Our Society, foreseeing to resume the working of the Facto-
of Rome at the beginning of next April, and needing of supplies
of raw materials (Sulphuric Acid and Liquid caustic Soda) by means
of railway tank cars owned by it, asks to this S/C to allow to
Italian State's Railways to give back, c/o the Railway Station
of Rome Prenestina, of the following tank cars :

n. 504629 and 504661 - Presently to repairs to FF.SS. works -
Porte Maggiore -

n. 504669 : Presently staying to the Railway Station - Arezzo

n. 504604 : Staying to the railway station of Naples Smistamento -

Such tank cars, being damaged owing to war events, should have
to be repaired by us as soon as possible and put in efficiency
for the supply of a/m raw materials.-

Truly Yours.-

SUBJECT : "Non-common user" tank cars.

1. There are certain commodities which require the use of special cars, and as Olive Oil is a monopoly, it has already been agreed that cars used for its conveyance should be considered as outside the common pool.

2. For wine tankers, in view of the many small growers, it has been considered preferable to ensure that fair opportunity of movement is given by the pooling of all such cars.

3. The firm of C.I.S.A. Viscosa ask now for the handing over certain tank cars as under

504629	)	under repairs by FF.SS. - Porta Maggiore
504661	)	
504669		at Arezzo Station
504604		at Naples Smistamento

to be used for the conveyance of Sulphuric Acid and liquid Caustic Soda.

4. Before approach is made to MRS. your opinion on the matter is sought. These cars have to be repaired, and the owners claim they are best able to do it. On the other hand, the few cars available would mean that only this particular firm would move their traffic, which would have to be bid for, both as empty and full.
