c/o Transportation Increment,
C.M.F.

1. The attached list of plant was requisitioned from the firm of Impresa Antonio Di Ponta, Piazza d'Azeglio 9, Florence, and it is needed on re-establishing the Florence-Arezzo Railway line. You will note that the list is annotated as far as possible by records collected in this office.

2. The following information has been gleaned from AFHQ:

(a) None of this plant is at Modugno Cement Factory.

(b) Records of material under Requisition N°.16708 were traced to N°.325 Tn Stores, Modugno, but all enumerated material has been returned to C.E. 3 District.

(c) There is no trace of the material under Requisition N°. 329985 at 325 Tn Stores.

3. Can you please arrange to see the local representative of this firm, and request him to locate any items that have been requisitioned.

4. It must be accepted that any of the items located must under GRO 579 of 25 May 45 be sent to the Italian Works Directorate, Military Engineering, at the Military Territorial HQ. Bari, and the firm will have to then apply to the Genio Militare for their release.

Lorries

Allegati N.

1. The reconstruction works which must be finished here in Tuscany Region are so great that the 30 lorries ,assigned to us by Major Street are too few in comparison for instance to the 50 ones assigned to Milan.

2. Here in Florence we had until now only few Lorries in bad conditions furnished by the AMG. (an average number of 10 daily) .

3. No lorries have been obtained for Arezzo- Leghorn- Pisa and La Spezia.

4. The lines , on which we are working , as you know, are the following:

a) Florence- Arezzo
b) Florence-Prato-Vernio
c) Florence-Empoli-Pisa
d) Pisa-La Spezia
e) La Spezia-Pontremoli -Grondola Guinadagna
f) Chiusi-Siena-Castelfiorentino
g) Pontassieve - Borgo S.Lorenzo.

28th May 1945

TO : The Director
Tn. Sub Commission A.C.

SUBJECT : Release of tyres for I.S.R.

1. The I.S.R. in the North Italy area are unable to obtain Recees of damage and make surveys in order to commence the repair of those lines that should quickly be put in op operation as being essential for food supply, rehabiliatim or Industry etc.

2. It is also the case that when contract are let and the conttractors commence work, that their Lorries soon are unable to reep up the supply of materials, it being so long since they had any tyres.

3. In the case of contractors it is suggested that, as tyres out last the contract, that the following list be released to I.S.R., who would issue to their various contractors for the duration of the contract, charging hire against thecontrac contractors account.

4. It is requested that Commerce Section be asked to promptly release to I.S.R. on payment the following.
<u>For Florence Compartimento I.S.R.</u> these could no doubt be released from Milano.

N° 9 tires and tubes 11,25x24 or 11x24
N°12 tires and tubes 11,25x24 or 11x24
N° 9 tires and tubes 11x20 or 10,50x20
N°20 tires and tubes 6,00x16

3244

5. <u>For North Italy I.S.R. H.Q. Milano</u>
From Michelin and Pirelli works:

N° 5 covers and tubes 5,50 x15
N°10 ~~covers and tubes~~ Tipo piloto
N)15 400x14

AVIII/19/35/38

Subject : Ditta C.Pontello

TO : Ing.Severo Rimsone,Capo Compartimento F.S.Firenze

1. My impression regarding the above Firm is that they are only prepared to utilise their truck 29546/FI for their own private interests and by refusing to repair a road vehicle are showing clearly that they care nothing for their fellow countrymen.

2. The issue of permits is governed by the number of vehicles for which there is sufficient carburant to operate,and by a Committee which determines priority of work,so that no guarantees for the future can be given. It may be that when this truck was repaired the highest priority of work would be harvesting and possibly all available carburant would be temporarily required for that purpose.I certainly would not be prepared to grant a permit for some unknown date for a vehicle which might or might not be made road worthy.

3. I suggest that the proper action for this firm to take is to first of all repair the vehicle.Then to make application direct without intermediate recommendations-to the Director of the Ufficio Autotrasporti di Firenze.If he has sufficient carburant available,and if other vital haulage is taken care of,he will assuredly grant the permit;and in any case,provided again that there was carburant available,he would be able to pay for work done by the vehicle which would be employed on essential work agreed by the committee to have higher priority than railway rebuilding i.e.foodstuffs and medicines only.

4. I hope you do not feel that I am being uncooperative,and if the firm Pontello do no understand my point of view,I shall be pleased to meet them and explain my ideas more fully.

Firenze, 25th May 1945

OGGETTO: Transformation of Truck for Using Gas Metano.

