T/Sgt. 16th Co.

Twenty four trucks dispatched today includes every vehicle in shop to go on the road.
The trucks hauling from Troviggiano and Villastrada are supposed to make two trips. With only "5" trucks hauling from these two places there should be enough grain in sacks for two loads each.
It is impossible to get the Italian drivers out with their trucks before 8 or 9 o'clock each morning. This has been called to the attention of the Italian Officers but they have done nothing about it.
These Italian Officers have no control over their men and the men seem to have no respect for them.
The Italian inlisted personnel of the 16th Co. will show no improvement till charges are made in the Italian Officers.

TROVIGGIANO. 8 trucks dispatched hauled one load each. One truck returned to loading point for second load but men at warehouse refused to give the driver his second load ~~kxk xxxx xx xxxxxxxxx~~. The men claim they can only fill enough sacks for one trip of 8 trucks and informed the American Non-Com in charge of the trucks hauling from Troviggiano, they could furnish only one load per day for his trucks.-

VILLASTRADA: 6 trucks dispatched made one load each; 2 trucks made 2 loads. One truck developed an oil-leak in crankcase and hauled only one load. One truck was too late for second load. Two drivers refused to haul their secon load.-

TRIA: Eleven trucks dispatched hauled one load each.

16th Co. schedule calls for 35 trucks per day. It is impossible for us to meet this schedule as we had only 25 trucks in shape to dispatch today.-

1. (1) Vehicles dispached from this Company to Montecarotto Station are used at the discretion aof Pvt. ROBERTS (English) in charge of the RHD. He frequently uses the veicles for his transportation from one place to another. And some times for personel business such as taking him ti his Company in Jesi for dinner and returning to Montecarotto. On such occasion on 19 June 1945 and at 13,45 Hrs. driverx was still waiting to drive him back to Montecarotto. However this has happen very often before.

(2) It is almost impossibla for this Company to have control of they arrive in Montecarotto where Pvt. ROBERTS in turn redespaches them.

2. (1) Vehicles of this Company dispached to Chiaravalle RHD report to Sig. Novelli who in turn redispached the vehicles at his own discrition.

(2) his Company has little control of the vehicles after they reach the Chiaravalle RHD.

Plase suspend despatching trucks for to-morrow, 17 June, and for the following Sunday, the reason being repairs must be made to the mill. The despatching of trucks may be recommenced on Monday 18 June.

It is absoluteky necessary that once a week our machinery be checked for maintenance, as it already suffered some average owing to war events.

I inform you, furthermore, (as also brought to the knowledge of Consorzio Agrario Provinciale, Macerata, entrusted with the exportation of our flour) that the daily trodustion of our mill is about 150 quintals of flour: consequently please despatch only the necessary trucks, in order to avoid trucks coing back empty. With best regards.

GRAND TOTAL FOR THE DAY:

24 Trucks Hauled 77 Tons Approximately 2820 Miles.

24 Trucks in operation out of 46 Cargo Carrying Vehicles. There were 5 In En. Shop.

6 Deadlined for 1000 and 6000 mile check. Deadlined for repair ____ And 11 Available.

The 16th Co. schedule for this period calls for 31 trucks per day. Today we had 11 trucks deadlined for repairs. 5 in Sn. Shops. and 6 for weekly maintenance making a total of 22 deadlined vehicles out of 46 cargo carrying vehicles. Trucks being held up at unloading points due to insufficient help has been the main reason for trucks dispatched not making the required number of trips.

Declassified E.O. 12356 Section 3.3/NND No. 785021

Loreto Railhead: Sop at this point is to hold fully loaded trucks for direct transfer of grain into box cars. This is a perfectly reasonable procedure. But one which obviously limits shuttling of trucks. Particularly when switching of cars in the station in very poor and the loading crew consist of old men and children. It is suggested that the grain office investigate the situation there with the possibility in mind of establishing a larger reservoir at the Station. This enabling economical release of trucks for furter actual haulage work.

Chiesa Nuova : Grain available in sacks for one trip only. This convoy waited 4 hours at Loreto for unloading.

Sambucheto : Convoy at arrival was directed by local Consorcio Chief to Montecassiano and to isolated farm 12 miles further on. Convoy accordingly split in two sections. Both returned via Sambucheto where after long delay they secured receipts and proceeded to Loreto. 3 trucks were able to make a second trip to Montecassiano and returned here 14½ hours after departure.

Comment : Physically we can shuttle as per schedule. Roads are ok. But Loreto does not unload and the Consorcios noted above require personal investigation by grain office.

Capt. WILSON

- DAILY TRANSPORTATION REPORT -

UNIT 9th Co. 2nd Bn. Amer-Iti Trk. Grp. DATE 19 June 1945

No of Trucks	Total Tons	Type Cargo	From	To	Approx. Mileage	Unit requesting Haul

(Over)

The roads over which the truck must travel to and from Troviggiano are very rough and two very steep hills. The trucks have to pull one hill eight miles long in compound low gear and descend eight miles.
To-day we had to deadline four trucks due to faulty brakes from traveling this road.
23 Trucks includes every one available for dispatch today.

Sgt. W. Rosblack.

Providenano. 9 trucks were dispatched there; one had to return due to carburator trouble. 8 trucks hauled one load each. Men at the warehouse did not start to load trucks. The last trucks of eight was loaded at 1200 hrs.

The warehouse at Castelplanio is loaded to capacity. Trucks are unloading at Montecarotto Station in Railway cars. It was 1530 hrs when trucks were unloading, making it impossible to make two trips per day.-

At Freia the street in which the warehouse is located is too barrow for the men who must carry the grain a distance of appron 300 feet to load it in the trucks.-

The schedule for 3 16th Co. calls for 35 trucks per day; as it is today we have 7 trucks in Bn. Shop, 5% deadlined for weekly maintenance, and 9 in need of repairs, making a total of 21 deadlined vehivles out of 46 Cargo Carrying vehicles.

Fabriano Flour Mill.
Trucks hauled 4 loads which was all the flour at the mill for today.

S.Severino.
I vehicles had to return becaise of a broken gas line. 4 trucks hauled one load each which was all the flour at the mill for today.

Matelica.
2 trucks hauled 2 loads each which was all the flour at the mill for today.

Macerata.
4 trucks I loadx each which xxx xik One trucks did not report to Macerata owing to an accident in xxxxxroute to Macerata.

Apiro.
The mill had only enough grain for 4 trucks, 1 load each.

Fabriano.
5 trucks hauled 8 loads each owing to a surplus amount of flour to mill. These trucks did not return to camp till after mid-night making a very long working day for the drivers (there was a suplus amount of flour to mill which had to be moved today).

Current schedule for the 16th Co. called for 35 trucks plus a written request by Pte BIRD for there additional trucks at Fabriano RHD making a total of 38 vehicles per day. It is impossible for us to meet this schedule as we cannot put more than 25 trucks on the road and carry out our weekly maintenance schedule.

Declassified E.O. 12356 Section 3.3/NND No. 785021

1/ No packs at Polverigi - Tkr returned to Motor Pool.

2/ At Montecarotto R. head trucks are so congested that they can not unload in time to make schedual hauls.
I believe this is due to convoyed trucks. It would be better to infiltrate.
