Remnant	-	

Requirements for the month of July :-

Petrol.....	26,000 liters
Oil.....	7,000 kilos

We point you out that by order of the Allied Commission it has been ordered the transfer of 7 trucks Fiat 634 from Pescara to Aquila (Four Fiat 634 have left while the remaining have not yet reached Aquila because they are damaged).

Five vehicles Ford have been assigned to Pescara, but they are not yet arrived.

Capt. Price, Transport Officer of the Abruzzi Compartment Allied Commission, has sent us a letter dated July 20th, requesting a supplementary allocation of petrol for the five vehicles which will start their operation during this month.

Considering that the consumption of the last month has been of 18,075 liters, it is foreseen that with the operation of the other five vehicles the consumption of petrol will be at least of 26,000 liters (we have considered the high average consumption : one liter for two kilometers.)

As the amount of petrol allocated during this month is of 500 quintals which are equal to 40, 160 litres it results that only 14,000 liters are available for our 400 vehicles operating with petrol.

Therefore we beg you to make a supplementary allocation so that all the vehicles enlisted in this Management may operate priority trips.

Then we point out that according to our opinion it would have been opportune to keep in Pescara, a town of the highest importance, the Trucks Fiat 634, which are suitable for a high scale service, especially in consideration of the fact that commodities from south to north must be roadhauled in the internal regions of the Abruzzi being the Pescara - Rome rail line completely destroyed.

We would appreciate very much a reply:-

Best regards.

THE PROVINCIAL MANAGER

(sgd Rocco Brenella)

Fabbisogno mese di Luglio:

Benzina	Litri	26.000
Olio	Kg.	7000

Vi facciamo presente che d'ordine della Commissione Alleata è stato disposto il trasferimento di n° 7 Fiat 634 da Pescara ad Aquila - (Quattro Fiat 634 sono partite, mentre le rimanenti

ALLA DIREZIONE GENERALE E.N.A.C.

ALLA DIREZIONE COMPARTIMENTALE E.N.A.C.

ALLA SOTTOCOMMISSIONE ALLEATA DEI TRASPORTI

non hanno ancora potuto raggiungere Aquila perché guaste).
A Pescara, invece, sono stati assegnati 1 R.5 automezzi Poni,
che non sono arrivati.

Il sig. Capitano PRICE, Transport officer Abruzzi Compartment Allied Commission, con lettera del 20 Giugno u.s., ci ha richiesto un'assegnazione supplementare di benzina per i 5 automezzi che prestano servizio nel corrente mese.

Talchè il consumo del mese scorso è stato di Litri 18.075 è da presumersi che con il funzionamento di altri 5 automezzi il consumo di benzina sarà per lo meno di Litri 26.000- (ci si tiene nel dovuto conto l'elevato consumo medio: un litro per ogni due chilometri).

Loiuchè il quantitativo di benzina assegnatoci in questo mese è di quintali 300 pari a Litri 40.160, risulta a disposizione dei nostri 400 automezzi azionati a benzina soltanto Litri 14.000.

Vi preghiamo, pertanto, al fine di dare agli automezzi iscritti a questa Direzione la possibilità di effettuare viaggi di prima necessità, di disporre affinché sia effettuata una congrua assegnazione supplementare.

Inoltre, facciamo presente che secondo il nostro parere sarebbe stato opportuno far rimanere a Pescara, nodo ferroviario e centro di smistamento, le Fiat 634 adatte per un servizio di grande mole, in considerazione che le merci provenienti dal Sud e dal Nord debbono essere avviate nell'interno dell'Abruzzo per mezzo motorizzato, essendo la linea ferroviaria Pescara-Roma completamente distrutta.

Restiamo in attesa di vostre comunicazioni in merito.
Distinti saluti.

IL DIRETTORE PROVINCIALE

SUBJECT : Misuse of Petrol - E.N.A.C.

TO : Transportation Subcommittee
(Roads Div.)

1. Attached is copy of a report received from Petsec
Pet 30/A/10 dated 25 July '45.

2. In view of the political angle involved this
is obviously a case requiring careful handling. This
Subcommission feels, nevertheless, that ENAC (through
Ministry of Transport) should be called on to explain
how it is they can afford to release petrol for such
purposes as this when they are continually complaining
that their allotment is totally insufficient for their
essential needs.

PET 30/A/10

25 July 45

SUBJECT: Misuse of POL.

HQ.A.C., Commerce Sub-Commission
APO 394 (2)

1. On Sunday, 22 July 45, there was a large outing of the Communist Party, at which the Italian Minister of Justice is supposed to have spoken, in the vicinity of Albano - Velettri, to which all were transported by motor truck.
2. An officer of this Section witnessed the ENAC Control Point on Route 7, south of Rome, in the process of clearing the following truck about 1000 hours - ROMA 8-1482, carrying about 30/40 people and bearing the Red flag.
3. In the evening, between 2200 and 2400 hours, there was one steady line of trucks returning from this affair, all loaded with people and carrying Red flags. Due to the darkness and the fact that many of the vehicles had no tail lamps, it was hard to ascertain the numbers with the exception of one, ROME 8-1696.
4. These trucks, which were all large vehicles and not "camionettes", must have all been cleared by the same ENAC point. It is desired that this unnecessary use of POL be called to ENAC's attention the next time they complain about insufficient POL.

NOI TRUCK POOL A.C.

Foggia Zone

Subject : Petrol issues E.N.A.C.
To : HQ., Allied Commission,
Transportation Sub Commission
APO 394 U.S. Army

Ref: TPI/13
June 20, 1945

I. Reference your AB/204/3/Tm5 dated 16 June 45.
2. It is understood how E.N.A.C. or any human agency can fortell petrol consumption of any one vehicle. An approximation can be arrived at only. The actual consumption varies according to the state of the road, the type of country and the engine efficiency of the vehicle.

3. The large proportion of fuel used by NOI Truck pool is accounted for by the fact that by far the largest proportion of transport in Foggia province is provided by the Truck pool. It is suggested that if the Director of ENAC Foggia does not like this state of affairs, the Truck pool vehicles be withdrawn for a few days to impress upon him the essential work they are doing or alternatively to prove that the civilian vehicles available are capable of filling the transport needs of the Province.

4. Since I have been in command of NOI Truck pool every effort has been made to prevent the illegal disposal of petrol from Truck pool sources. On the 1st Feb 45 the Italian Director instituted on his own initiative a control system whereby each vehicle going out was issued with a printed chit completed as attached. On returning the remains of petrol and kilometres run were entered. An order was published that excessive use of petrol would be paid for by the driver concerned.

5. The result of the measures taken as stated in para 4 above can be seen from the following figures and I would go as far as to say that the latter figures cannot be equalled by any A.C. Truck pool in Italy.

Period	Consumption
21 Jan to 20 Feb 45	2.8 m.p.g.
21 Feb to 20 March 45	4.4 m.p.g.
21 March to 20 April 45	4.5 m.p.g.
21 April to 20 May 45	5.73 m.p.g.
21 May to 31 May 45	7.02 m.p.g.
1 June to 30 June 45	7.08 m.p.g.

5998

June 20, 1945

TO : HQ., Allied Commission,
Transportation Sub Commission
APO 394 U.S. Army

I. Reference your AR/204/3/Tn5 dated 16 June 45.

2. It is not understood how E.N.A.C. or any human agency can fortell petrol consumption of any one vehicle. An approximation can be arrived at only. The actual consumption varies according to the state of the road, the type of country and the engine efficiency of the vehicle.

3. The large proportion of fuel used by No 1 Truck pool is accounted for by the fact that by far the largest proportion of transport in Poggia province is provided by the Truck pool. It is suggested that if the Director of ENAC Poggia does not like this state of affairs, the Truck pool vehicles be withdrawn for a few days to impress upon him the essential work they are doing or alternatively to prove that the civilian vehicles available are capable of filling the transport needs of the Province.

4. Since I have been in command of No 1 Truck pool every effort has been made to prevent the illegal disposal of petrol from Truck pool sources. On the 1st Feb 45 the Italian Director instituted on his own initiative a control system whereby each vehicle going out was issued with a printed chit completed as attached. On returning the remains of petrol and kilometres run were entered. An order was published that excessive use of petrol would be paid for by the driver concerned.

21 May to 31 May 45	7.02 m.p.g.
1 June to 10 June 45	7.02 m.p.g.

5998

It is interesting to note that R.E.M.E. lay down as a guide, that the type of vehicle on the strength of this Truck pool should run 6 to 8 miles to the gallon of petrol.

6. It is submitted that it is not for E.N.A.C. to estimate the petrol requirements of an A.C. Truck pool. The following

TPI/13
Contd

June 20, 1945

estimates were given to E.N.A.C. for April and May :
100,000 litres per month.

7. If it is an order that the truck pool vehicles draw their petrol from C.I.P. one by one on a work ticket, this order will naturally be carried out. It is however pointed out that strict control as stated above is maintained and that the consumption is above average. It would, therefore, appear that it is not necessary for each vehicle to draw from E.N.A.C. Further it is stressed that a great deal of time would be wasted and inefficiency caused by this order being carried out and no material benefit would be derived.

8. The Director of E.N.A.C. Foggia will be, and in fact has been, given every facility to check on the truck pools administration in such matters if he will first obtain permission from the truck pool Director. He has in the past been guilty of prying into truck pool administration without previously requesting permission.

9. My feelings on the imputation conveyed to ENAC Rome by their Foggia Director are very strong in view of the fact that the latter had been apprised of the control measures taken almost at their inception.

10. The E.N.A.C. Director, were he capable of more co-operation and initiative, would not have had to write to his Rome Directorate on this subject. The matter could have been settled in Foggia between the parties concerned.

11. I feel this is the time to make my final protest against this mans employment in such an important position. I have had cause to complain of his showing preference in allocation of transport and again in his prying into the truck pool administration without the courtesy of a "by your leave". Now he is accusing this Truck pool of insufficient control in the issue and consumption of petrol without having taken the trouble to investigate the matter and through ignorance of the working of motor transport. I strongly recommend that he be replaced by one who has had previous knowledge of motor transport operation and who can and will work in harmony with others in transport executive positions. Dictatorial methods may be successful when he employing them is a master of his subject, but they will cause chaos otherwise.

1552

7. If it is an order that the truck pool vehicles will their petrol from C.I.P. one by one on a work ticket, this order will naturally be carried out. It is however pointed out that strict control as stated above is maintained and that the consumption is above average. It would, therefore, appear that it is not necessary for each vehicle to draw from E.N.A.C. Further it is expressed that a great deal of time would be wasted and inefficiency caused by this order being carried out and no material benefit would be derived.

8. The Director of E.N.A.C. about "	80.000 for May

has only been granted.

p.t.o.

3. Poiché la responsabilità dell'uso del carburante assegnataci dal Ministero dell'Industria Commercio e Lavoro ricade interamente sullo IMAC è evidente che deve esserci dato il mezzo di controllare non completamente l'uso del carburante per parte del T.R. Caso contrario dovremmo declinare ogni responsabilità.

4. Sottoporremo pertanto tale situazione all'esame di codesta Sottocommissione.

IL DIRETTORE GENERALE

H. Costa

3. Is the responsibility for the use of the fuel allotted by the Ministry of Industry, Commerce and Labor falls entirely on E.W.A.C. it is clear that means of doing a complete check about the use of the fuel by the T.R. must be given to our Foggia's Office. In the contrary E.W.A.C. should refuse to accept any responsibilities.

4. It would therefore be appreciated if the attention of your Sub-Commission might be given to the above question.

THE GENERAL DIRECTOR

HEADQUARTERS
ALLIED MILITARY GOVERNMENT
NAPLES COMMUNE
A.C. SENIOR TRANSPORTATION OFFICER

26 May 1945

SUBJECT: Petrol Tax.

TO : Acting Compartmental Director
ENAC, Naples

Inf: Hq. A.C. Tn S.O. Roads Div.
U.T.C., Naples

1. With reference to your 7/2913-8/0 21 May 45 instructing ENAC Provincial Head Office to deduct the amount of Petrol tax from U.T.C. before settling U.T.C. accounts.

2. Allied Commission will not pay tax on petrol consumed by W.D. vehicles as long as under Allied Control. This was agreed at a conference held by Naples Zone Commissioner towards the end of last year.

3. Will you therefore kindly withdraw the instructions until you are notified that the Truck Pool of Naples and agencies at Avellino, Salerno, and Benevento have passed from Allied Control.

