LOCOS - CONVERSION COAL TO  
SULFUR 1944 OIL BURNING

HEADQUARTERS U.S.  
ALLIED CONTROL COMMISSION  
Transportation Sub-Commission  
APO 394.

CAB/CG.

Our reference : ACC TN/255/2.  
Date : 13 June 41. month  
of issue : 10 June 41. year

TO General Carl Gray,  
U.S.A.A.C.  
Navy Dept.,  
Washington,  
SUBJECT: Conversion locomotives Coal to Oil - Sicily.

1. On recent visit to Sicily, Deputy Director, Lt. Col. Brown, and Mechanical Engineer, Major Baister explored possibility of conversion.

2. Dr. Tuccio, Capo Compartimento or Sicily division of I.S.R. stated that oil fuel had been used in about 70 locomotives for about 14 months following World War I and that many of staff and personnel are familiar with oil burning. He also stated that he would have no difficulty in providing necessary tanks for storage and, in fact, pointed out several satisfactory tanks, including two of some 20,000 gallons capacity left by the retreating enemy.

3. There are available, in well equipped shops and engine-houses at Palermo, Messina and Catania, sufficient competent mechanics to make locomotive installations. One or two men might be brought to Naples for instruction, following which Dr. Tuccio feels that there would be no difficulty in carrying on the work.

4. There are in Sicily 127 locomotives of 740 class (2-8-0) which might be considered for conversion. Of these 73 are in service, 8 stored and 46 awaiting heavy running repairs. In addition there are 23 requiring rebuilding and 4 war ruined, 9 of which need be considered. The 740 class is most numerous, as well as best suited for current traffic.

5. Dr. Tuccio is ready to proceed promptly with the plan, so soon as he is given necessary instructions and blueprints.

2. 22/11/43

NOT SIGNED TOSSED AWAY  
REINSTATEMENT OF MECHANIC  
TO OIL

6. You very kindly agreed to give any mechanics sent over from Sicily the necessary training in Naples for the conversion of locos from Coal to Oil Burning.

  
E.W. Vining,  
Lieut-Colonel,  
Director, Transportation Sub-Commission, ACC.

RECORDED IN THE RECORDS OF THE TRANSPORTATION SUB-COMMISSION  
TO WHICH NO PRACTICAL TRAINING WAS PROVIDED. LATER ON THE  
SUB-COMMISSION AGREED TO PROVIDE TRAINING FOR THE CONVERSION

OF LOCOMOTIVE VEHICLES TO OPERATE ON OIL. THIS WAS AGREED AS  
NOT RECOMMENDED BY LOCOS AT THAT TIME HAD BEEN USED PREVIOUSLY  
IN VEHICLES AS VEHICLES HAD A VERY LIMITED MANUFACTURED NUMBER OF LOCOS  
THAT COULD BURN OIL. IT WAS AGREED THAT THE TRAINING WOULD BE PROVIDED  
FOR THE CONVERSION OF LOCOMOTIVE VEHICLES ON THE LINE FROM  
NAPLES TO THE PORT OF SALERNO AND THAT THE TRAINING WOULD BE PROVIDED  
BY THE TRAINING CENTER AT SALERNO.

IT WAS AGREED THAT THE TRAINING WOULD BE PROVIDED BY THE TRAINING CENTER AT SALERNO.  
THE TRAINING CENTER AGREED TO PROVIDE TRAINING FOR THE CONVERSION  
OF LOCOMOTIVE VEHICLES ON THE LINE FROM NAPLES TO THE PORT OF SALERNO.  
THE TRAINING CENTER AGREED TO PROVIDE TRAINING FOR THE CONVERSION  
OF LOCOMOTIVE VEHICLES ON THE LINE FROM NAPLES TO THE PORT OF SALERNO.

IT WAS AGREED THAT THE TRAINING WOULD BE PROVIDED BY THE TRAINING CENTER AT SALERNO.  
THE TRAINING CENTER AGREED TO PROVIDE TRAINING FOR THE CONVERSION  
OF LOCOMOTIVE VEHICLES ON THE LINE FROM NAPLES TO THE PORT OF SALERNO.  
THE TRAINING CENTER AGREED TO PROVIDE TRAINING FOR THE CONVERSION  
OF LOCOMOTIVE VEHICLES ON THE LINE FROM NAPLES TO THE PORT OF SALERNO.

IT WAS AGREED THAT THE TRAINING WOULD BE PROVIDED BY THE TRAINING CENTER AT SALERNO.  
THE TRAINING CENTER AGREED TO PROVIDE TRAINING FOR THE CONVERSION  
OF LOCOMOTIVE VEHICLES ON THE LINE FROM NAPLES TO THE PORT OF SALERNO.

Memo for Col. Parry:-

Subject: Conversion Locos from coal to oil burning - Sicily

1. Reference sec. 9- page 10 - my report on Rys. in Sicily.
2. Many of Sicilian Ry personnel have had experience with oil fuel; there are adequate shop facilities & mechanics to make conversion.
3. Do not know what may have transpired on this project, with D.G.M.R.S., while I was on tour.

4. Major Banister and I conferred freely and are in accord on what can be done.

5. Should I prepare letter to D.G.M.R.S. giving resume of facts?

Brown  
Lt Colonel

8-6-44

~~By~~

I spoke to D.G. M.R.S about this.  
He was very pleased at the idea of the necessary mechanics coming for training if necessary to Naples. If however they

know their job of converting locos from coal to oil burn<sup>g</sup> - we can inform D.G.M.R.S accordingly and put up our proposals to him.

Please put up rough draft explaining position

P.W.B.

Date. : 10 June 44

TO : Lt. Col. O.H. Lindberg,  
Tn. Sub-Commission Rep.  
H.Q., ACC Region I - Sicily.

SUBJECT : Tanks for Locomotive Fuel Oil.

1. On recent visit to Sicily, LT.Cpl. Brown and Major Baister discussed with Dr. Tuccio and his staff, matter of conversion of certain locomotives to oil fuel and provision of suitable tanks. Later, two large tanks were noted at Caltanissetta, both of which could be immediately available for storage purposes, one being loaded on a flat car. Dr. Tuccio indicated other tanks being available elsewhere, and agreed to have survey made.

2. It is desired to obtain accurate information, including dimensions, capacities and locations of all storage tanks which Dr. Tuccio has located. Sketches of tanks will be helpful, in showing construction, size and location of openings. This not only for use in Sicily, but for possible use elsewhere. Please procure information so promptly as possible and forward by quickest means.

L.E. WINING,  
Lieut-Colonel,  
Director, Transportation Sub-Commission, ACC.
