SUBJECT : Glass for Italian State Railways

TO : Director E.P. and Stores A.F.H.Q. C.M.F.

1. The Italian State Railways have been informed that the glass factory at Vietri sul Mare is ready to start operation and will receive all of the necessary materials required.

2. The Naples division of the I.S.R. requires 20,000 sq. mts. of glass to complete the rehabilitation of buildings located on that division.

3. Will you please furnish a release to the I.S.R. for the above amount to be received from the Vietri sul Mare factory?

OGGETTO

Assegnazione di vetri alla Sezione Lavori di Napoli

ALLEGATI N. 1

1- Risulterebbe a questo Servizio che alla vetreria di Vietri sul Mare stanno per giungere i materiali necessari per ricominciare la produzione di vetri.

2- La nostra Sezione Lavori di Napoli ha segnalato che per il ripristino di numerosi fabbricati di quel Compartimento, occorre almeno una prima assegnazione di 20.000 metri quadrati di tale materiale(il fabbisogno totale é indicato nell'unito quadro).

3- Si prega voler disporre che tale quantità venga assegnata appena possibile alla Sezione Lavori di Napoli, sulla produzione della vetreria già ricordata.

SUBJECT : Calcium Carbide

TO : D.M.R.S. D.A.D. Tn 2 A (Stores) Bldg.
Attn: Capt. G.J.Ellis

1. Reference your Tn.A 2/76/2 dated 7 May 45 above subject.

2. On 20 April form Mat.10 was sent to the Ministry of Transport for forwarding to Ministry of Industry Commerce and Labor. This request for 75 tons of calcium carbide monthly.

3. The Commerce Sub-commission still retains the allocation of oxygen and acetylene and as calcium carbide is used to generate acetylene, this Division requested a/m S/C be bid for carbide at the Engineering Materials Committee Meeting as it was thought that the channel through the Ministry of Industry Commerce and Labor was not very certain.

4. No allocation was received at the last Engineering Materials Committee Meeting but it is hoped that at the May Meeting our requirements will be obtained.

Cast Iron materials for
I.R.S.

ALLEGATI N. 1

Roma 26 aprile 1945 - A.

N. AM/ 598

Al N. AC/Mat/26/33/Trn. del 7/4/1945

TRANSPORTATION SUB COMMISSION AC
(RAIL DIVISION)
C/o TRANSPORTATION INCREMENT
C.M.F.

Abbiamo preso buona nota della nuova procedura riguardante le domande di sblocco per materiali di ferro colato e ghisa che servono per le ferrovie italiane dello Stato.

Questa Amministrazione non era stata affatto informata di quanto sopra, ma era invece venuta a conoscenza della circolare AC/5300/Commerce, in data 5 aprile 1945 dell' -Headquarters Allied Commission - APO 394 - Commerce Sub Commission - della quale si allega copia, che prescrive una procedura differente per le richieste in genere di materiali controllati che siano necessari per i lavori ferroviari, distinguendoli in due categorie, e cioè: a) lavori di interesse bellico; b) lavori non di interesse bellico.

Nessuno speciale riferimento viene fatto per la richiesta di materiali di ferro fuso o ghisa(cast iron).

Sarà particolarmente gradito se cotesta Sottocommissione potesse fornire nuovi maggiori chiarimenti in proposito, onde evitare in avvenire perdite di tempo nell'inoltro delle domande di assegnazione dei prodotti controllati.

Con ringraziamenti.

To Transportation Sub Commission
Rail Division
C/o Incr.Transp. C M F

We have acknowledged the new procedure concerning applications for cast iron to be used by I S R.

This Administration was not informed of what above, but instead we acknowledged the circular letter AC/6300/ Commerce dated 5 April 1945 of the H.Q. AC/ARO/394 Commerce Sub Commission, herewith attached in copy, that prescribe a different procedure for the different requests of controlled materials necessary for railway works, distinguishing them in two categories i.e. : a) works of war interest; b) works not of war interest. No special ref. is made to cast iron. We will particularly appreciate if your Sub Commission could furnish clearest informations on the matter, in order to avoid in future a loss of time in forwarding bids for allotments of controlled materials.

Copia delle sopra menzionate istruzioni,inviate alle Sottocommissioni dell'AC,sono unite alla presente per informazione.Esse portano il protocollo AC/6300/Commerce,la data del 16 Marzo 1945 e sono indirizzate:
a) alle Sottocommissioni dell'AC,e) ai Commissari Regionali.Alla prima di queste lettere è allegata,c) la lettera AC/6300/Commerce del 15 Ottobre 1944.

2. Si deve sottolineare che le nuove direttive comportano quattro eccezioni che concernono le Sottocommissioni:dell'Esercito,della Marina,dell'Aeronautica e dei Trasporti le quali,in collegamento coi Ministeri italiani della Guerra,della Marina,dell'Aeronautica e dei Trasporti continueranno ad applicare la procedura attualmente in vigore e che è richiamata qui appresso.

a). Ministero della Guerra. - Le domande,dopo aver ottenuto l'approvazione della Sottocommissione dell'Esercito dell'AC (Land Forces Subcommission HQ AC) saranno inviate dal Ministero della Guer-

./.

Declassified E.O. 12356 Section 3.3/NND No. 783021

a). Ministero dell'Industria Commercio e Lavoro che le inoltrerà secondo l'abituale procedura.

Per il cuoio e i manufatti di cuoio le istruzioni date nella lettera della Sottocommissione del Commercio al Ministero dell'Industria,Commercio e Lavoro del 28 Febbraio 1945,protocollo AC/5158/Commerce,rimangono invariate.

b). Ministero della Marina. - Le domande saranno indirizzate direttamente alla Sottocommissione della Marina dell'AC (Navy and F.O.T.A.L.I. Subcommission No AC) che le presenterà insieme alle proprie domande al competente Comitato dell'A.F.H.Q.S.Le eventuali assegnazioni saranno fatte direttamente dalla Sottocommissione della Marina a favore del Ministero della Marina.

c). Ministero dell'Aeronautica. - Le domande saranno indirizzate direttamente alla Sottocommissione dell'Aeronautica dell'AC (Air Forces Subcommission No AC) che le presenterà insieme alle proprie domande,al competente Comitato dell'A.F.H.Q. Le eventuali assegnazioni saranno fatte direttamente dalla Sottocommissione dell'Aeronautica a favore del Ministero dell'Aeronautica.

d). Ministero dei Trasporti. - Le domande della Direzione Generale delle Ferrovie dello Stato,per eseguire lavori di interesse bellico,saranno indirizzate al Direttore dei Servizi delle Ferrovie Militari (Director of Military Railways Services) al quale spetta di prendere le opportune misure in proposito.Le assegnazioni saranno fatte direttamente dal sopramentionato Direttore alla A.F.H.Q.Le domande che non siano di interesse bellico saranno inviate direttamente al Ministero dei Trasporti e inoltrate secondo la abituale procedura.

