Ref. E-1

Subject : Tube

TO : MILITARY POLICE - LIVORNO

Contractor

The Firm Cionfrini of the Rail-road informs us that on the 12th of Nov. the Military Police went to the work-shop "GIULIO SPERONELLI" Via Paolina 6 Viareggio and took from there a tube which was there to be repaired. The above mentioned tube is part of the ones of the Chevrolet truck N°. 86143 Rome, loaned by the Italian Rails-Ways to the said contractor. These trucks have been turned over by the Allies to the I.S.R. for them to hire out to the different contractors working on the reconstruction of important rail-way lines.

It would be greatly appreciated if the tube would be promptly returned.

A questo Compartimento finora è stata data in prestito una motopompa avente le seguenti caratteristiche:

Motore Coventry n°7139/3290

Turbina Wather Platte n°52428

Il meccanismo ha funzionato dal 12 Agosto al 30 Settembre u.s. per gli esaurimenti d'acqua degli scavi di fondazione al ponte sul Bientina (linea 219) per conto della Impresa PARDI.

Attualmente la motopompa si trova al cantiere della Ditta PARDI a Pontedera in attesa di nuova destinazione.
