SUBJECT: Rates of Hire for Horse Drawn Transport.

TO : All Concerned

1. Owing to variations in the demand and supply of horse drawn vehicles and the fluctuations in overhead costs which occur in different localities, it is not considered satisfactory to publish a standard rate for the whole of ITALY.

2. a. The following rates, based on the wage rate paid an unskilled laborer of the same locality, are laid down as a guide for the hire of horses and carts for a 10 hour day:

<u>Type of Cart</u>	<u>Rates Applicable</u>	<u>Maximum Rate Permissible</u>
One Horse	Normal Allied Forces daily rate payable to an unskilled laborer in the same locality on an 8 hour basis plus 2 hours overtime.	Not to exceed 160% of the daily rate paid to an unskilled laborer in the same locality on an 8 hour basis plus 2 hours overtime
Two Horses	Twice the above rate for one horse.	Not to exceed 160% of maximum rate for one horse
Three Horses	Three times the above rate for one horse.	Not to exceed 210% of maximum rate for one horse

b. For any fraction of a day, a proportionate amount of the above rates will be paid.

c. No distinction will be made between two and four-wheel carriages.

d. The above rates do NOT include the services of the driver.

e. All labor employed will be in accordance with existing instructions.

RESTRICTED

- 2 -

f. The rates include the provision of fodder by the contractor. When contractors cannot produce fodder, it may be provided from Army sources on repayment, the value being deducted from the total amount due.

3. Where rates in excess of those laid down in paragraph 2 are found to be necessary, prior authority will be obtained as follows:

a. British Forces

Rates will be agreed with ALCOM Regional Officer concerned, when available, and forwarded for approval to Army/District concerned.

b. US Forces

Rates will be agreed with ALCOM Regional Officer, when available, and forwarded for approval to Army/base section concerned.

SUBJECT: Rates for horse-drawn transport.

1. Reference your letter G-5, 551/2 dated 5 Oct. addressed to this Headquarters.
2. It would appear that the rates for horse-drawn transport as per AAI administrative instruction No. 46, are on the low side and call for some revision.
3. It would appear that to standardise these rates for the whole of occupied Italy is not very satisfactory because of the varying cost of food for horses in different districts.
4. Under these circumstances it might be advisable to allow regions or districts to set their own rates.
5. As a guide however, pre war in England, the rates for a horse and cart were in the region of 20/- for the day, and this rate was an inclusive one. The 20/- per day was broken down as follows:-

- 10/- a day, driver's wages.
- 9/- for the cost and maintenance of the horse and
- 1/- for the cart

and bearing these figures in mind, the rates in Salerno would appear to be ridiculously high.

A reasonable rate for one horse and cart would appear to be in the region of 450 lire per day.

1. G-5 maint has passed their file on the above subject to this section with the request that this matter be taken under consideration with a view to revising the present rates.

2. As a comparison the following is submitted:

Type	Rate Paid by 94 Sub-area Salerno	Rate Demanded at Bari	AAI Rates
1 horse 2 wheeled	725 Per 10 hr. day	372	243 Including 60 for forage
2 horses 4 wheeled	932 Per 10 hr. day	685	375 Including 120 for forage
3 horses 4 sheeled	1036 Per day	-	482 Including 180 for forage

3. It is desired that this be treated as urgent as Distwo states after 30 September 1944 no horse drawn transport will be working for Allies in Bari with a loss of 330 tons lift.

Subject:- Hire of Carts and Horses.

To: ST 94 Sub Area.

With reference to the conversation Major Gosling -  
Capt. Morrow re horse transport.

The rates intimated as being the proper one must surely be on an hourly basis as they bear little resemblance to current rates in this area.

In order to substantiate the statement I have checked with two commercial undertakings in the town one a brick works, the other a flour mill. The brick works pay 100 lire per hour for two horses and 150 lire per hour for three horses. The rate for the flour mill is based at 15 lire per quintal equal to 1350 lire per day for three horse cart.

The rates which were previously quoted to you as being fair and reasonable are not likely to be improved upon; if they are lowered you will have to exert your requisitioning authority in order to obtain the transport.

RATES OF HIRE FOR HORSE DRAWN TRANSPORT.

9 Copies

1. Rates of hire for horse drawn transport vary considerably at the present time, and in view of the coming harvest, competition for this type of transport will lead to a rapid increase in prices.
2. In these circumstances, therefore, the following prices have been agreed with the Allied Control Commission as the maximum rates which will be paid for this type of transport:-

Type of Cart	Capacity Quintals	Rate in lire per 5-hour Day	Rate in lire per 10-hour Day
<u>Two wheels</u> One horse or mule	6 - 8	92	185
<u>Two wheels</u> Two horses	10 - 15	118	235
<u>Four wheels</u> One horse	6 - 8	102	193
Two horses	15 - 20	128	255
Three horses	30 - 40	151	302

3. The above rates -

- (a) include services of driver only. In the event of other assistance being required the correct wages for additional assistance will be added.
  - (b) are based on the proviso that the hirer will, in all cases, provide fodder for the animal or animals.
4. In order to avoid black market prices being paid by the owners, fodder will be provided from Army sources wherever possible. In the event of fodder not being available from Army sources, the basic rates will be increased accordingly, but in no case will this increase exceed 60 lire per horse per day.