4. Please acknowledge and confirm.

Tel. Rome 478397

18 May 1945

SUBJECT: POL coupons - ENAC .

TO : Transportation S/C. —
(Roads Div.) .

1. Reference is made to Ing. Renato Santa Maria's report to Mr G. Gross dated 3 May 45 and submitted to us for comment (returned herewith).

2. This Sub-Commission is not particularly interested in the system by which ENAC allocates supplies of POL to individual truckers other than from the point of view of ensuring that whatever system is adopted does not allow ENAC access to supplies which are intended for others.

3. ENAC have never been happy about using standard coupon booklets issued by Italian Government and frequent conferences have been held between their directors and Liquid Fuels Div. regarding an alternative type of "Write in" coupon which they wished to introduce. This Sub-Commission, when called on for approval, has had to intervene repeatedly since the type of coupon proposed and the manner in which it was to be used would have enabled ENAC to write a blank cheque on ALL Petrol supplies at ANY C.I.P. Petrol point and so on all supplies throughout the country.

4. In an effort to arrive at a solution satisfactory to all parties we put up a suggestion in our letter to Ministry of Industry, Commerce and Labour dated 11 April 45 (copy to you) involving special ENAC Petrol points and had this principle been accepted no further objection would have been raised to ENAC's issuing their own type of "Write in" coupon or any other system which would have been expendable only at ENAC petrol points.

./ 5994

- 2 -

5. ENAC were apparently not prepared to accept this solution, however, and finally agreed with Liquid Fuels Div. to use the standard type of coupon expendable at any petrol point. They appear now to be raising all the same arguments again.

6. The system under which the coupons are used as outlined in the report (para 1) certainly seems to us most cumbersome and in our opinion it could be greatly simplified. ENAC instituted it themselves, however, after having turned down flat our proposal which, in our opinion, would have permitted of a great simplification of their internal administration and at the same time given us the only guarantee in which we are interested (see para 2).

7. If, therefore, ENAC do present to you alternative proposals at some future date we suggest that these will need very careful study in the light of the foregoing. They must in any case be submitted to Ministry of Industry, Commerce and Labour (Liquid Fuels Div.) before being implemented as we note that a new type of coupon is again mentioned.

8. It must be repeated again, most emphatically, that no new type of special ENAC coupon will be accepted by C.I.P. unless prior approval has been given by Liquid Fuels Div. and that their approval will not be given to any system involving the risk of ENAC's presenting blank cheques at any petrol point not specifically designated for ENAC's sole use and thereby over-drawing at the expense of other users.

SUBJECT : Accounting of fuel and lubricants

Owing to the limited quantities of P.O.L. available for motor transport it is necessary to strive for their best utilisation and above all for the greatest economy in their distribution. This aim can only be attained by administering prudently and scrupulously all allocated fuel and lubricants for which Provincial Directors are personally responsible.

In order to help Provincial Directors work in this field, to allow an efficient check on employees entrusted with the distribution of these products, and finally, to issue uniform instructions which will make it simpler for Compartmental Directorates and for this General Directorate to carry out inspections, a complete system of records has been worked out for the accounting of fuel and lubricants. All Directorates shall strictly conform to this system and no changes shall be allowed. A copy of the instructions for the accounting of fuel and lubricants " is herewith enclosed, together with a sample of the relevant forms; as soon as the printing of these will be completed, a suitable number will be sent to each Provincial Directorate.

Dating from next 1. May, accounting shall begin in conformity with the above mentioned instructions; in case the forms have not yet arrived by that date, records shall either be entered on hand-drawn forms exactly like the enclosed ones, or old forms may be adapted.

By the inception of this new accounting system the

purpose of the "free adoption register" mentioned in part IV of Circular 3 M/1391, dated the 14th. of December 1944 of this Directorate, will cease and similarly enclosures B and C of the same circular shall no longer be compiled, having been superseded by form 56.

As set down in the "instructions" every issue of fuel and lubricant must be recorded by an entry on one of the standard forms, and is connected with a paper proving the actual issue of coupons for collecting the products; such paper is either the Trip ticket, or the receipt (form 57) duly filled in.

For allocations made to bearers of permanent travel papers (forms 16, 17, 18) a mark will be stamped on the cover of each one of these papers, bearing the wording:

Assigned fuel and lubricant
Receipt form 57 N° dated 194

The number and date of the receipt, form 57, signed by the bearer or by his delegate is to appear in the above stamp, for further checks.

We trust that Provincial Directorates will bring to bear their particular attention to the delicate matter of fuel strictly following the instructions contained in this circular. Supervision and inspection work by Compartmental Directorates will equally be useful.

Please confirm by telegram.

The General Director

INSTRUCTIONS FOR THE ACCOUNTING OF FUEL & LUBRICANTS

(enclosed with circular 76/2 T.21 dated 18-4-45)

The movement of receiving and issuing fuel and lubricants must be followed by entries on the following forms :

Form 51 - " Fuel and lubricants issued on Trip Tickets

Form 51 bis " Summary of fuel and lubricants issued on Trip Tickets "

Form 52 " List of fuel and lubricants issued to special travel papers (forms 16-17-18) "

Form 53 " List of fuel and lubricants issued for various uses "

Form 54 " Ten days" return of receipts and issues of gasoline-gasoil -lub.oil ."

Form 55 " Monthly summary of receipts and issues of fuel and lubricants "

Form 56 " Details of payments made for fees collected on fuel issues and taxes received on issues of special papers "

Form 57 " Receipt for issue of fuel and lubricants coupons and for payment of fees and taxes on special travel papers"

Form 58 " Booking certificate "

Form 51 " Fuel and Lubricants issued on Trip Tickets "

This Form is used by Stations and Agencies ; all issues made by the Station or Agency on account of Trip Tickets issued by them are to be entered on it . Occasional recoveries of fuel and lubricants due to trips not carried out or incomplete, shall be written in red ink and deducted from totals, clearly entering them under the heading " recoveries " . Fees collected for each trip ticket shall also be entered . This form is bound in 50 Form blocks , each form in two copies: one for the Provincial Directorate from which the Station or Agency depends, the other one for the issuing Station or Agency . The Form is to be summed up every day and signed by the clerk who has filled it and by the Station Master, both being responsible for it. The Ang...

Form 54 " Ten days" return of receipts and issues of gasoline-gasoil -lub.oil ."
Form 55 " Monthly summary of receipts and issues of fuel and lubricants "
Form 56 " Details of payments made for fees collected on fuel issues and taxes received on issues of special papers "
Form 57 " Receipt for issue of fuel and lubricants coupons and for payment of fees and taxes on special travel papers"
Form 58 " Booking certificate "

Form 51 " Fuel and Lubricants issued on Trip Tickets "

This Form is used by Stations and Agencies ; all issues made by the Station or Agency on account of Trip Tickets issued by them are to be entered on it . Occasional recoveries of fuel and lubricants due to trips not carried out or incomplete, shall be written in red ink and deducted from totals, clearly entering them under the heading " recoveries " . Fees collected for each trip ticket shall also be entered . This form is bound in 50 Form blocks , each form in two copies: one for the Provincial Directorate from which the Station or Agency depends, the other one for the issuing Station or Agency . The Form is to be summed up every day and signed by the clerk who has filled it and by the Station Master, both being responsible for it. The amount of fees collected resulting from summing up of Form 51 shall be daily paid either into the Bank acting as Cashier, or into the Post Office in the current account in the name of the same Bank employing Form ENAC 58 ; the receipt of Form 58 is to be attached to the copy of Form 51 which the Station or Agency forwards daily to the Provincial Directorate . All references concerning payment of total amount of fees collected are to be written under the heading " Notes " in the copy of Form 51 retained by the Station or Agency . Every day the Station or Agency shall forward to the Provincial Directorate the copy of

Form 51 filled in during the day and enclosing receipt of payment made (Form 58). The head of the Technical Section of each Provincial Directorate shall arrange a check both on quantities allocated to each Trip Ticket, in conformity with instructions issued on specified consumption of trucks, and that the sums paid as fees are in keeping with fuel and lubricants allotted.

Form 51 bis. "Summary of fuel & lubricants issued on Trip Tickets"

This Form is filled in by Provincial Directorates having more than one Station or Agency under them; its purpose is to sum up daily the issues of fuel and lubricants made by the various stations or agencies on Trip Tickets. It consists of single leaf Forms; it shall be compiled every day from all Forms 51 (previously received from Stations or Agencies) to which it must be attached to make a small bundle; it shall be signed by the Head of the Technical Section. The results of Form 51 bis are to be copied on Form 54 - Provincial Directors shall see that Form 51 is forwarded to them every day by the Stations under them, and in the shortest possible time by the Agencies.

Form 52 "List of fuel and lubricants issued to special travel papers (Forms 16 -17 -18)"

This Form is filled in by Provincial Directorates and consists of a fixed leaf book containing 100 numbered pages; on this Form all fuel and lubricants issued to Trucks bearing permanent work papers (Forms 16,17,18) are entered from receipts, Form 57; consequently one book is necessary for each one of the three Forms 16,17,18. Fees collected on P.O.L., taxes due to ENAC, and revenue taxes on ENAC rights are also to be entered in this Form. The amounts collected as fees, or as ENAC taxes on Forms 16,17,18, (excluding payment of revenue tax stamps) are to be paid daily either into the Bank acting as Cashier or into the Post Office in the current account in the name of the same Bank utilising Form 58, the receipt of which is to be forwarded to the Administrative Section of the Provincial Directorate, attached to Form 56. Each one of Forms 52 shall be summed up every day and signed by the Head of the Technical Section; the results thereof shall be transferred to Form 54. The books containing counterfoils of receipts Form 57 shall be kept in the archives of Provincial Directorates.

Form 51 bis. "Summary of fuel & lubricants issued on
Trip Tickets "

This Form is filled in by Provincial Directorates having more than one Station or Agency under them; its purpose is to sum up daily the issues of fuel and lubricants made by the various stations or agencies on Trip Tickets . It consists of single leaf Forms; it shall be compiled every day from all Forms 51 (previously received from Stations or Agencies) to which it must be attached to make a small bundle ; it shall be signed by the Head of the Technical Section . The results of Form 51 bis are to be copied on Form 54 -Provincial Directors shall see that Form 51 is forwarded to them every day by the Stations under them, and in the shortest possible time by the Agencies.

Form 52 " List of fuel and lubricants issued to special
travel papers (Forms 16 -17 -18)

This Form is filled in by Provincial Directorates and consists of a fixed leaf book containing 100 numbered pages; on this Form all fuel and lubricants issued to Trucks bearing permanent work papers (Forms 16,17,18) are entered from receipts ,Form 57 ;consequently one book is necessary for each one of the three Forms 16,17,18 . Fees collected on P.O.L.,taxes due to ENAC, and revenue taxes on ENAC rights are also to be entered in this Form . The amounts collected as fees, or as ENAC taxes on Forms 16,17,18,(excluding payment of revenue tax stamps) are to be paid daily either into the Bank acting as Cashier or into the Post Office in the current account in the name of the same Bank utilising Form 58, the receipt of which is to be forwarded to the Administrative Section of the Provincial Directorate, attached to Form 56 . Each one of Forms 52 shall be summed up every day and signed by the Head of the Technical Section; the results thereof shall be transferred to Form 54 . The books containing counterfoils of receipts Form 57 shall be kept in the archives of Provincial Directorates .

Form 53 " List of fuel and lubricants issued for
various uses "

This Form is filled in by the Provincial Directorates and consists of a fixed leaf book containing 100 numbered pages ; all issues to service cars employed by ENAC Offices, and

occasional issues for exceptional reasons are to be entered in this form. It is to be noted that every issue, the name of the recipient and the number of Form 57 receipt must be shown. Each copy of Form 57 is to be pinned to its respective request. Books containing counterfoils of Form 57 receipts shall be kept in the archives of Provincial Directorates. Form 53 shall be summed up every day and signed by the Head of the Technical Section, the results thereof shall be transferred to Form 54.