3. Domande nei territori AMG e delle Armate. - Un esame delle direttive inviate ai Commissari Regionali,citate nella lettera menzionata nel paragrafo n° 1,lettera b) della presente nota,chiarirà come gli Ufficiali dell'AMG procederanno laddove gli U.P.I.C. non funzionano ancora.Nelle provincie dove gli U.P.I.C. funzionano,tutte le domande dei civili saranno raccolte (come è il caso per le dichiarazioni di materiali bloccati) degli U.P.I.C.e inviate al Ministero I.C.C. seguendo esattamente le attuali istruzioni.In altre parole,laddove gli U.P.I.C.abbiano ripreso la loro attività,essi costituiscono l'unico mezzo di cui ci si deve servire per tutte le operazioni relative ai materiali controllati,ivi compresi

1. With further reference your RVIII/77/39/24 of the 28th March 45 and this H.Q. letter ref. 8166/E.S. dated 4th inst.

2. Subsequent to our letter of the 4th inst, we have since received further information from the Firm of Lavelli which has been somewhat contradictory a copy of their latest Stock denunciation Report dated 18th inst. is enclosed herewith it appears to be reasonably accurate.

3. Ref. para 9 A.F.L.R.S., A.F.H.Q. Report Pisa/16 of the 7th March 45. Whereas sub para 11: of para 9 states that 20.000 litres of accumulator acid are available, the Firm Lavelli declares that their factory was completely destroyed and the acid lost.It is therefore assumed that in view of this information Pisa Report n° 16, was purely based on what stocks should have been there and not on any physical check.

4. The factory has been visited and the only raw materials seen were Magnesium Oxide and Magnesium Carbonate, both in a state of deterioration and covered by debris.

SUBJECT : Copper Scrap.

TO : O/I.C. 80 E.B.W. S.A.E.C. C.M.F.

1. This Sub-Commission has been advised by the Italian State Railways that on 4 February 45 the firm of Metallurgica Costa, Vietri, received wagon N°. 25172 from Torre Annunziata Central which contained among other things 14,180 Kgs. of scrap copper from damaged I.S.R. installations.

2. The Italian State Railways advise that they did not despatch the scrap to a/m Firm. They were advised by the Firm that it had been despatched by "E" Shed. 80 E.B.W.-S.A.E.C. Castellammare, from Base Salvage, Torre Annunziata.

3. The Electric and Signalling Plants Dept. of I.S.R. have also been informed that large quantities of copper scrap are stored at the Base Salvage, Torre Annunziata, from the overhead system of the I.S.R. lines which were damaged by war actions.

4. The M.R.S. and Allied Commission in their effort to rehabilitate the Italian State Railways suggest that the salvage scrap material which finds its way to your depot be returned to the I.S.R. so it can be transformed into new material for reconstruction purposes.

5. Will you please advise the possibility of the return of the copper scrap mentioned in paragraph 1, to the I.S.R. and any other further quantities that may eventually be sent to Base Salvage at Torre Annunziata.

For the Chief Commissioner:

C.M. LONG, Major C.E.

To: The S/Commission A.C.
Rail Division.

SUBJECT: Copper scrap.

We beg to submit following information received from our Electric and Signalling Plants Dept. Naples:

1. The Firm of Metallurgica Costa, Vietri, received on Feb.4th ult. wagon 251721 ex Terre Annunziate Centrale carrying, among other, 14180 kgs copper scrap ex damaged ISR installations.

2. As above scrap had not been despatched to said Firm by any ISR Dept., the Firm was requested to specify who was the consigner.

3. The Firm Costa replied that the scrap had been despatched by "E" SCHED ident 80.EB W - S.A.E.C., Castellammare, ex Base Salvage, Terre Annunziate.

4. Our Electric and Signalling Plants Dept. was moreover informed that important quantities of copper scrap are stored at Base Salvage, Terre Annunziate, ex overhead system of ISR lines damaged on account of the war.

5. ISR must be in a position to dispose of all material formerly belonging to installations damaged on account of the war, in order to may transform it into new material to be used for reconstruction purposes, so that it would be very useful if all salvaged material ex damaged ISR installations could be returned to ISR.

That S/Commission is therefore kindly requested to investigate the possibility to intervene with Base Salvage, Terre Annunziata, in order that a/m 14180 kgs copper scrap plus further quantities, ascertainly stored at Terre Annunziata, be returned to ISR.

O G G E T T O: Rottami di rame

L'Ufficio Impianti Elettrici e di Segnalamento di Napoli comunica quanto segue:

1) Alla Metallurgica Costa di Vietri é pervenuto il 4 febbraio u.s. il carro 251721 proveniente da Torre Annunziata Centrale, contenente fra l'altro kg.14180 di rottami di rame tolto d'opera da impianti sinistrati delle Ferrovie dello Stato.

2) Tali rottami non furono spediti a tale Ditta da Enti delle Ferrovie per cui si chiese alla Ditta Costa di dichiarare chi era il mittente.

3) La Ditta Costa fece conoscere che i rottami erano stati spediti dal " E " SCHED Idet 80.EB W - S.A.E.C. di Castellammare e provenivano dalla Base Salvage di Torre Annunziata.

4) Da informazioni assunte, lo stesso Ufficio I.E.S. di Napoli avrebbe saputo che, a Torre Annunziata, la Base Salvage ha un importante accantonamento di rottami di rame provenienti da linee elettriche di contatto delle Ferrovie dello Stato distrutte da azioni di guerra.

5) Ciò posto, data la necessità, per le Ferrovie dello Stato di poter disporre di tutti i materiali che formavano i propri impianti danneggiati da azioni di guerra, per poter procedere alla necessaria ricostruzione, trasformandoli in materiali nuovi da impiegare a tale scopo, sarebbe desiderabile e molto utile al fine suddetto che tutti i materiali raccolti comunque dagli impianti ferroviari danneggiati o distrutti da azioni di guerra, ritornassero in possesso delle fer-

c) I quantitativi di bullette di Francia rimasti presso la Ditta sono i seguenti:

Bullette a testa piana per falegnami:

da 7 x 25 Kg. 50 - da 10 x 40 Kg. 50 - da 12 x 35 Kg. 50
" 15 x 55 " 50 - " 20 x 80 " 50 - " 23 x 160 " 50
" 10 x 80 " 40 - " 10 x100 " 40

Bullette a testa bombata: da 19 x 80 Kg. 50

Bullette a 1/2 testa (gruppetti): da 8 x 25 Kg.40-da 14x40Kg.40
" 15 x 50 " 40- " 17x70 " 50

3°) Il materiale in parola potrebbe essere tutto acquistato, ma le suddette Ditte non possono accettare il Ns. fermo su alcuni dei quantitativi anzidetti poichè l'ordine di sblocco viene dato solamente dal Capitano Inglese Shapel, che risiede presso la Prefettura di Siena e rilascia le autorizzazioni di vendita di volta in volta che ritiene necessaria la distribuzione

4°) Incaricati del Servizio Materiale e Trazione, recatisi dal predetto Ufficiale, hanno assodato che egli non aveva alcun ordine di sblocco a favore delle F.S., nè potrà accordare dei prelievi, dato che questi sono ammessi solo per le Forze Armate Alleate e poi per la Provincia di Siena.

