2. Your instructions are noted and the 95 ft long U.C.R.B's complete will be despatched to La Spezia when available.
3. It is anticipated that yet another three or four weeks delay will occur before this span can be dismantled.
4. The crane sent to carry out the dismantling of steelwork on Line 36 North arrived with the jib not assembled.
5. After the jib has been assembled it will be impossible for the crane to travel, as no runner has been provided. A runner can be made by mounting rollers on the flat car supplied to transport the jib.
6. Permission to carry out this work has been applied for to Tn.Main. Once authority is given, No.2 Railway Mobile Workshops can get the crane in working order within 7 days.