TO: Major W.F.Blair, Th Off.(Rail) Tuscan Region, A.C.

Have Delivered Private Letter to Commissario

1. The Firm: "BERNI" Via Tornabuoni N.17, Florence, is entrusted with the reconditioning of rly line Florence-Pontassieve.

2. If they have to comply with the order they have received of transforming the only truck they have, N.5337/FI, to use Gas Metano, they will be obliged to stop working or to get along very slowly, with no little damage to the general welfare, because the date of operation of that rly line will, as a matter of course, be greatly delayed.

3. It would therefore be vastly appreciated if you could help the above mentioned firm to obtain permission to finish the rly works they have on hand, before making the required transformation of their truck.

F I R E N Z E

Trasformazione di automezzi
a circolazione a Gas Metano.

A seguito dell'ordine ricevuto di trasformare il nostro auto= mezzo targato 9337 FI, a circolazione a Gas Metano, ci permettiamo farVi presente che, in considerazione dei lavori di pubblico interesse che stiamo attualmente svolgendo la trasformazione si risolverebbe esclusivamente in un arresto dei lavori, i quali invece ci vengono continuamente solle= citati dalle competenti Autorità.

Infatti la nostra Impresa stà attualmente lavorando per il ripristino della sede ferroviaria, nel tratto FirenzeC.M. - Pontassieve e l'autocarro in oggetto è adibito al servizio di tali lavori per i quali deve provvedere all'approvvigionamento dei materiali, ritirandoli direttamente dai luoghi di xproduzione e compiere per questo percorsi che non sarebbero consentiti dall'autonomia del Gas metano, inoltre deve provvedere al trasporto sul luogo di lavoro degli operai, prele= vandoli da località limitrofe alla Città, anche per quet'ultima ragione sarebbe impossibile provvedere alla trasformazione senza una interruzione del servizio e conseguentemente una sospensione dei lavori e degli operai.

Inoltre la nostra Impresa, che ha sempre svolto la sua atti= vità lavorativa in ogni parte d'Italia, si troverebbe nella condizione di dovere subordinare la sua attività prossima e futura ai mezzi di trasporto a sua disposizione e rinunziare alla possibilità di assumere appalti in località che non possono essere arggiunte con l'autonomia del gas metano.

Con osservanza

Spett. FERROVIE DELLO STATO
Direzione Compartimentale di
F I R E N Z E

Lavori di ripristino sede ferroviaria
tratto Firenze C.M. - Pontassieve.

Vi rimettiamo qui allegata una nostra lettera diretta all'Ufficio Provinciale dell'Ufficiale ai Trasporti di Firenze, con la qaule chiediamo la revoca all'ordine impartitoci per la trasformazione a gas metano del nostro autocarro targato 9337 FI, attualmente azionato a benzina. A tale scopo Vi preghiamo vivamente di volere apporre in calce alla lettere stessa, una Vostra ampia dichiarazione dalla quale resulti evidente la necessità della revoca, poichè in caso contrario i lavori che attualmente stiamo eseguendo per codesta Spett. Amministrazione, subirebbero una contrazione ed un arresto, almeno parziale, i quali oltre a recare danni alla nostra Impresa, prolungherebbero inevitabilmente il corso dei lavori.

L'automezzo per il quale viene richiesta la trasformazione è impegnatissimo nei lavori affidatici da codesta Spett. Amministrazione tanto per il trasporto dei materiali, quanto per il servizio degli operai e non può quindi esserne distolto neppure per il tempo che sarebbe indispensabile per eseguirne la trasformazione.

Contiamo perciò vivamente sul valido appoggio di codesta Spett. Direzione per ottenere la revoca all'ordine emesso dallo Ufficio Trasporti.

Distinti saluti

Arch. Gaetano Berni

Firenze lì 25 maggio 1945

Mr. BLAIR
RAILWAY DIVISION
FIRENZE
Piazza Unità

Il sottoscritto Augusto Degl'Innocenti fu Massimiliano nato a Casellina e Torri (Firenze) il 3 settembre 1879, domiciliato a Firenze nel viale Michelangiolo n° 22, possessore della carta di identità n°12540012, rilasciata dal Comune di Firenze, in qualità di unico proprietario e firmatario della Ditta Augusto Innocenti con Sede in Firenze, Via Ricorboli n° 5 rosso, iscritta all'Ufficio Provinciale dell'Industria e Commercio al n° 6159, fa

D O M A N D A

alla S.V. per ottenere previo pagamento che gli vengano assegnati n° 6 copertoni e n° 6 camere d'aria della misura di 600x16 da poter applicare alla automobile di sua proprietà, essendone questa sprovvista.

