INTER-OFFICE MEMO

File N. AC/Mat/21/58/Tn 4

SUBJECT : Coal Allotment I.S.R. Sardinia.

TO : Industry Sub-Commission
Attn: Coal Division

1. The Chief of the Service, I.S.R. Ing. Bracci advises under date of 14 July that the present monthly allotment of 875 tons of imported coal for I.S.R. in Sardinia is insufficient to meet the minimum requirement of the Island.

2. They state that up to date they have met their requirement be recovering coal from sunken ships, but these recoveries have now been completed.

3. They request therefore, in order that the trouble already existing in Sardinia does not become more serious, because of a further reduction of the steam railway services, that the monthly allottment of imported coal for Sardinia be increased to 1000 tons monthly.

4. Our coal request does not show an increase until January 1948. Please advise the possibility of an increase in allotment before that time.

B U I L D I N G

1) L'attuale assegnazione di 575 tonnellate mensili di carbone d'importazione per le Ferrovie dello Stato della Sardegna risultano insufficienti ai bisogni minimi, elementari della vita isolana.

2) Finora si è potuto provvedere con ripieghi ad integrare le assegnazioni ricuperando il carbone dai piroscafi affondati ma ormai detti ricuperi sono ultimati.

3) Allo scopo pertanto di non aumentare il disagio già esistente nell'isola riducendo ancora il servizio dei treni a vapore, si prega voler portare l'assegnazione mensile in corso per la Sardegna da Tonn.575 a Tonn.1000.-

SUBJECT : Monthly coal allotment.

TO : Chief of Stores Section I.S.R. Bldg.
Attn: Ing. Bracci

1. With reference to the date and form for submitting your monthly coal requirements. There has been a slight change which is as follows:

The request must be submitted to HQ.AC. by the first of the month, therefore it will be necessary for you to submitthe request to this office on the 28th of the month before the first of the month for which the report is due.

The request is to cover the 3rd through the 7th succeding month (i.e. 1 August for estimated requirements November/December 1945; January/February/March 1946).

2. Please arrange to submit your requests accordingly.

11 July 1945

SUBJECT : Coal Supply - Reggio Calabria.

TO : Transportation Officer (Rail) c/o I.S.R. Reggio Calabria

1. Reference your R-13 dated 5 July 1945 in which you answered para 4 of AC/Mat/21/44 dated 24 June by referring to and quoting your weekly coal consumption signals.

2. Your report for week ending 7 July shows 1494 tons consumed which was an increase of 485 over the previous week and the heaviest consumption since you have been making the wire reports, in fact, it wiped out all gains made since the opening of the Petrace Bridge.

3. What is desired is the actual saving of coal by the opening of the Petrace Bridge. You should be able to get this information from the I.S.R. and then make an intelligent report.

Subject:
Consumption of coal in
Sicily.

Building

1. We reply to your letter AC/Mat/21/55/Tn.4 dated 9 July 45.

2. Upon our various solicitations made in order to reduce coal consumption within the prescribed limits, the Capo Compartimento replied confirming that such consumption will not exceed 9000 tons per month and reporting that during the second week of this month the consumption has been of 1958 tons.

Chief of Service

9 July 1945

SUBJECT : Coal Returns from Sicily.

TO : Chief of Stores Service I.S.F. Bldg.
Attn: Coal Section

1. Since the withdrawl of the Transportation Officer (Rail) from Palermo we have no direct contact with the Palermo Office except through I.S.F. here. Sig. Canistraoci, who worked with the Rail Transportation Officer, now comes under Dr.Tuccio, Coke Compartimento.

2. You should make arrangement with Dr.Tuccio to give you the required information in regard to their coal consumption and supply and furnish this office with a copy.

9 July 1945

SUBJECT : Reggio Coal Supply.

TO : Capt. B.W. Boddy Transportation Office Rail
c/o I.S.R. Reggio Calabria

1. With reference to your telegram R-762 which was answered by wire this date.

2. Attached is detail of wagon numbers of coal shipped from Naples and Salerno.

3. As stated in telegram the Bari Division was short of coal and could not ship any to you.

4. M.R.S. is making arrangement to ship you a further supply.

5. We have requested of the Coal Division that a reserve supply of coal be maintained on the Reggio Division so you will not always be running short of coal as in the part.

By Command of Rear Admiral Stone:

C.M. LONG, Major C.E.

Incl. List referred to in para 2.

INTER-OFFICE MEMO

File N. AC/Mat/21/52/Tn 4

SUBJECT : I.S.R. Coal Requirement September 1945.

TO : HQ. AC. COMMERCE SUB-COMMISSION
Attn: Coal Division Lt.Col. Oxley

1. Attached is estimated coal consumption of the Palermo Cagliari and Reggio Compartiments of the I.S.R. for the months of September 1945 through February 1946.

2. The estimated consumptions and increases are approved and request that it be allotted in as far as the present and future coal positions will permit.

3. It is requested that a coal supply be maintained on the Reggio Division in order that this Division will not always be running short. The present receipts will not permit the building up of a stock.

REPORT

Tel: 848191-11
Ref: AC/Mat/21/48/Tn 4

27 June 1945

SUBJECT : Coal Supply - Sicily.

TO : Director General L.S.C. - MAAG.

1. Please be referred to letter from this Headquarter AC/Mat/21/40/Tn 4 dated 15 June in regard to over consumption of coal in Sicily.

2. The Coal Division has received a report that for the week ending 16 June, 3464 tons were consumed. This shows a reduction from the previous week but is still in excess of the monthly allocation.

3. It is evident that the Italian Compartimento is not impressed with the seriousness of the coal situation. You can be assured that they will be later on in the season when the coal supply in the island is practically exhausted and they ask for more coal. Rome will be forth coming and your transportation system will be at a stand still.

4. As explained in letter referred to in para 1. The Coal Division is moving coal in Sicily for July and August because the ports in the North are not in condition to accept the coal ships.

5. It is necessary for you to instruct the Italian Compartimento in such manner that there will be no doubt that the allowance of 9000 tons per month will not be exceeded, also that they make

AG/461.1/4c/M 4 dated 15 June is urgent to over estimation of coal in Sicily.

2. The Coal Division has received a report that for the week ending 16 June, 2600 tons were delivered. This shows a reduction from the previous week but is still in excess of the monthly allocation.

3. It is evident that the Italian Departments is not impressed with the seriousness of the coal situation. You can be assured that they will be later on in the season when the coal supply in the Italians is practically exhausted and they ask for more coal. Hems will be forth coming and your transportation system will be at a stand still.

4. As explained in letter reference to in para 1. the Coal Division is stowing coal in Sicily for July and August because the ports in the North are not in operation to accept the coal ships.

5. It is necessary for you to implement the Allied Commissions in such manner that there will be no doubt that the allowance of 90000 tons per month will not be exceeded, also that they make reduction in consumption to keep in line with the coal on hand and coal mining. This is very important.

6. Be assure you that if coal was in good supply Sicily would receive their requirements but due to the shortage in the world supply it is necessary that Sicily comply with reduced allowances.

7. Please advise the results of your implementations as requested in para 6 of letter referred to in para 1.

25 June 45

SUBJECT : Coal Sicily

TO : TSM - Mdr.

1. It is noted that Sicily is still using coal in excess of their allowance.

2. For the week-ending 16 June 2464 tons were used. This is only 200 tons over the allotment but it must be definitely understood that Sicily should stay within their allowance of 9000 tons monthly.

3. Services should be reduced to make up for the amount of coal already used in excess.

4. The fact that we have a good stock of coal now in Sicily must not be looked upon as a possibility that this back log can be maintained because it is definitely known that ships recently discharged in Sicily were destined for Northern Italy but were unloaded in Sicily because Northern Ports were not in readiness to accept these ships. This indicates that present coal supply must be conserved to cover the period when ships will be diverted to the North instead of unloading in Sicily.

5. This is a most urgent matter and corrective action must be taken at once so that future transportation facilities will not be crippled.

1. Reference is made to your letter A.C. Mat.21/75. Tn.4 of August 27,1945 and to the Minutes of XI Meeting of Stores S.Commission held on November 23.45 (parag.103 and 110).

