1. The Industry Sub-Commission are of the opinion that the supply of explosives to I.S.R. contractors will be much simplified if a bulk allotment is made to the Italian State Railways, to cover the requirements to the end of 1945. The allotment of explosives can then be allocated to the various contractors by your office.
2. It is therefore requested that you advise the total requirement of explosives, detonators (electric and non-electric, and fuse for all firms using explosives for rail reconstruction, and quarries furnishing ballast, etc., A bulk allotment will then be made to fill your needs insofar as availabilities permit.