Form 54 - Ten days' return of receipt and issues of gasoline - gasoil - & lubr/oil

This Form is filled in by Provincial Directorates and consists of books containing 25 leaves, each one in 3 copies- two detachable and one fixed; the two detachable ones are to be sent respectively to the General Directorate and to the Compartmental Directorate. In Form 54 are to entered day by day the remnants, the allocation received, the quantities issued in conformity with the results of Forms 51(or 51 bis) of the various Forms 52 and 53, so as to be able to know at all times the available quantity of fuel and lubricants. One Form 54 is to be filled in for gasoline, one for gasoil, and one for lubricating oil. The summing up of Form 54 is to be done every ten days, the form shall bear the signature of the Head of the Technical Section and of the Provincial Director both being responsible for it.

The two copies of Form 54 for the General Directorate and for the Compartmental Director shall be dispatched by the Provincial Directorates not later than the 13th., 23d, 5th day of the month.

The copy addressed to the General Directorate shall be sent directly and not through the Compartmental Directorate.

Form 55 - Monthly summary of receipts and issues of fuel and lubricants

This form is filled in by the Provincial Directorates. It consists of books containing 25 leaves, each one in Three copies(one for the General, one for the Compartmental and one for the Provincial Directorates). In this Form the accounting of all fuel and lubricants for each month is to be summed up, collecting the data from the various Forms 54 for the month. It shall be signed by the Head of the Technical Section and by the Provincial Director, both being responsible.

Form 54 - Ten days' return of receipt and issues
of gasoline - gasoil - & lubr/oil

This Form is filled in by Provincial Directorates and consists of books containing 25 leaves, each one in 3 copies- two detachable and one fixed; the two detachable ones are to be sent respectively to the General Directorate and to the Compartmental Directorate. In Form 54 are to entered day by day the remnants, the allocation received, the quantities issued in conformity with the results of Forms 51(or 51 bis) of the various Forms 52 and 53, so as to be able to know at all times the available quantity of fuel and lubricants. One Form 54 is to be filled in for gasoline, one for gasoil, and one for lubricating oil. The summing up of Form 54 is to be done every ten days, the form shall bear the signature of the Head of the Technical Section and of the Provincial Director both being responsible for it.

The two copies of Form 54 for the General Directorate and for the Compartmental Director shall be dispatched by the Provincial Directorates not later than the 13th., 23d, 5th day of the month.

The copy addressed to the General Directorate shall be sent directly and not through the Compartmental Directorate.

Form 55 - Monthly summary of receipts and issues
of fuel and lubricants

This form is filled in by the Provincial Directorates.

It consists of books containing 25 leaves, each one in Three copies(one for the General, one for the Compartmental and one for the Provincial Directorates). In this Form the accounting of all fuel and lubricants for each month is to be summed up, collecting the data from the various Forms 54 for the month. It shall be signed by the Head of the Technical Section and by the Provincial Director, both being responsible for it. Within the 5th. day of each month the Provincial Directorate shall forward Form 55 to its Compartmental Directorate, (including the copy for the General Directorate) The Compartmental Directorate having collected all Forms 55 from the Provincial Directorates under it, shall see that they are forwarded to the General Directorate by the 8th. day of each month.

Form 56 - Details of payment made for fees collected
on fuel issues and taxes received on issues
of special travel papers

This Form is filled in by Provincial Directorates and consists of books of forms, each one in three copies, two of which detachable; on it are summed up the various payments made according to form 58 for fees on fuel and lubricants, and for taxes collected on issues of Forms 16, 17 and 18.

One of the detachable copies, to which all receipts (form 58) for payments shall be attached, shall be sent to the Administrative Section of the Provincial Directorate, for entering into the accounts books; the other copy shall be dispatched directly to the Compartmental Directorate, for checking purposes.

Form 57 - Receipt for issue of fuel and lubricants
coupons and for payment of fees and taxes on
special travel papers

These receipts are filled in by Provincial Directorates and occasionally by Stations and Agencies entrusted by the Provincial Directorates with the issue of fuel and lubricants coupons. Form 57 consists of books of form in 2 copies, one of which detachable to be handed to the recipient; on form 57 beside the quantity of fuel and lubricant coupons are to be written also the amounts paid for fees on fuel and lubricants, the taxes collected by ENAC on issue of travel papers, forms 16, 17, 18 and the revenue tax on ENAC rights. It must be understood that the payment of stamps applied to cover the revenue tax is to be taken care of by the clerk who applies them; he shall be supplied with a suitable "stamp fund" for which he shall be responsible to the Administrative Section.

All receipts, Form 57, are to be carried over- as said before - either on Form 52 or on Form 53; the books containing copies of receipts Form 57 and the counterstamps of revenue taxes are to be kept with the utmost care in order to be produced immediately on request of Tax Collectors or Enac Officials.

Form 58 "Booking Certificate"

It is used by Stations of Agencies and by Provincial

1571

This form is filled up by the Provincial Directorates and consists of books of forms, each one in three copies, two of which detachable; on it are summed up the various payments made according to form 58 for fees on fuel and lubricants, and for taxes collected on issues of Forms 16, 17 and 18.

One of the detachable copies, to which all receipts (form 58) for payments shall be attached, shall be sent to the Administrative Section of the Provincial Directorate, for entering into the accounts books; the other copy shall be dispatched directly to the Comptroller's Directorate, for checking purposes.

Form 57 - Receipt for issue of fuel and lubricants
coupons and for payment of fees and taxes on
special travel papers

These receipts are filled in by Provincial Directorates and occasionally by Stations and Agencies entrusted by the Provincial Directorates with the issue of fuel and lubricant coupons. Form 57 consists of books of form in 2 copies, one of which detachable to be handed to the recipient; on form 57 beside the quantity of fuel and lubricant coupons are to be written also the amounts paid for fees on fuel and lubricants, the taxes collected by ENAC on issue of travel papers, forms 16, 17, 18 and the revenue tax on ENAC rights. It must be understood that the payment of stamps applied to cover the revenue tax is to be taken care of by the clerk who applies them; he shall be supplied with a suitable "stamp fund" for which he shall be responsible to the Administrative Section.

All receipts, Form 57, are to be carried over- as said before - either on Form 52 or on Form 53; the books containing copies of receipts Form 57 and the counterstamps of revenue taxes are to be kept with the utmost care in order to be produced immediately on request of Tax Collectors or Enac Officials.

Form 58 "Booking Certificate"

It is used by Stations of Agencies and by Provincial Directorates in order to pay into the appointed Bank or ~~the~~ the Post Office in the current account in the name of the said Bank, amounts for fees collected on fuel and lubricants and for taxes received on issues of special travel papers Forms 16, 17, 18.

It is convenient that all forms should be filled in in pencil and carbon paper; on the other hand all entries on books shall be written in ink.

OGGETTO: Contabilizzazione dei carburanti e lubrificanti.

La attuale limitata disponibilità di prodotti petroliferi per gli autotrasporti impone il perseguimento della loro migliore utilizzazione e soprattutto della massima economia nella distribuzione. Il raggiungimento di tale intento può ottenersi soltanto con una oculata e scrupolosa amministrazione delle assegnazioni di carburanti e lubrificanti, cui i Direttori Provinciali sono tenuti personalmente a rispondere.

Allo scopo di agevolare in tale materia l'opera dei Direttori Provinciali, di permettere un efficace controllo sugli impiegati addetti alla distribuzione dei prodotti in oggetto, ed infine per dare disposizioni uniformi che rendano più semplice l'opera ispettiva da parte delle Direzioni Compartimentali e di questa Direzione Generale, si è predisposto un sistema completo di scritturazioni per la contabilizzazione dei carburanti e lubrificanti. A tale sistema tutte le Direzioni dovranno scrupolosamente attenersi e non ne sono ammesse varianti.

Allegata alla presente si trasmette una copia dell' "Istruzione per la contabilizzazione dei carburanti e lubrificanti" insieme

Alleg. 1^a istruzione + 9
fac-simili di modelli

OGGETTO: Contabilizzazione dei carburanti e lubrificanti.

Le attuali limitate disponibilità di prodotti petroliferi per gli autotrasporti impongono il perfezionamento della loro migliore utilizzazione e soprattutto della massima economia nella distribuzione. Il raggiungimento di tale intento può ottenersi soltanto con una oculato e scrupolosa amministrazione delle assegnazioni di carburanti e lubrificanti, cui i Direttori Provinciali sono tenuti personalmente a rispondere.

Allo scopo di agevolare in tale materia l'opera dei Direttori Provinciali, di permettere un efficace controllo sugli impiegati addetti alla distribuzione dei prodotti in oggetto, ed infine per dare disposizioni uniformi che rendano più semplice l'opera ispettiva da parte delle Direzioni Compartimentali e di questa Direzione Generale, si è predisposto un sistema completo di scritture per la contabilizzazione dei carburanti e lubrificanti. A tale sistema tutte le Direzioni dovranno scrupolosamente attenersi e non ne sono ammesse varianti.

Allegata alla presente si trasmette una copia della "Istruzione per la contabilizzazione dei carburanti e lubrificanti" insieme ad un esemplare dei modelli relativi; non appena ne sarà ultimata la stampa, ad ogni Direzione Provinciale verrà inviato un congruo numero degli stessi modelli a stampa.

Dalla data del 1° maggio p.v. dovrà essere iniziata la contabilizzazione secondo le istruzioni suddette; nel caso che per tale data non fossero ancora pervenuti gli stampati in questione, le re-

./.

- 2 -

gistrazioni dovranno essere effettuato su moduli proprii e non eguali a quelli allegati, oppure adattando vecchi stampati.

Con l'entrata in funzione della contabilizzazione in parte la cesserà lo scopo del "registro di libra edizioni" previsto dalla parte IV della circolare 3M/1391 in data 14 dicembre 1944 di questa Direzione Generale: analogamente gli allegati P e C della stessa circolare non dovranno essere più compilati perchè sostituiti dal mod. 56.

Come specificato nella "Istruzioni" ad ogni distribuzione di carburante e lubrificante deve corrispondere essere una registrazione su uno dei modelli previsti, nonché un documento attestante l'effettiva consegna dei buoni per il proliere dei prodotti: tale documento è rappresentato o dal "foglio di viaggio, o della richiesta mod. 57 debitamente completata.

Per le assegnazioni fatte agli intestatari di libretti o documenti permanenti (mod. 16 - 17 - 18) bisognerà, per ognuna di esse, apporre sulla copertina del documento stesso un timbro con la dicitura:

Assegnato
Carburante o
Lubrificante
Ricevuto mod. 57 n.
in data... .. 194.

Su tale timbro deve risultare, agli effetti di qualsiasi controllo, il numero della ricevuta mod. 57 rilasciata dall'intestatario o chi per esso, nonché la data della stessa.

Si confida nella particolare attenzione che le Direzioni Provinciali rivolgeranno alla delicata questione dei carburanti, quando scrupolosamente quanto è disposto dalla presente circolare. Altrettanto utile sarà l'opera di vigilanza e di controllo da parte delle Direzioni Compartimentali.

Si attende assicurazione telegrafica.

Direzione Generale: analogamente gli allegati P e C della stessa circolare non dovranno essere più compilati perchè sostituiti dal mod. 56.

Gli specifici nella "Istruzioni" ad ogni distribuzione di carburante e lubrificante dovranno corrispondere sempre una registrazione su uno dei modelli previsti, nonché un documento attestante l'effettiva consegna dei buoni per il consumo dei prodotti: tale documento è rappresentato e dal "Foglio di viaggio, o della ricerca mod. 57 debitamente compilato.

Per le assegnazioni fatte agli intestatari di libretti o documenti permanenti (mod. 16 - 17 - 18 - 19) bisognerà, per ognuno di essi, apporre sulla cartolina del documento stesso un timbro con la dicitura:

Assegnato
Carburante e
Lubrificante
Ricavato mod. 57 n.
in data. 194.

Su tale timbro deve risultare, agli effetti di qualsiasi controllo, il numero della ricerca mod. 57 rilasciata dall'intestatario o chi per esso, nonché la data della stessa.

Si confida nella particolare attenzione che le Direzioni Provinciali rivolgeranno alla delicata questione dei carburanti, quando scrupolosamente quanto è disposto dalla presente circolare. Altrettanto utile sarà l'opera di vigilanza e di controllo da parte delle Direzioni Compartimentali.

Si attende assicurazione telegrafica.