Tale richiesta è motivata dalla necessità di poter mettere in efficienza la propria automobile, per compiere viaggi a Roma, per il disbrigo di pratiche urgenti presso il Ministero delle Comunicazioni, inerenti all'appalto di opere varie della nuova Stazione di Roma Termini, in base al Contratto n°101/1940; compiere viaggi a Venezia per i lavori alla nuova Stazione di Venezia S.Lucia in base al contratto del 27/11/941 e compiere viaggi in varie località della Toscana per eseguire lavori per conto della R. Soprintendenza ai Monumenti di Firenze.

Unisce alla presente domanda una copia della dichiarazione rilasciata dalla locale Sezione Lavori delle Ferrovie dello Stato, ed una copia di dichiarazione della R. Soprintendenza ai Monumenti, a conferma di quanto sopra esposto.

3228

Con perfetta osservanza.

Ditta Augusto Innocenti
IL TITOLARE

RECOMMENDED

THE PRESIDENT
(D.DE MICHELL)

COPIA DELLADICHIARAZIONE RILASCIATA DALLA SOPRAINTENDENZA DEI MONUMENTI

R. SOPAINTENDENZA AI MONUMENTI
delle Provincie di Firenze Arezzo e Pistoie

Si dichiara che la Ditta Augusto Innocenti deve eseguire lavori nelle Provincie di Firenze per conto di queste Soprantendenza. Sarebbe necessario che essa disponesse del permesso di circolazione per la propria automobile al fine di essere agevolata nella esecuzione dei lavori a lei affidati.

Si raccomanda pertanto l'accoglimento della domanda rivolta in tal senso dalla Ditta stessa.

IL SOPRAINTENDENTE
f.to POGGI

RVIII/35/7/2/149

SUBJECT: Tyre Permits.

TO : Rail Officer.

1. Reference the attached request from Ferrovie dello Stato for authority to use American tyres.

2. Unless these tyres have been obtained through an official source, it is not possible to authorise that use. It would appear, however, from the size quoted that these are not military tyres and in that case no permit is necessary.

J.A.N. GILES,
Lt. Col. KRRC,
Chief Transportation Officer.

Oggetto: Richiesta di assegnazione materiali.

La scrivente Impresa che ha in appalto i lavori di ricostruzione di manufatti sulla Linea Arezzo-Firenze (IIIº lotto), chiede che le vengano assegnati i seguenti materiali necessari per la esecuzuione dei lavori stessi:

1°= Carbone per forgia per gli usi di cantiere, riparazione di attrezzi, punte, scalpelli, allestimento di grappe e chiodi forgiati, ferramenta per centine, etc. Kg. 4000
2°= Minio di piombo per tabelle di segnalazioni, giunzioni, tubazioni etc. Kg. 60
3°= Biacca di piombo id. id. Kg. 60
4°= Olio di lino cotto id. id. Kg. 60

così ripartiti per lo svolgimento dei lavori:

	Carbone per forgia	Minio	Biacca	Olio di lino cotto
	Kg.	Kg.	Kg.	Kg.
Maggio 1945	1000	20	20	20
Giugno "	1000	10	10	10
Luglio "	500	10	10	10
Agosto "	500	10	10	10
Settembre"	500	5	5	5
Ottobre "	500	5	5	5
Totale Kg.	4000	60	60	60

3242

Data la necessità di poter disporre con urgenza di un primo quantitativo di materiali richiesti, si interessa vivamente codesto Ufficio perchè l'assegnazione dei quantitativi richiesti per il mese di maggio, venga data al più presto possibile.

Con osservanza.

P.I. IMPRESA E. PARRINI

1. Attention invited to letters 22nd March 1945, file reference RVIII/35/RL/126 and 12 April, reference AC/Tn/3/C.E. concerning use of explosives by firm of Ferrobeton in reconstruction of masonry arch bridge over Arno river on Line 219.

2. Supt. Maintenance of Way, 774th Railway Grand Division has placed in custody of Engineer, Compartimento Chief at Florence, 300 pounds of dynamite for use of contractors engaged on restoration of Italian State Railways structures with instructions that he would be responsible for proper distribution and use of these explosives and further that it would not be released by him in large quantities at one time. 3193

3. Mr. Rissoni has skilled personnel competent to supervise use of explosives by contractor and who will be responsible to Mr. Rissoni for their proper use and inasmuch as responsibility is now vested in Mr. Rissoni, it is suggested that Contractor Firm Ferrobeton be advised to make their arrangements accordingly.

