SUBJECT : 300 Tons of Barbed Wire for I.S.R.

TO : Headquarters of the Mediterranean Theater
Field Commissioner Office of the Foreign
Liquidation Commissioner, APO 512,
Attn.: Major J.A.Dreyfuss.

Reference your letter dated 5 February 1946, same subject.

1. We have now been informed by the I.S.R. Stores Service, that they consider the Concertina wire a suitable substitute.

2. It would be appreciated, if you could declare 300 tons of the above mentioned material, and issue instructions for disposal.

Major R.E.
for DIRECTOR.

Rome. Italy.

Dear Major Barnes:

This office is in receipt of your letter dated 24 January 1946. in which information was requested as to the possibility of selling 300 tons of barbed wire to the Italian State Railways.

Our Depots have informed us that they are unable to declare barbed wire surplus. However, they do have concertina wire. which can be made available.

In the event that concertina wire is a suitable substitute. we will declare same for you in accordance with the amount you specify.

Very truly yours

FOR THE ACTING FIELD COMMISSIONER:

JEROME A. DREYFUSS
Major, Air Corps.

Subject: Permanent way materials

to A.M.A.B. Rome

for information: to Tn and Shipping Sub Comm.
AC (Rail Division)

(re: AC/Mat/48/181/Tn 4 dated 6 Febr. Building 1946)

The Transports Sub Commission Rail Division CMF, on Dec. 10 1945, informed us that they had written to Disposal Chief Officer (C/o British Embassy Rome) stating that learning by the Director of M.C. Transports that the War Department was going to declare some permanent way materials, as surplus, requested to the Chief Disposal Officer (C/ of British Embassy -Rome) the allotment, for I.S.R. requirements, of the materials in question, shown in a special list.

The information was given to I S R by the a/m Sub Commission on 10 Dec. 1945.

The I.S.R. replied at once and requested to the a/s Sub Commission to intervene to the a/s Chief Disposal Officer in order to get a direct allotment of all the items included in the a/s list (copy is attached) stressing that they were necessary for the rehabilitation of the railway system. However, in the meantime, the Embassy being not aware of our request, had assigned the materials to you.

Now you are asked to consider such allottment as not made, or at least to pass to I.S.R. the whole lot. The I S R will provide to settle directly the purchase with the English Authorities and to collect the materials from the spots where they are lying.

(rif. AC/Mat/46/181 Tm. 4 dell'8 febbraio 46)

La Sottocommissione Trasporti - Divisione Ferroviaria CMF-ci comunicava il 10/12/1945 di avere scritto all'Ufficiale Capo Disponibilità dell'Ambasciata Inglese in Roma che il Direttore dei Trasporti AC aveva fatto conoscere che alcuni materiali di armamento stavano per essere dichiarati eccedenti al fabbisogno al Ministero della Guerra e, desiderando ottenerne l'assegnazione per questa Amministrazione, ne faceva richiesta con apposito elenco.

Questa Amministrazione si affrettava a comunicare che tutti i materiali di detto elenco, che si unisce in copia alla presente, erano necessari per la ricostruzione delle linee delle Ferrovie dello Stato e pregava la Sottocommissione d'intervenire presso l'Ufficiale Capo della Disponibilità suddetto perchè l'assegnazione fosse fatta d i r e t t a m e n t e a questa Amministrazione.

Senonchè nel frattempo l'Ambasciata aveva ceduto tali materiali a codesta Azienda perchè non era a conoscenza della richiesta di assegnazione diretta fatta da questa Amministrazione.

Ciò premesso si prega di voler ritenere come non avvenuta l'assegnazione di tale materiale a codesta Azienda e, quindi, di

6187

APPENDIX A.
SHEET 2.

S-401 Railway Mobile S/Shops Train - Inventory of Vans.

STORES VAN - No 12035.

Chisels, ripping, 1½	each	1
Hammers, carpenters, warrington, 1-lb.	"	1
Irons, soldering, straight 1 lb 12 ozs	"	2
Pullers, nail	"	1
Frames, 8" to 12"	"	1
Screwdrivers, London 8"	"	1
Kits, Hand Tools, Driver Mechanics	"	1
Bottles, tin, oil, 1 pint	"	1
Boards, drawing, double elephant	"	1
Compasses, beam, 25" Mk. II	"	1
Instruments, drawing, 8s	"	1
Protractors, circular, celluloid, 5"	"	1
Scales, metric. No5	"	1
do No6	"	1
Setsquares, celluloid, 10" 45 deg.	"	2
- do - 10" 60 deg.	"	2
T-Squares, 36" mahogany	"	1
Tapes, measuring, steel, 100 ft. Mk. IV	"	1
Adzes, carpenters, halfhand, heads 3½ "	"	1
Aprons, leather	"	4
Augers eyed 3/4 dia.	"	1
- do - 1 "	"	1
- do - 1¼ "	"	1
Axes, hand, kent pattern, 2½ lbs.	"	1
Crowbars, with chiselpoint 2' 3".	"	4
- do - 4' 1".	"	4
Bars, pinching, 2' 6"	"	2
Bevels, carpenters, wood, 10½ "	"	1
Brushes, carpenters	"	1
Bits	Sets	1
Bits, cobra, 1/16"	Each	1
- do - 1/8"	"	1
- do - 3/16"	"	1
- do - 1/4"	"	1
Bits countersunk; double smallhorn 5/8"	"	1
- do - 7/8"	"	1

Declassified E.O. 12356 Section 3.3/NND No. 785021

Bowles, tin, oil, 1 pint	"	1
Boards, drawing, double elephant	"	1
Compasses, beam, 26" Mk. II	"	1
Instruments, drawing, 33	"	1
Protractors, circular, celluloid, 3"	"	1
Scales, metal. No5	"	1
do No6	"	1
Setsquares, celluloid, 10" 45 deg.	"	2
- do - 10" 60 deg.	"	2
T-Squares, 36" mahogany	"	1
Tapes, measuring, steel, 100 ft. Mk. IV	"	1
Adzes, carpenters, halfhead, heads 3½ "	"	1
Aprons, leather	"	4
Augers eyed 3/4 dia.	"	1

I.S.R. WORK SERVICE

Rome 11 February 1946.

Ref.: I.7/18/15360/A.1.

SUBJECT: Availability of Railway Mobile Workshops.

TO : Tn.& Shipping sub-Comm.AC
(Rail Division)
attn.: Major Barnes.
B l d g.

Following your telegram 843403 dated 31 Jan.1946 addressed to the British Embassy's Disposal Officer :

1. I have been informed with great satisfaction of your decision to assign to I.S.R. the 2 Mobile Workshops.

2. These 2 trains will be very useful for works of reconstruction on I.S.R. lines and especially on electrification plants.

