MEMORANDUM: Motor-Vehicles  
requisitionned by the Germans

The S.A. Molini Albani (the Albani Mills Ltd. & Co) whose registered Office is in Milan and whose Mills are in the Province of Pesaro, besides having been seriously damaged by the war owing to the destruction of their industrial works and the hydro-electric power stations in the Province of Pesaro, suffered the loss of having their only motor-lorry trailer being requisitionned, without any compensation paid, by the Germans - Said Motor-lorry was a "Lancia" 3 Ro - Number plate PS 4726 carrying capacity 65 quintals with a Viterbi trailer, number plate PS. 247 carrying capacity 92 quintals.-

The trailer was requisitionned in June 1944, hooked to a motor-vehicle belonging to another company and the motor lorry was requisitionned by a German officer in July 1944 and taken to Bologna.-

No receipt was given because the Germans had promised to give the motor-lorry and trailer bak after a few days but of course did not do so.-

After the Pesaro Region was liberated all the front moved up toward Bologna we asked the Allied Military Command to look for the said motor-lorry but it was not found.-

We wish to point out that the Albani Mills Co Ltd. which is seeing to the gradual reconstruction of its works

and power stations in the province of Pesaro, has absolute need of a very big motor - lorry with trailer or of two or three medium sized lorries to carry out the transportation of material for the reconstruction in progress and for the transport of wheat and other products and by-products for the Mills which have been partly put in working again to meet the requirements of the population in the province of Pesaro.-

We therefore hope that as soon as possible the desired motor lorries be allocated to the Albani Mille Co Ltd.-