4. Military personnel are fully committed and none are available nor is any equipment for assignment to works in hand by civilian contractors.

Subject : Release of explosives
for firm Ferrobeton.

TO : Tn.Sub-Commission
A.C.

Copy to : Major Stull.

1. Refrence your AC/Mat/3/50 Tn4 of 26th March.

2. I object on principle to the use of explosives by civilians in repairs to bridges carrying important Military traffic.This is particularly so at a bridge such as the Arno bridge on Line 219, which is a vital and vulnerabl structure.

3. Before agreeing to the release of the explosive s demanded, I woul like your assurance on the following points.

a) that the use of explosives is essential and that no reasonable alternative exist.
b) That the firm Ferrobeton are thoroughly competent in the use of explosives.
c) that explosive will only be used under responsible supervision, preferably military.
d) that adequate security measures will be taken against theft of the materials and sabotage.

Florence.

1. Please instruct all contractors to obtain your approval before the request is sent to this office.

2. Impresa PARDI are asking for 350 tons Cement for Colle Salvetti-Pisa line.

3. This line was being done by Major Patterson using Ditta Pardi as contractors I understand, is this correct?

4. We can supply this cement if you will send in details and delivery station.

5. Note: line to Vicarello is solely P.E.S., I believe.

Pardi asked for it to be sent to Vicarello

SPB/ma.

1. La prego notificare a tutti i contrattisti di ottenere la Sua approvazione prima di presentare richieste a questo Ufficio.

2. L'Impresa PARDI domanda 350 ton. di cemento per la linea Colle-Salvetti-Pisa.

3. Questa linea fu fatta dal Maggiore Patterson usando la Ditta Pardi come contrattista. Va bene ?

4. Noi possiamo fornire questo cemento se vuole mandarci i dettagli e la stazione di consegna.

5. Da notare: la linea di Vicarello è lavoro solo del P.E.S., io credo.

HEADQUARTERS
TOSCANA REGION
ALLIED MILITARY GOVERNMENT

XVIII/78/15/39 29 March 1945.

SUBJECT : Rehabilitation of brick factories.

TO : Transportation Sub-Commission. HQ. , AC.
(Attn.: Tn/SB/Rails)

1. Your Tn/AC/10 CE XVIII/35/BL/R.26 dated 22nd and 24 March refers.

2. No objection is raised to your suggestion that the firm of DI PENTA of Rome in collaboration with the plant owners put in working order the following plants:-

BRICK WORKS. IMPRESA MANNELLI - FIGLINE VALDARNO.
" " IMPRESA FORNACE PONTE ALLE FORCHE- S. GIOV. VALDARNO.
CEMENT " S.A. IMPRESA TOSCANA CEMENTI E CALCE - RICHARD.

3. The latter firm (owned by Sig. BRUSCHI) is now in condition to work provided it gets a small allotment of electric power which has been bid for. Their small hydro-generator 30 KW has been repaired and with another 20 KW which can be paralleled in from the mains they can commence to crush their large stocks of cement and lime clinker which are already cooked. There will be a difficulty as regards coal and you should ensure your own supplies to this plant.

4. Releases for 712qli. of steel bars and 254qli. angle-iron ex "ILVA", San Giovanni Valdarno; 100qli. of Hydraulic lime ex ITALCEMENTI, INCISA; 300qli. of Hydraulic lime ex I.F.C.I.-S.A., INCISA have already been given to the various contractors or sent to Major Blair with this letter. 311

5. We are trying to get a release for the timber totalling 330 c.m. which Impresa di ZITTL-VAGLIO of Rome have asked for but we are not very hopeful of succeeding for some time owing to the extremely heavy military requisitions in this area.

./.

Declassified E.O. 12356 Section 3.3/NND No. 785021

6. The window-glass and electric-lamps are receiving atten. and we hope to get the releases shortly.

7. It is foreseen that this project for the re-activation of the Arezzo-Florence line is a very big one likely to involve a terrific strain on the already depleted local resources due to the large body of troops in the area for about eight months. Will you therefore, please advise us officially as to what priority is given by A.C. for this project where its demands conflict say with P.W. & U., the rehabilitation of basic industry, and other railway re-activation schemes in Tuscany.