5°) Si fa riserva di comunicare, non appena in grado, l'esito degli accertamenti eseguiti presso le altre Ditte.-

INTER-OFFICE MINUTES

Ref: AC/Met/26/45/Tn 4

SUBJECT : Release of Uncontrolled and Unrestricted Materials

TO : HQ.AC. Commerce Sub-Commission APO 394
Material Releases Division

1. The Military Railway Service requested the Italian State Railways to make purchases of steel at Soc. "Ilva" S.Giovanni Valdarno as listed in A.F.L.F.B. Availability List N°. 6.

2. The representatives of the I.S.R. were informed that a release was required from Major Drake, Comm.Div. Tuscan Region. The Commerce Div.Tuscan Region when contacted advised that they were only responsible for small quantities and that authority must be issued from HQ.AC. Commerce Sub-Commission.

3. Following are the materials for which release is desired as purchase may be by I.S.R.:

Round steel, size from m/m 8 to 90 m/m	approx.	Tons.	82
" " for concrete, size from m/m 5 to m/m 80	"	"	97
Rectangular steel, various sizes	"	"	207
Angular steel " "	"	"	114
L steel, various sizes	"	"	7
Ribbon steel	"	"	26
Spring steel, from m/m 15 to m/m 70	"	"	30
Steel for saw blades	"	"	2
Steel in ingots	"	"	1,354

4. Will you please furnish release for above materials.

REMARKS:

Declassified E.O. 12356 Section 3.3/NND No. 785021

5. The material requested is urgently needed by the Italian State Railways in order to carry out repair works in Shops in Liberated Italy, Reconstruction and maintenance of the lines all of which is vital to the economic life of Italy and very necessary for transporting military and U.N.R.R.A. supplies.

The M.R.S has advised that lorries that they will no longer be able to supply Lorries to Base Commitments and Inland Water Transport.

Recommend that a high priority be given to this request and that the armament shown (75 tons) be bid for monthly.

SUBJECT : Cast Iron Materials for I.S.R.

TO : D.A.D. Tn.2 A (Stores) Bldg.
Attn. Major Chaplin

1. The Industry Sub-Commission A.C. advises under date of 5 April 45, that information has been received from A.F.L.R.S. AF.HQ. that all bids for cast iron materials on behalf of the Italian State Railways be passed through Tn.Increment who after screening will forward direct to D.S.F. and S. when every endeavor will be made to meet such demands, subject to no interference with military programs.

2. This procedure will eliminate the requests being passed through the Italian Ministries and will give the Italian State Railways a priority, second to military, which is necessary for the rehabilitation of the railways.

3. It is presumed that you have had information on this subject.

SUBJECT : Paper Supplies for the Italian State Railways

TO : Transportation Sub-Commission - Rail Division
c/o Transportation Increment

1. Reference your AC/Mat/25/31/TI 4 of 6 April 1945 addressed to the Regional Supply Officer, Umbria-Marche Region and forwarded to this office for appropriate action.

2. The paper stocks of the Cartiere Miliani, Fabriano of which the Italian State Railways wish to purchase a part have been the source of great difficulties due to the fact that several agencies have blocked and controlled them including A.M.G.- 8 Army and the P.S.C. Macerata. They were never blocked or controlled by this Sub-Commission.

3. However with the transfer of the Umbria-Marche Region to the control of the Italian Government these paper stocks have been released from all Allied control. Therefore it is suggested that now the Italian State Railways negotiate a purchase of the stocks needed directly with the Cartiere Miliani.

2. The information you allege to have received does not agree with the present situation.
3. The quantities you reported refer to those that we gave to the A F H Q, on the month of July, when the Allies arrived here. Such stocks were at once frozen by said Authority, and since that time many supplies out of these stocks have been made, especially of the paper most used for writing and printing, all duly ordered by the same H.Q.

The paper for packing produced in our factory is used here to pack the "value - paper" made in behalf of the Italian State. As a matter of fact, we are authorized to manufacture only such "value - papers" by using the electric power just during the hours in which we are supplied with by the A F H Q who control the very power.

The present stocks of paper available are only those, very expensive, for drawing, for water - colours and printing, which can not be released without the prescribed order of the A M G Ancona.

Declassified E.O. 12356 Section 3.3/NND No. 785021

Stores of Foligno

Foligno 3rd March 1945
N.501 C/M
To your letter 2598 Am of 22/2/45

Subject:
Purchase of writing paper.

To I.S.R. Stores Depart. Rome
Co. To Loco Shops - Foligno

Yesterday, I went with Seg. Tecnico Pr. Mr. Allegra Nazareno of the local shops, to Cartiere P. Miliani, Fabriano, in order to comply with your request.

It is to point out, firstly, that we were not permitted to see any types of paper, neither to learn availabilities and prices, because we could not hand any release - order issued by the Allied Authority of Ancona. The General Director of the Firm was absent; however, the Sale - Manager stated that, in the first place, the requested stocks of paper must be reduced to the minimum; then the precise quantity is to be given for each type, and finally it must be cancelled the request of paper for packing, as this was never and is not at present produced in the factory. All this is necessary due to the many supplies - duly released - which are in progress and owing to the fact that after requests are continually made in consequence of the availability reported by the A F H Q. For such reasons our request was accepted with reserve.

It is to bear in mind, also, that for the loading

Declassified E.O. 12356 Section 3.3/NND No. 785021

The General Director of the Firm was absent; however, the Sale - Manager stated that, in the first place, the requested stocks of paper must be reduced to the minimum; then the precise quantity is to be given for each type, and finally it must be cancelled the request of paper for packing, as this was never and is not at present produced in the factory. All this is necessary due to the many supplies - duly released - which are in progress and owing to the fact that after requests are continually made in consequence of the availability reported by the A F H Q. For such reasons our request was accepted with reserve.

It is to bear in mind, also, that for the loading of the paper on the trucks - which are to be furnished by the I.S. R. - as well as for the movement from the factory to Fabriano station, the very I.S.R. will be responsible.

The various difficulties pointed out arise from the scarce efficiency of the factory, due to lack of electric power and above all to shortage of raw material.

Na.31.cb.

./.

Declassified E.O. 12356 Section 3.3/NND No. 785021

The only type of paper we saw was a new item, produced at present, called "gelatine writing paper" rather dark and very porous, so much, be considered for packing, whose price is 180/200 liras per Kg.

Such price is increasing each day, due to wages-increase and lack of raw material.

The availability shown by the A F H Q (D.R.H. Chaplin Maj.) was reckoned on the basis of the first inventory made after the occupation of Fabriano (August 1944).

