1. Further to my letter AC/Tn/100/86/G 52 dated 30 July 1945 .
2. On Line 86 all the ballast is from the sea shore but it is desired , if possible , to obtain supplies of crushed ballast.
3. The I.S.R. had formerly a quarry at Lebbia , between Pescara and Termoli , This has been damaged and it is now desired , if possible , to rehabilitate same.
4. The following plant would be required for this scheme :

No.1 Mobile crane , 10 Tons. capacity .
No.1 Air Compressor complete with 4 hammers and rubber pipe line.
No.6 Decauville skips.
No.1 Portable electric lighting set (Capacity about 20 lamps , 50 watts each)
100 meters of 15 mm. dia wire rope.

1. Please arrange to let me have the cost of all works at present in hand or for which approval has been given.

2. If in your opinion there are other works necessary for the safety of the railways that should be put in hand, please include these as a supplementary list together with the estimate cost.

SUBJECT / Estimates for Permanent repairs.

TO : Major Buckley
Major Mole
Mr. Richard
Capt. Greany
Capt. Conway

1. So far no estimates have been received for permanent repairs to the railways ⁱⁿ the North of Italy.
2. It is essential that estimates be submitted as soon as possible for all repairs of a permanent nature.
3. Where permanent repairs are required urgently, so as to make the lines safe for the winter, the works can be put in hand at once and estimates submitted later.
4. Please instruct Capi Lavori in your divisions to submit to the Capo Sezione Eng. Lo Cigno estimates at the earliest possible date.
