20 December 1945.

1. Reference your letter AC/Mat/36/6/Tn.4 dated 8 June 1945, requesting us to collect the last Class 5, 3 ton trucks released for temporary use by English Allied Command from Casalsnuova di Napoli.

2. Altogether we collected 19 trucks, 6 of which from Rome Penestina Allied Vehicle Park and 13 from Calsalsnuova di Napoli, as shown below:-

Ford	L 4722530	Dodge	L 4718107
"	L 4527140	"	" 4718871

"	5654490	Bedford	522469
"	5222924	"	4912023
"	4731585		

3. Above mentioned vehicles, at present parked at Magazzino Approvvigiamenti F.S. di Roma, Tiburtina, are all in need of repair and overhaul.

After some firms had submitted their contracts, it was found that costs would be too high and repairs of some of the trucks impossible owing to lack of spare parts.

4. In view of the fact that above mentioned vehicles are not in running conditions, it is desired to return them as it was done before with 33 2,5 toners, given to us for temporary use by the Allied American Command.

SUBJECT : Road Vehicles for ISR.

TO : General di Raimondo
Director General ISR

1. Before the Director of this Sub-Commission visited Washington, he requested a detailed list of cars and trucks required by ISR, in order that some steps could be taken to meet the basic needs.
2. A list was supplied by ISR, and in so far as trucks were concerned, an attempt was made to secure through British and American sources some vehicles to assist in urgent work.
3. The decision to turn over trucks from AC-sponsored truck pools will now obviate in the main the whole list of truck requirements submitted, but an immediate and detailed inventory of Headquarters & Compartmental needs must be made.
4. We have received through your Engineering Department a request for Jeeps, and must point out it is quite useless for individual department's to make sporadic requests for vehicles. A complete list is required, covering all Departments, when it will receive careful consideration.
5. The reasons why any particular type of vehicle is required should be given. Some has never seemed more full of private cars, apparently being used for pleasure purposes, and the Government has powers of requisitioning. It is expected, therefore, that details of vehicles requisitioned to meet the needs of the country will be

by ICR, in order
