is a task I must look after personally; it is therefore work that I do not wish to perform unless it is extremely necessary that these matters go through this office.

3. I have often asked the local representatives of M.W.T. why they cannot get necessary approval through their own channels. The wisdom of such a course would seem to be indicated by the most recent case to arise: On Thursday I wired ALCOM Headquarters that M.W.T. recommended the diversion of part of the coal cargo of steamer 'Edera' to Porto Empedocle. Your cabled reply stated that M.W.T. consented to the proposed diversion. What I have difficulty understanding is why the local M.W.T. representative cannot himself forward such recommendations to Rome. I exercise no intelligent control over these matters, and therefore suggest that either the High Commissioner or the M.W.T. representative be authorized to forward recommendations for both coal and grain diversions direct to the appropriate agency in Rome without the present merely mechanical intervention of the Liaison Officer.

INTER OFFICE MEMO GBG/mdp

Ref. : AC/553/141/In 3 29 June 1945

SUBJECT : Coal for Northern Italy.

TO : Executive Commissioner.

1. Reference your Inter Office Memo Nº 5016-AC dated 27 June 1945.

2. There is no truth in the statement which appeared in the Italian Press "Giornale del Mattino" on the 22 June regarding the reason for the diversion of three vessels carrying coal for discharge at Genoa.

3. At the Mediterranean Shipping Board Meeting A.F.H.Q. on the 19 June, the Board's attention was drawn to the fact that three colliers destinated for Genoa discharge could not be accepted at that port. It was therefore agreed in view of the still indefinite date for the opening of Genoa, that alternative ports of discharge would have to be found, to avoid delays to the vessels concerned. Arrangements were accordingly made to divert these vessels to Southern ports.

4. Since the date that this statement appeared in the Press, the port of Savona has been declared open and the "Benjamin Asborn" is at present discharging coal at this port.

4611

SUBJECT :- Collier PORJUS at Messina.

TO :- Ministry of Transport (Central Coal Office)

1. The local town authorities of Messina recently requested that colliers should be put into Messina in order to provide the neigh-bourhood with coal but primarily provide work for the considerable number of unemployed in the port.

2. Accordingly the S.S. PORJUS was diverted to Messina and arrived there on 18 June with 4100 tons Sardinian coal, it being understood that only small colliers of this type were suitable for Messina on account of draft and length of quay. However, on her arrival there the Agenzia Marittima refused to discharge her saying she ought to go on to Catania for discharge, as she had on board Sardinian coal and not railway coal.

3. It is pointed out that this vessel was diverted to Messina by the Shipping Authorities in answer to a specific request and that it would appear entirely outside the power of the Agenzia Marittima to refuse to unload her. It is therefore requested that an immediate report be obtained from this Agency as to the circumstances in which they refused to accept the PORJUS, which as a result, lay idle in Messina for two days.

SECRET.

We have nominated BEN OSBORN about June 27 to discharge coal cargo SAVONA after lightening at CIVITAVECCHIA to 26 feet draft. It will be necessary for you to arrange with American export lines agents for the discharge of this ship at the coal transporter. Military authorities although not physically interested in the port of SAVONA will give you assistance and facilities to organise discharging which we are anxious to develop to full capacity. Advise immediately arrangements concluded.

SUBJECT : 15.000 tons of Coke Massa/Vada.

TO : Commerce Sub-Commission, Coal Division.

1. Reference conversation Lt.Col. Oxley - Major Godfrey.

2. From recce reports available in this H.Q., shipment of the above consignement at the present moment would not appear to be possible, as both the ports of Marina di Carrara and Marina di Massa are blocked for shipping.

3. It would appear from these reports that Marina di Carrara could afford the best opportunity for moving this coke, but pending a detailed reconaissance now being undertaken by a member of this Sub-Commission, any date for the commencement of movement cannot as yet be given.

Subject : Shipment of coal from the Port of Sant'Anticco.

TO : Azienda Carboni Italiani, Via Lucullo 16, Rome.