3. The 2 trains will therefore be assigned to the Offices in charge of the re-electrification of our lines.

4. Will you kindly let me know where and when the 2 trains may be delivered.

The Chief of Work Service

S E D E

esito Vostro telegramma 843403 del 31 gennaio 1946 diretto all'Ufficiale dell'Ambasciata Inglese addetto alle disponibilità:

1 - ho appreso con compiacimento la decisione di codesta Sub-Commission di assegnare alle Ferrovie dello Stato i 2 treni officine mobili ferroviarie;
2 - tali treni saranno molto utili per i lavori di ricostruzione delle linee ferroviarie e specialmente degli impianti di elettrificazione;
3 - pertanto i 2 treni verranno assegnati agli Uffici che eseguiscono i lavori di rielettrificazione delle linee;
4 - rimango in attesa di conoscere dove ed in quali giorni i suddetti treni potranno essere presi in consegna.

SUBJECT: Surplus Property Catalogs and Offerings.

TO : Transportation Subcommission

1. Reference your AC/MAT/48/17/Tn.4.

2. This Branch distributed O.F.L.C. Special Offering No.11 the same day lists were received from O.F.L.C. by this Branch. This same procedure has been scrupulously followed in the distribution of previous O.F.L.C. catalogs and lists.

3. This Branch regrets the difficulties resulting from the delay encountered by your Subcommission in receiving subject catalogs and lists.

4. In future special efforts will be made to ensure more expeditious delivery of O.F.L.C. lists.

SUBJECT: Surplus Property U.S.A.
Special offering N°11.

TO : H.Q. Allied Commission
Economic Section.

1. The special offering N°11 of U.S.A. Surplus Property dated 17th January 1946 reached this Office on 31st January 1946.

2. The dead-line for bids for this material was 21st January 1946.

3. The outcome of this delay is that material of great use to the I.S.R. for rehabilitation purposes is not available to them.

4. Similar delays have occurred with previous offers.

5. May some action be taken please to ensure that these offers reach this office in time to allow I.S.R. to bid for their requirements.

Lt.Col.
Chief,

Copy to:- Tn. Sub-Commission, A.C. (Your A.C.Tn.48 and 80/CE Jan 4 refers)

1. We received a request from Tn. Sub-Commission A.C. (Rails Division) for the following permanent way material for work of rehabilitation by the Italian State Railways at Campobasso Yard, Genoa.

1.	Rails, 33-ft.	Each.	3,675.
2.	Fishplates, 4 holes.	Pairs.	3,675.
3.	Fishbolts.	Each.	14,700.
4.	Bearing Plates.	"	12,800.
5.	Spikes.	"	126,156.
6.	Sleepers, 8'6" x 10" x 5".	"	25,625. (Only 7'4" sleepers 24. available.)
7.	Turnouts 1 in 8, with croesing timbers.	Sets.	

2. A copy of the letter giving the War Office decision is attached for your information as requested in your letter Q-2e Jan. 7, and also our declaration forms.

3. As it is not possible to identify whether this track is of U.S.A. or British owner we recommend it be disposed of as unidentifiable.

4. The first 5 items are declared surplus at 330 T.S.D., Falconara, near Ancona, and items 6 and 7 at 328 T.S.S.D., Castelnuovo, near Naples. Both depots are rail served and we are agreeable to load to wagons but the buyers or A.C. should be responsible for movement.

5. An early reply will be appreciated.

Faceplate 18" diameter }	1
Centre turning attachment 9" diameter }	1
Bench Type Sensitive drill - type 2FY (Coromo)	
(This machine is standing on the floor of the van)	1
Miller Drill 22" diameter table (Jones & Shipman)	
Tool grinders complete with two double stones, twist drill	1
grinding attachment and polishing mop (Jones & Shipman)	
Power driven hacksaw 6" capacity, complete with new blade	1
(D.G. Herbert "Rapidor".)	1
Hand Operated Screwing Machine (Joshua Hoopers Co)	
Shaping Machine 9" type 4S complete with fixed and	1
swivelling table (Alba)	2
Miller Crane Jibs.	1
Miller Crane Complete Morris 1-ton electric block	1
hydraulic press 20 Ton.	1
Portable electric drill 3/4" with Cable (Black & Decker)	1
Loose drill chuck and key.	1
Surface Plate 15" x 18" (badly rusted one end)	
Blanking Dies - 1", 1 1/4", 1 1/2", 1 3/4", 2 1/2", 2", [illegible]	14
2 3/4", 3", 4", 4½", 5", 6", 6½", and 7" diameter.	7
Flexible electric light fittings with bulbs.	1
Fire extinguishers.	

Generator Van :- One 12 ton covered van complete with two battery boxes and batteries, overhead runway, and the following equipment:- 6106

Diesel engine 4 cylinder (Lister and Hornsby)	1
[illegible]	1

Declassified E.O. 12356 Section 3.3/NND No. 785027

Anchor, Vice moving type, 2½" x 1½" and 2" width 6" jaws. 1
Block etc. to solid lathe stops (All key & unions) 3
Lathes, S.C. and S.C. 6½" Dia bed, 4" hollow spindle :
Coolant pump belt riveting (Whitehead and Sons) 1
3 - jaw chuck 9" diameter. 1
4 - jaw independent chuck 12" diameter 1
4 - jaw " " 18" " for above lathe. 1
Faceplate 10" diameter 1
Centre turning attachment 9" diameter 1
Bench type Sensitive drill - type 2EY (Coronc) 1
(This machine is standing on the floor of the van)
Pillar drill 22" diameter table (Jones & Shipman) 1
Tool grinders complete with two double stones, twist drill grinding attachment and polishing mop (Jones & Shipman) 1
Power driven hacksaw 6" capacity, complete with saw blade (A.G. Herbert "Rapidor".) 1
Hand Operated Screwing Machine (Joshua Hoyle & Co) 1
Shaping Machine 9" type 43 complete with fixed and swivelling table (Jibs) 1
Pillar Crane Jibs. 2
Pillar Crane Complete Morris 1-ton electric block 1
Hydraulic press 20 Ton. 1
Portable electric drill 3/4" with Cable (Black & Decker) 1
Lucas drill chuck and key. 1
Surface Plate 15" x 10" (badly rusted one end) 1
Blanking Dies - 1", 1 1/4", 1 1/2", 1 3/4", 2 1/2", 2", [illegible], 2 3/4", 3", 4", 4½", 5", 6", 6½", and 7" diameter. 14
Flexible electric light fittings with bulbs. 7
Fire extinguishers. 1