As concerns a/m para 103 we point out what follows:

2. Since September 26 all the "I.S.R. Sezioni Trazione" and the Cagliari's Delegation were instructed to intensify as much as possible, the watching at the fuel depots in order to prevent pilferage.

3. The "Sezioni Trazione" of Turin, Genoa, Milan, Venice, Bologna, Reggio C. and Palermo have arranged accordingly by engaging railways agents, Railway Police and Civil Police.

[illegible] Sezioni of Verona

1. Reference is made to your letter A.C. Mat.21/73. Tn.4 of August 27, 1945 and to the Minutes of XI Meeting of Stores S.Commission held on November 23.45 (parag.103 and 110).

As concerns a/m para 103 we point out what follows:

2. Since September 26 all the "I.S.R. Sezioni Trazione" and the Cagliari's Delegation were instructed to intensify as much as possible, the watching at the fuel depots in order to prevent pilferage.

3. The "Sezioni Trazione" of Turin, Genoa, Milan, Venice, Bologna, Reggio C. and Palermo have arranged accordingly by engaging railways agents, Railway Police and Civil Police.

Likewise was arranged by the Sezioni of Verona, Trieste, Florence and Cagliari.

4. The Traction Sezione of Rome arranged said watching through I.S.R. agents; the Naples Sezione have acted successfully, as it results from the several indictments of offenders to the Civil Police and Carabinieri.
This applies also for Bari Sezione. As regards the fuel Depot of Foggia, in particular, the increased watching resulted, just in the first days, in the recovery of great lots of coal.

./.

Na.99/12/cm.

Declassified E.O. 12356 Section 3.3/NND No. 785021

5. From M.E.S. we have got some 3 tons of barbed wire to fence the Fuel Depot of Foggia.

6. Proper investigations are in progress at all other fuel Depots, in order to improve the fencings or to make new ones if necessary.

7. Finally, at the less important Depots, where the watching cannot be efficient, due to various reasons, the supplies of coal are made in small lots, so that the location and the watching itself will be easier.

8/ In respect of the a/m para 110, we report that the Verona Shop have already sent their machinery in excess to plants requiring the same. Likewise has been distributed, according to the requirements of the various plants, the machinery originating from the stores of the V Army (Campofiore).

The Director General

F.to DI RAIMONDO

1) - Si fa riferimento alla lettera A.C.Mat.21/75.Tn.4 del 27/8/45 e al verbale dell'11^ riunione del Sottocomitato Approvvigionamenti del 23/11/45 (punti 103 e 110).

Per quanto riguarda il punto 103 suddetto si comunica quanto segue:

2) - Fin dal 26/9 furono impartite con apposita circolare precise disposizioni a tutte le Sezioni ed alla Delegazione Cagliari, perchè in tutti i dipendenti depositi combustibili fosse intensificata ed al massimo la sorveglianza per eliminare i furti di carbone.

3) - Le Sezioni Trazione di Torino, Genova, Milano, Venezia, Bologna, Reggio C. e Palermo hanno provveduto ad intensificare la sorveglianza affidata ad agenti delle Ferrovie nonchè alla Polizia Ferroviaria ed alla P.S. Altrettanto dicasi per le Sezioni di Verona, Trieste, Firenze e Delegazione Cagliari.

4) - La Sezione Trazione di Roma ha provveduto alla sorveglianza a mezzo di nostri agenti; quella di Napoli ha ottenuto con-

./.

1989

Declassified E.O. 12356 Section 3.3/NND No. 785021

creti risultati come risulta dalle continue denunzie di colpevoli alle Autorità di P.S. ed ai Carabinieri. Altrattanto si dica per la Sezione di Bari e, per quanto si riferisce in particolare al Deposito Combustibile di Foggia, la intensificata sorveglianza ha portato fin dai primi giorni, al ricupero di forti quantitativi di carbone.

5) - Si è ottenuto dall'M.R.S. del filo di ferro spinato (Tonn.3) per recintare il Deposito Combustibile di Foggia.

6) - Per tutti gli altri Depositi Combustibili della rete sono in corso precisi accertamenti per poter provvedere al miglioramento delle recinsioni esistenti od alla istituzione di nuove recinsioni se necessario.

7) - Infine nei Depositi secondari, nei quali per cause varie la sorveglianza non può essere efficace si provvede ai rifornimenti inviando solo piccoli quantitativi di carbone che possono essere meglio ubicati e custoditi.

8) - Per quanto riguarda il punto 110 del verbale della 11ª riunione del Sottocomitato Approvvigionamenti s'informa che l'Officina di Verona ha già provveduto ad inviare alle località che possono utilizzarle, le macchine ad essa eccedenti. Così pure sono stati distribuiti, secondo le necessità dei vari impianti, i macchinari provenienti dai Magazzini della 5ª Armata (Campofiore).

SUBJECT : Allotment of Railway Wagons.

TO : Chief of Movments Service I.S.R.-Bldg.,
(Attn. Dr. Ing. Biondi Cleto.)

1. The attached request from the firm Mario Beretta, concerning the allocation of Railway Wagons, has been received by this office.

2. Since this matter has already been approved, by the Ministry of Industry and Commerce, and considerable hardships are likely to be imposed on the mineworkers unless immediate action is taken, it is requested you give every consideration to this application.

3. Please inform this office of steps taken by you in this matter.

DIRECTOR

Encls:- As per para 1.

1345

1921

Declassified E.O. 12356 Section 3.3/NND No. 785021

To ; Ministry of Transport,
Movemnts Office.

29 December 1945.

The representative of the firm MARIO BERETTA of Turin "Importazione diretta carboni nazionali" has made numerous requests for an allotment of Railway Wagons, which have been approved by the Ministry of Industry & Commerce.

The situation, caused by the delay in allocating the wagons required, has now reached a very serious stage and it is requested that favourable consideration be given in this matter. Further delay will seriously endanger the operation of the mines Rupinata and Borro ai Cozzi of the Toscana Agoto Company, and place employees of the mines in a critical economical position.

In view of these facts, it would be appreciated if you would give the matter your attention, and enclosed herewith are copies of the request submitted previously to the Ministry of Industry and Commerce, and approved by CIAI Milan No.7186 and 8507, and Turin dated 30 November, and 6 December 1945.

Yours respectfully,

[illegible]

1992

SUBJECT : Coal for ILVA Steelworks.

TO : HQ AC Coal Division
Attn. Colonel Walker

1. Attached is letter from the Chief of Stores Service Italian State Railways in regard to the inability of the ILVA Steelworks to furnish steel rails on schedule, due to the scarcity of coal.

2. This Sub-Commission is vitally interested in the reconstruction and rehabilitation of the Italian State Railways. The failure to secure the new rails on schedule will retard the progress of the rehabilitation work of the transportation system and it is therefore requested that you approach the Ministry for the allocation of coal required by the ILVA Steelworks for the manufacture of the first 6000 tons of rail and thereafter coal for the 3000 tons of rail per month.

1. On 3 November 1945 the Soc. An.Ilva Steelworks have been contracted to furnish, within a couple of months, a first lost of 6,000 tons of rails, required for railway reconstruction.

2. On 23 November the ILVA advised that, due to scarce supply of coal, the manufacture must be post-poned to January and February 1946.

3. Will you please contact with the concerned Allied Authorities and sponsor the allocation of coal required by Soc.ILVA for the manufacture of the first stock of 6,000 tons of rails, and, furtherly, for the 30,000 tons to be furnished to I.S.R. at a rate of 4,000 tons per month.

TRANSLATION.

FROM : Ministry of Industry & Commerce, Coal Div. Ref: 6411/25 17 December 45.

TO : Ufficio Provinciale del Commercio e dell'Industria, Naples.

INFO : Transportation S/C, Rail Division. (Ref: AC/Met/21/109/Tn 4. of 27 Nov 45.)

SUBJECT : Allocation of Coke to Firm Vincenzo Costa, Sant'Anastasia.

We have been informed by Transportation S/C, Rail Division of the necessity of allocating fuel to the firm Vincenzo Costa needed for the production of lead in blocks, requested by I.S.R. In consideration of the fact that coke would be sufficient for the melting of lead, this Ministry would appreciate if your office were to issue an authority for 50 tons of coke to be collected from the Naples Gas Works in favour of the firm Vincenzo Costa.

/sgd/ The Minister.

