1. In order that the newly formed Movements Division of this Sub-Commission may be provided with the data it requires, will you please obtain from Provincial Transport Offices a Weekly statement of vehicles operating for civil supplies, on the form shown at Appendix 'A', and forward by the quickest possible means to this HQ. The first return to be as at 17 Feb. 45.

2. All W.D. vehicles operating for civil supplies, other than those directly under orders of AMG 5th and 8th Armies, should be shown. Where they are not directly operated by civilian organizations, details must be added by Regional Transportation Officers.

3. It is appreciated that the information contained in the returns will be somewhat out of date by the time all have reached this HQ. but they will provide a reasonably reliable guide, over a period, of road transport availability.

4. Speed in rendering is all important, and therefore no time need be wasted in coordinating Provincial returns. Provided they are legible and make sense, that is all that is required.