Generator Van :- One 12 ton covered van complete with two battery boxes and batteries, overhead runway, and the following equipment:- 6106

Diesel engine 4 cylinder (Ruston and Hornsby) 1
Alternator and exciter generator 25 K (Brush-Ivy) 1
Switch gear cabinet complete. 1
Fuel Tank 1
Fuel storage tanks complete with force pump. 2
Lubricating oil tank. 1

One Tin Cupboard containing:-

Oil Cans. 1
Starter Handle for engine. 1
Large Filling Funnel. 1
Small Filling Funnel. 1
Greasegun. 1
Morrine electric block 1 - ton 1
Metal Box containing the following spares - for engines :-

Declassified E.O. 12356 Section 3.3/NND No. 785021

Oil Cans.	1
Starter Handle for engine.	1
Large filling Funnel.	1
Small filling Funnel.	1
Greasegun.	1
Morris electric block 1 - ton.	1
Metal Box containing the following spares - for engines :-	
Bearings engine main.	4
Rods, Connecting Large (Complete)	1
Bearings.	2
Bearings brass, one complete and half brass.	
Valves, Inlet Complete.	1
Valves, Exhaust Complete.	1
Gasket, Cylinder head (Old).	4
Inlet Pusher Rod.	1
Exhaust Pusher Rod.	1
Spare Arms.	2
Lubricating Oil Relief Valve Spring.	1
Valve Springs.	5
Bearing Roller.	1
Trays, Oil.	2
Idler Spring.	1
Crank Spring.	1
Gear Wheels Bevel and Diagonal.	3
Fuel Oil Distributer (Pump US in pieces)	1
Additional assorted pieces of packing, of various types, also miscellaneous small springs and salvaged material.	
Small box Containing Blue prints and Diagrams of machines other than in Vans, also [illegible] assorted papers.	

General Remarks :- The Five Vehicles comprising the Unit are all in good condition and apart from 3 or 4 cracked quarter lights in the machine and welding vans, appear to have been well maintained.
The cast iron table of one bench vice is broken around one supporting leg.
Otherwise, the machine tools, etc., appear to be in good condition, and ready for futher service.
Condition of remaining equipment is satisfactory.

SUBJECT : Barbed Wire for I.S.R.

TO : Director General, I.S.R.

1. Reference your letter ICCA/7828/33 dated 8 January 1946.

2. We have been informed by the Disposal Officer of the Ministry of Supply, that all applications for this material should be made to the Italian Government through their agents, the Azienda Rilievo Alienazione Residuati, I.S.R. Bldg, Rome.

DIRECTOR

6102

Rome, - 8 GEN 1946
IOCA/ 4828 /33
ALLIED COMMISSION
R O M A

Subject: requirement of barbed iron wire for the ISR.

In order to strenghten the surveyance already settled, ,especially to prevent coal thefts, the ISR should urgently fence with barbed iron wire the railway installations and, particularly, the coal dumps. The HQ, MRS, according to their own availabilities, made an alloca=tion of 30 tons, barbed iron wire, to Leghorn station, and of 3 tons to Modugno station(Bari).To meet the minimum requirement the followin=g allocations should be made:

1)	Foggia station	20	tons
	Naples "	40	"
	Rome "	30	"
	Florence "	40	"
	Ancona "	30	"
	Bologna "	40	"
	Genoa "	20	"
	Milan "	30	"
	Turin "	30	"
	Venice "	20	"
	Total	300	tons

FERROVIE DELLO STATO
DIREZIONE GENERALE

Roma, li 7 GEN 1946 1945 - A.

N. ICCA/ 7828 /33

Al N. del

OGGETTO

Fabbisogno di filo di ferro spinato per le Ferrovie dello Stato.-

ALLEGATI N.

COMMISSIONE ALLEATA

R O M A

Questa Amministrazione per integrare le misure di vigilanza già predisposte per prevenire specialmente furti di carbone, avrebbe urgente necessità di recintare con filo di ferro spinato gli impianti ferroviari in genere e i cumuli di carbone in particolare.-

La Direzione del M.R.S. a tal'uopo ha potuto concedere - nei limiti delle proprie disponibilità - una assegnazione di 30 tonnellate di filo alla stazione di Livorno ed una di 3 tonnellate alla stazione di Modugno (Bari).

Per completare il fabbisogno minimo occorrerebbe però che fossero concesse le seguenti assegnazioni:

1)	alla stazione di	Foggia	Tonn.	20
2)	" "	" Napoli	"	40
3)	" "	" Roma	"	30
4)	" "	" Firenze	"	40
5)	" "	" Ancona	"	30

SUBJECT : Purchase of Machinery & Vehicles for Reconstruction Purposes.

This construction firm, specialised in building, road and port work, has been requested to work for various public institutions. In order to ficilitate its activity, the purcase thx of the necessary machinery and vehicles should be directed through your institution.

Actually this firm is carrying out work for the I.S.R. (Direzione dei Lavori Roma-Nord) consisting in the reconstruction of 6 arcs of railway viaduct of 26 mts each on the route Rome-Chiusi and is also requested to provide 5.000 cubic mts of stone chipping for the Genio Civile di Roma, Viabilita' Statale, to be taken from the Velletri quarry by our own mobile installations.

Works have been carried out both for the I.S.R Admin. (Clearing of station site and construction of dormitory bcks.) and for Provvida (Re-erection of premises) in Formia where a branch of this firm exists. Various works are being carried out also for private institutions in Formia.

Furthermore, this firm has been requested to cooperate in the reconstruction of the La Spezia port, and is engaged in various road works in Tuscany, particularly in Pisa where a branch of our firm exists.

Since we are involved in numerous technical and financial activities, this firm could even increase its effort, if the possibility of completing its stock of machinery was given, in order to take part in an evengreater extent in the reconstructior of this Country.

Hoping our case will find the consideration of your Organisation we are anxious to be called forward to purchase surplus materials.