Since said time, many supplies out of said first availability were made and the stocks could not be restored because the present output is limited only to "value - papers" for the State, and the other productions are hampered by the above outlined difficulties.

The Manager stated that the eventual stock available, may be smaller than that covering the next request of I.S.R.; this stock should be located either at Fabriano factory or at Pioraco plant (Macerata), about 20 Km from Fabriano. In this case the movement might be very difficult, due to the bad roads-condition, in consequence of the destructions made by the Germans.

In short it is necessary:

1. To obtain and to hand the prescribed release-order issued by the Allied Authorities of Ancona.
2. To detail types and quantities of papers; these last to be remarkably reduced.
3. To cancel, on the request, the paper for packing.

Declassified E.O. 12356 Section 3.3/NND No. 785021

papers" for the State, and the other productions are hampered by the above outlined difficulties.

The Manager stated that the eventual stock available, may be smaller than that covering the next request of I.S.R.; this stock should be located either at Fabriano factory or at Picraco plant (Macerata), about 30 Km from Fabriano. In this case the movement might be very difficult, due to the bad roads-condition, in consequence of the destructions made by the Germans.

In short it is necessary:

1. To obtain and to hand the prescribed release-order issued by the Allied Authorities of Ancona.
2. To detail types and quantities of papers; these last to be remarkably reduced.
3. To cancel, on the request, the paper for packing.
4. To arrange, after the purchase is made, for the loading and the transport of paper from the factory to Fabriano station; finally, in case the paper is located at Piorace, to arrange the movement for the station.

Palermo Coal Depot		16 000 Kg
Reggio Calabria	"	2000 "
Bari	"	1500 "
Naples	"	3000 "
Ancona	"	1000 "
Rome	"	2000 "
Arezzo	"	3500 "
		30,000 " = 30 Metric tons.

5. The above material is required by the Italian State Railways for a period of three months for use in softening the water used in the boilers of the Steam locomotives. Its use prolongs the time the boiler can be used without having to be stopped and is therefor very essential to the efficient operation of the railways. Its early release is requested as the supply of the Railways is very low.

1. Ref. copy of Industry Sub-Commission, note AC/5643/1ND dated 3 March 1945, this Stores Service asked Solvay Firm and Co. of Rosignano to deliver the sodium carbonate to Vada station, as this Administration is unable directly to care for the withdrawal by Rosignano Plant.

2. We will let you know later when such material could be delivered by the Firm in order to obtain by your Sub-Commission that a railway car for Transportation to Palermo might be available at the station and to get the concerned authorization.

3. We beg you also to examine the possibility to release some more sodium carbonate quantities to cover the most urgent needs of other Compartimenti of liberated Italy; Reggio Calabria, Bari , Napoli, Roma, Ancona e Firenze.

We are awaiting for a kind reply.

ISR General Direction
The Chief of Stores Dept.

Roma, 27 March 1945

m e m o r a n d u m

for Major Long

This General Direction ISR has been informed that abt. 250 tons lead have been frozen in Sardinia, at Montevecchio Company Shops, on behalf of Allied Commission.

In above mentioned frozen amount of lead are included also abt. 10 tons which were intended for manufacture of wagon seals as ordered by ISR Administration in December ult., plus further ten tons already bought by ISR for other purposes.

We want to point out, moreover, that further 90 tons lead are necessary to cover ISR requirements, for manufacture of batteries, electric cables, water pipes, babbit metal, etc.

Please therefore kindly arrange for release of the amounts already purchased by ISR Administration as well as of the 90 tons necessary to cover ISR requirements.

- -

Viene segnalato che da parte dell'A.C. sono state bloccate in Sardegna 250 tonnellate di piombo presso la Soc.Montevecchio.

Nei quantitativi bloccati sono state comprese circa 10 tonnellate per la confezione di piombi per carri ordinati nello scorso dicembre da questa Amministrazione e già in lavorazione e altre 10 tonnellate già acquistate per fabbisogni vari.

Si fa presente inoltre che per completare l'immediato fabbisogno di questa Amministrazione necessitano altre 90 tonnellate di piombo occorrenti per la fabbricazione di accumulatori, di cavi elettrici, di tubi per servizio acqua e per la preparazione di metallo antifrizione.

Si prega pertanto di volersi cortesemente interessare presso l'A.C. per ottenere lo sblocco dei quantitativi di piombo già acquistati e l'assegnazione delle 90 tonnellate necessarie per coprire il nostro fabbisogno immediato.

Ministry of Transports
I S R Compartimento of Florence
Requisition and Purchase Commission

Florence, 9 March 1945

Subject: Unfrozen materials put at the disposal of the C..

N. 88/10/C.I.A.

Re: N.A 38/428/B.13 dated 5 Febr. 1945

To I.S.R. Stores Service

Rome

This Commission, upon request of the Rolling Stock and Traction Service, made proper ascertainments at the Firms reported by letter A 13.6 20/C.62 of 20th January 1945.

We point out that the first list was received here only on 3rd February, and that inquiries were greatly hampered by the lack of transport means, as many Firms reside out of Florence.

1) Siderurgica Commerciale - The materials were already sold to third persons, according to disposition issued by local Authority.

2) Firms ARTE-TORRIOLI, CIACHETTI, SAGAE, FIORENTINA, M. [illegible] ELETTRICI, B. ROCCHI, GUALDINI, MANETTI, FERRINI, [illegible]INI, NORTON, ALESSANDRI & DE ANGELIS, AES, CHERICI-STAGI, RADIO ELETTRICA, ELETTRICITA', VANNUZZI

Many of those have no longer any material available. Other firms had some availability and the I.S.S Office tested the samples, but without success, because the insulators are not fit for railway requirement.

3) Firms, RADIOLI, FIERFEDERICI, CELLINI; no ascertainment made, because firms residing out of Compartimento or at locality not to be reached due to lack of transport-means.

4) La Magona - Piombino. No materials available.

5) Ilva of Piombino - Only the "angles" are available. However, neither the Rolling Stock Service, nor the local plants are in need of such items.

4816

Declassified E.O. 12356 Section 3.3/NND No. 785021

We point out that the first list was received here only on 3rd February, and that inquiries were greatly hampered by the lack of transport means, as many Firms reside out of Florence.

1) Siderurgica Commerciale - The materials were already sold to third perenns, according to disposition issued by local Authority.

2) Firms ARTE-TORRUOLI, CIACHETTI, SACAM, FIORENTINA, [illegible] ELETTRICI, BAROCCHI, GUELFI, MANETTI, PERRIERI, [illegible]INI, MORTON, ALESSANDRI & DE ANGELIS, AES, CHERICI-STAGI, RADIO ELETTRICA, ELETTRICITA', VANNUCCI. Many of these have no longer any material available. Other firms had some availability and the I.E.S Office tested the samples, but without success, because the insulators are not fit for railway requirement.

3) Firms, RADIOLI, FIERFEDERICI, CELLINI; no ascertainment made, because firms residing out of Compartimento or at locality not to be reached due to lack of transport-means.