ROMA

(rif.nota AC/MAT/21/109/Tn 4 del 27 - 11 - 45)

OGGETTO: Assegnazione coke da gas - Ditta Vincenzo Costa - Sant'Anastasia -

In seguito a segnalazione della Commissione Alleata - Divisione Carbone della S/C Trasporti di Terra e di Mare sulla opportunità di rifornire la Ditta Vincenzo Costa di S.Anastasia di combustibile solido occorrente per la produzione di piombo in pani richiesto alla ditta medesima dalle FF.SS., questo Ministero, in considerazione del fatto che per la fusione del piombo è sufficiente coke da gas, prega codesto Ufficio di rilasciare un buono di consegna di 50 tonnellate di coke da gas dell'Officina gas di Napoli a favore della ditta Vincenzo Costa.

IL MINISTRO

SUBJECT : Metallurgical Coke for Firm Vincenzo Costa.

TO : Ministry of Industry and Commerce
Attn: Dr. Bianchini

1. The Italian State Railways request that the firm of Vincenzo Costa at Sant'Anastasia (Naples) be allocated 600 tons of metallurgical coke for the production of 300 tons of lead in blocks required by the I.S.R.

2. The firm Costa has advised the I.S.R. that the coke is on hand at the Ilva Bagnoli Plant, blocked by the Allied Authorities.

3. Will you please make the necessary arrangements for the allocation of the coke so the I.S.R. will be supplied with the lead required for the operation, maintenance and reconstruction of the railways.

Supply Service

23 November 1945

N. A.38/7834/C.136

SUBJECT : Request for coal.

TO : Transportation Sub-Commission (Rail Div.)

1. The General Direction of M.R.S. to whom we asked the allocation of 300 tons of metallurgical coke for the firm Vincenzo Costa at Sant'Anastasia (Naples) to whom has been relied on the procurement of 300 tons of lead in blocks, inform us to present the request to Allied Commission.

2. The firm advises that such coal is on hand at the Ilva Bagnoli Plant, blocked by the Allied Authorities.

3. Considering that we are in urgent need of a/m lead, will you please receive the request of the firm Costa to release the coal.

4. We will appreciate a kind reply.

THE CHIEF OF THE SERVICE
Ing. Bracci

OGGETTO
Richiesta carbone

ALLEGATI N.

ALLA SOTTOCOMMISSIONE TRASPORTI A.C.

SEDE

La Direzione Generale Military Railway Service alla quale avevamo rivolto la domanda per l'assegnazione di Tonn. 300 di carbone coke metallurgico per la Ditta Vincenzo Costa di Sant'Anastasia (Napoli) alla quale è stata affidata una fornitura di Tonn. 300 di piombo in pani, ci comunica di rivolgere la domanda stessa a codesta Commissione.

La Ditta fa presente che detto carbone risulta giacente presso l'Ilva nello Stabilimento di Bagnoli bloccato dalle Autorità Alleate.

Avendo urgenza di poter disporre del piombo in parola, si prega, se fosse possibile, accogliere la richiesta della Ditta Costa provvedendo allo sblocco del carbone di cui sopra.

Si resta in attesa di cortese sollecito riscontro.

Subject: Coal Stocks

I) "Our" Agenzia Marittima" of Genova have informed that some stocks of coal arriving at that Harbour are allotted to I.S.R. but ~~for~~ on behalf and at the disposal of Allied Military Forces.

2) Mr. Goeslow, Genova's Coal Section representative, after a telephon call with Major Riddel of Milan, Coal Division, has informed that according to his opinion the mentioned coal stocks should have been unloaded and deposited Fuel Depot in separate heaps.

3) Please inform, us whether coal unloaded in separate heaps shall be included in the required periodic(weekly, fortnightly, monthly etc.) coal statements.

1) La nostra Agenzia Marittima di Genova informa che varie partite di carbone in arrivo in quel porto vengono assegnate alle F.S. ma per conto ed a disposizione delle Forze Armate Alleate.

2) Il Sig.Goeslow rappresentante a Genova della COAL SECTION dopo essersi messo in contatto telefonico col maggiore Riddel della COAL DIVISION di Milano ha comunicato che, a suo avviso,dette partite di carbone avrebbero dovuto essere scaricate nei Depositi Combustibili in cumuli separati.

3) Si prega comunicare se tale carbone scaricato in cumuli separati deve o meno essere considerato nei vari prospetti sulle situazione carboni (settimanale,quindicinale,mensile, ecc.)richiesti.-

Coal supplyes for Ancona Compartimento

ALLEGATI N. 1

1. Attached herewith I forward a telegram we got from Capo Compartimento Ancona showing the shortage of coal stored there on 14 November; therefore urgent measures are required to prevent the operation of trains to be stopped.

2. Your H.Q. is therefore kindly requested to examine whether it be possible to divert some colliers, bound to Ancona, as the Capo Compartimento suggests and issue in accordance the convenient dispositions.

Scorte di carbone

Compartimento di Ancona.

ALLEGATI N I

Allegato trasmetto un telegramma pervenutomi dal Capo Compartimento di Ancona, col quale il medesimo mi prospetta che l'entità delle scorte di carbone esistenti alla data del 14 corrente è raggiunto un limite talmente basso da richiedere provvedimenti urgenti per evitare l'arresto della circolazione dei treni.-

Prego quindi codesto Comando di esaminare se sia possibile far dirottare qualche piroscafo carico di carbone verso Ancona, come suggerisce il Capo Compartimento, epperciò impartire con cortese sollecitudine le opportune disposizioni.

SUBJECT : Lignite for Cement Manufacture.

TO : Ministry of Industry and Commerce Room
Attn: Dr. Biancheini.

1. The Capo Sezione Lavori, Italian State Railways, Bologna has requested of the Commanding Officer of the Italian Railway C and E Group that they be furnished 1000 tons of lignite from S.Giovanni Valdarno, near Florence to be consigned to the Cement Factory at Piacenza in order that I.S.K. may receive 3000 tons of cement from this factory urgently needed for the reconstruction of bridges on the Bologna Piacenza Line.

2. The Capo Sezione Lavori advises that the distance to transport the lignite to the nearest railway station, in Florence, Campo di Marte is 60 Km, and that he will request trucks for hauling the lignite.

3. Due to the shortage of cement for reconstruction work it is recommended that you make this allocation of lignite.

4. Will you please advise this Hq. of your decision.

1. We confirm request that Seui Anthracite railings from Arbatax for Cagliari should be increased from 1,000 Tons to 2,500 Tons per month.

2. For this programme it is noted that an additional 150 Tons of Importdd coal is desired for locomotive use and we have accordingly consulted D.A.D. Tn. 2 B.

3. This we understand is not unreasonable and we shall increase the Sardinian quota of Imported coal by this amount.

Subject: RAILWAYS AND TRAMWAYS OF EMILIA.
ALLOTMENT OF COAL.

Referance to your letters AC/57/46/TN4, respectively dated I4 and 2I Sept. I945.

We thank you for the granted allotment of 200 Tons. of coal I for the month of September and of 300 Tons. for each of the following months, for the Service REGGIANE RAILWAYS.

We would like to call your attention to the fact that, the above mentioned Railways were, in the second letter impropoly named as Ferrovie Emiliane, (Emiliane Railways).

We want to clarify that with such term (as Ferrovie Emiliane) are incluaed all privately owned railways of the Emilia Region, under the supervision of the Ispettorato Compartimentale of M.C.T.C. of Bologna, while the Ferrovie Reggiane, under the managment of the Consorzio Cooperative delle Ferrovie omonimus,(to which the request made with letter of the IO Sept. I945 n. IO244) comprehend only a part of saud Ferrovie Emiliane, and namely, lines REGGIO.-GUASTALLA; REGGIO-CARPI, REGGIO - SCANDIANO and REGGIO - BORETTO. 42.2

In regard to the other Steam-Traction lines of the Emilia plains, we beg to enclose a statement of the month requirements of coal for the half-year period - I oct. I945- 3I march I946, sent by the Ispettorato Compartimentale concerned.

SUBJECT : Complaint of Weights of Coal delivered to Brick Kilns.

TO : Chief of Stores Service I.S.R. Bldg.
Attn: Ing. Bracci

1. Attached are copies of letters received from the Capo Genione Lavori, Bologna in regard to short weights of coal received at brick kilns for the burning of bricks.