Many thinks in advance,

(Sgd) xxxxxxxxxx

Oggetto:- Acquisto di macchinari e automezzi occorrenti per la ricostruzione.-

Questa Impresa di costruzione, specializzata in lavori edili, stradali e portuali, essendo chiamata in continuazione a prestare la propria opera da vari Enti pubblici, necessiterebbe allo scopo di agevolare la propria attività, di addivenire attraverso codesta Spettabile Azienda all'acquisto di attrezzature e di automezzi confacenti allo scopo.-

6097

L'Impresa ha attualmente in corso lavori per conto delle FF.SS. - Direzione dei Lavori Roma-Nord - consistenti nella ricostruzione del viadotto ferroviario di n. 6 arcate di m. 26 di luce ciascuna, sito al Km. 134+047 della linea Roma-Chiusi ed è impegnata nella fornitura di mc. 5.000 di pranigliа al Genio Civile di Roma, Viabilità Statale, da prodursi nella Cava di Velletri, con propri impianti mobili.-

./.

i.i.p.p. - 2 -

Nella città di Formia, dove ha sede una Filiale di questa Impresa sono stati eseguiti lavori sia per conto dell'Amministrazione Ferroviaria (sgombero piazzale della Stazione e costruzione di capannoni dormitorio) per conto della Provvida (ripristino di locali).- Nella stessa città di Formia sono anche in corso varii lavori eseguiti per conto di privati.-

Inoltre questa Impresa è stata chiamata a concorrere per la ricostruzione del porto di La Spezia ed ha vari altri lavori edili stradali della Toscana in particolar modo nella città di Pisa dove ha sede una nostra Filiale.-

Date le molteplici attività tecniche e finanziarie, l'Impresa qualora potesse integrare le proprie attrezzature è nella certezza di poter svolgere una più ampia attività e validamente cooperare alla ricostruzione del Paese.-

Fiduciosa di essere presa in considerazione da codesto Spettabile Ente e-d in attesa di essere chiamata a concorrere per l'acquisto dei materiali residuati, ossequia e ringrazia anticipatamente.-

IMPRESA ING. PIEPO PARISI

MEMORANDUM

1. Engr. Polverari informs the Chief of the Supply Service I.S.R. that Maj. Long will propose the bid of the following cars received from the English Command:

50 heavy flat cars of 60 tons capacity
99 high side open cars of 12-14 tons capacity
49 American flat cars of 50 tons capacity

2. Such cars are in use in Italy; the last cars although of American source, they can be considered as being English property.

3. It seems that all the a/m cars are not included in the category of the "surplus" material.

4. The bid was addressed to the A.C. in order that they make the request, to UNRRA and to the Allied Commission for Austria.

5. The matter is very urgent and the I.S.R. must send their bid as soon as possible to avoid delay.

6064

Declassified E.O. 12356 Section 3.3/NND No. 785021

A P P U N T O

L'Ing.POLVERARI preavvisa il Sig.Capo del Servizio che stamane si presenterà da Lei il Magg.Long. per sottoporle offerta dei seguenti carri fatta dal Comando Inglese :

- 50 carri pesanti piatti da 50 Tonn.
- 99 carri a sponde alte da 13-14 Tonn.
- 49 carri americani piatti da 50 Tonn.

Trattasi di carri che trovansi in circolazione sulla rete; gli ultimi, benchè di provenienza americana, sarebbero oggi da considerarsi di proprietà inglese.

Sembra pure che tutti i suddetti carri non rientrino nella categoria del materiale "Surplus" .

L'offerta in parola è stata indirizzata all'A.C. perchè ne faccia richiesta, all'UNRRA ed al Comitato per l'Austria.

La pratica ha carattere di urgenza per evitare che le Ferrovie facciano pervenire in ritardo la loro accettazione.

SIG. MAJOR GILL
COMMISSIONE ALLEATA
SOTTO COMMISSIONE TRASPORTI
S E D E

A seguito della nostra p.n. del 2/10 u.s. e con riferimento alla suddistinta, si informa che si è riuscito ad ottenere il consenso per la visita dell'Officina Mobile 101 giacente presso il 325° Magazzino Alleato di Modugno (Bari).

Dalla visita eseguita da un nostro tecnico della Sezione Trazione di Bari si sono avute le notizie che si comunicano quì appresso:

L'Officina Mobile è composta di 4 carri ferroviari inglesi:

1) - CARRO GENERATORE DI CORRENTE ALTERNATA

In questo carro si ha la generazione della forza motrice e trasformazione della medesima in energia elettrica. Trovansi in esso un motore Diesel a cui è accoppiato un alternatore. La targhetta del Diesel manca, mentre su quella dell'alternatore si legge:

CARATTERISTICA ALTERNATORE: Volta 400 - Ampere 45 - KVA 31.2 - 3 fasi - frequenza 50 - eccitazione Volta 36 - Ampere 16,3.

Questo alternatore genera corrente per i motori asincroni

./.

Declassified E.O. 12356 Section 3.3/NND No. 785021

accoppiati a tutte le macchine operatrici del carro officina e per la saldatrice elettrica.

All'alternatore è accoppiato a mezzo di cinghie trapezoidali un motore generatore che genera corrente per l'illuminazione dei quattro carri componenti l'officina, quest'ultimo ha le seguenti caratteristiche: Volta 50 - Ampere 47 = Kw.2,35.

2) - CARRO OFFICINA PROPRIAMENTE DETTO.

In questo carro, le macchine operatrici installate hanno tutte il comando indipendente. Ogni macchina è messa in moto per mezzo di proprio motore elettrico e possiede un quadro di manovra. La trasmissione del moto dal motore alla macchina avviene a mezzo di cinghia trapezoidale.

Tutti i motori asincroni delle macchine hanno una tensione di 400-440 Volta. Le macchine installate sono:

a) Tornio parallelo avente le seguenti caratteristiche:

Altezza delle punte sul banco mm.230;
Distanza fra le punte mm.1400;
Massimo diametro ammissibile sul carro mm.800;
Diametro del foro del mandrino mm.80;
Passo della vite madre 2 filetti per pollice;
Possiede una scatola ingranaggi per passi Wituhort;
Il banco ha le guide piane;
La piattaforma ha un diametro di mm.410 con 4 morsetti;
Azionamento per mezzo di proprie motore elettrico che manca.

b) Pialla azionata da un motore asincrono da 3,60 HP.

Può essere utilizzata per tutti i lavori.

c) Trapano comandato da un motore a. da 3,5 HP.

Può forare un diametro massimo di mm.60.

d) Trapano comandanto da un motore a. da 0,5 HP.

Può forare un diametro massimo di mm.10.

e) [illegible]a per metalli comandata da un motore a. da 3 HP.

f) Affilatrice per punte elicoidali, utensili ecc. con due mole a

OGGETTO

ALLEGATI N.

smeriglio del diametro di mm.230 spessore mm.15 e del diametro di mm.230 e spessore di mm.35.

Possiede parecchie mole di ricambio.

g) Pressa per cuscinetti ghiere ecc.

Sul manometro si legge TONS ON 9-63 Area, cioè Tonn.9-63 superficie.

h) Macchina per filettare chiavarde in genere e tubi.