4) La Magona - Piombino. No materials available.

5) Ilva of Piombino - Only the "angles" are available. However, neither the Rolling Stock Service, nor the local plants are in need of such items. 4846

6) Firms Gotti, Borgognoni, Spighi, Poggiali, Bicci & Manetti, Falandri, Sabatini, Forni, Serfa - As at para.2.

7) Ilva of S.Giovanni Valdarno. The availability of materials is now very different from that already reported. We have got a new list of the ~~items~~ existing items; however they are not actually available, because they are frozen by the Allied Authorities (V Army). In agreement with the Rolling Stock Service, we are now transacting in order to get those steel - types deemed as convenient to be stored. Further information will be given about this matter. ./.

No ng 27/3

Declassified E.O. 12356 Section 3.3/NND No. 785021

8) Firms MORELLI, PARDELLI, BALDRESCHI, FERRETTI, BROGI, GIUSTI, BARTOLINI, GASCHERINI & DEI, PANTOZZI, CALSIO, MACELLONI. Such Firms are located far from Florence, we cannot go there due to lack of transport-means, However, we point out that these firms have - in general - small stocks of materials (bolts, screw and nails), which, if necessary, may be purchased, also at the local market of Florence.

The President

Ing. Attisani

COMMISSIONE INCETTA ED ACQUISTI

OGGETTO:

Materiali non bloccati messi a disposizione del C.A.

AL SERVIZIO APPROVVIGIONAMENTI

R O M A

Questa Commissione su invito del Servizio Materiale e Trazione ha eseguito accertamenti sulle ditte segnalate con la lettera N.13.6 20/C.52 del 20.1.945.

Si fa presente che il primo elenco è pervenuto alla C.I.A. soltanto il 3 febbraio e che gli accertamenti sono stati fortemente ostacolati dalla mancanza di mezzi di comunicazione dato che molte ditte non sono di Firenze.

1) SIDERURGICA COMMERCIALE - Ha già venduto ad altri il materiale su assegnazione delle Autorità locali.

2) Ditte: ARTE-TORZUOLI = GIACHETTI = SACAE = FIORENTINA = M.ELETTRICI = BAROCCHI = GUILLINI = MANETTI = PERRINI = MASINI = NORTON = ALESSANDRI & DE ANGELIS = AES = CHERICI&TAGI = RADIO ELETTRICA = ELETTRICITA' = VANNUZZI:
   Molte di esse non avevano più nessun materiale disponibile.
   Per le altre che aveva ancora qualche disponibilità, l'Ufficio I.E.S. ha esaminato i tipi offerti, ma con esito negativo perchè ha concluso trattarsi di isolatori non adatti alle esigenze ferroviarie.

3) Ditte RADIOLI =PIERFEDERICI = CELLINI; non visitate perchè fuori Compartimento o comunque site in località irraggiungibili per mancanza di mezzi di comunicazione.

4) LA MAGONA di Piombino. Non ha nulla.

5) ILVA di Piombino. Non ha più disponibile che gli "angoli".

Il Servizio

4815

Declassified E.O. 12356 Section 3.3/NND No. 785021

20/C.62 del 20.1.945.

Si fa presente che il primo elenco è pervenuto alla C.I.A. soltanto il 3 febbraio e che gli accertamenti sono stati fortemente ostacolati dalla mancanza di mezzi di comunicazione dato che molte ditte non sono di Firenze.

1) SIDERURGICA COMMERCIALE - Ha già venduto ad altri il materiale su assegnazione delle Autorità locali.

2) Ditte: ARTE-TORZUOLI = GIACHETTI = SACAC = FIORENTINA = M.ELETTRICI = BAROCCHI = GUIDINI = MANETTI = PERRINI = MAGINI = NORTON = ALESSANDRI & DE ANGELIS = AES = CHERICI-STAGI = RADIO ELETTRICA = ELETTRICITA' = VANNUZZI:

Molte di esse non avevano più nessun materiale disponibile.

Per le altre che aveva ancora qualche disponibilità, l'Ufficio I.M.M. ha esaminato i tipi offerti, ma con esito negativo perchè ha concluso trattarsi di isolatori non adatti alle esigenze ferroviarie.

3) Ditte RADICLI =FIERFEDERICI = CELLINI; non visitate perchè fuori Compartimento o comunque site in località irraggiungibili per mancanza di mezzi di comunicazione.

4) LA MAGONA di Piombino. Non ha nulla.

5) ILVA di Piombino. Non ha più disponibile che gli "angoli".
Il Servizio Materiale e Traz. però non ne ha ora bisogno e nemmeno gli Impianti in sede.

6) Ditte GOTTI =BORGOGNONI = SPIGHI = POGGIALI = BICCI & MANETTI = PALANDRI = SABATINI = FORNI = SARFA. Come al N.2)

7) ILVA San Giovanni Valdarno. Le giacenze di materiali sono ora molto variate rispetto a quelle prima segnalate. Si è ottenuta ora una nuova lista di materiali esistenti, che però non sono effettivamente disponibili, ma da ottenere a mezzo di sblocchi dalla Autorità Alleata (5ª Armata) che li hanno fermati. D'accordo col Servizio Materiale e Trazione si sta ora trattando per ottenere quei tipi di acciaio che si riterrà conveniente di immettere a magazzino. Su questo punto si fa riserva di far seguito.

./.

Declassified E.O. 12356 Section 3.3/NND No. 785021

6) Ditte MORELLI = PARDELLI = BALDERESCHI = FERRETTI = BROGI = GIUSTI = BARTOLINI = GASCERINI & DEI = FANTOZZI = GASSIO = MACELLONI. Si tratta di ditte residenti in località lontane da Firenze non raggiungibili per mancanza di mezzi di trasporto. Si fa tuttavia notare che si tratta in generale di ditte aventi piccole disponibilità di materiale (bulloneria, viteria e chiodi) che si è trovato da comperare quando necessario, anche sulla piazza di Firenze.

Ref. AO/5559/IND 23 March 45

SUBJECT: Visit to Solarra Glass Plant.

TO : Director, Industry Sub-Commission.

FROM : Capt. D.B. Roberts.

1. On 22 March I visited the Solarra Plant together with Major Mackenzie and Captain Clark, both of the Directorate of Engineering Production and Stores (DEPS) A.F.H.Q.

2. The plant is now completing its order of 4,000 sq. meters of glass for the Director of Military Railways.

3. The soda ash remaining is adequate (about 8 tons) for about 3,000 sq. meters of glass or ten days production.

4. Enough coal and coke (about 25 tons total) remains for 5 days operation.

5. According to the works manager and book-keeper (no production or stock records were available at the plant) some 24,000 sq. meters of glass are in stock, of which 12,000 were produced for the account of the Genio Civile.

6. Major Mackenzie suggested that A.F.H.Q. would probably take over the other 12,000 meters which represents the stock that I have been trying to have moved and used.