IL DIRETTORE GENERALE

(F.to: M. Costa)

ISTRUZIONI PER LA COMPILAZIONE DEL CARB. E LUBRIFICANTI

(allegato alla circolare 76/27.21 del 18.4. '45)

Il movimento di carico e di scarico dei carburanti e lubrificanti deve essere seguito per mezzo di scrittore sui seguenti stampati:

- MOD. 51 - "Carburanti e lubrificanti distribuiti per fogli di viaggio"
- MOD. 51 bis - "Riepilogo carburanti e lubrificanti distribuiti per fogli di viaggio"
- MOD. 52 - "Registro delle distribuzioni di carburanti e lubrificanti per documenti di viaggio speciali (mod. 16 - 17 - 18)"
- MOD. 53 - "Registro delle distribuzioni di carburanti e lubrificanti per vari"
- MOD. 54 - "Nota decennale carico e scarico"
(benzina
gasolio
olio)
- MOD. 55 - "Riepilogo mensile carico e scarico dei carburanti e lubrificanti"
- MOD. 56 - "Dettaglio dei versamenti effettuati per diritti fissi riscossi sui carburanti e per contributi incassati per rilascio documenti di viaggio speciali"
- MOD. 57 - "Riceruta per prelievo buoni carburanti e lubrificanti e per pagamento diritti fissi e contributi per documenti di viaggio speciali"
- MOD. 58 - "Certificato di allibramento" -

- Modello 51 - "Carburanti e lubrificanti distribuiti per fogli di viaggio" E' tenuto dalle stazioni o delle agenzie; in esso devono essere annotate tutte le distribuzioni che le stazioni o l'agenzia effettuano in conseguenza di fogli di viaggio rilasciati. E' attualmente 1944
coperti di carburanti e lubrificanti per viaggio non effettuati o per

pati:

- MOD. 51 - "Carburanti e lubrificanti distribuiti per fogli di viaggio"
- MOD. 51 bis - "Riepilogo carburanti e lubrificanti distribuiti per fogli di viaggio"
- MOD. 52 - "Registro delle distribuzioni di carburanti e lubrificanti per documenti di viaggio speciali (mod. IC - IV - IS)"
- MOD. 53 - "Registro delle distribuzioni di carburanti e lubrificanti per vari vari"
- MOD. 54 - "Nota decennale carico e scarico"

{	benzina
{	gasolio
{	olio
- MOD. 55 - "Riepilogo mensile 'carico e scarico' dei carburanti e lubrificanti"
- MOD. 56 - "Dettaglio dei versamenti effettuati per diritti fissi riscossi sui carburanti e per contributi incassati per rilascio documenti di viaggio speciali"
- MOD. 57 - "Riceruta per prelievo buoni carburanti e lubrificanti e per pagamento diritti fissi e contributi per documenti di viaggio speciali"
- MOD. 58 - "Certificato di allibramento" -

- Modello 51 - "Carburanti e lubrificanti distribuiti per fogli di viaggio" E' tenuto dalle stazioni o dalle agenzie; in esso devono essere annotate tutte le distribuzioni che la stazione o l'agenzia effettua in conseguenza di fogli di viaggio rilasciati. Eventuali oneri di carburanti e lubrificanti per viaggio non effettuati o parzialmente effettuati, dovranno essere scritti in rosso e dettratti nel fare i totali, indicando chiaramente nella colonna note "recupero". Devono essere anche annotati i diritti fissi riscossi per ogni

./.

- 2 -

Foglio di viaggio. Il modello è riunito in fascicoli da 50 fogli ciascuno in duplice copia: una per la Direzione Provinciale da cui la stazione o l'agenzia dipende, l'altra per la stazione o l'agenzia mittente. Il modello deve essere chiuso ogni giorno e firmato dall'impiantato che lo ha compilato e dal Capo Stazione, i quali ne assumono la responsabilità. L'importo dei diritti fissi riscossi risultante dalla chiusura è il mod. 51 deve essere giornalmente versato alla Banca incaricata del Servizio di cassa oppure all'Ufficio Postale nel c/c intestato alla Banca stessa facendo uso del mod. PAG 58 - la ricevuta del mod. 52 deve essere allegata alla copia del mod. 51 che la stazione o l'agenzia trasmette ogni giorno alla Direzione Provinciale. Nella copia del mod. 51 che rimane presso la stazione o l'agenzia dovranno essere indicati nella colonna "note" gli estremi del versamento effettuato in corrispondenza del totale dei diritti fissi riscossi. Giornalmente la stazione o l'agenzia deve inviare alla Direzione Provinciale la copia del modello compilato nel giorno stesso allegando la ricevuta del versamento effettuato (mod. 56). Il Capo della Sezione Tecnica di ogni Direzione Provinciale deve disporre il controllo sui quantitativi distribuiti per ogni foglio di viaggio, in base alle previsioni norme dettate circa i consumi specifici degli automezzi, nonché l'esattezza tra il carburante e lubrificante assegnati e l'importo versato dei relativi diritti fissi.

- Modello 51 bis - "Riepilogo carburanti e lubrificanti distribuiti per fogli di viaggio". E' tenuto dalle Direzioni Provinciali che hanno più di una stazione o agenzia alle loro dipendenze; ha lo scopo di riepilogare giornalmente per giorno le distribuzioni di carburanti e lubrificanti effettuate dalle varie stazioni o agenzie per fogli di viaggio rilasciati. E' costituito da fogli stampati singoli; si dovrà compilare ogni giorno sulla scorta di tutti i modelli 51 (già ricevuti

te. Il modello deve essere compilato e dal Capo Stazione; i quali ne assumono la
 gata che lo ha compilato e dal Capo Stazione; i quali ne assumono la
 responsabilità. L'importo dei diritti fissi riscossi risultanti dalla
 chiusura del mod. 51 deve essere giornalmente versato alla E. con inca-
 ricato del Servizio di cassa oppure all'Ufficio Postale nel c/c inte-
 stato alla Banca stessa facendone uso del mod. EMG 58 - la ricevuta
 del mod. 58 deve essere allegata alla copia del mod. 51 che la stazio-
 ne e agenzia trasmette ogni giorno alla Direzione Provinciale. Nella
 copia del mod. 51 che rimane presso la stazione o l'agenzia dovranno
 essere indicati nella colonna "note" gli estremi del versamento effet-
 tuato in corrispondenza del totale dei diritti fissi riscossi. Giorni
 per giorno la stazione o l'agenzia deve inviare alla Direzione Provin-
 ciale la copia del modello compilato nel giorno stesso allegando la
 ricevuta del versamento effettuato (mod. 58). Il Capo della Sezione
 Tecnica di ogni Direzione Provinciale deve disporre il controllo sui
quantitativi distribuiti per ogni foglio di viaggio, in base alle pr-
 oie norme dettate circa i consumi specifici degli automezzi, nonché
 l'esattezza tra il carburante e lubrificante assegnati e l'importo
 versato dei relativi diritti fissi.

- Modello 51 bis - "Ricordo carburanti e lubrificanti distribuiti
 per fogli di viaggio". E' tenuto dalle Direzioni Provinciali che han-
 no più di una stazione o agenzia alle loro dipendenze; ha lo scopo di
 riapilleggiare giornalmente per giorno le distribuzioni di carburanti e lubri-
 ficanti effettuate dalle varie stazioni o agenzie per fogli di viag-
 gio rilasciati. E' costituito da fogli stampati a righi; si dovrà com-
 pilare ogni giorno sulla scorta di tutti i modelli 51 (già ricevuti
 dalle stazioni e agenzie), ai quali deve essere unito formando un so-
 cco fascicolato: esso deve essere firmato dal Capo della Sezione
 Tecnica. Le rultanze del mod. 51 bis devono essere trascritte sul
 mod. 54. Sarà cura dei Direttori Provinciali di farsi recapitare i
 mod. 51 ogni giorno dalle stazioni della Sede, e nel più breve tempo

- 3 -

possibile delle agenzie.

- Modello 52 - "Registro delle distribuzioni di carburanti e lubrificanti per documenti di viaggio speciali (mod. 16 - 17 - 18)". E' tenuto dalle Direzioni Provinciali ed e' formato da registro a fogli fissi di conto facciate numerate; su tale modello vengono annotate sulla base delle ricevute mod. 57 tutte le distribuzioni di carburante e lubrificante effettuate ad automezzi fruanti di documenti di viaggio pertinenti mod. 16 - 17 - 18: pertanto sarà necessario un registro per ognuno dei suddetti modelli. Dovranno anche essere annotati i diritti fissi riscossi sul carburante e lubrificante, nonché i contributi a favore ENAC e l'imposta sull'entrata sul solo contributo, a favore dell'ENAC. L'importo dei diritti fissi riscossi nonché dei contributi ENAC incassati in conseguenza del rilascio dei mod. 16 - 17 - 18 (esclusi i rimborsi di marche imposta entrata), devono essere versati giornalmente alla Banca incaricata del Servizio di cassa oppure all'Ufficio Postale nel c/c intestato alla Banca stessa utilizzando il mod. 58 la cui ricevuta deve essere inviata alla Sezione Amministrativa della Direzione Provinciale allegata al mod. 56. Ognuno dei mod. 52 dovrà essere chiuso ogni giorno e firmato dal Capo della Sezione Tecnica; le risultanze dovranno essere riportate sul mod. 54. I blocchi contenenti le copie delle ricevute mod. 57 devono essere archiviate a cura della Direzione Provinciale.

- Modello 53 - "Registro delle distribuzioni di carburanti e lubrificanti per usi vari". E' tenuto dalle Direzioni Provinciali ed e' formato da un registro a fogli fissi di conto facciate numerate; in esso devono essere registrato sia le distribuzioni effettuate allo datevettore di servizio presso le Direzioni ENAC sia le eventuali distribuzioni per cause eccezionali. E' da notare che per ogni distribuzione effettuata dovrà essere indicato il richiedente e 57 dove

fogli di conto facciate numerate; su tale modello vengono annotate sulla base delle ricevute mod. 57 tutte le distribuzioni di carburante e lubrificante effettuate ad automezzi fruitori di documenti di viaggio pertinenti mod. 16 - 17 - 18; pertanto sarà necessario un registro per ognuno dei suddetti modelli. Dovranno anche essere annotati i diritti fissi riscossi sul carburante e lubrificante, nonché i contributi a favore EVAC e l'imposta sull'entrata sul solo contributo a favore dell'EVAC. L'importo dei diritti fissi riscossi nonché dei contributi EVAC incassati in conseguenza del rilascio del mod. 16 - 17 - 18 (esclusi i rimborsi di marche imposta entrata), devono essere versati giornalmente alla Banca incaricata del Servizio di cassa oppure all'Ufficio Postale nel c/c intestato alla Banca stessa utilizzando il mod. 56 la cui ricevuta deve essere inviata alla Sezione Amministrativa della Direzione Provinciale allegata al mod. 56. Ognuno dei mod. 52 dovrà essere chiuso ogni giorno e firmato dal Capo della Sezione Tecnica; le risultanze dovranno essere riportate sul mod. 54. I blocchi contenenti le copie delle ricevute mod. 57 devono essere archiviate a cura della Direzione Provinciale.

- Modello 53 - "Registro delle distribuzioni di carburanti e lubrificanti per usi vari". E' tenuto dalle Direzioni Provinciali ed è formato da un registro a fogli fissi di conto facciate numerate; in esso devono essere registrato sia le distribuzioni effettuate alle autovetture di servizio presso le Direzioni EVAC sia le eventuali distribuzioni per cause eccezionali. E' da notare che per ogni distribuzione effettuata dovrà essere indicato il richiedente e il numero della ricevuta mod. 57. Ad ogni copia di ricevuta mod. 57 deve essere spillata la richiesta relativa. I blocchi contenenti le copie delle ricevute mod. 57 devono essere archiviate a cura della Direzione Provinciale. Il mod. 53 dovrà essere chiuso ogni giorno con

1585

- 4 -

firma del Capo della Sezione Tecnica e le risultanze dovranno essere riportate sul mod. 54.

- Modello 54 - "Nota di controllo carico e scarico"

Il tenuto delle Direzioni Provinciali di è costituito da blocchi di 25 fogli in triplice copia di cui due staccabili ed una fissa; le due staccabili devono essere inviate rispettivamente alla Direzione Generale ed alla Direzione Compartimentale. Nel mod. 54 devono essere annotate giorno per giorno le rimanenze, le eventuali assegnazioni ricevute, le distribuzioni effettuate secondo le risultanze dei mod. 51 (o 51 bis), dei vari mod. 52 e del mod. 53 in modo da poter sempre sapere la disponibilità del carburante e lubrificante. Deve essere tenuto un mod. 54 per la benzina, uno per il gasolio ed uno per l'olio. La chiusura del mod. 54 deve essere fatta ogni decade, i modelli devono portare la firma del Capo della Sezione Tecnica e del Direttore Provinciale che ne assumono la responsabilità.