Nel carro trovansi anche un banco con morsa e tre grue girevoli con un paranco da 1000 Kg.

3) -CARRO ATTREZZI.

In questo carro trovansi molti pezzi di ricambio delle 4 vetture componenti l'Officina mobile (molle a balestra, zoccoli per sale, tenditori ecc.) e pezzi di ricambio delle macchine del carro officina (utensili, mole a smeriglio, mandrini autocentrati ecc.)

4) -CARRO PER SALDATURA ELETTRICA E LAVORI DIVERSI COME AGGIUSTAGGIO.

Caldareria, fucinatura ecc.

In esso trovansi 2 banchi con quattro morse parallele, una forgia portatile con ventilatore elettrico (vi sono due ventilatori elettrici di scorta), tre binde a carrello, un'incudine ed una saldatrice elettrica.

./. 6961

Declassified E.O. 12356 Section 3.3/NND No. 785021

Non è stato possibile rilevare le caratteristiche della saldatrice perchè la targhetta esistente sulla medesima si trova in una posizione inaccessibile. Le binde a carrello non hanno targhetta ma si presume che siano da 30 tonnellate.

Le macchine utensili facenti parte dell'Officina Mobile sono tutte adatte per i nostri impianti e tutta l'Officina Mobile, dedutа alla nostra Amministrazione, sarebbe di grande utilità.

Subject: Visit to the movable
Work-shop 101

To Major GILL
AC Tn Sub Commission
Building

Following our letter same number dated 2nd October 1945 and with reference to yours Sept.20, we have the pleasure to inform you that we succeeded in obtaining the permission to visit the movable workshop 101 situated by the 325th Allied Depot in Modugno (Bari). From the visit carried out by a ISR technical agent, of Bari's Traction Section, we have had the following information:
The movable workshop is composed of 4 English railway cars:
1) Alternating current car generator
This car produces traction power and transforms it in electric power. In this car is fitted a Diesel engine, coupled with an alternator. On the Diesel there is no target, while on the alternator is written:
Alternator's characteristic :- Volt 400-Ampere 45 - KVA 31.2 - three phases - cycles per second 50 - excitation Volt 36 Ampere 16.3
This alternator produces power for asynchronous meters coupled with all machines working in the workshop car and for the electric welding

From the visit carried out by a ISR technical agent, of Bari's Traction Section, we have had the following information:
The movable workshop is composed of 4 English railway cars:
1) Alternating current car generator
This car produces traction power and transforms it in electric power. In this car is fitted a Diesel engine, coupled with an alternator. On the Diesel there is no target, while on the alternator is written:
Alternator's characteristic :- Volt 400-Ampere 45 - KVA 31.2 - three phases - cycles per second 50 - excitation Volt 36 Ampere 15.3
This alternator produces power for asynchroneous motors coupled with all machines working in the workshop car and for the electric welding.
The alternator is coupled by trapezoidal driving belts, with a generator producing electric power for the illumination of the four cars of the workshop, this engine has the following characteristics: Volt 50- Ampere 47 - Kw 2.35
2) The Main Workshop car
All the machines places and working in this car have an independent

Declassified E.O. 12356 Section 3.3/NND No. 785021

command.

Every machine is set in motion by means of an independent electric engine and has an own switchboard. The transmission of engine's motion to the machine is made by means of a trapezoidal driving belt.

All the machines' induction engines have a 400-440 Volts tension. There are the following machines:

a) Parallel lathe having the following characteristics:

Height of centres 230 mm.;
Distance between the centres 1400 mm.;
Maximum diameter allowable on car 800 mm.;
Diameter of the drill spindle's hole 80 mm.;
Screw guide 3 thread for inch;
Fitted with a change gear box for withwerth thread;
the lathe bed has flat guide;
the lathe chuck has a diameter of 410 mm. with 5 jaws actioned by electric engine, which is missing

b) Planer operating by asynchronous motor of 8.00 HP

It can be used for all works

c) Drilling machine drived by asynchr. motor of 3,5HP

It can drill till 60 mm. diam.

d) Drilling machine drived by an asynchr.motor of 0,5HP

it can drill till 10 mm. diam.

e) Metal saw drived by an asynchr. motor of 3 HP

f) Grinding machine for twist drill, tools etc., with two emery wheels having both a 230 mm. diameter and respctively 15 mm/ and 35 mm/ thickness fitted with many spare emery wheels

g) Press for bearings stirrups, etc.

On the gauge is written : TONS ON 9-63 Area i.e. Tonn. 9-63 surface.

h) Screw cutting machine for bolts and tubes

In this car are loaded many spare parts of the 4 wagons forming the Movable Workshop (semiellyptical springs, shoe for axles, stretching screws etc.) and spare parts of Workshop car's machines (tools, emery wheels, expanding mandrels etc.)

Declassified E.O. 12356 Section 3.3/NND No. 785021

Screw guide 3 thread for inch;

it can drill till 10 mm. diam.

e) Metal saw drived by an asynchr. moter of 3 HP

f) Grinding machine for twist drill, tools etc., with two emery wheels having both a 230 mm. diameter and respetively 15 mm/ and 35 mm/ thickness fitted with many spare emery wheels

g) Press for bearings stirrups, etc.

On the gauge is written : TONS 0F 9-63 Area i.e. Tonn. 9-63 surface.

h) Screw cutting machine for bolts and tubes

6359

In this car are loaded many spare parts of the 4 wagons forming the Movable Workshop (semiellyptical springs, shoe for axles, stretching screws etc.) and spare parts of Workshop car's machines (tools, emery wheels, expanding mandrels etc.)

4) Car for the electric and welding and other works as adjusting-

Boiler shop, forging etc.

./.

Declassified E.O. 12356 Section 3.3/NND No. 785021

In this car there are 2 benches with 4 parallel vices a portable forge with electric ventilator (there are two spare electric ventilators), three traversing screw jacks, an anvil and an electric welder.

It was not possible to check the welding's characteristic as the small plate is in a unaccessible position. The traversing screw jacks have no small plate but they are supposed to be of 30 tonn. The tool machines pertaining to the movable workshop are fit for our installations and the whole Movable Workshop would be of great utility if delivered to our Administration.

Date: 25 Oct. 45.

1. The stores of TRANSPORTATION (Br.) provision listed at Appendix A may be reported by us in the near future to War Office as surplus to military requirements in this theatre.

2. To ensure that any requirements you may have for stores of this character for civil end use receive consideration please indicate in column 8 the number or quantities of the items listed for which you are prepared to make a bid, stating briefly in column 9 the project or purpose for which the items concerned would be used if allocated to you. Four copies of Pro-forma Tn.A.2/BID 29 are enclosed. Two copies must be returned completed to this H.Q. by 12 Nov 45.