0758

Declassified E.O. 12356 Section 3.3/NND No. 785021

A verbal request for this move was made to Lt. Col. Griffin, Public Health Sub-Commission, and to Major Washburne, Education Sub-Commission on or about 5 December 1944. In my report of 20 January 1945 I repeated the recommendation (folio 105, vol. II 5959), and sent copies of the report to the following Sub-Commissions: Commerce, Public Health, Education and Transportation, all of which have asked for supplies of glass. There is no evidence that any appreciable quantities of glass have been withdrawn from Scharrn's stocks throughout the winter when the need for glass was greatest.

7. Verbal appeals to the Ministry of Industry, Commerce and Labor to get this glass moved and used through legal channels have been without result. To date there is no evidence that the Ministry has even made an inventory at the plant as I strongly recommended. Mr. Hecio, of the Ministry, made the rather startling statement this week; in reply to my urging that all of the glass be removed from the Scharen plant; that "to do so would discourage the management." This is quite possible, for the failure to remove the glass has discouraged me somewhat.

8. It is quite possible, now, that A.F.H.Q. may end the matter by appropriating all of the glass for military needs. This, I believe is preferable to allowing Scharrn to sell it on the open market at ten to fifteen times the fixed price.

TO : Major CM Long C.E.
Transportation Sub-Commission, Rail 25 MAR 45

Further to conversation Lt.Col.Campbell-Pitt - Major Mackenzie.

1. In order to ensure that the stocks and production from the above factory and the stocks at their Warehouse in ROME are used only for the most urgent military and civilian requirements, you will arrange to control the Works w;e.f. this date.

2. Please arrange for an inventory of stocks to be forwarded urgently to this Office.

3. All releases will be made by this Directorate, and any releases received from A.C. or the Italian Ministry of Commerce should be forwarded for endorsement.

4. The following releases are authorised and vouchers are attached.

(a) 4000 sq. metres glass to special sizes and shape as contracted for by Transportation for use by I.S.R. I.S.R. to account direct.

(b) 501 sq. metres plate glass ex Warehouse as requisitioned by DEP&S for Transportation.

(c) 250 sq.metres glass released by A.C. to 362 Wks Sec.RE

5. S.C. E P. (FIN) will arrange contract with S.A. SCHIARRA for supply of 10000 sq. metres opaque window glass 3 mm thick to be supplied to normal production size or as available ex stocks.

AVAILABILITY REPORT NO. 9

1. Enclosed herewith is a list of materials which are neither controlled nor restricted and the allocation of which is consequently not affected by any of the Committees of the AFLR (ITALIAN) BOARD.

2. This information is circulated for the use of addressees and has been compiled from miscellaneous reports recently received in this office.

3. It must, however, be born in mind that AMG, as the only agency authorized to freeze stocks of materials in the forward area, has powers to freeze items additional to those shown in the list of Controlled and Restricted Items drawn up by the AFLR (ITALIAN) BOARD.

4. It is, therefore, advisable that Services, desirous of acquiring any of the items on the enclosed list, first approach the Provincial Supply Officer, AC concerned to ensure that no difficulties are placed in their way.

5. It is furthermore pointed out that publication of this list is no guarantee that the items have not since been disposed of.

21 March 1945

SUBJECT : Requisitioned Plant and Materials Belonging to Ferrobeton at Taranto

TO : Lt.Col. C.N. Lindberg, Chief Rail Division
Major S.H.Street, Engineering Branch

1. Attached is complete file passed to me by D.A.D. Tn 2, querying the alleged failure of firm "Ferrobeton" to disclose the existence of all of their engineering materials, in the vicinity of Taranto, as required by Order of the Prefect.

2. It appears that, the firm Ferrobeton, having failed to declare their engineering material stocks, have assisted in delaying the war effort by keeping their materials from being used for essential works. Their attitude has been non-co-operative and they have given false information to protect their own interests.

3. The Fleet Civil Engineer, Mediterranean, in his letter of 14 March 45, first attached, paragraph 6, is requesting an investigation of ownership, management, and applications of the firm in addition to their reasons for not declaring their stocks of material.

4. D.A.D. Tn 2 requests the return of the file in due course with details of any action taken in connection with para 6 of Fleet Civil Engineers letter.

REMARKS:

Declassified E.O. 12356 Section 3.3/NND No. 785021

5. The material requested is needed for the manufacture of 465.5 kilometers of loaded cables as follows: 101.5 Km of telephone cable, 64 Km for power and lighting and ~~=~~ 300 Km of signal cables. The cable are needed by the Works Service for the rehabilitation of damaged plants on the lines being reoperated and for maintenance and completion of plants on the lines already reopened to traffic. It is estimated that 250 tons of the requested cable be required to manufacture the cable listed above, the remaining 50 tons is required for the manufacture of accumulator batteries. It is urgent that the material be cleared so that the work herein listed may be accomplished as quickly as possible.

Allegati N.

AC/Mat/26.7/Tn.4 del I3 Marzo

I) La richiesta di sblocco presentata dal nostro Ingegnere Pomarici dell'Ufficio di collegamento di Napoli fra M.R.S. e F.S., di 300 tonnellate di placche di piombo della Ditta Costa di Sant'Anastasia e di Vietri sul Mare è in relazione ad un fabbisogno di circa Tonn. 300 di piombo in pani che la Ditta Costa è in grado di fornirci e per il quale si è concluso in questi giorni

2) Il piombo che ci vien garantito della purezza di 99,5 e 99,7 % occorre per la confezione di Km.465,5 di conduttori sottopiombo e precisamente Km.IOI,500 di cavi e cavetti telefonici, Km. 64 di cavi per forza e luce, e di Km.300 di cavi per segnalamento.

3) Tali conduttori occorrono al Servizio Lavori per provvedere al ripristino degli impianti danneggiati sulle linee per le quali è in corso il lavoro di riattivazione e per la manutenzione e completamento degli impianti sulle linee sulle quali l'esercizio è stato già riattivato.

4) I cavi saranno subito messi in opera, man mano che saranno approntati sulle linee Roma Avezzano, Roma Viterbo, Roma Orte Terni Rieti, Terni Falconara Ancona Ortona, Arezzo Firenze, Pisa Empoli Firenze, Pisa Livorno Vada, Orte Chiusi Siena Empoli, Roma Cassino Napoli, Roma Napoli (direttissima) ed altre ancora.

5) Per i cavi di cui sopra, si prevede l'impiego di Tonn. 250 di piombo. Il rimanente servirà per gli accumulatori in riparazione presso la Società Partenope di Napoli. Il Servizio Lavori ha preventivato a tal uopo un fabbisogno di IOO Tonn. circa e ci ha fatto premure per averne al più presto almeno una parte.

M.B.