2. It is noted that the weights of 4 cars according to the wagon way bills is 79.51 tons but the quantity actually received on these cars was only 55.49 tons or a difference of 24.02 tons.

3. The shortage of coal results in kiln owners producing soft bricks caused by insufficient burning and considerable trouble has been caused recently by bricks failing to pass the I.S.R. compression test.

4. The loss may have been due to theft while in transit, if so this matter has been referred to the Director General on several occasions but as yet he has not stated what steps he intends to take to eliminate this loss which last winter was approx. 10% of the coal supply.

5. Please have the discrepancy in weights of mentioned in para 2 investigated and advise results.

Compartimento di Bologna - Sezione Lavori

6 October 1945

SUBJECT : Coal Supply.

TO : Major Mole
c/o I.R.C.E. 4

Four wagons of coal have arrived at Imola for the Cardelli kiln to get the bricks for the reconstruction of the bridges of the Bologna-Rimini line.

The weight mentioned in the wagon way bill is 79,51 tons of coal. After a control made by one of our officials after the protests of a representative of the kiln, whose report is here enclosed, it was found that the total quantity of coal is of 65,49 tons only, with a difference of 14,02 tons from the quantity mentioned in the wagon way bill.

We thought that you should be informed.

8237

Il Capo della Sezione Lavori

Declassified E.O. 12356 Section 3.3/NND No. 735021

FAENZA
25 September 1945

Control report on the quantity of coal delivered to the Cardelli kiln, Imola.

The undersigned Ing. Bertazzoni Alberto, Assistant Chief inspector, went on the 17 September to the Cardelli kiln, Imola, to control the quantity of coal delivered to the kiln for the burning of bricks on account of the I.S.E., after a warning of the kiln director, Dr. Spagnoli Cesare.

From an enquiry on the site, it resulted what follows:

The weights declared in the wagon way bill for the quantity which arrived on 12 September (four wagons) were as follows:

Wagon N°.	446183	166,80 quintals
" "	413441	171 "
" "	9731	270,80 "
" "	414472	187,50 "

for a Total of 795,10 quintals.

As, in the opinion of the Capo Gestione Merci, the weight written on the wagon way bill for the wagon N°.9731 seems rather exaggerated, to avoid mistakes, it was thought better to take the cubic measures of the content, from which it appeared that:

cm. 7,50 x 1,10 x 2,70 = 22,27

Considering for each cm. a weight of 800 Kg., it results 178,16 quintals and not 270,80.

The coal was unloaded next day and carried to the kiln by horse carts, and placed in the kiln yard in a regular heap.

At the presence of the Centoniere Golaroli Tommaso one cm. of coal was weighed and it was 691 Kg.

The undersigned took all the measures of the heap: whose dimensions were as the drawing below:

42.8

so that:

Declassified E.O. 12356 Section 3.3/NND No. 795021

" " 414478 187,50 "

for a total of 795,10 quintals.

As, in the opinion of the Capo Gestione Merci, the weight written on the wagon way bill for the wagon N°.9731 seems rather exaggerated, to avoid mistakes, it was thought better to take the cubic measures of the content, from which it appeared that:

cm. 7,50 x 1,10 x 2,70 = 22,27

Considering for each cm. a weight of 800 Kg., it results 178,16 quintals and not 270,80.

The coal was unloaded next day and carried to the kiln by horse carts, and placed in the kiln yard in a regular heap.

At the presence of the Cantoniere Golaroli Tommaso one cm. of coal was weighed and it was 691 Kg.

The undersigned took all the measures of the heap: whose dimensions were as the drawing below:

42.6

so that:

$$\frac{\frac{7,35+9,65}{2} + \frac{6,70+9,10}{2} + \frac{4,15+6,45}{2} + \frac{3,30+5,70}{2}}{} \times \text{_____} \times 156=$$

= cm. 62,280
cm. 62,280 x 9,81 = 554,90 quintals.

Therefore, in comparison with the figure registered in the wagon way bill; there is a difference of 240,20 quintals.

The undersigned found that the high degree of dampness, which appears also from the specific weight (Kg.0,891) is very conspicuous and perhaps part of the difference is due to this fact.

COMMISSARIO STRAORDINARIO
FERROVIE DELLO STATO ALTA ITALIA
MILAN

15 September 1945.

N 4801 CD

To: Military Railway Service,
Capt. Hayward,
MILAN.

Subject: Supply of coal to FIAT
Ferriore Piemontesi Torino.

In the past the opportunity has been discussed to complete the allotment of coal to the various Steelworks, which are working for the I.S.R., with quantities of coal supplied directly by our Administration.

For the moment, this necessity results to be only as to the FIAT Ferriere Piemontesi, which temporarily cannot use the electric furnaces for lack of electrodes and therefore is compelled to take in operation the furnaces MARTIN consuming coal instead of electricity.

On the purpose to secure a production of 2000 tons of steel per month which are required for the construction of Railway vehicles as well as steel bridges within the Compartimento of Turin, it is necessary that a supplement of only 1000 tons of coal per month will be supplied to the FIAT.

I kindly ask you to let me have authorisation for the supply to the Ferriere Piemontesi of the above quantity of coal to be taken from the coal allotment for track service of the Turin Compartimento, or to be furnished directly by the Coal Distribution Office. I beg to point out that Col. Moss as well as Col. Buchanan have already expressed their favourable opinion in this matter.

(Signed) THE CHIEF OF THE DELEGATION,
I.S.R. North West Italy.

SUBJECT : Calabro-Lucane Railway.

TO : G4 Mov & Tn
AFHQ

1. Reference is to your Mov 3/363/y of 19 September 1945.

2. I&R are responsible for supplying coal to Calabro-Lucane Railway, and they report no complaint has been received as to shortage.

3. It is possible some delay may have occurred in continuation of supply, however, due to transfer of supply base from Bari to Naples.

4. I&R have matter fully in hand, but the Calabro Company must begin to realise source of supply is Italian civil one, and use correct channels.

SUBJECT : Rock Salt Sicily.

TO : ISR - Bldg.

1. Reference yours 6 September file M.312.17657.12.25.304.

2. The shipment of salt from Spina to Port Empedocle for export is not being handled fast enough to take full advantage of the output of the mine.

3. Four or five cars daily is sufficient but these are not being furnished as stated.

4. If the lack of coal is the cause of difficulties in operation then the movement of lower priority commodities should be curtailed in order to move salt for export.

5. Since Sept. 15, 1945 the allocation of coal is an ISR responsibility therefore the Sicily coal allowance can be increased if necessary.

As winter is approaching I deem it necessary, to take stricter measures in order to protect our Dumps against the Continuous pilferages of coal.

Therefore I beg you seriously to care for the watch on the Dumps of coal (ISR watchermen have to get the responsibility for this service) and to see that the running trains be escorted by policemen. You must get in touch for the necessary agreements on this matter with the "Commissariati Compartimentali".

Please achnowledge and confirm.

Subject:
Pilferage of coal during railway transportations.

To Home Ministry
(Direzione Generale F.S.)
R o m e

As you know this Central Coal Office has to provide - through the Agenzie Marittime - for the collection and distribution of foreign and Sardinian coal imported by Allied Authorities. After the cargos reach the Italian harbours they are discharged and we have to forward allotments of coal to I.S.R. dumps or to the industrial or commercial Firms.

A serious inconvenience has been met, since the operation started, concerning railway movements, continuous pilferages occur during the same transportations causing many claims by the consignees who complain, when they get their shipments about shortages of coal. Therefore our Ministry will be compelled to refund the damages, causing to the Government's budget considerable losses.

4197

Declassified E.O. 12356 Section 3.3/NND No. 785021

As you know this Central Coal Office has to provide - through the Agenzie Marittime - for the collection and distribution of foreign and Sardinian coal imported by Allied Authorities. After the cargos reach the Italian harbours they are discharged and we have to forward allotments of coal to I.S.R. dumps or to the industrial or commercial Firms.

Therefore our Ministry will be compelled to refund the damages, causing to the Government's budget considerable losses. 4197

The situation is particularly serious in the area neighbouring Bagnoli's harbour, where the pilferages - above all in the section Bagnoli - Campi Flegrei are made on a large scale - and by a large and well organized gang.