3. It should be noted that the final decision upon allocation, if declared by War Office as surplus to global military requirements, will be made by Ministry of Supply. All bids entered upon behalf of civil organisations will therefore be considered by M. of S., but no guarantee can be given by this Service that allocation in part or whole will be made against such bids.

4. Firm demands to cover supply of the items for which you have bid should not be submitted through your normal supply channels until an allocation has been advised. Advice may, according to source of origin of the stores concerned, be received through British Ministry of Supply or F.E.A. representatives in this theatre.

24 October 1945

SUBJECT : Disposal of Captured Enemy Material.

TO : War Materials Disposal Sub-Commission.

1. Reference is to Paragraph 9 of the attached copy of document issued by AFHQ covering the disposal of captured enemy material.

2. Please say what immediate arrangements you have in hand for the placing of disposal of this material with the Minister of Transports.

3. As you know, there is considerable quantity of material in Northern Italy which is of tremendous value for the reconstruction and rehabilitation of the Italian State Railways, and we are most anxious to ensure that the earliest possible opportunity is given to make full use of the material, and at the same time free many freight cars which are at present under load.

ALLIED FORCE HEADQUARTERS
APO 512

AG 336.3 Q(AE)-O 2 October 1945

SUBJECT : Disposal of Captured Enemy Material in the Mediterranean Theater (to include ITALY, AUSTRIA, GREECE and MIDDLE EAST)

TO : Commanding General
Peninsular Base Section, APO 738
Land Forces Greece
General Officers Commanding
XIII Corps
GHQ, Middle East
Number 8 District
Number 3 District
Headquarters British Troops in Austria

1. OBJECT OF THIS DIRECTIVE

The object of this directive is to indicate the method of disposal of, and policies and conditions controlling the disposal of the remaining captured and/or surrendered enemy war material in the Mediterranean Theater. The following letters from this headquarters, as amended, are hereby rescinded:

AG 386.3/163 LOG-O, dated 22 June 1945, subject : "Disposition of Captured Enemy Material in ITALY".

AG 386.3/143 GCT-O, dated 9 April 1945, subject : "Allocation and Disposal of Enemy Material in GREECE".

AG 386.3/219 GCT-O, dated 3 August 1945, subject: "Disposition of Captured Enemy Material in AUSTRIA".

2. RESPONSIBILITY FOR THE CONTROL AND DISPOSAL OF ENEMY MATERIAL

a. The control of all enemy material in this theater is vested in the Supreme Allied Commander.

b. The allocation, use and ultimate disposal of enemy material is a responsibility of command, which will be exercised by you in accordance with the provisions of this directive.

3. OWNERSHIP

The property of all enemy material in this theater is vested in the Supreme Allied Commander.

4. LOCATION

The majority of enemy material available for disposition is located in ITALY and AUSTRIA. Therefore this directive has been prepared with full reference to disposal in these two countries. Where the policy varies for

Declassified E.O. 12356 Section 3.3/NND No. 785021

other countries within the theater, notes have been added indicating the different procedure to be applied.

5. DEFINITIONS

a. Captured or Surrendered Enemy War Material - (Hereafter referred to as enemy material) includes any material of whatever nature and wherever situated, intended for war on land, at sea, or in the air, which has been at any time in use by, or intended for use by, the armed forces, civil defence, or other formations or organizations under the control or influence of the German Governments, German authorities, or Governments or authorities of any states allied to, or associated with, GERMANY.

b. Disposal Authority is the military authority in whom is vested the power to dispose of enemy material.

6. PRINCIPLES TO BE APPLIED

a. Allied Naval, Ground and Air Force Reponsibilities -

Enemy Naval, and Air Force material will be controlled and disposed of by the Allied Naval and Air Forces respectively. Enemy Ground Forces material will be controlled and disposed of by the Allied Ground Forces and co-ordination, where necessary, between the Allied Naval, Ground and Air Forces will be effected by the Ground Force Commanders. The latter, in the appropriate cases, must be prepared to assist Allied Naval and Air Force Commanders in the control and disposition of material peculiar to the enemy Naval and Air Forces. Common user items will normally be the responsibility of the Allied Ground Forces.

b. Allied Ground Forces, Staff and Service Responsibilities for Control and Disposition of Enemy Material -

The responsibility for the control, safeguarding or disposition of all enemy Ground Forces war material is placed upon the Commanding Generals of all major commands in their respective areas. This responsibility will be exercised through the normal Allied Staff and Technical service channels appropriate to the type of material concerned. It is desired that arrangements made by each command be such that continuity of control can be maintained when changes of territorial command occur.

7. CONTROLLING AUTHORITIES AT AFHQ - The control of enemy material will be exercised by AFHQ through normal command and technical channels appropriate to the material concerned.

Declassified E.O. 12356 Section 3.3/NND No. 785021

B. POLICIES

a. Retention of material by units or individuals - Retention by units or individuals of such material unless properly authorized in accordance with this instruction, and other pertinent directives is forbidden.

b. Use of material by Allied Commanders - Authority is granted for the maximum use to be made of enemy material required for the support of Allied Forces in the accomplishment of their assigned mission (including essential civil requirements) or for the maintenance of enemy forces.

c. Recaptured material of Italian Military Origin - Recaptured material of Italian origin which is not required for military purposes, including maintenance of POW, will be turned over immediately to the Italian military authorities, for maintenance of the Italian Forces within the authorized ceilings. The channel of transaction in material of Italian Ground Force or origin, which is to be returned to the Italian Army authorities, will be the Land Forces Sub-Commission A.C. (MMIA). Receipt for material so handed over will be taken by the issuing Allied Services and forwarded to this headquarters through normal service channels. All remaining recaptured Italian War material, not required for maintenance as above, will be reported to AFHQ and disposal instructions awaited, except that in the case of Naval and Air Force material, when the instructions of the Navy or Air Force Sub-Commission of the Allied Commission, acting on behalf of the Allied Naval and Air Force Commanders, may be accepted.

d. War material of United States, British or other United Nation Origin

(1) It will be the policy for material of United States or British origin recovered from the enemy by recapture or surrender to be turned over to the American or British services normally responsible for the class of material concerned.

(2) War materials which can be readily identified as having been acquired during the war in any way by the Germans, from any United Nations, will be restored, providing however, that material susceptible only of warlike use shall be restored only when it can be identified as having been captured from the armed forces of any United Nations.

