

Oggetto: Assegnazione carburanti e lubrificanti mese di agosto

On.le SEZIONE LAVORI DEL COMPARTIMENTO

FERROVIE DELLO STATO

A N C O N A

La sensibilissima riduzione apportata da cotesta Sezione sull'assegnazione dei carburanti e dei lubrificanti per il mese di agosto, riepetto alla circostanza richiesta del fabbisogno relativo trasmessa in data 28 luglio u.s., costringe questa Impresa a fare le più ampie riserve sul buon andamento dei lavori di ricostruzione dei ponti sulla linea Orte-Falconara, affidati, com'è noto, a questa Impresa, che certamente soffriranno del mancato tempestivo afflusso dei materiali, delle macchine e degli utensili in conseguenza della limitazione che viene così imposta all'uso degli automezzi che questa Impresa ha messo a disposizione per la realizzazione dei lavori di cui si tratta.

Ad evitare tale grave inconveniente si prega vivamente cotesta Sezione di voler benevolmente rivedere le assegnazioni in parola adeguandole il più possibile alla richiesta avanzata da quest'Impresa che non ha mancato, nel compilare la stessa, a limitarsi a segnalare i quantitativi minimi ed assolutamente indispensabili per la realizzazione del programma lavorativo del mese in corso.

Con osservanza

AC/12/149/Tn5

23 July 1945.

SUBJECT : P.O.L. for Italian State Railways Trucks.

TO : Commeron Sub-Commission.

1. Referring to conversation (Lt.Col. PERNYHOUGH- Capt. Cowlin) of 21 July 1945. Attached hereto are copies of our letters AC/12/145/Tn5, AC/12/147/Tn5, AC/12/148/Tn5 dated 23 July 1945, addressed to Director, M.R.S., Pet. Sec., A.F.H.Q. and I.S.R., respectively.

2. It is Hoped that the information which I.S.R. have been requested to supply will be satisfactory for your purpose and that the arrangements made with Pet. Sec., A.F.H.Q. are in accordance with your views.

3. On receipt from I.S.R. of figures showing detailed locations of their trucks it is proposed to pass a copy to each Region in order that Provincial Supply Officers may make demands for petrol based on the number of trucks in service in each Province. It is requested that you will inform Pet. Sec. of the number and distribution of trucks which will be operating in Italian Government Territory. It is further requested that you will in the future deal with Pet. Sec. direct on all matters relating to P.O.L. for I.S.R. trucks. This Sub-Commission will keep both you and Pet. Sec. Informed of any changes in location or re-distribution of trucks which may be made by I.S.R. from time to time.

4. Attached hereto, for your information, is copy of I.S.R. letter A.246/3420 dated 15 July 1945. The information contained in this letter is now obsolete since 2,000 trucks are not to be supplied to I/S/R. It does, however; show I.S.R.'s estimate of P.O.L. consumption for the two categories of usage, e.g. for railway operation and for public freight movements.

For the Director.

SUBJECT : P.O.L. for I.S.R. TRUCKS.

TO : Pet.Sec., AFHQ, R.A.A.C.

1. Reference is made to our letters 540/74/Tn1 dated 16 July 1945, and AG/12/99/Tn5 dated 26 June 1945, and to telephone conversation (Lt.Col.Fernibough - Major Fagan) of 21 July 1945.

2. It is understood that you have released 2,000 barrels of petrol to the Italian Government for I.S.R. trucks now operating in Italian Territory for the remainder of July. Commerce Sub-Commission have taken steps with the Ministry of Commerce to arrange for distribution at locations desired by I.S.R.

3. Attached hereto for your information, is copy of I.S.R. letter A.248/2420 dated 16 July, together with two statements showing the requirements of P.O.L. in each Compartimenti, both in A.M.G. and Italian Government Territories. A copy of our letter AG/12/147/Tn5 dated 23 July 1945, to I.S.R. is attached for your information. It is hoped that the information requested from I.S.R. will be of assistance to you in making future allocations for succeeding months in both A.M.G. and Italian Government Territories.

