TO: Chief Commissioner, Allied Control Commission, APO 394, U. S. Army,
ATTN: Transportation Sub-Commission.

1. In order to ensure optimum simplicity in the transfer of Class C-1 tires from PBS stocks to ACC Control for retreading at Bari plants it is believed that issues should be made at periodic intervals (a 15 day period is suggested) in sizeable quantities rather than sporadically in small lots.

2. SOS, NATOUSA has directed that this Headquarters report all quantities of tires requested by ACC which are not on hand in PBS stocks. This dictates a policy whereby demand should be made upon PBS for all sizes of tires needed which can be repaired with ACC facilities in the subsequent 15 day period. Advice will immediately be furnished to ACC as to tires which can be furnished and from which Ordnance installation. It is contemplated that shortly all tires will be furnished from Ordnance Base Shop No 2 located in Caserta.

3. Since the quantities of tires to be delivered to ACC will be governed only by the number of C-1 tires available at any specified time and repair shop ability to rehabilitate such quantities, the furnishing of stock record reports is considered impractical.

For the Commanding Officer:

D. W. Mastin
D. W. MASTIN
Major, A. G. D.,
Assistant Adjutant General.

SUBJECT: Drawing of C-1 Tyres from P.B.S. Stocks.

TO : P.B.S., C M F (Attn.: Capt. RUST).

1. With reference to the telephone conversation of this afternoon between Capt. RUST of P.B.S. and Capt. PEPPER of Transport Sub-Commission, A.C.C. re the drawing of C-1 Tyres from your Stocks (See NATOUSA Cable F. 61366; dated 19 June 1944).

2. In view of the spasmodic demands made upon this office for varying quantities and sizes, it is considered that the simplest method of operation would be for A.C.C. Transportation Sub-Commission to agree to take from P.B.S. stocks, say, two thousand miscellaneous tyres at a time, most of which will, of course, be 600 x 16 Jeep tyres.

3. It will doubtless be agreed by you that this method will result in a very considerable saving both of time and office work at both ends. In addition, it will enable this office to give written authority to any accredited Officer to draw those tyres he needs, and which you can supply, from your stocks at Bagnoli & Caserta at any time. In this connection, it would be appreciated if you would keep this office informed as to what stocks you hold at each of the above places.

4. If you are agreeable to this scheme, would you kindly authorize your representatives at Bagnoli and Caserta to accept the signatures of either Lt. Col. J.H. BORDASS, Capt. C.M. MORETTI, or Capt. C.W. PEPPER.

5. In the present instance, it is understood that the 430 Jeep tyres and the 15 750 x 20 tyres being collected from Bagnoli tomorrow 1 July, 1944, shall form part of the first order for two thousand miscellaneous tyres which this office hereby agrees to take from you.

6. Specimen signatures are appended, with the exception of that of Lt. Col. Bordass, who is at the present in Rome. This will follow later.

7. Your early acceptance of the above procedure will be greatly appreciated.

C. W. McKeffer, Capt.

for L.E. VINING
Lieut. Colonel,
Director,
Transportation Sub-Commission
