OGGETTO: Materiale rotabile delle Ferrovie esercitate dalle industrie private e delle tramvie.

- 1 - Riferimento alla Vostra lettera AC/68/2/Tn.4 del 19 luglio 1945.
- 2 - Trasmetto qui uniti due prospetti dei dati chiesti.
- 3 - I prospetti si riferiscono uno alle Linee concesse come Ferrovie, e l'altro a quelle concesse come Tramvie extraurbane, essendo i due tipi di Linee molto simili, ma quasi sempre trattati separatamente.
- 4 - In ciascun prospetto la parte alta si riferisce allo scartamento normale, la parte bassa allo scartamento ridotto, essendoci così tenute separate i due scartamenti, come è stato richiesto.

5330

5 - Non si sono adoperati i due fogli trasmessi da codesta Sottocomissione, perché, mentre, il materiale, per i mezzi delle linee in questione è sempre a due assi, quello per viaggiatori, invece, è in parte a due assi e in parte a carrelli (4 assi); e pertanto nei prospetti qui uniti, per alcune voci, è stato necessario raddoppiare le colonne per indicare i dati separatamente per i due tipi di linee; e i fogli mandati da Voi non erano adatti a questo sdoppiamento.

Ma nei prospetti stessi sono state riportate le voci dei fogli da Voi trasmessi, trascurando solo le voci relative a materiali inesistenti nelle linee di cui si tratta.