Le due copie del mod. 54 per la Direzione Generale e per la Direzione Compartimentale dovranno essere inoltrate dalle Direzioni Provinciali non oltre i giorni 15, 23, 31 di ogni mese.

La copia destinata alla Direzione Generale dovrà essere inviata direttamente e non tramite la Direzione Compartimentale.

- Modello 55 - "Riepilogo mensile carico e scarico" dei carburanti e lubrificanti E' tenuto dalle Direzioni Provinciali. E' costituito da blocchi di 25 fogli in tre copie (una per la Direzione Generale, una per la Compartimentale e una per la Provinciale). In detto modello deve essere riepilogata la contabilità di tutti i carburanti e lubrificanti di ciascun mese desumendo i dati dai vari mod. 54 del mese. Deve essere firmato dal Capo della Sezione Tecnica e dal Direttore Provinciale che ne assumono la responsabilità. Entro il 5 di ogni mese la Direzione Provinciale dovrà inviare il mod. 55 alla

7) tenuto delle Direzioni Provinciali ed è costituito da blocchi di 25 fogli in triplice copia di cui due staccabili ed una fissa: le due staccabili devono essere inviate rispettivamente alla Direzione Generale ed alla Direzione Compartimentale. Nel mod. 54 devono essere annotate giorno per giorno le rimanenze, le eventuali assegnazioni ricevute, le distribuzioni effettuate secondo le risultanze dei mod. 51 (o 51 bis), dei vari mod. 52 e del mod. 53 in modo da poter sempre sapere la disponibilità del carburante e lubrificante. Deve essere tenuto un mod. 54 per la benzina, uno per il gasolio ed uno per l'olio. La chiusura del mod. 54 deve essere fatta ogni decade, i modelli devono portare la firma del Capo della Sezione Tecnica e del Direttore Provinciale che ne assumono la responsabilità.

Le due copie del mod. 54 per la Direzione Generale e per la Direzione Compartimentale dovranno essere inoltrate dalle Direzioni Provinciali non oltre i giorni 15, 28, 4 di ogni mese.

La copia destinata alla Direzione Generale dovrà essere inviata direttamente e non tramite la Direzione Compartimentale.

- Modello 55 - "Riepilogo mensile carica e consumo" dei carburanti e lubrificanti" E' tenuto dalla Direzioni Provinciali. E' costituito da blocchi di 25 fogli in tre copie (una per la Direzione Generale, una per la Compartimentale e una per la Provinciale). In detto modello deve essere riepilogata la certabilità di tutti i carburanti e lubrificanti di ciascun mese desumendo i dati dai vari mod. 54 del mese. Deve essere firmato dal Capo della Sezione Tecnica e dal Direttore Provinciale che ne assumono la responsabilità. Entro il 5 di ogni mese la Direzione Provinciale dovrà inviare il mod. 55 alla propria Direzione Compartimentale (compresa la copia destinata alla Direzione Generale). La Direzione Compartimentale raccolti tutti i mod. 55 delle Direzioni Provinciali dipendenti ne curerà l'inoltro

- 5 -

ella Direzione Generale entro il giorno 8 di ogni mese.

- Modello 56 - "Dettaglio dei versamenti effettuati per diritti fissi riscossi sui carburanti e lubrificanti e per contributi incassati per rilascio documenti di viaggio speciali". E' tenuto dalle Direzioni Provinciali ed è costituito da blocchi in triplice copia (copia due staccabili: su di esso vengono ricalcolati i vari versamenti effettuati a mezzo del mod. 58 dei diritti fissi sul carburante e sul lubrificante ed i contributi incassati in conseguenza del rilascio di mod. 16, 17, 18).

Una delle copie staccabili alla quale dovranno essere allegate le ricevute di tutti i versamenti (mod. 58) sarà trasmessa alla Sezione Tecnica alla Sezione Amministrativa della Direzione Provinciale per le registrazioni del caso, l'altra copia direttamente alla Direzione Compartmentale per gli opportuni controlli.

- Modello 57 - "Ricevuta per libro buoni carburanti e lubrificanti e per pagamento diritti fissi e contributi per documenti di viaggio speciali". Sono compilata a cura delle Direzioni Provinciali ed eventualmente delle stazioni o aziende incaricate, dalle Direzioni Provinciali stesso, di provvedere alla distribuzione di buoni per il prelievo di carburanti e lubrificanti. Il mod. 57 è costituito da blocchi in duplice copia di cui una staccabile da consegnare al richiedente; nel mod. 57 oltre al quantitativo di buoni per il prelievo di carburanti e lubrificanti dovranno essere annotati anche le somme versate per diritti fissi sul carburante e lubrificante nonché il contributo EVAC incassato in conseguenza del rilascio di documenti di viaggio mod. 16, 17, 18 e l'imposta sull'entrata relativa al solo contributo a favore EVAC. Resta bene inteso che il rimborso dello stesso contributo per l'imposta generale sull'entrata deve essere pagato dall'impianto che lo applica il quale pertanto dovrà disporre

riscorsi sui carburanti e lubrificanti per contributi incassati per
rilascio documenti di viaggio speciali". E' tenuto delle Direzioni
Provinciali ed è costituito da blocchi in triplice copia di cui due
giaceabili: su di esso vengono rimologati i vari versamenti effettua-
ti a mezzo del mod. 56 dei diritti fissi sul carburante e sul lubri-
ficante ed i contributi incassati in conseguenza del rilascio di
mod. 16, 17, 18.

Una delle copie staccabili alla quale dovranno essere alle-
gate la ricevuta di tutti i versamenti (mod. 58) sarà trasmessa dal-
la Sezione Tecnica alla Sezione Amministrativa della Direzione Pro-
vinciale per le registrazioni del caso, l'altra copia diramata
alla Direzione Compartmentale per gli opportuni controlli.

- Modello 57 - "Ricevuta per un libro buoni carburanti e lubrifican-
ti e per pagamento diritti fissi e contributi per documenti di viag-
gio speciali". Sono compilato a cura delle Direzioni Provinciali
ed eventualmente delle stazioni o spazio incaricate, dalla Direzio-
ni Provinciali stesso, si provvederà alla distribuzione di buoni per
il prelievo di carburanti e lubrificanti. Il mod. 57 è costituito da
blocchi in duplice copia di cui una staccabile da consegnare al ri-
chiedente: nel mod. 57 oltre al quantitativo di buoni per il prelie-
vo di carburanti e lubrificanti dovranno essere annotati anche lo
sono versato per diritti fissi sul carburante e lubrificante nonché
il contributo IVAC incassato in conseguenza del rilascio di documen-
ti di viaggio mod. 16, 17, 18 e l'imposta sull'entrata relativa al so-
lo contributo a favore IVAC. Resta bene inteso che il rimborso delle
marche applicate per l'imposta generale sull'entrata deve essere
rato dall'impianto che lo applica il quale pertanto dovrà disporre
di un "fondo marchio" adeguato allo scopo e del quale risponderà vere-
la Sezione Amministrativa.

Tutte le ricevute mod. 57 dovranno essere riportate, come

- 6 -

essere dettate sul mod. 52 o sul mod. 53; i blocchi delle copie delle
ricorute mod. 57 contenenti le controfirme dell'imposta generale
sull'entrata devono essere conservate con la massima cura per essere
presentate immediatamente a richiesta del Fisco o di funzionari dello
E.M.A.C..

Modello 56 - "Certificato di allibramento" Viene usato dallo sta-
ziuni e agenzie e dalle Direzioni Provinciali per effettuare il ver-
samento del servizio di cassa alla Banca incaricata o all'Ufficio Po-
stale nel c/o intestato alla Banca stessa; dai diritti fissi sul car-
burante e lubrificante e dai contributi, incassati per rilascio docu-
menti di viaggio speciali mod. 16, 17, 18.

E' opportuno che tutti i moduli siano compilati a matita e
carta da decalco copiativa; i registri invece devono essere ricoperti
a manca.

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The *Agrobacterium* strains were incubated with the plant explants for 24 h. The explants were then cultured on the selective medium. The number of explants transformed was counted. The results are shown as the mean $\pm$ SD of three independent experiments. The asterisk indicates a significant difference ($p < 0.05$) between the control and the treated explants.

AVVERTENZE

Il versamento in conto corrente è il mezzo più semplice e più economico per effettuare rimesse di denaro a favore di chi abbia un c/c postale.

Chiunque, anche se non è correntista, può effettuare versamenti a favore di un correntista. Presso ogni ufficio postale esiste un elenco generale dei correntisti, che può essere consultato dal pubblico.

Per eseguire il versamento il versante deve compilare in tutte le sue parti, a macchina o a mano, purché con inchiostro, il presente bollettino (indicando con chiarezza il numero e la intestazione del conto ricevente qualora già non vi siano impressi a stampa) e presentarlo all'ufficio postale, insieme con l'importo del versamento stesso.

Sulle varie parti del bollettino dovrà essere chiaramente indicata a cura del versante, l'effettiva data in cui avviene l'operazione.

Non sono ammessi bollettini recanti cancellature, abrasioni e correzioni.

I bollettini di versamento sono di regola spediti, già predisposti, dai correntisti stessi ai propri corrispondenti; ma possono anche essere forniti dagli uffici postali a chi li richieda per fare versamenti immediati.

A tergo dei certificati di allibramento, i versanti possono scrivere brevi comunicazioni all'indirizzo dei correntisti destinatari, cui i certificati anzidetti sono spediti a cura dell'ufficio conti correnti rispettivo.

L'ufficio postale deve restituire al versante, quale ricevuta dell'effettuato versamento, l'ultima parte del presente modulo, debitamente completata e firmata.

CAUSALE

Versamento per conto dell'Ente Nazionale Autotrasporti di Cose (ENAC) come da specifica che segue:

HEADQUARTERS ALLIED COMMISSION

APD 394

TRANSPORTATION SUB-COMMISSION

This agreement made and entered into on this ____ day of _____ 1945, by and between Allied Commission and _____, hereinafter called the operator.

The Allied Commission agrees to make available to the operator the motor vehicles listed in Exhibit "A", attached hereto on the following terms and conditions:

1. Monthly depreciation charge for each vehicle in the sum of _____ per vehicle.

2. The operator unconditionally guarantees to return to Allied Commission each of said vehicles together with all tools, equipment and accessories upon the expiration, or sooner termination, of the arrangement as herein provided in as good condition and repair as when received by said operator, ordinary wear and tear only excepted. Upon said operator's failure or inability so to do, whatever the cause, the operator shall return each such vehicle in its then condition to the Allied Commission and forthwith pay to the Allied Commission such sum as Allied Commission shall determine is necessary to place the vehicle in that condition and state of repair in which it should be returned by the operator under the terms hereof.

3. The said vehicles shall be used exclusively for the movement of freight, goods and merchandise but only in such places and in such manner as shall be directed by the Allied Commission or such other office or officer as may be designated by it, and charges and tariffs for such use shall be those set out in Ministerial Decree, 30 January 1945, published in "Gazzetta Ufficiale" dated 8 February 1945, N. 17, or any amendment thereto.

4. The operator shall at its own expenses maintain the said vehicles in good condition. For the purpose of providing adequate time for maintenance and repair, each vehicle shall be kept off the road for such periods of time as the Allied Commission may determine and laid out in Vehicle Maintenance Instruction No. 1 dated 6 October 1944.

5. The Allied Commission shall at all times have the right to inspect said vehicles arranging schedules for that purpose when the drivers of the vehicles shall be present.

6. The operator shall keep and maintain such records in connection with the use and maintenance of said vehicles as shall be directed by the Allied Commission.

7. The operator shall indemnify and save harmless the Allied Commission and the United Nations and each of them from all claims of any kind and description asserted against them, arising or

This agreement was made and entered into on this ____ day of _____, 1945, by and between Allied Commission and _____, hereinafter called the operator.