Though sometimes ago we have called the attention of the local Authority of P.S., the situation did not improve.

The Agenzia Marittima of Naples has now sent a report to the Capo Compartimento (a copy was submitted to this office on September 14th) pointing out once more the exceptional

Declassified E.O. 12356 Section 3.3/NND No. 785021

seriousness of the matter and we enclose, for your information copy of the a/m report.

We strongly urge your Office to take urgent steps in order to stop the widespread robbery.

For The Chief of Service
Sgd. G. Bracci

OGGETTO

Asportazioni carbone durante
i trasporti ferroviari

All.N.1

Com'è noto, quest'Ufficio Centrale Carboni deve provvedere a mezzo delle dipendenti Agenzie Marittime al ricevimento ed alla distribuzione dei carboni esteri e sardi che le Autorità Alleate inviano al Paese, e pertanto oltre alle operazioni di discarica dei piroscafi carbonieri, eseguisce anche le spedizioni per ferrovia delle forniture, siano esse destinate ai Depositi Combustibili delle F.S. od agli industriali e commercianti privati.

In merito alle spedizioni si è verificato, fin dai primi mesi di gestione, un grave inconveniente dovuto alle rilevanti asportazioni cui vanno soggetti i trasporti ferroviari che-a parte le contestazioni che hanno provocato da parte dei destinatari e le conseguenti laboriose pratiche per gli addebiti-verranno in definitiva a gravare sulla gestione di quest'Ufficio, arrecando un sensibile onere al bilancio dello Stato.

La situazione è particolarmente grave nella zona prossima al porto di Bagnoli, ove le asportazioni-sopratutto nel tratto Bagnoli-Campi Flegrei-sono di entità rilevantissima e vengono effettuate da una vasta e ben organizzata banda.

Al riguardo furono fatte a suo tempo segnalazioni ai competenti uffici ferroviari, interessando anche direttamente le locali Autorità di P.S., ma ciò nonostante, la situazione è rimasta invariata.

L'Agenzia Marittima di Napoli ha ora inviato un esposto a quel Capo Compartimento (di cui è pervenuta copia a quest'Uffi-

TO : Chief of Stores Service I.S.H. Bldg.
Attn: Ing. Bracci

1. Reference materials required for the operation of the B.F.D. Colleferro and Naples Ore Kenpis Shops.

2. B.F.D. advise that their monthly coal and coke requirements are as follows:

Steam coal, Colleferro 75 tons.
Existing stock will cover requirements up to 30 November 1945

Foundry coke, Colleferro 50 tons
" " Naples 10 "
Stock on hand will probably last to the end of this year.

3. You should make a request to the Ministry of Industry and Commerce for allocations as listed above, so this plant will not have to close down for lack of fuel.

OGGETTO RAILWAY = CENTRALE UMBRA
COAL NEEDED.

In connection with a telephone call of A.C. Sub-Commission, requesting the coal allotmentof the Central Railway =Umbra, we inform you that the operations of the raliway is at present, limited to Ponte Felcino - Fratta Todina e Todi Terni, respectively of the lenth of KMS 35+080 and 41+485.

The pperating programm is as follows;

a) two couple trains per day on the Todi-Terni

b) two couple trains four times weekly on hte Ponte Felciano = Ponte Valleceppi

The monthly distance effected by that service is of KM 8.300, to which we must add runs for manuvreus and transport of empy cars ect.

Altogether, the Society counts on a distance of about 11.000 monthly.

./.

OGGETTO Ferrovia Centrale Umbra.
Fabbisogno carbone.

In relazione alla richiesta telefonica di codesta On. Sottocommissione relativa al fabbisogno di carbone della Ferrovia Centrale Umbra, si comunica che l'esercizio della ferrovia in oggetto è attualmente limitato ai tronchi Ponte Felcino - Fratta Todina e Todi - Terni, rispettivamente della lunghezza di Km. 35 + 080 e 41 + 485.

Il programma di esercizio comprende:

a) - due coppie di treni al giorno sul tronco Todi - Terni;

b) - due coppie di corse quadrisettimanali sul tronco Ponte Felcino - Fratta Todina e sulla tratta Ponte Felcino - Ponte Valle-

2291

ceppi.

La percorrenza mensile per l'effettuazione di detto servizio è di Km. 8.300 circa, alla quale occorre aggiungere la percorrenza passiva inerente alle manovre, quella per il trasporto dei carri a vuoto ecc.

Complessivamente la Società prevede una percorrenza di Km. 11.000 al mese.

Essendo il consumo per treno Km. di circa Kg. 18 di carbone il fabbisogno mensile di combustibile risulterà di circa Tonn.200, come richiesto dalla Società concessionaria.

Si esprime, pertanto, parere favorevole all'accoglimento della richiesta aziendale fatta direttamente a codesta Commissione.

SUBJECT : Coal and Coke for Firm Cecchetti - Civitanova Marche.

TO : Chief of Stores Service I.S.R. Bldg.
Attn: Ing. Bracci

1. The firm Cecchetti required 80 tons of coal and 25 tons of foundry coke per month in order to operate their car repair plant.

2. They have advised M.R.S. that they have not had any coal for three months.

3. Please arrange to request an allocation for the above amounts from the Ministry of Industry and Commerce for the a/m firm and in the meantime arrange to furnish the coal from your stocks until allocation is received.

4. As you do not have any stocks of coke, it will be necessary to wait for the allocation from the Ministry.

5. Please expedite your request.

1) La n/ Sezione Trazione di Bari informa che in seguito a disposizione del "Joint Operating Office" presso il Compartimento di Bari, i Depositi Combustibili di Cosenza, Crotone e Sibari del Compartimento di Reggio Calabria debbono ora essere approvvigionati dalla Sezione di Napoli e non più dal Compartimento di Bari.

2) Il fabbisogno mensile di detti Depositi per le F.S. risulta complessivamente di Tonn. 2550 così ripartito: Cosenza Tonn.900; Crotone Tonn.450; Sibari Tonn. I200.

3) Inoltre, per il fabbisogno delle Calabre Lucane dovrà essere fornito il quantitativo mensile di Tonn.600 (da prelevarsi dal Deposito di Cosenza) e Tonn. I50 da inviarsi a Castrovillari = totale Tonnelate 750 oltre, s'intende, le Tonn. 420 che attualmente sono assegnate alle Calabro Lucane da Reggio Calabria.

4) Si allega copia del telegramma di conferma ricevuto in proposito dalla Sezione di Bari, facendo presente che si ritiene più conveniente rifornire i Depositi suddetti da Reggio Calabria anzichè da Napoli.

5) Si prega far conoscere i provvedimenti che verranno presi per l'invio dei suddetti quantitativi di carbone.

SUBJECT : Coal and Coke for Firm Fiat - Turin.

TO : Chief of Stores Service I.S.R. Bldg.
Attn: Ing. Bracci

1. Reference your A 245/701 dated 18 August requesting coke and fossil coal for Firm Fiat at Turin with whom you have placed an order for 1000 type L freight cars for speedy construction.

2. The Coal Division advise that the "Fiat" firm has already been allocated 1300 tons of metallurgical coke in August distributions, which will cover the quantity asked for in your request.

3. You should push the Fiat firm on this contract for early construction of your cars.

SUBJECT : Coal for Heating I.S.R. Offices.

TO : Chief of Stores Service I.S.R. Bldg.
Attn: Ing. Bracci

1. Reference your A.245/727 dated 28 August 1945 above subject.

2. You must make request for coal to be used for heating purposes to the Ministry of Industry and Commerce through your Ministry of Transports.

3. The next meeting of the Coal Allocation Committee for Italy will be held 15 September 1945 at which time all allocations of coal will be turned over to the Italian Government.

4. You should arrange to submit your request to the Ministry promptly so it will be acted upon without delay.

Heating of I.S.R. Offices and plants - Winter season 1945 - 46.

Sub Commission AC.
Building

1. Reference to letter Tn.A.2/16/1, dated 15 inst. addressed to you - for information - by M.R.S. Italy.

2. We report that, in the winter season 1939-40, about 40.000 tons of coal were required for the heating of I.S.R. plants and offices pertaining to Northern Compartimenti (Rome included).

