2. Col. Sieff stated that the purpose of the meeting was to discuss the September Tonnage Allocation and to review June, July and August allocations in the light of information to be given by Major Carver.

3. Major Carver stated that June tonnage allocations would remain unchanged, but that increased capacities would be available in Northern ports for July and August.

4. Col. Sieff asked if any Sub-Commission wished to amend their July and August bids.

(a) July

Food Sub-Commission stated that they wished to submit a bid for 20,000 tons intra and extra Med. foodstuffs for Venice. Industry Sub-Commission stated at this juncture that a large proportion of bids for phosphates already submitted would probably have to be cancelled, as it was understood that Combined Chiefs of Staff Washington had allocated only 8,200 tons phosphates per month for the period July/December '45 to Italian Industry, whereas bids for July, August and September had been based on

Food Sub-Commission stated that they wished to submit a bid for 20,000 tons intra and extra Med. foodstuffs for Venice. Industry Sub-Commission stated that this juncture that a large proportion of bids for phosphates already submitted would probably have to be cancelled, as it was understood that Combined Chiefs of Staff Washington had allocated only 8,200 tons phosphates per month for the period July/December '45 to Italian Industry, whereas bids for July, August and September had been based on requirements for Northern Ports being 200,000 tons for 7 months from VE day, and 220,000 tons for Liberated Italy to the end of year. Industry Sub-Commission promised to clarify the position as soon as possible.

diverted to a Northern Port instead of Civitavecchia as bid for. No difficulty foreseen. Food Sub-Commission stated that they wished to confirm that the required distribution of 12,000 tons food bid for Ports North of Ancona was I/6 Trieste, 5/6 Venice.

5. Colonel Sieff then reviewed the September bids. Major Carver stated that tonnages submitted attached Appendix 'A' would be accepted with the possible exception of Trieste. Food Sub-Commission Representative agreed that food bid for Trieste could be taken through Venice should that prove necessary. Col. Sieff stated that it was reported that the port of Savona was in good condition and should be capable of accepting all tonnage required for local distribution, when opened.

6. Colonel Sieff. stated that as future port capacities were likely to be in excess of demands, meetings would not be required to be held in future. Any problems arising would be dealt with by direct communication with Sub-Commissions concerned by Transportation Sub-Commission.

1. Reference is made to paragraph 3, Allied Force Headquarters Administrative Memorandum Number 66, dated 27 December 1944.

2. The tonnage allocation meeting for JUNE 1945 was held at this headquarters on 23 February 1945, and allocations which were approved are shown in Appendices "A" and "B". These allocations represent the maximum port capacities which it is anticipated will be available to each user for the import of normal maintenance requirements.

3. The extent to which the ports or groups of ports may be required for outloadings has been taken into account in assessing the Port Capacities.

4. The allocations to the United States Army and British Army include provision for cased vehicles but do not include Transportation Stores which are shown separately as a common user item.