The Allied Commission agrees to make available to the operator the motor vehicles listed in Exhibit "A", attached hereto on the following terms and conditions:

1. Monthly depreciation charge for each vehicle in the sum of _____ per vehicle.

2. The operator unconditionally guarantees to return to Allied Commission each of said vehicles together with all tools, equipment and accessories upon the expiration, or sooner termination, of the arrangement as herein provided in as good condition and repair as when received by said operator, ordinary wear and tare only excepted. Upon said operator's failure or inability so to do, whatever the cause, the operator shall return each such vehicle in its then condition to the Allied Commission and forthwith pay to the Allied Commission such sum as Allied Commission shall determine is necessary to place the vehicle in that condition and state of repair in which it should be returned by the operator under the terms hereof.

3. The said vehicles shall be used exclusively for the movement of freight, goods and merchandise but only in such places and in such manner as shall be directed by the Allied Commission or such other officer or officer as may be designated by it, and charges and tariffs for such use shall be those set out in Ministerial Decree, 30 January 1945, published in "Gazette Ufficiale" dated 8 February 1945, N. 17, or any amendment thereto.

4. The operator shall at its own expenses maintain the said vehicles in good condition. For the purpose of providing adequate time for maintenance and repair, each vehicle shall be kept off the road for such periods of time as the Allied Commission may determine and laid out in Vehicle Maintenance Instruction No. 1 dated 6 October 1944.

5. The Allied Commission shall at all times have the right to inspect said vehicles arranging schedules for that purpose when the drivers of the vehicles shall be present.

6. The operator shall keep and maintain such records in connection with the use and maintenance of said vehicles as shall be directed by the Allied Commission.

7. The operator shall indemnify and save harmless the Allied Commission and the United Nations and each of them from all claims of every kind and description asserted against them, arising or growing out of the use or operation of said motor vehicles.

8. The operator shall carry such insurance policies as he may be able to obtain in amounts specified by Allied Commission insuring the vehicles against property damage, theft and fire and insuring the Allied Commission against liability for damage to persons or property, third party and employee risks.

5973

- 2 -

9. This agreement may be terminated by the Allied Commission as to any or all of said vehicles upon thirty (30) days written notice.

PRATICA BUONI PRELEVAMENTO PRODOTTI PETROLIFERI E.N.A.C.

La nota 27.25/1252 del 12.2.1945 (allegata in visione)

documenta la richiesta presentata per l'adozione di un buono ENAC.

La pratica è stata esaminata in diverse sedute sia presso

l'A.C. - Sottocommissione Commercio (magg. Brereton) e sia presso il Ministero Industria.

Premesso che per ragioni tecniche il CIP non può garantire l'utilizzazione nazionale di un qualsiasi buono ENAC, dopo attento esame della questione, il magg. Brereton accetterebbe l'emissione di buoni ENAC come proposti (in bianco) con l'osservanza delle seguenti modalità:

a) Il CIP metterà a completa disposizione dell'ENAC in ogni provincia, un determinato numero di pompe, gestite sempre dal CIP, presso le quali dovranno essere spesi i buoni ENAC -

b) I buoni saranno approntati nella forma unica per l'intero territorio sotto la giurisdizione dell'ENAC però saranno spendibili solamente nella provincia di emissione.

In una riunione tra Ministero Industria - CIP ed ENAC è stata esaminata la pratica attuazione del programma Brereton, senonchè è stato riscontrato inattuabile per l'ENAC in quanto le pompe che verrebbero messe a disposizione dell'ENAC dovrebbero essere limitate a due o tre per provincia mentre attualmente i buoni a taglio fisso sono spendibili presso una qualsiasi pompa nell'ambito della provincia di emissione.

In data 16 corr. il Ministero Industria ha comunicato verbalmente che la questione è ancora impregiudicata in quanto trovasi allo studio tra la Commissione Trasporti e la Sottocommissione Commercio.

L'Ing. Costa - messo al corrente della pratica ritiene oppor-

SUBJECT : Petroleum Supplies - Italian Government

TO : Ministry of Industry, Commerce and Labour.

1. At a meeting which took place between the Economic Section of this Headquarters and their Excellencies the Ministers of Industry, Commerce & Labour, and Communications, certain questions were raised about supplies of petroleum to vehicles registered with ENAC and particularly to the fire brigade vehicles at Naples.

2. It was suggested by the Minister that an AG representative in Naples had given instructions for a minimum allocation of 17,000 liters per month to be allocated to the fire brigade, which the Ministry considered excessive and was resulting in petrol finding its way into the Black Market.

3. Investigation has been made and it is understood that the allocation to the Naples Fire Brigade was in fact reduced during February from 17,000 litres to 12,000 litres in order to make available larger supplies for ENAC. The effect of this was that the fire brigade were unable to perform their duties, which included the maintenance of two fire floats on Naples port and general assistance to the military in the protection of numerous requisitioned buildings and dumps all of which are a vital Allied interest, without drawing on emergency supplies which they were holding on instructions previously laid down by the AG Regional Public Safety Officer.

4. The latter states that in his opinion the fire brigade still need 17,000 litres per month in order efficiently to perform their duties, but it is agreed that the furnishing of supplies to the fire brigade is a matter for the Italian Government

5970

./.

- 2 -

authorities who will, it is hoped, be guided by the opinions expressed by the Allied representatives. We cannot, however, agree that supplies for fire brigades should be handled by ENAC who are a transportation organization and will therefore be inclined, if they should be short for their own purposes, to draw on supplies which ought to be made available for fire brigades which perform at least as important a function as ENAC and whose operations are not directly controlled by nor known to ENAC.

14 March 1945

Ref. AG/5146/2/Commerce/POL 22

SUBJECT: POL Supplies - ENAC

TO: Transportation Sub-Commission

1. Enclosed are copies of Ministry of Industry, Commerce, and Labor's letter 923 of 14 Feb 45, addressed personally to the Minister of Communications from the Minister of Industry, Commerce, and Labor, and a copy of the former's reply 11/00/2109 of 23 Feb 45, both of which have been shown us unofficially by the Italian Government. The case put forward by the Minister of Industry, Commerce, and Labor, who is responsible for the activities of the Inter-Ministerial Petroleum Committee are substantially in agreement with those of this Sub-Commission and with the representations which have been made on several occasions to the Minister.
2. On the other hand, the views expressed by the Minister of Communications, which are diagonally opposed to those of the Minister of Industry, Commerce, and Labor, are substantially in agreement with the views expressed by ENAC both verbally and in writing.
3. As will be seen, they are relying largely on the decree setting up ENAC. It is the opinion of this Sub-Commission that this decree cannot be considered as doing more than the articles of association of a company, which empower it to carry on certain activities which are, or might be, necessary or desirable in conjunction with its main objectives and that existence of these powers do not in any way alter existing legislative or administrative arrangements with which they might be at variance.
4. We wish, however, particularly to draw your attention to paragraph 6 in which they claim that Transportation Sub-Commission has given approval to ENAC's control of petroleum supplies to vehicles which are not actually operating under the direct control (other than registration) of ENAC.
5. We would like, therefore, to have a definite and urgent confirmation or otherwise as to whether the Transportation S/C has ever verbally or in writing given its approval to the control of petroleum supplies to the last 3 categories of vehicles mentioned in the third paragraph of the Minister of Industry, Commerce, and Labor's letter.
6. As regards the legal aspect, it appears that the decrees setting up the existing control over motor vehicle circulation and petrol rationing which were instituted originally under AMG General

5968

- 2 -

Order No. 20 and adopted by the Italian Government, are at variance at least superficially with some of the provisions in the decree setting up ENAC, and it is proposed to seek the advice of Legal Sub-Commission on this subject.

TRANSLATION:

Ref. 923

Date: 14 February 1945

Dear Carabona,

I must request your personal interest on the problem of petrol product supplies ENAC and, in general, of all the motorvehicles registered with it.

Needless to say that the availability of carburant are very limited, in spite of increases obtained in these last months, it is needless also to remind you that, not having national production^{ve} strictly depend more or less from the allocations with which the Allies supply us monthly.

ENAC motorvehicles are subdivided, as you know, in four categories: the first one includes motorvehicles working under the direct control of ENAC, the others include motorvehicles in public service or of public utility, motorvehicles working on their own account and motorvehicles in urban service. In other words the three last categories include vehicles which will continue to work in normal activity outside of ENAC's control.

It is suitable and rational in consideration of said classification that carburant supplies be made in the following way:

- 1) ENAC will ask us a monthly provincial allocation, which it will distribute freely to the motorvehicles included in the first category (ENAC direct administration).
- 2) The supplies to all the other categories will be entrusted to the estatal organs charged with the distribution of the carburants.

Said arguments, which are in full agreement with Allied Commission, in my opinion are logical and well founded. In fact it does not seem that ENAC which is eminently a consumer organism must take care of the issuing of carburant to all other consumers whose activities it cannot criticise, (public Ent), or control efficiently (motorvehicles on own account) or value according to the particular interests of each one and the general ones of an organic plan of production (indu-

5366

O - 2 - O

atrial or commercial).

If such would occur, ENAC would take upon itself ministerial functions which, as far as the allocation of petrol products is concerned have not been given to it.

Besides these considerations, that which interests most in a practical way is the necessity of meeting, as far as possible with the wishes of those from which petrol supplies depend from, and, therefore of national life.

I beg you therefore to take up the matter personally by issuing orders to the ENAC offices to study together with our competent office, a way of distribution which answers the ideas of Allied Commission and of this administration.

I will be grateful to you for a reply .

To H.E. Adv.
Francesco CERABONA
Minister of Transport
ROME

5965

Translation:

Ref. 11/30/2109

23 February 1945

From: Ministry of Transport

To : H.E. Dott. Giovanni Gronchi
Minister for I.C.I. Rome

Dear Gronchi,

1. I agree with you on the importance which the problem of carburant distribution has, but in order to arrive at a better solution of the problem, allow me to bring to your attention some other aspects of the question.
2. As you know, not only the motorvehicles which work under the direct control of ENAC are registered with it but also those working on their own account, those used for public services or of public utility (that is to say those which must be registered with ENAC) and also the ones in urban service: and from Art. 8, letter (D) of the Law Decree 17 August 1944, No 188, but still more from Art. 3, letter (a) of the Constitution enclosed with the Decree itself it seems evident that ENAC must take care of the distribution of carburant to all registered with it without exception.
3. Substantially, apart from the formal aspect of the question, also the motorvehicles of the last three categories carry out their own activity according to ENAC's method, pay what is expected, are provided with travelling papers, which allow an efficacious control also on the use of carburant. Furthermore if a motorvehicle belongs to one or other category its nature is not a definite one but is subordinated to the conditions or needs of the moment.
4. If we look into the basic aims of the Ente, that is to say the coordination of truck transport and the best way of usage, it seems clear that these, in whichever category we should want them to be, cannot be left out from ENAC's control and the best way of disciplining them is no doubt, the question of carburant allocations.
5. It seems therefore to me that ENAC taking care of that, does not mean that it has Ministerial functions, but it keeps its activity within the limits of the Law, carrying out a useful and necessary work in order to reach its aims.

5364

0 - 2 - 0

6. Furthermore Transportation Sub-Commission thinks that ENAC through its travel papers and the organization of its check posts is particularly able to control the use of carburents allocated also as far as the three categories are concerned, and has therefore no difficulty in applying the institutional laws of the Ente.

7. Meanwhile I think that the present method of carburent distribution which is being used must not be modified.

Cordially

CERABONA

6 March 1945

SUBJECT: Petroleum supplies - SHAC

TO: Ministry of Industry, Commerce, and Labor
Liquid Fuels Office

1. The confirmed conversation, Mr. de Graaf-Dr. Di Martino-Maj. Breerton, of 3 March 45, refers.
2. In order to conclude the long-drawn out discussions and negotiations on this subject, it is suggested that the Ministry take steps to get the formal approval of the Ministry of Communication and of SHAC to the following arrangements which appear to be satisfactory to all other parties.
 - a) The Ministry of Industry, Commerce, and Labor, Liquid Fuels Office, will indicate to SHAC the quantity of SHAC which they propose to allocate for the following month, and SHAC will inform the Ministry of the quantity within this allocation which they wish made available in each province. The Ministry will then proceed to allocate the quantity as agreed to the individual provinces. Changes in allocation must be approved by the Liquid Fuels Office.
 - b) The quantities so allocated may be drawn by SHAC at the principal oil provincial depot in all ordinary cases and in special cases at one or two alternative points agreed between OIL and SHAC with the approval of the Ministry and provided that the coupons for delivery at these points are specially marked accordingly.
 - c) In case, OIL will supply from any of the means open to the public, and responsibility for seeing that allocations to SHAC are not exceeded in any given month will be that of OIL, who will immediately cease supplies as soon as they have delivered the full quantity allocated.
 - d) OIL will deliver only against coupons to be agreed between SHAC and the Liquid Fuels Office, and OIL. These coupons will not be made out for quantities less than multiples of 5 liters.
 - e) Cash will be paid at normal rates at the time of delivery by the driver presenting the coupon.
3. It is requested that you will advise this Headquarters when agreement has been obtained to the above proposals and will confirm that the details have not been changed in any way.