(3) Any enemy material, apparently previously belonging to any of the United Nations as defined above will be segregated and reported to this headquarters. Particular attention is requested in this theater to material of Russian, Czechoslovak or French origin.

Declassified E.O. 12356 Section 3.3/NND No. 785021

e. Enemy material required by the London Munitions Assignment Board - There still exists outstanding requirements of the London Munitions Assignment Board to meet global demands for enemy material. A list of these requirements is contained in this headquarters letter AG 386.3/163 SUP-O of 23 September 1945, as amended. Reports of availabilities of this material will be made in accordance with the letter under reference.

f. Enemy material required for research - A search list of enemy material required for research in U.K. and U.S. has been supplied to major commands and items on this list are still required by Technical Intelligence. This material when found, is regarded as Category 1.

g. German Naval Equipment - All material appertaining to ships and vessels of the German Navy (including armament, ammunition and supplies) which must be handed over to the power receiving the ships and vessels, will be safeguarded and reported through naval channels.

h. War Factories and War Factory Production - The policies contained in letter, this headquarters, file AG 386.3/087 GEC-O dated 2 August 1945, subject: "Policy on Italian Munitions Production" will apply.

i. Remaining Surplus Material - All enemy material surplus to the requirements contained in e and g above will be disposed of in the manner indicated in the following sections of this letter.

With exception of vehicles - see paragraph 9 g below - if material is surplus within any one particular command, it will be assumed to be surplus to theater requirements, unless notification received to the contrary, and will be disposed of as indicated.

9. METHODS OF DISPOSAL

a. Enemy material suitable for use in the civil rehabilitation of the country - In order that the maximum use may be made of surplus enemy material in its present form, all such material having a value in the civil rehabilitation of a country will be made available immediately for disposal to the government of that country as follows:

(1) In ITALY (less Venezia Giulia) - To the Ministry of Transportation through the Allied Commission to ITALY.

(2) In VENEZIA GIULIA - To Allied Military Government XIII Corps.

(3) In AUSTRIA - To British Troops in Austria (Military Government Staff) and later to Allied Commission to Austria when responsibility for civil supplies passes to them from Military Government Staff.

Declassified E.O. 12356 Section 3.3/NND No. 785021

(4) In other countries - To the respective Governments through the Allied Military Agency in that country.

b. Captured Civilian Material

Captured material which is apparently of a civil character and surplus to known military requirements will be disposed of as in above, The Governments or Allied Military Government of the country will be responsible for investigating and settling claims to ownership.

c. Enemy material unsuitable for civil use (excluding ammunition)

All enemy material surplus to know requirements and having no value in its present form, in the civil rehabilitation of the country will be disposed of by being rendered innocuous, reduced to scrap and disposed of by the normal Allied Salvage Organization. As far as possible, and in order to reduce transportation commitments, the material will be reduced to scrap in situ. Salvage organizations will arrange for the disposition of the material through normal channels to the Government or Allied Military Government concerned, from the location where the material is reduced to scrap. It will be the responsibility of the command concerned to ensure that all enemy material is rendered of no further military value, in its existing form, before it is made available for disposal as scrap.

d. Chemical Warfare Equipment and Toxic Material

(1) All defensive chemical warfare equipment which may have a value in the civil rehabilitation of the country will be disposed of as in 9a above. All other defensive chemical warfare equipment will be reduced to scrap.

(2) All chemical warfare ammunition will be destroyed by dumping at sea. Dumping will take place at least 20 miles from the shore, in at least 250 fathoms of water and away from shipping routes, fishing grounds and submarine cables. The provisions of AFHQ Operation Memorandum Number 77 and of AFHQ Administrative Memoranda Numbers 14, 15 and 33 will be adhered to in connection with all movement of toxic material.

(3) Any PHOSGENE or DIPHOSGENE (Valuable materials for dyestuffs manufacture) in bulk will be released to the Government or Allied Military Government of the country in which it is found, for use only by reputable concerns whose plant can be subjected to suitable control, or such materials will be dumped at sea under conditions laid down in paragraph (2).

(4) Any other bulk toxic material will be treated as in paragraph (2) unless its transportation is considered dangerous, in which case it will be rendered innocuous by methods approved by the chemical warfare advisers.

(5) Futher instructions will be issued by Chemical Warfare Staffs.

Declassified E.O. 12356 Section 3.3/NND No. 785021

e. Ammunition

(1) All enemy mines, grenades, detonators and initiators, explosives, small arms ammunition and ammunition of 20 mm caliber or below and surplus to known military requirements will be destroyed by dumping in the sea, or lakes or by being exploded . Dumping will take place only in water of 50 fathoms depth or more. Until destroyed, as indicated, enemy material of this nature will continue to be a guard responsibility of the command in whose area it is located. In the destruction of this material German personnel, under Allied supervision, may be utilized and if necessary, German technical units may be formed for the purpose.

(2) The location and quantities of all enemy ammunition, larger than 20 mm caliber, will be made known to the Government or Allied Military Government of the country concerned by the Command in whose area the material is located, through the Allied Commission or similar Allied agency. The Government or Allied Military Government of the country will then become totally responsible for the ammunition and will make the necessary arrangements with civilian firms, for the breaking down of the ammunition into its component parts. The Allied agency will be responsible for ensuring that the resultent products from the breaking down process, are not employed in the production of further armaments by the Governments of the countries. When the location and quantity of ammunition larger than 20 mm caliber has been made known to the Government or Allied Military Government of the country concerned, that organization will then be responsible for the safeguarding of the ammunition until its final disposal. Allied responsibility for safeguarding such ammunition will cease from the time that satisfactory arrangements have been made to this effect.

(3) Nothing in these instructions is to be regarded in any way as restricting the authority of addressees to dispose of ammunition, in any quantity, or in any manner considered suitable, which is in a dangerous condition, or constitutes a hazard to civil or military security.

f. Animals - Any enemy animals surplus to known military requirements will be reported to this headquarters and disposal instructions awaited.

g. Vehicles -

(1) All captured enemy vehicles will be used to the fullest possible extent in order to save Allied transport. Whenever practicable, however, such vehicles will not be

Declassified E.O. 12356 Section 3.3/NND No. 785021

issued without workshop inspection, and never without WD numbers and full registration.

(2) The issue of enemy vehicles to existing Allied Units will be permitted only in cases where such units have deficiencies in their TE's (W.E.'s), except within the powers delegated to commands to issue vehicles in excess of T.E. (W.E.).

