Sept. 1st 1945

1. At the request of Major Hole, I have enquired into the question of the construction of boxcars by the firm of Cecchetti, Civitanova.
2. During the month of August, Cecchetti carried out repairs to 62 low-sided wagons and 17 boxwagons.
3. During the same month, 3 boxwagons only were constructed, and no low-sided wagons.
4. Cecchetti state that the low production of boxwagons is due to lack of steel sheeting. It is further stated that their normal allotment of steel sheets has not been supplied by Terni.