1. Your letter of 18 June '45 is acknowledged. - N.T.

2. The increase in the stocks of Sardinian coal to which you refer, are known to this Division, and representations have been made to Allied Force H.Q. for more shipping to clear the coal now standing.

3. The position is, however, rather more serious because owing to the delay, caused by the existence of many enemy mines, to the arrival of large vessels of Liberty size, into the ports of Genova and Savona, there has arisen a great demand for coaster vessels of the type which usually carry Sardinian coal.

4. These smaller vessels will be loaded with high grade imported coals transhipped from Liberty ships at Naples and elsewhere, and owing to their smaller size and shallower draught they are able safely to enter and discharge their cargoes and thus to mitigate to some extent, the acute shortage of coal in the North. We are informed therefore by AFHQ that for a few weeks, at least, it will not be possible to send these vessles to Sardinia and your stock piles will have to be greatly increased.

5. In view of the urgency of the matter, and the utmost importance of importing coal immediately into Genova and Savona, you are requested to take steps to stock pile your coal to the best advantage. Every ton of Sardinian coal is and will be needed, and it is most definitely urged that production at the mines shall not cease for one moment. You are requested to take all possible steps to obviate spontaneous combustion.

4625

6. It is repeated that this condition it is hoped will end in a few weeks with the clearing of the ports f Genova and Savona, but in the meantime you are aksed for the utmost collaboration in the present exceptional circumstances on the lines set out above.

HEADQUARTERS ALLIED COMMISSION AMAC/alp
APO 394
Transportation Sub-Commission

Ref :- AC/653/102/Tn.3. 7 May 45

SUBJECT :- Discharge of " SAMNID" at Messina

TO :- G-4 (Mov & Tn) AFHQ.

101

1. Receipt is acknowledged of your 5/377 dated 2 May 1945 on the subject of discharge of colliers at Messina.

2. A signal was sent to Messina by this office requesting a report on the slow discharge of bulk grain ex s.s. "SAMNID", and the following reasons were given in reply :-

a) rain
b) inadequate bags (two small)
c) repairs on board (winches)
d) delay in port clearance

No mention is made of shortage of labour, and it is hoped therefore that there will be no difficulty in obtaining acceptance for a collier into Messina in conjunction with C. in C. Med.

3. Investigation is being made by Food Sub-Commission into the alleged inadequacy of bags, and a signal has been sent to Messina calling for information on the reported shortage of labour.

Subject : Discharge of Colliers in MESSINA.

ALLIED FORCE HEADQUARTERS

G-4 (MOV & Tn)5/377/GRM

To : Allied Commission, Tn Sub-Commission.

2 May 45

Tel: FREEDOM 302

1. A request has been received to discharge colliers to MESSINA to fulfil half the requirements of railway coal for East SICILY, and thereby alleviate unemployment conditions at that port.

2. It is reported however, that "SAVNID" now at MESSINA, on 28, 29 and 30 Apr, discharged 300, 320 and 150 tons respectively, and that it is considered unlikely that these figures will be improved owing to shortage of labour.

3. As this port is used extensively as a repair base for landing craft, acceptance of vessels has to be agreed with NCIC MESSINA. If an assurance of maximum discharge figures can be guaranteed by Allied Commission, endeavours will be made to obtain acceptance for a collier in conjunction with ~~[illegible]~~ C-in-C Med.

19th April 1945

SUBJECT: Coal and Coke Requirements for Italy.

TO : Q.M. (Coal Section)
A.F.H.Q., APO 512

1. Herewith estimates of Imported Coal and Coke for Italy, Sicily and Sardinia for the months of June to December 1945 inclusive, in appendices as follows:-

Appendix "A" - Month of June - Coal
" "B" - Month of July - Coal
" "C" - Months of June and July - Coke
" "D" - Months of August/December inclusive
" "E" - Month of June - Sardinian Coal.