(3) Vehicles of Italian military origin, if surplus to Allied requirements, will be returned to the appropriate Italian Army authorities through the Land Forces Sub-Commission A.C. (MMIA) under the terms of paragraph 8c above. All other captured Italian vehicles, if surplus to requirements, will be returned to the Italian Government, through Allied Commission, under the terms of paragraph 9a (1) above. Italian military vehicles can usually be identified by two stars to be found on the engine. If doubt arises as to whether a vehicle of Italian make is a civilian or military vehicle, such vehicle will be turned over to MMIA who will determine the ownership and subsequent allocation in conjunction with Allied Commission. Every effort will be made to hand over ALL vehicles of Italian make to the appropriate Italian authorities at the earliest possible date. Every effort will be made to hand over to MMIA all stocks of spare parts including tires for Italian military vehicles which are marked with two stars, or are otherwise identifiable as having been the property of the Italian Ministry of War. Stocks of spares for Italian civilian vehicles will be handed over similarly to Allied Commission, or in doubtful cases, to the MMIA. Sufficient spares may be retained for such Italian vehicles as are held against deficiencies in unit establishments. Responsibility for repair of vehicles, proper registration, and provision of drivers for all vehicles, handed over to them will be that of Allied Commission or MMIA as the case may be.

(4) Vehicles of other United Nation origin will be disposed of as in paragraph 8 d above.

(5) All other vehicles if surplus to the requirements of any particular command (including in Military Government areas requirements for civil relief to the extent needed to prevent disease and unrest) will be reported as surplus to this headquarters anddisposal instructions awaited. If vehicles are surplus to theater requirements they will be disposed of as in paragraph 9 e above.

(6) All non runners, unless earmarked for any other particular purpose, will be made available to and handed over immediately to the Government or Allied Military Government of the country under the terms of 9 a above for repair by the civil organization of that country.

Declassified E.O. 12356 Section 3.3/NND No. 785021

10. DISPOSAL OF MATERIAL IN MIDDLE EAST AND GREECE

Arrangements for the disposal of surplus enemy material in MIDDLE EAST and GREECE will be made to suit the locally existing conditions of those countries provided the policies established in paragraph 8 above are complied with at all times.

11. RECORDS

In order that any financial adjustments may be completed at a subsequent date records of all issues and receipts and material reduced to scrap will be maintained. Salvage organizations will record quantities and nature of scrap disposed of through normal salvage disposal channels. Copies of all records of transactions will be forwarded to Q(AE)AFHQ, through service channels, for maintenance, of the records.

12. REPORTS

a. Addressees will render reports, as called for by this directive as at 15th of each month (commencing with 15 October 1945) to reach this headquarters by the 28th of the same month. No other monthly reports other than those shown below are required:

(1) Material of other United Nation origin giving description of type, quantity, serviceability and location.

(2) Requirements of London Munitions Assignment Board in accordance with paragraph 8 c above.

(3) Material or Italian origin and surplus to command requirements as defined in paragraph 8 c above.

(4) Vehicles surplus to the requirements of the command in accordance with 9 c (5) above.

Reports will give:

Numbers
Type etc.
Classification of serviceability.

13. In the case that this directive is contrary to, or at variance with, other directives in this theater covering the same subject, this directive will govern.

BY COMMAND OF THE ACTING SUPREME ALLIED COMMANDER:

TRANSPORTATION STORES

Disposal of potential global surpluses

Transportation (Br) Main,
C.M.F.
Tel: Firebox 9596.

File: Tn.A.2/BID No.15.

Date: 8 Oct 45.

To: A.C. Tn Sub Commission Italy.
A.C. for Austria (Br. Element) Rails Div.
U.N.R.R.A., A.F.H.Q.

1. The stores of TRANSPORTATION (Br.) provision listed at Appendix "A" may be reported by us in the near future to War Office as surplus to military requirements in this theatre.

2. To ensure that any requirements you may have for stores of this character for civil end use receive consideration please indicate in column 8 the number or quantities of the items listed for which you are prepared to make a bid, stating briefly in column 9 the project or purpose for which the items concerned would be used if allocated to you. Four copies of Pro-Formae Tn.A.2/BID No.15 are enclosed. Two copies must be returned completed to this H.Q. by 31 Oct 45.

3. It should be noted that the final decision upon allocation, if declared by War Office as surplus to global military requirements, will be made by Ministry of Supply. All bids entered upon behalf of civil organisations will therefore be considered by M. of S., but no guarantee can be given by this Service that allocation in part or whole will be made against such bids.

4. Firm demands to cover supply of the items for which you have bid should not be submitted through your normal supply channels until an allocation has been advised. Advice may, according to source of origin of the stores concerned, be received through British Ministry of Supply or F.E.A. representatives in this theatre.

D.R.H. CHAPLIN, Lt. Col.,
A.D.Tn.(Stores),
for Brigadier,
Director of Transportation.

Subject: 95cm Gauge Locos.

Military Railway Service,
C.M.F.
Tel: Firebox 9596
File: TN.A.2/38/2
12 Oct 45.

To: Tn Sub-Commission A.C.
(Rail Division).

1. Further to our TN.A.2/38/2 of 3rd October 1945.

2. War Office have instructed Mid East to declare as surplus to requirements the 3 Caprotti 95cm Gauge locos.

3. It is therefore suggested that you place a demand for these locos through the normal Civil channels.

W.F.R.Mitchell, Maj.,
for Brigadier,
Director Military Railway Service.

Declassified E.O. 12356 Section 3.3/NND No. 785021

Subject: Locos - Caprotti ex Eritrea.

Transportation (Br) Main,
C/M.F.
Tel: Firebox 9596
File: TN.A.2/38/2
3 Oct 45.

To: Tn Sub-Commission -
attention Major Gill.

1. Referring conversation Gill-Robson, enclosed are copies of the relevant correspondence and signals we had with Mid East and Troopers on the subject of the transfer of the three Caprotti 95cm gauge locomotives ex Eritrea for the Calabro - Lucane line.

2. As this is a purely civil commitment we have asked War Office to advise conditions of disposal to the Calabro - Lucane line.

L.E. Robson

L.E. Robson, Major,
for Brigadier,
Director of Transportation.

Subject: 95cm Gauge Locos & Rolling Stock.

GHQ MEF
Ext. 414

TN2ME/5039/3/4

Director of Transportation (British)
Allied Force Headquarters.

28 Jan 45.

Reference your TN2/2/57/8 of 15/12/44.

1. We regret that there is no immediate prospect of further release of wagons from ERITREA.

2. It is understood, however that three 441 Class Cavrotti Superheated Locomotives at present sided could be made available. They have good boilers and could be repaired without great expense of time or money provided spare parts are available. If you can obtain spare parts these engines may be of interest to you. Please let us know.