3. For the next winter ~~if~~ in case we expet to reduce the a/m requirement to 50%, the amount should be of 20.000 tons, to be assigned as follows:

Compartimento of	Genoa	1.700 tons
"	" Turin	3.500 "
"	" Milan	4.000 "
"	" Venezia	2.500 "
"	" Trieste	1.000 "
"	" Bologna	2.300 "

INTER-OFFICE MEMO

File N. AC/Mat/Rl/80/Tn 4

SUBJECT : U.S.R. Coal Request - December 1945

TO : Commerce Sub-Commission - Coal Division
Attn: Col. Evans.

1. Attached in duplicate is estimated coal consumption of the Palermo, Cagliari and Reggio Compartimenti of the Italian State Railways for the month of December 1945 through April 1946.

2. At the present time traffic is moving freely in Italy but in Sicily we are unable to move all traffic, especially construction materials required for rehabilitation on the island i.e., chemical manure, asphalt, cement and building materials which cannot be moved account of priority for movement of food. The free movement of traffic in Italy is going to offer traffic to and from Sicily which we will not be able to take care of with the present allotment of 9000 tons and it is requested that the allotment be increased to 10000 tons per month for December 1945 with authority to use this amount during September October and November 1945.

3. It is also expected that there will be a large movement of corn in Sicily which would have to be made at the expense of reduction in movement of other goods and curtailment of food movements.

4. Will you please grant the authority requested in para 2.

Declassified E.O. 12356 Section 3.3/NND No. 795021

Subject : Coal Requisition and Allocation Committee

To : See distribution.

1. Please note that the second meeting of the Coal Requisition and Allocation Committee will be held at this Headquarters at 1200 hrs on Thursday 30th August 1945.

2. Agenda:-

1) To confirm minutes of first meeting held on July 31st 1945.
2) To consider:-

(a) Allocations for September - Appendices "A" & "B"
(b) Coking programme August/October - Appendix "C"
(i) Coke 15,000 tons
(ii) Coking coals 3000 plus 2,500 September arrival

3) To consider October allocations (if received)
4) To consider reactivation of Gas Works in Northern Italy from October 1st.
5) To consider policy to be followed on domestic heating for winter months in Northern Italy
6) To receive proposals of Italian Government on the takeover by them of distribution of civilian supplies of coal in Italy from September 15th excluding Venezia Giulia
7) Date of next meeting
8) Any other business.

SUBJECT : Coke for Naples, Sicily and Sardinia.

TO : Chief of Stores Service I.S.L.

1. Reference your request for coke required at the above locations for Railway Workshops and Contractors.

2. The Commerce Sub-Commission, Coal Division, advise that since coal is now being supplied to the Gas Works of Sicily the requirements of coke as requested can be met locally from the Gas Works of Palermo, Catania, Messina, Cagliari and in the case of Naples Calabria from Catanzaro.

3. You will therefore make application for the amounts required to the local U.P.I.C. concerned.

Subject : Coal for brick burning.

TO : Transportation Sub-Commission (Rail Division)
For attn. Major C.H.Long G.S.

1. Your letter ref: AC/Mat/21/73/En 4 is acknowledged.

2. After consultation with Lt.Col. A.W.John of AFHQ Coal Section, authority is given by the latter for the quantity of 400 tons to be drawn from existing Railway stock of imported coal. Sardinian coal is not available, and it is presumed that it is not possible to transport lignite to Bologna.

3. For future supplies it is recommended that enquiries be made of the Ministry of Industry and Commerce to discover whether it is practical to supply lignite from the Pietrafitta Mine near Perugia.

MILITARY RAILWAY SERVICE ITALY
OFFICE OF THE DIRECTOR (DMRSI)

Subject: Heating of I.S.R. Offices and Plants - Winter 1945-1946.

File: In.A.2/16/1.

15 Aug. 1945.

To: Ing. G. Bracci,
Stores Department,
HQ. I.S.R.

Copy to: In. Sub-Commission, A.C.

1. Referring to your letter dated 4th August, reference A.245/2671/ICCA/5798/43, the question of the heating of the offices and plants in the Compartimenti where the winter season is particularly cold should be taken up with In. Sub-Commission for a decision. It would probably be advisable to give them some idea of your requirements and the areas concerned, bearing in mind coal will be in extremely short supply this winter.

L.E. ROBSON, Major,
for Brigadier,
Director Military Railway Service.

SUBJECT : Coke for Società Terni.

TO : Industry Sub-Commission
Attn: Lt.Col. Glendinning - Director

1. At the Allied Railway Board Stores Meeting Ing. Bracci Chief of the Stores Service Italian State Railways reported that he had asked contractors to tender for supply of I.S.R. monthly requirement of 300 tons of carbide. The only reply received was from Società Terni who are unable at present to undertake production due to lack of coke.

2. Will you please advise us to the conditions at Terni and their capacity for the production of carbide also if it is a fact that they do not have sufficient coke to operate.

3. It is very much desired by this Sub-Commission that the I.S.R. receives a part of their requirements from Terni and will appreciate your help to see that they receive the necessary materials.

8 August 45

SUBJECT : ISR Coke requirements for August.

TO : Director,
Military Railway Service.

1. The attached document was received by this Sub-Commission on 7 August 45, to cover supplies of coke actually required during the current month.

2. At the present time, the suggestion contended in para 2- of your letter Tn A2/16/1 of August 45 cannot be accepted. Whilst this Sub-Commission has been responsible for re-activating such firms as Bombrini at Colleferro, Cecchetti at Civitavecchia Marche, etc. there appears to be no clear definition of Allied Commission responsibility in the matter, and credit for production of required cars is claimed by MRS.

3. If a satisfactory statement is made by MRS as to ISR works, private works and firms which will be sole responsibility of Allied Commission supervision, then the provision of fuel for these organisations will also be accepted by Allied Commission.

4. The only definite position is the fact that AC is agent for MRS in Reggio, Sicily and Sardinia.

R. P. Moss

8 August 1945

SUBJECT : Sicily - Coal Supply.

MEMO TO : Mr. Moss

1. Reference your note on buck slip attached to Minister La Malfa's letter of 5 August subject, Coal Supply Sicily, to put in for 10,000 tons per month.

2. The Coal Request due 1 August was submitted 30 July to Commerce Sub-Commission Coal Div. on July 30th and was made for 9000 tons. This report covers November 1945 through March 1946.

3. The request was held to 9000 tons because the Coal Div. will not permit any increases in Southern Italy and this was confirmed at the monthly Coal Allocation Committee Meeting held 31 July in Coal Division Office.

4. The Coal Division is not satisfied with reports of coal used in Sicily, they having lost 10,000 tons in the past year.

5. A coal supply was being built up in Sicily because the Northern ports could not take the coal. The Palermo Compartimento were using coal at the rate of 13000 tons per month before they were stopped and reduced to their 9000 tons per month. They are staying within their quota at the present time.

6. Until the world coal position becomes better, Sicily must cooperate and program their movements, so as to stay within their present allotment.

7. The Coal Allotment Committee desire to use any excess coal received for Northern Italy, railways and industries.

Declassified E.O. 12356 Section 3.3/NND No. 785021

Building

1) The consumption of coal in Sicily has been reduced again within the limits of the allocations.

2) Indeed, in the first fortnight of this month, such consumption has not exceeded 300 tons daily.

3) However, to reduce the consumption within the allocations of 9.000 tons monthly, we are going to reduce the movement of food, forbidding the transport of chymical manure, asphalt, cement and building material; otherwise it would not be possible to operate the trains for former-soldiers and partisans.

Besides, as it is expected a great movement of corn in Sicily, this could be effected only by prohibiting the conveyance of other goods.

4) What above will make still worse the bad situation of the Isle, affecting seriously the economical life.

5) We beg therefore to consider again the allocation of coal for Sicily, to reach at least 12.000 tons. per month, in order to secure the movement essential for the life of said Isle.