2. Your attention is drawn to the following:-

a) - For the month of June the tonnage of 20,000 is included for the port of Genoa, based upon the last figure which was agreed at the Long Term Maintenance Meeting at A.F.H.Q., but for the month of July the figure of 50,000 tons has been used.

b) - Following the decision of A.F.H.Q. to supply 8000 tons of Imported coal monthly for Selvay Works for each of the months May and June, that quantity is shown in June together with 1500 tons of coke.

c) - In calculating the Imported equivalent of Sardinian to replace the latter, the proportion of 4 to 3 has been adopted, which is regarded as reasonable based upon calorific value.

d) - The requirements of the Sugar Beet programme, of Harvesting and Tomato Processing have been included, starting with June.

e) - No provision has been made for the four gas works of Sicily, a total requirement of 1500 tons of gas coal monthly.

f) - The figures for August/December inclusive have been made up to conform with the estimated made by the

Risposta al f. N°
del

OGGETTO: Approvvigionamento carboni per la Prov. di Salerno.-

L'Ufficio Provinciale del Commercio e dell'Industria di Salerno ha fatto presente a questo Ministero l'opportunità che i piroscafi trasportanti carbone estero o Sardo destinati al fabbisogno della predetta Provincia siano fatti approdare a Salerno, che è dotata di un porto attrezzato e di mano d'opera disponibile, anzichè a Napoli, date le gravi difficoltà che presentano nell'attuale momento i trasporti con automezzi o per ferrovia.

Si prega codesta Commissione di voler esaminare l'opportunità e la possibilità di provvedere a quanto prospettato a questo Ministero dal predetto Ufficio.

IL MINISTRO

Ministry of Industry, Commerce and Labour
General Direction Industry and Mines

Rome, 29 March 1945

Ref.: 1902

To : A.C. Tn.C/C. - Rome

Subject : Supplies of coal for the Province of Salerno

The provincial Office of Commerce and Industry of Salerno has pointed out to this Ministry the opportunity that steamers carrying foreign or Sardinian coal for the above mentioned province should land at Salerno, which has an equipped port and the necessary man power, instead of landing at Naples, considering the serious situation of rail and road transports.

We would appreciate if that Commission will consider the opportunity and the possibility of accepting the suggestion proposed by the above mentioned office to this Ministry.

for the Minister
(sgd. Fiore)

Mrs Marshall

4555

Arrange with Coal Section if quantity
Amounts to Salerno — agree Rail Etc.

Have spoken U.K. Movement
West Italy who are definitely opposed
unnecessary Diversion & Costs for Exchange
they state that at present coal
can be cleared for Clearance at Naples
which is working fairly smoothly

HEADQUARTERS ALLIED COMMISSION JAB/bm
APO 394
Transportation Sub-Commission

Our Ref. : AC/653/63/TN.3 7 April 1945

SUBJECT : Collier at Augusta.

TO : Fleet Salvage Officer.

1. It is understood that a vessel with a cargo of approximatively 7000 tons of Silesian coal is lying aground in Augusta harbour.

2. As this coal is extremely valuable to day, this Commission would appreciate your opinion on the possibilities of either raising of vessel or salving the coal.

For the Chief Commissioner :

M.B. THOMAS, Colonel,
Deputy Director.

Copy to :- Industry Sub-Comm.(Coal Section).

This message is LAC 1091.

Subject is your CAL 1266.

(1) Limited number deep draught coal berths available are used to lighten ships for shallow draught ports. Segregation of coal not therefore possible until further deep draught coal berths available at GENOA and VENICE/TRIESTE.

(2) Accordingly request coal continue be supplied until further notice to specification agreed in CAL 1224 and preceding cables.

(3) Necessity to utilize lower grade coals for electricity and industrial purposes fully appreciated here. Position will be kept under constant review to ensure segregation is made earliest possible.

Coal shipments ex San Antioco

Latest information received by this HQ advises that the present total out-put of coal mines at SAN ANTIOCO is now estimated at between 45-50,000 tons per month. This tonnage is limited by actual mine production and cannot be increased until as such time as more mine labour becomes available.

Local consumption in SAN ANTIOCO calls for approx. 10,000 tons of total production, leaving a total of between 35-40,000 tons of coal available for export per month.

There is no stockpile and it is not considered that daily export can exceed an average of 1200 tons: shipping should not therefore at present be set up to exceed this loading figure.