4. It is emphasized that 1500 x 1½ ton trucks and 250 x 10 ton trucks have been substituted for 2,000 - 1½ ton trucks, previously planned to be transferred to I.S.R. In the first instance, it was understood that all trucks allotted to I.S.R. would be operated in Italian Government Territory. You will note from the above mentioned I.S.R. letter that this is now not so. After discussion with Commerce Sub-Commission and with Major Fagan of your office, it has been agreed that in the future Pet.Sec. will make above allotment to the Italian Government for to be operated by I.S.R. in Italian Government Territory. It will be for I.S.R. to inform the Ministry of Commerce of locations at which C.I.P. should make petrol available. In A.M.G. Territory, Provincial Supply Officers will be furnished with a statement showing number of trucks to be operated by I.S.R. in each Province and will include in their monthly demands

on Pet. Sec. for P.O.L., a separate request for P.O.L. for these trucks. It is requested that when making allocations to Provinces in accordance with these demands, you will state to this Sub-Commission and Commerce Sub-Commission what amounts of P.O.L., out of the total allotted for railways in each Province, have been allotted for consumption by the new I.S.R. trucks.

5. It would be of great assistance if you would notify this Sub-Commission each month of the allotment made to the Italian Government for Italian Government Territory and also provide a copy of your detailed P.O.L. allocations to Provinces in A.M.S. Territory.

SUBJECT : P.O.L. for I.S.R. Trucks.

TO : Director General, I.S.R.

1. Reference is made to your letter A/248/2420 dated 16 July 1945.
2. Your letter with statements A and B has been forwarded to Petrol Section, A.F.H.Q. for consideration in making allotments for I.S.R. $1\frac{1}{2}$ ton trucks for August and September. It is emphasized that Allied Commission will not now transfer 2,000 x $1\frac{1}{2}$ ton vehicles to I.S.R. Sixteen hundred (1600) x $1\frac{1}{2}$ ton trucks will be delivered to you in lieu of the 2,000 x $1\frac{1}{2}$ ton vehicles.
3. In view of the new allocation of trucks, it is requested that you forward the following information to this Sub-Commission with a copy to Commerce Sub-Commission, at the earliest possible moment:
 - a) Number of $1\frac{1}{2}$ ton trucks it is proposed to operate in Italian Government ~~showing number of trucks in each Province~~ Territory showing distribution by Compartimenti.
 - b) Number of $1\frac{1}{2}$ ton trucks it is proposed to operate in AMG Territory showing number of trucks in each Province.
 - c) Number of 10 ton trucks it is proposed to operate in Italian Government Territory showing number in each Compartim.
 - d) Number of 10 ton trucks it is proposed to operate in AMG Territory showing number in each Province.
4. This information is required since $1\frac{1}{2}$ ton trucks consume petrol and 10 ton trucks gasoil. In addition, the method of allocation of P.O.L. differs as between AMG and Italian Government Territories. In Italian Government Territory Pet:Sec. will make a bulk allocation to the Italian Government for I.S.R. trucks and it will be necessary for I.S.R. to inform the Ministry of Commerce (liquid

Fuels Division) the exact amounts which should be available by C.I.P. at each location where it is desired the trucks shall draw the P.O.L. In AMG Territory the AMG Provincial Supply Officers will place demands with Pet. Sec. for P.O.L. each month, based on the number of trucks which you propose to operate in each Province. For the above reasons it is necessary that in your statement showing the distribution of trucks in both AMG and Italian Government Territory, the figures should be accurate. As Pet. Sec. will be planning their allocation of petrol for I.S.R. trucks several months ahead it is requested that as far as possible you will plan the distribution of both 1½ ton and 10 ton trucks on a permanent basis in order that the same amounts of P.O.L. may be released each month in the various locations.

5. Pet. Section have released to C.I.P. 2,000 barrels (70,000 gallons, approximately) of petrol for those 1½ ton trucks now in service in Italian Government Territory for the remainder of July. Commerce Sub-Commission have already communicated with the Ministry of Commerce (Liquid Fuels Division) requesting them to ascertain from I.S.R. where it is desired that this petrol shall be made available and to inform C.I.P.

1. Reference your letter A.848/2564 dated 25 July 1945.
2. The distribution of the 1650 x 1½ and 260 x 10 ton trucks is noted. This information has been passed to Petrol Section, A.F.H.Q., R.A.A.C., for allotment of P.O.L. in Italian Government Territory and to AMG Regional Supply Officers in AMG Territory who will place demands for P.O.L. on Petrol Section.
3. It is pointed out that, once bulk allocations to the Italian Government and to AMG Territory have been published for a period ahead, Petrol Section are against transfer of small portions thereof for Italian Government Territory to AMG Territory or VICE versa. It is requested therefore that you will not alter the distribution of trucks shown in your letter as between Italian Government Territory and AMG Territory.