Ponte sull' Arno - Camaione
Richiesta esplosivi e compressori

Bridge on the Arno-Camaione
Request of explosives and compressors.

Esplosivi

Per il lavoro in oggetto ci occorre un primo quantitativo di esplosivo sotto indicato, per poter sgombrare le macerie:

- 1000 kg. di gelatina (dinamite)
- 2000 capsule
- 4000 metri di miccia

Vi preghiamo di disporre che l'esplosivo ci sia mandato in quantitativi di 100 kg. alla volta, dietro ns. richiesta. Intanto Vi preghiamo di mandarci subito i primi 100 kg.

Explosives.

For the a/m work, we need a first supply of the u/s explosives for the removal of ruins:
1000 Kgs. of dynamite
2000 capsules
4000 meters of fuse.

We ask you that this explosive can be supplied at 100 kgs. each time we ask for it.
We beg you herewith to let us have the first 100 kgs.

Compressori

Vi preghiamo di prestarci n.° 2 compressori ad aria compressa, con l'attrezzatura completa per fare i fori da mina.

Compressors

We beg you to lend us no. 2 compressor with the necessary equipment to do holes for mines.

Attendiamo Vs. comunicazioni in merito e distintamente Vi salutiamo

Thanking in anticipation

(1)

I Ferrobeton are asking for the loan of Two Compressors complete with equipment (Hose, Jack Hammers & rock drills, is it possible that you could:—

a) Hire out to them or,

b) Have one of your units put on the Robes for them.

II If the not see that it is advisable for them to use explosives in their foundations,

I can then assurance that they will use only small charges of one candle, but if you could arrange it,

I put to them on N.C.O. from one of the Coys as Supervisor I would feel more Safety about it.

III Maybe you could let them have a little explosive to Commence work I have some on order, the Completion of this Bridge will release your Steel for use North.

Tn/AC/10 CS

Date: 22 Mar.45

Subject : Cement for Railway Reconstruction.

To : O.C. Industry and Commerce Divn.A.M.C.

1. To avoid the difficulty concerning releases of bricks, the firm Ing.A. Di Penta suggest the following idea to insure regular works.

2. There is at Rignano sull'Arno a cement an lime factory property of the firm Brunchi, actually unworking, having the whole plant damaged and missing electric power.

Slightly — can be repaired by their mechanics

3. This factory can produce 10 qls. per hour of cement, about 150 qls.per day.

4. The firm DI PENTA can repair the plant of this factory and put it again to work.

5. The firm Ing.Di Penta ask for having at their complete disposition the a/m factory and want to be sure that,when it will be repaired it will not be requisitioned by Allied Authorities.

6. Major Buckley ought only to let us have a not big quantity of lignite and coke coal.

7. The cement would be used for the reconstruction of the arches of the bridges and gallery, instead of bricks.

8. It would be necessary to have only 40.000 or 50.000 bricks for the arches of the small bridges.

9. This firm do,and will do everything to collaborate with Maj. Buckley, with their own possibilities.

Reference above suggestion, do you agree that they may do this except ily para 5, it would be very helpful in view of the large railway reconstruction programme that has been authorised,please.

1. Per eliminare la difficoltà relativa allo sblocco dei mattoni, l'Impresa Ing.A.Di Penta propone la seguente soluzione per assicurare una regolare e rapida esecuzione dei lavori.
2. Esiste a Rignano sull'Arno la fabbrica di cemento e calce della Ditta Bruschi, che attualmente non lavora perchè ha gli impianti danneggiati e manca la corrente elettrica.
3. La fabbrica può produrre 10 quintali all'ora di cemento, circa 150 quintali al giorno.
4. L'Impresa Di Penta assume l'impegno di rimettere gli impianti di detta fabbrica e metterla in condizione di riprendere a lavorare.
5. L'Impresa chiede che detta fabbrica venga lasciata a sua completa disposizione e desidera avere la sicurezza che, una volta riattivata, non venga requisita dalle Autorità Alleate.
6. Il Maj.Buckley dovrebbe soltanto farci ottenere una assegnazione di litrite e carbone coke in quantità non forti
7. Detto cemento verrebbe utilizzato per la costruzione degli archi dei ponti e delle volte delle gallerie in sostituzione dei mattoni. Occorrerebbero solo gli archi dei piccoli ponticelli per i quali occorrerebbero pochissimi mattoni.
8. L'Impresa Di Penta farà il possibile per collaborare con il Maj.Buckley, nei limiti delle proprie possibilità.
