Subject:- Bridge Contracts

HQ 1212 Rly. Constr. & Maint. Gp. R.E.
A/RCE/313/1433
5th. April 1945

Major MOLE

Referring to recent conversation with Major GEORGE, it is understood that backfilling and building of ballast walls is not allowed for in contracts for bridges.

I think it advisable that, wherever contractors have the time, this work should be carried out by them and shall be glad if you will arrange accordingly.

R. B. Cantrell

Lt. Col. R.E.
RCE 1212 Rly. Constr. & Maint. Gp. R.E.

Subject:- Materials for Line 86 Central.

HQ 1212 Rly Constr & Maint Gp R.E.
A/RCE/312/ #90
15 March 1945.

To:- O.C.,
160 Railway Constr Coy R.E.

Referring to your S.160/86/BR/28 dated 13 Mar., the following procedure will be carried out for obtaining stores for line 86 Central.

- (i) Stores for jobs or parts of jobs which are the responsibility of TM.

These stores will be supplied from T.S.D.s against units' indents in the normal manner.

Indents will be submitted to 330 T.S.D. for all stores, with copy to this H.Q.

Prior notice of stores requiring release, such as plant, timber and track will be given to this H.Q., which will obtain release and advise date for collection.

- (ii) Stores for jobs or parts of jobs which are a contractor's responsibility.

Major MOLE, Tn. A.C., is co-ordinating all stores supplies for contractors.

No stores will be supplied to contractors by units without first obtaining authority from this H.Q. or in urgent cases from Major MOLE direct. This is necessary to avoid confusion and duplication in supply.

Major MOLE arranges delivery of stores by the 383 G.T. Coy., which is at his disposal. Delivery of W.D. stores to jobs will normally be by G.T. lorries already attached to units and by a platoon of tank transporters which will be divided between 159 and 160 Coys.

O. i/c 330 T.S.D. has therefore been instructed to take no action on your 160/86/BR/29 but to retain the two transporters until I have spoken to Major MOLE about timber requirements.

R. G. Mole
Lt. Col. R.E.
