SUBJECT : Policy of Stores Branch Tn. 8/C.

TO : Chief of Stores Service I.S.R. Bldg.
Attn: Ing. Bracci

1. In accordance with Allied Commission policy, it is necessary that the functions of the Stores Branch be changed from the present supervisory position to that of advisory by the 1st of November.
2. It is therefore necessary, that, on your own initiative, you obtain materials without assistance or approval of the Allied Commission, however if assistance becomes necessary it will be given.
3. As advised at the last meeting of the Stores Sub-Comm. of the Allied Railway Board you are at liberty to move any of your stores as desired, without requesting permission of M.R.S. or this Sub-Commission, however, it is desired that you send this Hq. a monthly report of stores moved.
4. It is also desired that you send a monthly report giving the position on steel, cement, calcium carbide, oxygen, acetylene, tires, lumber, coal and coke, and cross ties.
5. Advice will be given you as to where and how to obtain materials if you have any difficulty in securing your needs.

Rome

The Firm of Ansaldo are equipping their own plant at Fegino for repair and construction of railway materials. About one half of the plant area is requisitioned and occupied by the British 42 Base Supply Depot. As most of the balance area is occupied by machinery and stores, a few unfair premises are available for the above mentioned works.

As it is essential to speed up repairs of railway materials as much as possible, please arrange to have these premises derequisitioned. The output of the a/m plant could be thus raised three or even four times.

IL MINISTRO DEI TRASPORTI

Roma,

25 SET. 1945

P.A.G. 11/141570/ICA 6587/8

COMMISSIONE ALLEATA
SOTTOCOMMISSIONE TRASPORTI
SEZIONE FERROVIARIA

R O M A

La Ditta Ansaldo sta attrezzando il proprio stabilimento di Fegino per la riparazione e costruzione di materiale ferroviario.

L'area coperta di detto stabilimento é per circa metà requisita ed occupata da un deposito viveri inglese (42, Base Supply Depot).

Tenendo conto che buona parte del restante spazio é occupata da macchinari e materiali, ne deriva che per la nuova lavorazione restano pochi locali insufficienti.

Poiché é del massimo interesse intensificare quanto più é possibile la riparazione del materiale ferroviario, prego cotesta Commissione di volersi interessare per la derequisizione dei locali di cui si tratta, che consentirebbe di triplicare ed anche quadruplicare la potenzialità dello stabilimento in questione.

IL MINISTRO

Ugo da Volpe 8.1.46