O. 351 - offs. a Tipo-Lito FF. SS. - Roma, 9-1930-VIII

Declassified E.O. 12356 Section 3.3/NND No. 785021

6) Le nostre ricerche sul mercato e presso le Ditte una volta fornitrici di piombo di I^a fusione sono rimaste senza esito positivo,da ciò la decisione di rivolgersi alla Ditta Costa

7) Vi preghiamo di voler aderire alla nostra richiesta e di concedere il vostro bene stare per l'esecuzione della fornitura del piombo che verrà tutto utilizzato in breve tempo per i bisogni dell'esercizio.

SUBJECT : Release of Materials

TO : Chief of Stores Section I.S.R. Bldg.
Attn: Ing. G.Bracci

1. Under date of 8 March 45. The Liaison Officer, V.Pomarici, Naples has requested of M.R.S. that they obtain the release of about 300.000 kilos of lead plaques needed by the I.S.R. Stores Section, Rome.

2. The firm Vincenzo Costa, working for I.S.R., has refined a considerable amount od lead plaques in their plants at S.Anastasia and Vietri sul Mare, by order of the Allied Command. Pomarici advises that 300.000 kilos are now available.

3. In order to make a request for the material we must state the specific use and urgency for the release.
Please furnish more details.

4. It is suggested that Ing. Pomarici report such matters to you so the request will come from the proper department of the I.S.R.

Lampadine elettriche

ALLEGATI N.

Iº) Agli Uffici ed Impianti di questa Amministrazione occorrono lampadine elettriche in genere, che scarseggiano sul mercato non essendovi, come è noto, Stabilimenti produttori nell'Italia liberata.

2º) E' stata interpellata la Ditta " Industria Lampadine Elettriche Rigenerate " di Napoli (Via Profumo 40) già da tempo specializzata per la rigenerazione delle lampadine fuori uso con vetro e innesto intatti, per sapere se ed a quali condizioni fosse disposta ad assumersi l'incarico di rigenerare le nostre lampadine fuori uso, di cui si hanno considerevoli quantitativi presso alcuni Magazzini.

3º) La prefata Ditta pure avendo rigenerato un piccolo quantitativo di lampadine da carrozze ha poi dichiarato che, essendo il suo Stabilimento in via di requisizione da parte delle Autorità Alleate, non può continuare il lavoro per conto di questa Amministrazione.

4º) Data l'importanza della fornitura delle lampadine di cui trattasi si prega di autorizzare la Ditta I.L.E.R. ad assumere la rigenerazione delle lampadine fuori uso di cui si dispone.

Soda Solvay

ALLEGATI N. 1

a) In seguito a richiesta urgentissima del Military Railway Service sono state ordinate alla Ditta SCIARRA di Roma, Via dei Volsci 122, con Stabilimento in Ponte Galeria, le seguenti lastre di vetro per vetture ferroviarie:

N° 4.000 da mm. 714 x 860 x 6
" 3.000 " " 484 x 860 x 6

le cui consegne devono essere iniziate il 20 c.m.

b) Per l'esecuzione di tale fornitura la Ditta SCIARRA ha bisogno di Tonn. 45 di carbonato di sodio, materiale esclusivamente prodotto in Italia dalla Società " Solvay " di Rosignano, e che manca alle scorte dei Magazzini ferroviari. La Ditta ha chiesto l'assegnazione della soda con lettera 12 c.m., qui unita in copia, con la quale prega pure perchè siano messi a sua disposizione tre carri per il trasporto del prodotto da Rosignano a Ponte Galeria.

c) Si prega disporre per la assegnazione alla Ditta Sciarra del materiale chiesto facendo presente l'assoluta urgenza della cosa, e si prega disporre per l'assegnazione dei carri ferroviari.

d) Sarà gradito conoscere il prezzo che la Ditta dovrà pagare per il prodotto di cui trattasi, poichè tale prezzo avrà influenza su quello, ancora da stabilirsi, delle lastre

ASSEGNAZIONE CARBONATO SODIO

Con riferimento alla V/s ordinazione di vetro martellato a forte spessore e alla nostra relativa offerta del 7-2-45 Vi comunichiamo che per l'assegnazione di carbonato sodio, la A.C. alla quale ci eravamo rivolti, ha risposto non essere questione di sua competenza, ma che la richiesta doveva essere a voi rivolta.

Pertanto, formiamo la presente affinchè vogliate interessarvi onde ci siano prontamente assegnate:

TONN. 45 di CARBONATO DI SODIO

sulla Soc. " SOLVAY" di Rosignano, quantitativo occorrente alla fabbricazione delle lastre richiestoci.

Contemporaneamente interessiamo la V:s cortesia affinchè sia provveduto alla assegnazione di 3 carri ferroviari occorrenti al trasporto del predetto materiale da Rosignano alla Stazione di Pontegaleria, al nostro binario raccordato di fabbrica.

Facciamo noto che - come già esposto nella nostra lettera offerta del 7-2-45-la produzione delle lastre è subordinata all'arrivo del carbonato sodio cui oggetto la presente.

A piacere di Vs assicurazioni in proposito, con distinta stima Vi salutiamo.

Ministry of Transports
ISR General Directio
Stores Department

Roma, 14 February 1945

A.25.2/4 /205

To Tn. S/Commission AC

Subject: Soda Solway (Sodium Carbonate)

1. Upon request of MRS the firm of Sciarra of Roma, Via dei Volsci N. 122, whose Factory is located at Ponte Galeria, has been ordered to supply followin-g glass-sheets for rail-coaches:

N. 4000 pieces size mm. 714 x 860 x 6
N. 3000 " " " 484 x 860 x 6

to be delivered beginning 20 February next.

2. To carry out above supply the firm Sciarra requires 45 tons Sodium Carbonate, which is exclusivelyh manufactured, in Italy, by the Solway Company at Rosignano and is not available in ISR warehouses. The Firm has requested with letter dated 12-2-45 (copy of which is herewith attached) that above quantity of Soda be allocated; they also request that 3 rail cars be allocated to carry above material from Rosignano to Ponte Galeria.

3. Please arrange for the allocation of above material as well as for the allocation of the rail cars, bearing in mind that the matter is a very urgent one.

4. Please let us know the price which will be established for above material, as the price of the glass sheets depends on said price.

The Chief of the Dept.
sgd. Eng. Bracci

Pietro Sciarra
Glass Factory

Roma, 12 February 1945

To Ministry of Transports
ISR Stores Department
ROMA 4739

Subject: Allocation of Sodium Carbonate.

With reference to your order for heavy glass-sheets and to

Declassified E.O. 12356 Section 3.3/NND No. 785021

request that 3 rail cars be allocated to carry above material from Rosignano to Ponte Galeria.

3. Please arrange for the allocation of above material as well as for the allocation of the rail cars, bearing in mind that the matter is a very urgent one.

4. Please let us know the price which will be established for above material, as the price of the glass sheets depends on said price.

The Chief of the Dept.

sgd. Eng. Bracci

Pietro Sciarra
Glass Factory

Roma, 12 February 1945

To Ministry of Transports
ISR Stores Department
ROMA 4759

Subject: Allocation of Sodium Carbonate.