The Minister
sgd Ugo La Malfa

B U I L D I N G

1) Il consumo del carbone in Sicilia è stato riportato entro i limiti delle assegnazioni.
2) Nelle prime due settimane di questo mese infatti il consumo stesso non ha oltrepassato le tonn. 300 (trecento) giornaliere.
3) Per ridurre però il consumo entro le assegnazioni di 9000 tonn. mensili si stanno limitando i trasporti dei generi alimentari, vietando il trasporto dei concimi chimici, dell'asfalto, del cemento e dei materiali da costruzione, poichè non resterebbe possibile non effettuare i treni per i reduci e partigiani.
Inoltre, essendo annunziato un forte trasporto di grano nell'interno della Sicilia, questo non potrà effettuarsi se non vietando trasporti di altri generi.
4) Tale situazione verrà ad aggravare ancora i disagi nell'isola, incidendo fortemente nella sua economia.
5) Si prega pertanto voler prendere nuovamente in esame l'assegnazione di carbone per la Sicilia e portarla al limite minimo di tonn. 12000 mensili, in modo di poter assicurare i trasporti essenziali alla vita dell'isola.

DRAFT

COAL REQUIREMENTS AND ALLOCATIONS COMMITTEE.

Minutes of 1st meeting held on 31st July at 1200 hrs in the office of Coal Division, A.C. HQ.

Chairman	: Col. P.R. Evans	Coal Division
Present	: Lt.Col.A.H.Glendinning	Industry S/C
	Major L.G. Price	Public Works & Utilities S/C
	Major C.M. Long	Transportation S/C
	Capt. G.Sweet	do do
	Mr. D.C. Sachs	Labour S/C
	Mr. F.Proctor	do do
	Dr.Storoni	Under-Secretary to Ministry of Industry & Commerce
	Prof. Gerbella	Ministry of Industry & Commerce
	Dr.Mastrocinque	Ministry of Transport
	Dr.Bianchini	Ministry of Industry & Commerce
	Sig.Alberti	Representing Italian Coal Importers
	Sig. Castelli	do do do do
	Capt. F.W. Jones	In attendance
	Sig. Landi	do

1. The Chairman apologised for the unavoidable absence of Brig. D.L. Anderson, CBE, Deputy Vice-President, Economic Section, who was attending a conference in London. He regretted that the meeting had been called so late in the month but explained that the procurement authorities in Washington and London had been late in forwarding importation programme.

1489

2. July Allocations

It was explained that owing to late notification of importation figures it had not been possible for the Committee to meet and discuss

1. The Chairman apologized for the unavoidable absence of Brig. D.L. Anderson, CBE, Deputy Vice-President, Economic Section, who was attending a conference in London. He regretted that the meeting had been called so late in the month but explained that the procurement authorities in Washington and London had been late in forwarding importation programme.

1089

2. July Allocations

It was explained that owing to late notification of importation figures it had not been possible for the Committee to meet and discuss July allocations, and recommendations submitted by the Milan Coal Committee for the North had been acted upon to save time.

3. August Allocations

A schedule of allocations by categories of industry and by regions representing the Milan Coal Committee's views for the North was before the meeting. Pending further reports, it was agreed to transfer 5,000 tons in Lombardia and 4,000 tons in the Piemonte Regions from chemicals to general engineering, and to approve the schedule as thus amended.

Declassified E.O. 12356 Section 3.3/NND No. 785021

4. Coke

The Chairman explained that the policy was to import coking coal instead of coke for three reasons :-

(i) to save shipping space,
(ii) to obtain valuable bye-products, and
(iii) to provide employment for the Italian cokeries.

The coke would be largely utilized for the steel programme starting in September. It had been ascertained from tests that U.S. Low Volatile Coal was suitable for coking and one cargo of such coal was being set aside for this purpose in August. There was also one cargo, approximately 8,000 tons, of coke arriving during August.

5. September allocations

It was reported that a quantity of over 200,000 tons was likely to be made available for the North. There would be no increase in the usual 40,000 tons programmed for the South. The Ministry of Industry & Commerce were requested promptly to prepare recommendations for the allocations of the latter tonnage.

6. October through December

The Ministry of Industry & Commerce were requested to prepare forward estimates for the South & Centre. Any requests for reactivation of further plants would be discussed by them with Industry Sub-Commission and if approved, included in the forward estimates.

7. Electricity

Declassified E.O. 12356 Section 3.3/NND No. 795021

September. It had been ascertained from tests that U.S. Low Volatile Coal was suitable for coking and one cargo of such coal was being set aside for this purpose in August. There was also one cargo, approximately 8,000 tons, of coke arriving during August.

5. September allocations

It was reported that a quantity of over 200,000 tons was likely to be made available for the North. There would be no increase in the usual 40,000 tons programmed for the South. The Ministry of Industry & Commerce were requested promptly to prepare recommendations for the allocations of the latter tonnage.

6. October through December

The Ministry of Industry & Commerce were requested to prepare forward estimates for the South & Centre. Any requests for reactivation of further plants would be discussed by them with Industry Sub-Commission and if approved, included in the forward estimates.

7. Electricity

It was reported that Public Utilities and Works Sub-Commission had agreed that there was no necessity, owing to the ample availability of hydro-electric power in North Italy to supply coal to Thermal Stations.

8. Gas and Domestic Coal

It was stated that the question of reactivating Gas Works in the North would be the subject of a recommendation of the Milan Coal Committee at the next meeting. In Southern & Central Italy a quantity of 18,000 tons of Gas Coal monthly was being supplied to Gas Works giving a daily ration

Declassified E.O. 12356 Section 3.3/NND No. 735021

of approximately 5 hrs gas. The question of domestic coal for the North would also be investigated by the Milan Committee. No domestic coal apart from surplus lignite had been supplied for the South. All coal used for gas production and domestic purposes meant less for industry, with consequently increased unemployment.

9. Channels for Demands - Southern & Central Italy

The Chairman emphasized the necessity for requests for coal by private firms and others being properly channeled. It was agreed that the following procedure be adopted:-

Requests to be made to the Ministry of Industry & Commerce who will screen them and pass them on with recommendations and comments to Industry Sub-Commission. The latter in turn will pass them to Coal Division with their recommendations.

Similar demands for Northern Italy should be sent to Regional Commissioners for transmission with recommendations to the Milan Coal Committee.

10. Mr. Sachs expressed satisfaction that the coal allocations were being made on a basis of giving the fullest possible employment. He emphasized the necessity of allocating coal to industries engaged in reconstruction work e.g. steel and cement.

INTER-OFFICE MEMO

File N. AC/Met/21/60/Tn 4

SUBJECT : I.S.R. Coal Request - November 1945.

TO : Hq.AC. Commerce Sub-Commission
Attn: Coal Division Lt.Col. Oxley

1. Attached is estimated coal consumption of the Palermo, Cagliari and Reggio Compartimento of the I.S.R. for the months of November 1945 through March 1946.

2. The consumption for Sicily is held at the agreed 5000 tons and every effort will be made to see that it is not exceeded. Any program requiring additional coal will have to be met at the expense of existing service.

3. The request for Sardinia has been revised in accordance with your present allocation to the railroads on the Island. The I.S.R. have been advised that these quantities must not be exceeded and are the maximum for the present.

25 July 1945

SUBJECT : Reggio Calabria - Coal Supply.

TO : Capt. B.W.Boddy Reggio Calabria c/o I.S.R.

1. Reference your R.13 dated 16 July 45 above subject.

2. You should amend your weekly wire reports when coal is issued to other and not consumed by I.S.R. You made do this by stating "Item"C" includes 294 tons"Transfers in the Divn. 20 tons to Cons.Agrar. and 40 tons to Val di Neto Rly. If no explanation is given it will be taken that Item "C" is all I.S.R. consumption.

3. Please explain the 294 tons,"Transfers in the Divn."

By Command of Rear Admiral Stone:

7 June 1945
156 COLAF

Office Instruction No. 9

Storage of Coal

1. Coal may deteriorate in quality while it is in store, but provided no serious heating or spontaneous combustion occurs, deterioration is not as a rule important.

2. Serious heating or spontaneous combustion may be caused by numerous factors. The more important of these are dealt with below. It is not possible to draw a hard and fast dividing line between safe and unsafe conditions of storage and the facts and figures quoted below must be used with some flexibility. They should, however, prove a useful guide.

3. SIZE OF COAL. This is the predominent factor. Large size coal is usually quite safe provided that fines have not been produced during transportation handling and storage. Coal of mixed sizes including fines, run of mine etc. are more likely to heat than uniformly fine coal because the larger pieces of coal open the texture of the heap and facilitate the type of ventilation necessary for heating to proceed. When a coal is being stacked it should be spread out as it is deposited so that there are no local segregations of sizes and lump coal should be distributed as uniformly as possible among the fine.