28 February 1945

SUBJECT: Misuse of Petroleum Products

TO : Public Safety Sub-Commission.

1. Your attention is drawn to the Commander in Chief's letter 1853/7/91 of 29 April 1944 and the Executive Commissioner's 194/26/51 of 10 May 1944.

2. On Sunday morning 25 February 1945 Motor Cycle Races were held on a stretch of the Rome-Castia Road 10 Km from Rome. At mid-day about 50 vehicles, 300 spectators, three motorised Carabinieri and two foot Carabinieri besides various competitors Officials etc, had assembled on the main road.

3. On the afternoon of the same day, there were well over a hundred camionette and private cars parked on or near the approach road to the Villa Glori Race Track.

4. Both conditions were seen by members of this Sub-Commission.

5. May representations please be made to the appropriate Italian Ministry with a view to steps being taken to put an end to this open abuse and waste of petrol imported by the Allies for essential purposes.

6. It is quite evident that, if petrol can be spared for such purposes, the quantities being obtained from the Allies could be reduced without adversely affecting the necessities of a minimum civilian economy and it is becoming increasingly obvious that the Italian Government either cannot or will not take any effective action to control abuses which would not be tolerated either in America or England.

- 2 -

7. After two months of discussion and promises there is still no evidence that any serious attempt is being made to control Motor Passenger Transportation in Rome. Complaints have also been made about the waste of POL for purely recreational purposes but without avail.

8. Although it is becoming apparent that nothing short of a substantial cut in the Petroleum allocations to the Italian Government is likely to produce the cooperation which is essential if misuse of POL is to be avoided, it is requested that you will again take the matter up with a view to securing, if possible, cooperation in implementing the instructions laid down in the above mentioned letters the subject matter of which was also made known to the Italian Government and the Commanding Generals of the Carabinieri and Guardia di Finanza at the time.

SUBJECT: Coupons to withdraw ENAC
petroleum products.

As you know, up to January the 31st, the withdrawal of fuel for trucks controlled by Transportation Offices now Provincial Direction of Enac, was done with a coupon attached to the travel order and which was filled and signed by the employee of the station at the moment of cutting the travel order and could be used, in agreement with the C.I.P., only in some gas-pumps, which were near the stations.

With the adoption of the new system of forms P.B.2, P.B.4, P.B.6, P.B.8, PG.1, P.3.2., P.3.3., PG.4., P.O.1., P.O.2., P.O.3., P.O.4., there are the following inconvenients:
1. The new system of cards which includes the delivery of various coupons, according to the amount of the allotment of petroleum products, besides the note of the allocated quantity on the travel order, of the license plate number and of the extremes of the travel order on the matrix of the coupons-card is too long and takes too much time to be done for each truck. Therefore it would be necessary to increase the number of employees with more administrative expenses and without obtaining the result of diminishing the waste of time.

2. Waste of fuel, because it is necessary to fix an amount of fuel approximate to the figures which are mentioned in the card. At the beginning we will have a difference of five litres, but with the use of the various coupons this difference can also be increased. For obvious reasons it is not possible to fix an amount, which will damage the motor transporter.

3. Until it will not be fixed the necessary agreements with the C.I.P. to transfer fuel from one province to the other the Provincial Direction of ENAC have no chance of control, if we consider the fact that new coupons can be used in all gas-pumps. If in past time the motor-transporter was sure of the fuel at the gas-pumps, where he had booked himself,

1828

TO: Ministry of Industry and Commerce

Rome

SUBJECT: Coupons to withdraw ENAC
petroleum products.

As you know, up to January the 31st, the withdrawal of fuel for trucks controlled by Transportation Offices now Provincial Direction of Enac, was done with a coupon attached to the travel order and which was filled and signed by the employee of the station at the moment of cutting the travel order and could be used, in agreement with the C.I.P., only in some gas-pumps, which were near the stations.

With the adoption of the new system of forms P.B.2,

P.B.4, P.B.6, P.B.8, PG.1, P.G.2., P.G.3., PG.4., P.O.1.,

P.O.2., P.O.3., P.O.4., there are the following inconvenients:

1. The new system of cards which includes the delivery of various coupons, according to the amount of the allotment of petroleum products, besides the note of the allocated quantity on the travel order, of the license plate number and of the extremes of the travel order on the matrix of the coupons-card is too long and takes too much time to be done for each truck. Therefore it would be necessary to increase the number of employees, with more administrative expenses and without obtaining the result of diminishing the waste of time.

2. Waste of fuel, because it is necessary to fix an amount of fuel approximate to the figures which are mentioned in the card. At the beginning we will have a difference of five litres, but with the use of the various coupons this difference can also be increased. For obvious reasons it is not possible to fix an amount, which will damage the motor transporter.

3. Until it will not be fixed the necessary agreements with

the C.I.P. to transfer fuel from one province to the other

the Provincial Direction of ENAC have no chance of control, if

we consider the fact that new coupons can be used in all gas-pumps. If in past time the motor-transporter was sure

find the fuel at the gas-pumps, where he had booked himself,

now the transporter does not know at what pump he can find the

fuel and we are of the opinion that in many cases the transporter

will claim to the Provincial Direction of ENAC that gas-pumps

have no fuel and will easily justify all waste of time in order

to be reimbursed of empty trips.

4. The above mentioned inconvenients are also more serious for the reason that the above mentioned coupons can be used every-where and are of a national characteristic. It may also happen frequently that coupons issued by one Province should be used in other provinces and vice-versa, therefore the Provinces will not be able to know what is the real amount of fuel they need, until they will not do the necessary agreements with the C.I.P. therefore in order to avoid the above mentioned inconvenients we beg you to interest the Commerce Sub-Commission to authorize to issue from the 1st of March the special Enac Coupons (Form 51+52-53--)- which will be printed by this General Direction inaway which is difficult to imitate and which will be valid for the three kinds of petroleum products.

The characteristics of these coupons are the following:

They have a progressive number for eventual control, they

1. are grouped in cards of 20 coupons each.

2. On each coupons there is the Official Seal of Enac

General Direction. The provincial Direction will apply its

stamp on the retro of the coupon.

3. The amount of fuel are mentioned in letters and figures:

The indication in letter is done with copying pencil and that

in figures perforating the prospect which is on the right side

of the coupon.

4. The month of validity of the coupon results from the date which is applied below by the Chief of the station where he releases the coupons.

5. Coupons are issued in double copy; the original on special paper and the copy on common paper. The compilation is done in the same time for the copy with carbon paper.

6. As soon as agreements will be taken with the C.I.P. thru this Ministry, all coupons could be used in whatever province of Liberated Italy.

We attach hereto two copies of the above mentioned coupon-cards, in order to examined by that Ministry and have the approval of the Commerce Sub-Commission.

Having this letter a certain urgency, as all forms must be printed, we beg to inform that Sub-Commission as soon as possible.

R O M A

Com'è noto, sino al 31 gennaio u.s., il prelievemento del carburante da parte degli autocarri controllati da alcuni Uffici Trasporti - ora Direzioni Provinciali EMAC - veniva effettuato per mezzo di un tagliando scambiabile dal foglio di viaggio, che veniva riempito e firmato dall'impiegato addetto alla stazione all'atto del rilascio del foglio di via ed era spendibile, d'intesa con il CIP, presso poche pompe, facenti esclusivamente servizio per tale scopo, in prossimità delle stazioni.

Con l'adozione del nuovo sistema per mezzo dei buoni di prelievemento modelli P.E.2, P.E.4, P.E.6, P.E.8, P.G.1, P.G.2, P.G.3, P.G.4, P.O.1, P.O.2, P.O.3, P.O.4, si verificano notevoli inconve-
nienti e precisamente:

1 - Il nuovo sistema, comportando la consegna di diversi tagli di buoni, secondo l'entità dell'assegnazione dei prodotti petroliferi, oltre l'annotazione del quantitativo erogato sui fogli di viaggio e del numero di targa e degli estremi del foglio di viaggio sulle matrici e sui buoni in parola, porta ad una non indifferente e dannosa perdita di tempo se si tiene conto pure che tale operazione deve essere ripetuta per ogni pratica. Conseguentemente occorrereb-

/.

- 2 -

be aumentare il numero degli impiegati con aggravio delle spese generali di gestione senza, però, poter eliminare il disturbo dei trasportatori e dei mittenti per la maggiore attesa per il disbrigo delle pratiche relative ai trasporti da effettuare.

2 - Spreco di carburante data la necessità di arrotondare il quantitativo assegnato al più prossimo valore delle combinazioni che si possono effettuare con i vari tagli dei buoni. Inizialmente è sufficiente l'arrotondamento a cinque litri, con l'esaurirsi dei vari blocchi, può darsi che l'arrotondamento sia per cifre più forti. Per ovvie ragioni non è possibile effettuare l'arrotondamento a danno dall'autotrasportatore.

3 - Fino a quando non verranno presi con il CIP opportuni accordi per i trasferimenti del carburante da una Provincia all'altra, le Direzioni Provinciali dell'EMAC, non hanno più alcuna possibilità di controllo, se si tiene conto della caratteristica dei nuovi buoni che è quella di essere spendibili presso qualsiasi pompa.

Prima il trasportatore era sicuro di trovare il carburante presso la pompa a cui era prenotato: ora il trasportatore non sa presso quale pompa potrà trovare il carburante, e si prevede che, in molti casi, anche se non tutte le pompe saranno esaurite, il trasportatore reclamerà presso le Direzioni Provinciali dell'EMAC, dichiarando di essersi recato presso quelle pompe esaurite e quindi giustificherà facilmente delle perdite di tempo al fine di poter ottenere la liquidazione di percorsi a vuoto.

4 - Gli inconvenienti sopra lamentati sono aggravati, per il momento, dal fatto che i buoni di prelevamento sono a carattere nazionale, cioè spendibili ovunque.

Può verificarsi con frequenza il caso che buoni emessi in

rali di gestione senza, però, poter essere
tatori e dei mittenti per la maggiore attesa per il disbrigo delle
pratiche relative ai trasporti da effettuare.

2 - Spreco di carburante data la necessità di arrotondare il quantitativo assegnato al più prossimo valore delle combinazioni che si possono effettuare con i vari tagli dei buoni. Inizialmente è sufficiente l'arrotondamento a cinque litri, con l'esaurirsi dei vari blocchi, può darsi che l'arrotondamento sia per cifre più forti. Per ovvie ragioni non è possibile effettuare l'arrotondamento a danno dell'autotrasportatore.

3 - Fino a quando non verranno presi con il CIP opportuni accordi per i trasferimenti del carburante da una Provincia all'altra, le D^l e regioni Provinciali dell'ENAC, non hanno più alcuna possibilità di controllo, se si tiene conto della caratteristica dei nuovi buoni che è quella di essere spendibili presso qualsiasi pompa.

Prima il trasportatore era sicuro di trovare il carburante presso la pompa a cui era prenotato: ora il trasportatore non sa presso quale pompa potrà trovare il carburante, e si prevede che, in molti casi, anche se non tutte le pompe saranno esaurite, il trasportatore reclamerà presso le Direzioni Provinciali dell'ENAC, dichiarando di essersi recato presso quelle pompe esaurite e quindi giustificherà facilmente delle perdite di tempo al fine di poter ottenere la liquidazione di percorsi a vuoto.

4 - Gli inconvenienti sopra lamentati sono aggravati, per il momento, dal fatto che i buoni di prelievo sono a carattere nazionale, cioè spendibili ovunque.

Può verificarsi con frequenza il caso che buoni emessi in una Provincia vengano a gravare sull'assegnazione delle altre Province o viceversa, conseguentemente nessuna Provincia potrà più sapere esattamente, sino a quando non saranno presi in merito accordi con il CIP, su quale quantitativo di carburante fare affidamento.

