SUBJECT : Transportation - Tobacco ex Brindisi.

1. Reference Bid No. 104 submitted in respect of the conveyance of 100 tons of tobacco from Benevento to Cava di Tirreni.

2. This bid was brought forward at the Transportation Sub-Committee Meeting held on 30 March 44, and as there is no civilian freight service in operation from Benevento, it was referred to the PCM Conference to be considered for lift by military train.

3. Owing to heavy Military Committments over the section of the line involved it was not possible to allot wagon space for the tobacco and the bid was therefore rejected.

SUBJECT : Transportation - Pig Iron.

1. Reference your bid for transportation of 50 tons of Pig Iron from Naples to Crotone.

2. This bid was considered at the Transportation Sub-Committee Meeting held on 30 March 44. The Representative of ACC HQ. in attendance (Capt. Curran) stated that the eventual destination of this consignment was Sardinia.

3. In view of the amount of ACC traffic to be conveyed and the limited capacity available on the basic civilian freight trains it was decided by the Committee that the consignment of Pig Iron should be shipped direct from Naples to Sardinia and not railed to a Port on the East Coast (Crotone).

4. The bid for rail transport from Naples to Crotone was therefore rejected.

5. The question of shipping the Pig Iron direct to Sardinia is in hand.

SUBJECT : Transportation of Tobacco.

1. Reference bids for transport of Tobacco from Benevento, Ceva di Terreni and Lecce which were submitted yesterday, 29 March 44.

2. In accordance with procedure laid down, all bids must be submitted to reach this Sub-Commission by Tuesday for traffic to be moved during the week commencing the following Monday.

SUBJECT : Bids for Transportation of Civilian Freight.

1. Reference your ACA/2070/1 dated 15 March and our ACC Tn/94/115 of 23 March.

2. As mentioned in our letter of 23rd it has only been possible to allocate at the moment 2 wagons per day for the transport of wine from Puglia to the Naples and Salerno Area.

3. In order that these bids shall receive consideration at the future Transportation Sub-Committee Meetings please keep me advised as to what wine moves each week, i.e. from which starting point, destination and quantity.

4. In the meantime the possibility of conveying some of the wine traffic by schooner from Apulian Ports (from Bari and Brindisi) to the Naples Area is being explored and if this can be arranged you will be immediately advised.

5. In addition to the 2 wagons per day allotted to you, 1 wagon per day has been allotted to Gallo Luigi of Naples who has 400 tons of wine to send from Grottaglie to Naples. This bid was originally submitted on February 5 and accepted by the Sub-Committee, but owing to various difficulties beyond his control, the consignor was unable to get his traffic moved within the stipulated period, and it had to be re-bid for at the last Sub-Committee Meeting. Signor Gallo has gone to Brindisi to make the necessary arrangements to move his traffic.
