1. Ref. your letter AC/301/Tn.4 dated August 25th.
2. It was again recommended to the Movement Section of Palermo to see and get sure that at the Halt of Spina, be daily placed 4 o 5 cars for the transportation of salt bound to Porto Empedocle.
3. We are informed however that the a/m Section are facing - at present - many difficulties on account of lack of fuel: that doesn't allow to run all freight trains required to ensure a regular traffic.

- 1) Riferimento lettera AC/301/Tn 4 del 25 corrente.
- 2) E' stato nuovamente raccomandato alla Sezione Movimento di Palermo di curare e sorvegliare perché alla Fermata di Spina siano sempre forniti quattro - cinque carri al giorno per il trasporto del sale diretto a Porto Empedocle.
- 3) Risulta però che attualmente la predetta Sezione si trova in difficili condizioni di esercizio per mancanza di combustibile; ciò che non consente di effettuare tutti i treni merci occorrenti per il regolare svolgimento del traffico.-
