SUBJECT : Release of Sodium Carbonate for I.S.R.

TO : HQ. AG. Industry Sub-Commission
Attn: Dr. R. S. Opotowski

1. The attached Mat. 10 requesting release of 30 tons of sodium carbonate for the I.S.R. was submitted to the Ministry of Industry Commerce and Labor, through the Ministry of Transports on 16 April as per present procedure.
2. The Ministry of Industry Commerce and Labor returned the Mat. 10 to the Ministry of Transports on 16 May advising that the procedure was wrong, that it should have been submitted to the Military Railway Service, but, if the request was not required for war purposes to again return it to the Ministry.
3. Commerce Sub-Commission recommends that the Mat. 10 be submitted to you for an allocation. The I.S.R. are urgently in need of this material to soften water for locomotives and their present supply is nil.
4. Will you please give this request prompt consideration inasmuch as more than a month has been lost trying to obtain the material through the civilian channel.

1°) = In relazione a quanto è stato concordato col Comando Alleato, occorre provvedere a mettere in efficienza i deviatori delle linee già in esercizio alla sistemazione dei deviatori per il ripristino del doppio binario della Roma - Cassino, della Roma - Orte e al ripristino delle linee Ancona - Ortona, Arezzo - Firenze, Firenze - Pisa, Roma - Campoleone Via Torricola.

2°) = Per tali lavori occorrono, fra l'altro, i blocchi, i cuscinetti e le cassette di manovra in ghisa indicati nell'unito prospetto, per l'approvvigionamento dei quali sono in corso trattative di acquisto con la Società " Terni " per l'Industria e l'Elettricità con sede in Roma.

3°) = Tale fabbisogno si riferisce al minimo indispensabile occorrente per un periodo di sei mesi. La notevole quantità di cassette per scambi richiesta è giustificata dalla necessità di dover provvedere alla manovra a mano degli scambi che prima erano manovrati con gli apparati centrali, i quali sono ora per la maggior parte distrutti.

1. With reference to the agreement with the Allied H.Q., it is necessary to put in operation the switches of the already operated lines, settle the switches for the rehabilitation of the double track Rome Cassino and Rome Orte and to rehabilitate the lines: Ancona - Ortona; Arezzo - Florence; Florence - Pisa, and Rome - Campoleone via Torricola.
2. For such works, are required - besides other materials - the blocks, the bearings and the cast iron operating boxes, as per attached list. At present, we are transacting, for the purchase of said items, with the Società "Terni" per l'Industria e l'Elettricità, Rome.
3. The listed items refer to the least indispensable requirement for six months. The remarkable quantity of switch - boxes requested, is due to the necessity, to provide for the hand - operation of those switches, which in the past were operated by central apparatus, these being at present - for the most part - destroyed or damaged.
