Milan 11 Oct. 45

Subject :Requested of sea transport from Cagliari to Genoa
To :I T M A R E Rome

The Sos. Cer. Richard -Ginori, Via Bigli N.1 Milan needs to withdraw from its usual furnishers "Caolino di Sardegna S.A. Cagliari" (Administrative Offices in Mozzate Seprio (Como) 800 tons of raw material for its industry. This material will be distributed its factories in Milan S/ Cristoforo (200 tons of clay - and 200 tons of Caolino), and in Milan/Lambrate (200 tons of clay and 200 of Caolino) which totaly employ more than 1000 workers.

Considering that:

- these materials are at the base of its production,
- the supply is urgent since this material is gradually becoming scarce,
- their arrival in the factories would permit the continuance of work in the a/m factories,
- that the supply from other countries has ceased and that there are no possibilities of importing,
- that the a/m factories make sanitary and ingienical materials for hospitals and Healt Bureaus, buildings firms interested in the reconstruction of howres for the war refugees, and earth ware for home use (factory in Lambrate) of which there is great request by this,

we ask that one or more sea transportation means be allotted it to move the a/m amount of material (or even more) from the Port of Cagliari to that of Genoa.

We futhermore inform you that 5/600 tons are already on the quay and that the remaining amount will be ready by the end of the month.

We make present too that if this request is not granted its productive possibilities would be so much diminished that in a short time it would be forced to close down.

Since the a/m furnishing firm has sent request to the I T M A R to obtain sea transportations for our and other material to be delivered we interveen to support the a/m request.

Hopeful you will send us a reply we remain

Your truly
Società Ceramica Richard-Ginori

SUBJECT : Bids for Richard-Ginori, Florence.

TO : A.M.G. Toscana Region.

1. Reference your letter RVIII-77-55 dated 29 May '45.

2. Going to Porto Torres still being aimed, it is impossible for the "PRIMOCA" to proceed there, as originally planned, to lift 700 tons of Kaolin.

3. It is also understood that the 500 tons of Kaolin which was bid for by this firm from Cagliari is not available at the moment, and the "PRIMOCA" therefore has been nominated to load 770 tons bulk salt Cagliari - Pombino.

4. As soon as the Kaolin is available at Cagliari, if arrangements could be made to advise this B.C., we would arrange to move as quickly as possible.