4. VENTILATION. There should be either ample ventilation or no ventilation at all. If ventilation is aimed at, open and perforated pipes projecting vertically and horizontally into the stack at frequent intervals should be used.

Where no ventilation is aimed at, coal should be packed uniformly, avoiding segregations of particular sizes. It should be packed tightly and the heap blanketed with fine coal. Welling may be effective it is can be donem but care must be taken that the coal resting against the wall has not packed imperfectly or segregated so as to leave channels through which the adjacent part of the stack may be ventilated by chimney action. Ventilation in fine coal is impeded if it is wet. Stacks should be laid down end on to the prevailing wind.

Declassified E.O. 12356 Section 3.3/NND No. 785021

5. SIZE OF STACK. Where possible stacks should not exceed 200 tons and should not exceed 4ft in height.

6. SITE OF STACK. The floor should be hard and dry, preferably concrete or stone. Open ground will do if it is hard clay or chalk, peaty ground should be dressed with a few inches of ballast or ashes (completely cooled). The site should be cleared of all combustible litter and vegetable matter. There is no definite reason for believing a wet site to be harmful. Storage under cover probably offers no advantage to compensate for the cost of providing the cover. The coolest site possible should be selected. A site should not be chosen near a source of heat e.g. a boiler house.

7. ROTATION. Stocks should be turned over in rotation so that no coal is allowed to remain stacked longer than necessary.

8. INSPECTION. (a) Routine inspection of stocks shoul becarried out.

(b) A good method of controlling the temperature is to drive tubes into the stacks at regular intervals and into these drop solid rods. These rods should be felt each day and any that are appreciably warm to the hand should be noted. In this way early notice will be obtained of any tendency to over heating in a particular area.

(c) If the temperature of any particular area reaches 150 degrees Fahrenheit immediate steps must be taken to deal with the situation.

9. ACTION IN THE EVENT OF HEATING. If any particular area shows a sign of overheating it should be isolated by flooding with water all round the warm spot, gradually into the hot area. When cooled by flooding the coal affected should be moved and consumed as soon as possible.

156 COL.F

Office Instruction No. 6

Storage of coal

1. Coal may deteriorate in quality unless it is in store, but provided reasonable precautions against combustion occurs deterioration is not rapid.

2. Serious heating or spontaneous combustion may be caused by numerous factors. The more important of these are dealt with below. It is not possible to draw a hard and fast dividing line between safe and unsafe conditions of storage and the facts and figures quoted below must be used with some flexibility. They should, however, prove a useful guide.

3. SIZE OF COAL. This is the predominant factor. Large size coal is normally quite safe provided that fines have not been removed during transportation and handling and storage. Coal of mixed sizes including fines, run of mine etc. are more likely to heat than uniformly fine coal because the larger pieces of coal open the texture of the heap and facilitate the type of ventilation necessary for heating to proceed. When a coal is being stacked it should be spread out as it is deposited so that there are no local segregations of sizes and large coal should be distributed as uniformly as possible among the fines.

4. VENTILATION. There should be either adequate ventilation or no ventilation at all. If ventilation is aimed at, open slatted wood pipes projecting vertically and horizontally into the stock at frequent intervals should be used.

Where no ventilation is aimed at, coal should be packed uniformly, avoiding segregations of particular sizes. It should be packed tightly and the heap blanketed with fine coal. Walling may be effective if it is and be done but care must be taken that the coal resting against the wall has not caused segregation or segregated so as to leave beside it a passage which the coal may part of the stack may be ventilated by chimney action. Ventilation in fine coal is impeded if it is wet. Stacks should be built down wind to the prevailing wind.

5. SIZE OF STACK. Where possible stacks should not exceed 20' base and should not exceed 12' in height.

6. SITE for STACK. The floor should be hard and dry, preferably concrete or stone. Open ground will do if it is hard, dry or chalk, peaty ground should be dressed with a few inches of hardcore or ashes. Organic matter should be removed. Where it should be covered with combustible timber and vegetable matter. Where it is

Declassified E.O. 12356 Section 3.3/NND No. 785021

definite reason for believing a wet site to be harmful. Storage under cover probably offers no advantage to compensate for the cost of providing the cover. The coolest site possible should be selected. A site should not be chosen near a source of heat e.g. a boiler house.

7. ROTATION. Stocks should be turned over in rotation so that no coal is allowed to remain stacked longer than necessary.

8. INSPECTION. (a) Routine inspection of stocks should be carried out.

(b) A good method of ascertaining the temperature is to drive tubes into the stacks at regular intervals and take these drop solid rods. These rods should be felt each day and any that are appreciably warm to the hand should be noted. In this way early notice will be obtained of any tendency to over heating in a particular area.

(c) If the temperature of any particular area reaches 150 degrees fahrenheit immediate steps must be taken to deal with the situation.

9. ACTION IN THE EVENT OF HEATING. If any particular area shows signs of overheating, it should be isolated by flooding with water all round the warm spot, gradually working into the hot area. When cooled by flooding the coal affected should be moved and consumed as soon as possible.

MILITARY RAILWAY SERVICE ITALY
OFFICE OF THE DIRECTOR (DMRS0)

Subject: Supply of Coal - Ancona Compartimento. File: Tn.A.2/16/1.

18 June 1945.

To: Coal Section, A.F.H.Q.
A.C., Tn. Sub-Commission.
Movements, Ancona.

Copy to: D.D.Tn., Tn.(Br), A.F.H.Q.

1. Please note arrangements have been made for the Agenzia Marittima to take over the depôt distribution of Coal for I.S.R. at Ancona, as Transportation (Railways) have left the area. The representative of the Agenzia Marittima is Sig. Cecconi and his office is in the offices of the Capo Compartimento at Ancona. Distribution will be made in conjunction with Movements, Ancona, and the arrangements will be similar to that operating in the Bari Compartimento.

2. The advice you now send to Transportation (Railways) should be sent to Agenzia Marittima with a copy here giving the bulk allocation only to I.S.R. and should not include any allocation to A.C., Tn. Sub-Commission or other services. All allocations to A.C. including the Tn. Sub-Commission should be made direct by you to that Commission.

GIUSEPPE CECCONI.

L.E. ROBSON, Major,
for Brigadier,
Director Military Railway Service.

1. Further to my R 13 of 9 June Taranto Movements have just supplied 50 tons to Catanzaro Gasworks.
The 400 tons for " local Undertakings " supplied by Reggio (see list attached to my letter R 13 of 20 May to you) included 60 tons for Catanzaro Gasworks.

2. Is this a duplication please ? Do the Gas Works really want 110 tons ?

INTER-OFFICE MEMO

File N. AC/Mat/SL/41/Tn 4

SUBJECT : Coal Consumption - Sicily

TO : Commerce Sub-Commission - Coal Division
Attn: Lt.Col. Oxley

1. Reference your AC/CD/104/Commerce dated 12 June 45 in regard to reported excessive consumption of coal by the railways in Sicily during the week ending 9th June.

2. The Italian State Railways have been requested to instruct the Palermo Compartimento that they must stay within an average of 2250 tons per week and also that they must reduce services in order to make up for the excess coal consumed in May and June.

3. We confirm that every effort will be made to keep the Sicilian coal consumption within the agreed quantity of 9000 tons.

Subject : Coal Consumption - Sicily.

TO : Transportation Sub-Commission, AC

1. It has been reported to us that during the week ending the 9th June, the railways in Sicily have consumed 3211 tons of coal or equivalent to an average of over 13.000 tons per month.

2. This Division has not received an application for any increase, nor have any arrangements been made to supply more than 9000 tons, which, as you are aware, is the agreed monthly allocation. Coal is in extremely short supply, and any increased quantities required, have, if approved by AFHQ London and Washington, to be arranged three months in advance.

3. The stocks of coal on the island are larger than usual due to arrangements having had to be made to discharge steamers in Sicily which were destined for the Northern ports not yet open. As soon as the North can receive coal, it is intended to divert steamers, including those which would normally have discharged in Sicily, to the North . The stocks now been built up in Sicily therefore, represent requirements for July August.

4. We will be glad to have your confirmation that the monthly consumption in Sicily will not exceed the agreed quantity.