With reference to your order for heavy glass-sheets and to our offer of 7-2-45 we beg to inform you that AC, whom we had requested to allocate us the necessary sodium carbonate, has replied that our application was to be submitted to your Office.

We therefore ask you to kindly arrange for the allocation of

45 TONS SODIUM CARBONATE

to be supplied by the Solway Company at Rosignano, above quantity being required to manufacture the glass-sheets you have ordered.

We ask you moreover to kindly arrange for the allocation of 3 rail cars required to carry above material from Rosignano to our Glass-Factory's private siding at Ponte Galeria.

We want to point out once again, as already written in our a/m offer, that the ~~deliv~~ manufacture of the glass-sheets is subjected to the supply of the sodium carbonate.

While waiting for your kind confirmation, we remain, dear Sirs

yours faithfully

SUBJECT : Requisitioning of Materials in Liberated Italy.

1. Transportation (Br) is desirous of requisitioning certain items of plant and machinery which are located in liberated Italy.

2. The Legal Sub-Commission of AC. has advised DMRS that the requisitioning can only be done thru the Italian Government and that the channel of approach is the Minister of Communications thru the Transportation Sub-Commission.

3. Attached are lists of machinery which they desire to have requisitioned, showing location, ownership, description of machinery and purpose for which required.

4. Referring to the machinery requested from the Italian Cement Company at Monopoli, this headquarters does not approve of requisitioning this machinery as the Cement Works has been rehabilitated and will require the use of all of the facilities.

5. This matter is respectfully submitted to you for your consideration and further handling.

C.H.LINDBERG

Rome, August the 24 th 1944

N.L.5/15/13873

TO GENERAL DIRECTION OF
MILITARY RAILWAY SERVICE
ROME

Oggetto
Naples-Compartimental Railway Palace
Glasses supply

1 st) By our letter N.L 6/159/4814 dated June the 25 th instant year, we asked your assent to execute the second and third phases of works to reinstate the Railway Compartmental Palace at Naples, concerning the building of the rustic part that was completely demolished by bombs and the finish works in the whole building.

The first phase works concerning restoration of the part of building which was not directly shot are in a state of advanced execution, and non the oversaid second and third phases of works shoud be commeneed.

2 nd) In order to utilize the restored premises of that Palace it is necessary to place the glasses on outward fixtures in consideration of approaching winter-season-

3 rd) Seeing that the quantity of need-ful glasses (square meters 750 of commun glasses and square meters 250 of printed ones)is not be found on Naples market, we beg your interest in order to raise

ANNEX No. 1. ACC(1)D.

A. MATERIALS NEED CONTROL BY ALLIED-NEUTRAL NATIONS OTHER THAN ACC(1)D.

I Metals Ferrous

1.Billets and ingots.
2.Cable and wire.
3.Machine and tool steel.
4.Structural steel.
5.Steel of all kinds.

II Metals Non-Ferrous

6.Aluminum
7.Antimony
8.Brass
9.Copper
10.Chromium
11.Lead in all forms.
12.Pure Mercury.
13.Molybdenum
14.Monel metal
15.Nickel
16.Solder
17.Tin
18.White metal for bearings.

III.Timber

1.Standing timber in Calabria and in the Gargano Promontory.
2.Bulk timber,over 6" x 6".
3.Constructional timber,smaller dimension 3" up to 5" x 6".
4.Structural material,smallest dimension under 3"
5.Logs. 6.Plywood
7.Sleepers or ry ties.

IV. Other building materials

1.Cement 3.Paints
2.Varnish 4.Pigments for paint.
5.Linseed - Linseed Oil.

I. Metalli:Ferrosi

1.Verghe e lingotti.
2.Cavo e filo.
3.Acciaio da macchine e da armare.
4.Acciaio profilato
5.Acciaio di ogni genere

II Metalli: Non-Ferrosi

6.Alluminio 13.Molibdeno
7.Antimonio 14.Metallo monel
8.Ottone 15.Nichelio
9.Rame 16.Saldatura
10.Cromo 17.Stagno
11.Piombo 18.Metallo bianco
12.Mercurio puro per guarnizioni.

III.Legnami

1.Legname su esteso in Calabria e nel Promontorio di Gargano.
2.Tronchi di legno, oltre 6" x 6".
3.Legname da costruzione, le dimensioni minime da 3" fino a 6" x 6".
4.Materiale strutturale,le dimen. sotto 3"
5.Doghe 6.Legno compensato
7.Traverse o vincoli FF.

IV. Altri materiali da costruzione

1.Cemento 3.Colori
2.Vernice 4.Pigmenti per colori
5.Seme di lino - olio di seme di lino.

6.Stagnite
7.Antimony
8.Brass
9.Copper
10.Phosphor
11.Lead in all forms.
12.Pure Mercury.

13.Lead
14.Lead babel
15.Nickel
16.Solder
17.Tin
18.Tin metal for bearings.

III. Timber

1.Standing Timber in Saleburn and in the Kerpon Promontory.
2.Bulk Timber over 6" x 6".
3.Constructional Timber,smaller dimension 3" up to 6" x 6".
4.Structural material,smaller dimension under 3"
5.Logs. 6.Plywood
7.Sleepers or Rail Ties.

IV. Other Building Materials

1.Cement 3.Paint
2.Varnish 4.Pigments for Paint.
3.Linseed 5.Linseed Oil.

V. Electrical Materials

1.Accumulators
2.Batteries
3.Copper & Alum.Conductors
4.Electric Light Bulbs
5.Electric Light Fittings
6.Insulators
7.Jointing Composition
8.Motors
9.Portable Generators
10.Polyuric Acid
11.Switch Gear
12.Transformers
13.Transformers Oil
14.Cells & Leads
15.Wires & Cables

7.Antimonio
8.Bronzo
9.Rame
10.Ottone
11.Piombo

12.Piombo per cuscinetti.
13.Piombo
14.Metallo bianco
15.Mercurio puro per cuscinetti.
16.Stagno

II. Legname

1.Legname da costruzione in Salisbury e nel Promontorio di Kerpon.
2.Tronchi di legno, oltre 6" x 6".
3.Legname da costruzione, le dimensioni minime da 3" fino a 6" x 6".
4.Materiale strutturale,le dimens. sotto 3"
5.Doghe 6.Legno compensato
7.Traverse e vincoli FF.

IV. Altri materiali da costruzione.

1.Cemento 3.Colori
2.Vernice 4.Pigmenti per colori
5.Olio di lino olio di semi di lino.

V. Materiale elettrico.

1.Accumulatori
2.Batterie
3.Conduttori di rame e di alluminio
4.Lampadine elettriche
5.Guarnitore di luce elettrica
6.Isolatori
7.Composto per unire
8.Motori
9.Generatori portabili
10.Acido solforico
11.Interruttori
12.Trasformatori
13.Olio per trasformatori
14.Pezzi per saldatura
15.Fili e cavi
