Da informazioni telefoniche avute dal Capo della Sezione Materiale e Trazione di Palermo risulterebbe che le macchine utensili già impiantate dal Comando Alleato presso i Cantieri Navali Riuniti di Palermo ed utilizzate per la riparazione di locomotive F. S., vengono ora smontate e vendute a privati insieme a materiali ed attrezzi che potrebbero invece essere acquistati dalle Ferrovie dello Stato per potenziare gli impianti della Sicilia.-

Si gradirebbe un urgente intervento di codesta Commissione per ottenere che prima di vendere a privati tali macchinari, attrezzi e materiali fosse data la possibilità alla Sezione Trazione di Palermo di visitarli ed eventualmente acquistarli per le Ferrovie dello Stato.- Si gradirà un cortese riscontro e possibilmente un elenco di tali materiali.=