Pertanto, allo scopo di eliminare gli inconvenienti lamentati,

- 3 -

si prega di voler cortesemente interessare la Sottocommissione del Commercio affinché venga autorizzata, a partire dal 1° marzo p.v. l'emissione di speciali buoni EMAC (Modelli 51 - 52 - 53) da stamparsi a cura di questa Direzione Generale, su carta didatticibile contraffazione, ed in colori diversi per i tre tipi di prodotti petroliferi.

Le caratteristiche di tali buoni sono le seguenti:

- 1 - Portano la numerazione progressiva al fine di eventuali controlli, essi sono raggruppati in fascicoli, numerati sulla copertina, di 20 buoni ciascuno;
- 2 - Sugli stessi viene impresso il timbro a secco della Direzione Generale EMAC. La Direzione Provinciale apporrà il proprio timbro ad umido sul retro del buono.
- 3 - I quantitativi di carburante vengono indicati in lettere ed in cifre: l'indicazione in lettere viene fatta col lapis copiativo e quella in cifre mediante perforazione del quadro alla destra del buono;
- 4 - Il mese di validità del buono risulta dalla data che viene posta in calce, dal Capo della Stazione, al momento dell'emissione del buono;
- 5 - I buoni vengono emessi in doppia copia: l'originale su carta speciale e la copia su carta comune. La compilazione avviene simultaneamente con l'impiego della carta a ricalco;
- 6 - Non appena presi gli opportuni accordi con il CIP - tramite codesto Ministero - i buoni verrebbero resi spendibili presso qualsiasi Provincia dell'Italia liberata.

7 February 1945

SUBJECT: Procedures in Obtaining Circulating Permits and/or
P.O.L. by Civilians for Vehicular Use.

TO : Provincial Commissioners, Piemonte Region.

1. General

- a. No civilians will approach AMG personnel or issuing agencies for circulating permits or P.O.L.
- b. Agencies receiving applications from and meeting civilians will be separated from agencies issuing circulating permits, and P.O.L. coupons authorizations.

2. Applications for vehicular permits and P.O.L.

By R.A.C.I., will be reactivated at once by the Provincial Public Safety officer as the civilian agency to receive all applications for circulating permits and P.O.L. for autovehicular use. Attached is a list of the addresses and names of directors of their Offices in Piemonte Region.

b. R.A.C.I. is the official government organism for the issuance of Italian librettos, for collecting vehicular fees, and for maintaining the Public Register. They will be under the supervision of the Provincial Public Safety officers.

c. Civilians will apply to the nearest R.A.C.I. office for circulating permits and P.O.L. using form ACC- PMT 1 as described in Provincial P.O.L. Instruction No. 1. Three copies of the form will be filled out.

d. R.A.C.I. will forward a copy of each application to the Ispettorato Compartimentale Motorizzazione Civile (ICMC) at its office at Turin, or to the nearest office which the Ispettorato may establish within the Region.

(1) The ICMC is responsible for checking the safety and readability of vehicles as well as testing the ability of drivers. The ICMC will be under the supervision of the Regional Public Safety Officer.

- 2 -

(2) The ICMS sends inspectors to all Provinces periodically for the purpose of making these inspections.

a. R.A.C.I. will check the applications against libretto and other documents presented by the applicant and with their records, and make proper notation on the back of all application forms or attach their own certification of legality and compliance with Italian law.

(1) If irregular, copy will be at once despatched to the nearest Public Safety officer for action.

3. Load carrying vehicles.

a. Two copies of the form ACC-PET 1 completely filled out, with annotations, libretto, and supporting documents for all load carrying vehicles is despatched to the Provincial Transport Officer. The applicant is told to report to this officer in person on the following day.

b. The Provincial Transport Officer endorses the applications for circulating permit, temporary or permanent, and makes an assignment thereon to the appropriate pool or agency.

(1) He forwards one copy with annotation, libretto, etc., to the Provincial Public Safety Officer for the latter's cognizance.

(2) He advises the applicant to report to the assigned station for instructions and permit.

4. Passenger cars, non-load carrying vehicles.

a. R.A.C.I. forwards two copies of the form ACC-PET 1 completely filled out, with annotations, libretto and supporting documents for these vehicles to the Chamber of Commerce. RACI also directs the applicant to report to the chamber next day.

b. The Chamber of Commerce has been reactivated from the old Consiglio Provinciale dell'Economia (CPE) by the Provincial Supply Officers.

c. The Chamber serves as the civilian screening agency for these vehicles by:

(1) Examination of the applicant and the application with its supporting documents;

(2) Advice of civilian bodies concerned, such as Genio Civile, Medice Provinciali, Ispettorato Agrario, U.D.A., etc.;

(3) They make full recommendations for approval or denial and quantity of P.O.L. to be allotted.

- 3 -

d. They collate applications by AMG Provincial Officer categories, Public Health, Public Works, etc., and forward both copies, with recommendations and attached documents to the respective AMG officers concerned for final decision. They advise the applicant to return to RACI for response libretto, etc.

e. Upon action, by the AMG officers, all papers are despatched to the Provincial Public Safety Officer for the latter's cognizance. The AMG officers concerned may indicate priorities.

5. Issuance of Permits and P.O.L. Coupons.

a. The Provincial Public Safety Officer takes whatever action deemed advisable upon all applications for vehicular permits.

- (1) Those approved are forwarded to U.P.C.I.
- (2) Disapproved applications for load carrying vehicles are returned to transportation officer for transmittal to RACI and to applicant.
- (3) Disapproved applications for non-load carrying vehicles are returned directly, to RACI and to applicant.
- (4) RACI completes their records accordingly.

6. Ufficio Provinciale del Commercio ed Industria (UPCI)

a. This responsible government official, representative of the Ministry of Industry, Commerce and Labor, is appointed by the prefect. He displaces the former Ufficio Provinciale della Economia and functions in close coordination with the Chamber of Commerce.

b. UPCI will be responsible for all issuance of P.O.L., keeping full records thereof, estimating requirements, making reports, as outlined in Provincial P.O.L. Instruction N° 2.

c. U.P.C.I. will also be the issuing agency for circulating permits in accordance with the recommendations from the Provincial AMG officers as noted on the application forms.

d. U.P.C.I. will attach the required circulating permits and P.O.L. coupons for non-load carrying vehicles, and forward them directly to RACI for the applicant.

e. For vehicles (load carrying) assigned to pools UPCI will attach circulating permits only and forward to the pool designated for disposition. U.P.C.I. will issue bulk authorizations (Form AGC-PST 2a) to these pools in accordance with approved demands submitted on Form P-POI-4 (in duplicate).

(1) These pools will issue their own trip-tickets with P.O.L. stubs or coupon books against their bulk allotment.

(2) Responsibility for proper utilization of P.O.L. will rest with the pool officer.

- 4 -

f. UPCI will prenotate coupons and bulk authorizations for purchase at assigned C.I.P. station.

7. Collection of fees.

a. RAGI will collect the following fees

(1) Circulating permit fee of 50 lire upon the delivery of the permit. See Provincial Instruction N). 1 for details.

(2) P.O.L. fee of 35 centesimi for each liter of liquid P.O.L. and for each kilogram of solid P.O.L. See Provincial Instruction No. 2 for details.

b. The responsible official of each pool will collect the 50 lire fee for each circulation permit and the 35 centesimi fee for P.O.L. in accordance with the instructions indicated in par. 7 a. above.

8. In later transition to complete civilian control, upon the establishment of confidence in their competence, the functions of the AMG officers can be taken over by the Chamber of Commerce, under the supervision and responsibility of UPCI. The Provincial non subsistence supply Officer will supervise the operation of the Chamber of Commerce and the Provincial Public Safety officer the operations of RAGI and IOMC. Disposition of collected funds will be under the guidance of the Provincial Finance Officer.

COMMERCE SUB-COMMISSION

ASB/ha.

Ref. AC/5087/Commerce/POL. 7

Tel. Rome 478829

5 February 1945

SUBJECT: POL Supplies - Italian Government .

TO : ~~Economic Section~~ .

1. Attached is a copy of AFHQ Petroleum Section's PET 30/A/3/1 of 29 January 1945.
2. Copies of the relevant correspondence have already been sent you.
3. It appears to this Sub-Commission that there is a move afoot by ENAC, aided and abetted by the Ministry of Communications of which it forms a part (and where therefore it has exceptional facilities for writing its own cheque), to change the established system of vehicle control and petrol rationing as it affects load hauling vehicles registered by Enac.
4. The Directives issued by the Minister of Communications himself and those issued by ENAC coupled with information reaching us from other sources confirms this view.
5. With the existing almost complete absence of any form of police control or action against even the most flagrant abuses of the traffic regulations, a rigid control over the number of vehicles allowed to circulate and the way in which they are used is the only method likely to achieve even a moderate control over the Black Market in Petroleum Products and it was for this reason that General Order No 20 and R.D.L. 106 of 6 April 1944 makes the carrying of a Circulation Permit obligatory in addition to the controls existing in peace time.
6. The original instructions governing the issue of Circulation Permits issued under the Decree by the Ministry of Communications in May makes their issue dependent on approval by the local Petroleum Licensing Authority (UPIC) so that vehicles which are not be used for purposes for which petrol rations are allowed will not be able to circulate on Black

5950

- 2 -

Market POL.

7. There is already a gigantic Black Market in POL and very large numbers of vehicles are circulating which have either never had any official issue of Petrol or have had one for a specific purpose and are using it as a cloak for unlimited operation on Black Market POL for other purposes. The situation has been greatly aggravated by the issue of Circulation Permits without corresponding Petrol Rations in spite of instructions to the contrary both in regulations and otherwise.
8. The automatic grant of a Circulation Permit to every vehicle registered with ENAC will, it is believed, destroy almost completely any control which is now possible and has certainly never been approved by this Sub-Commission nor have we ever been approached with a view to obtaining such an approval. It appears that, if any such approval has been given by AC, as claimed by ENAC, it has been done without consulting this Sub-Commission.
9. It is argued by ENAC that they will be able to control vehicle movement by a system of trip tickets. This may be true in the case of those vehicles working out of controlled garages whose movements and petrol supplies can be controlled on a day to day basis but it would not appear to be so in the case of vehicles registered by ENAC and granted permanent trip tickets which is understood to be the intention with all load hauling vehicles working for private concerns, corporations, electricity undertakings etc.
10. It is understood that ENAC intend to issue to the private concerns books of trip tickets and that the operator will be authorised to make out his own without any other control.
11. It is further argued that ENAC will be able to establish a system of road checks and blocks which will prevent unauthorised circulation but it is apparent that, even if the personnel are available and the blocks operated efficiently, the loose system of trip tickets mentioned in 9 and 10 above is more likely to cloak illicit travel than to control it.
12. It is felt that the Italian Government's apparent indifference to the control of Motorvehicle Circulation and to the existence of the flourishing Black Market in POL may be coloured

- 3 -

by the fact that it forms a not unwelcome means of obtaining from the Allies (and that without payment) quantities of POL in excess of what were intended by the allocations made to them.

13. Should this prove to be the case the only remedy left to the Allies would appear to be to cut down Allocations to the Italian Government to compensate for extra supplies reaching the Italian Economy through Black Market, for the existence of which they will be largely responsible.

(C o p y)

SUBJECT: Motor Vehicle Control -
Lazio-Umbria Region.

AFHQ PETROLEUM SECTION
ROME AREA ALLIED COMMAND
Tel:- ROME 478875
PET 30/A/3/I
29 Jan. 1945

HQ. A.C., Commerce Sub-Commission
APO 394. (2)

Reference AC/5087/Commerce/POL 27 dated 26 January 45.

1. It appears to be clear from the information given in your letter that ENAC, with the aid of the Ministry of Communications, has been successful in insuring, at least for the time, a continuation of the Black Market in POL.

As is well known, theft does not grow to any marked extent until there are well established receivers. The Black Market in POL is due to the fact that either through carelessness or of deliberate intent, numbers of vehicles have been licensed without being given any, or at least any satisfactory, allotment of POL. In some cases, such as in Rome and in Florence, there is every appearance that this system has been carried out deliberately.

2. It is to be hoped that the action that you are taking with the Transportation Sub-Commission will have the effect of having cancelled the Directive of the Ministry of Communications, Serv. V. 477I dated 2 December 44. If that is not cancelled, it appears clear to this Section that the Black Market will inevitably increase.

3. Unfortunately, physical difficulties of distribution preclude at the present time the issues of undyed petrol (e.g., a great deal of Rome and the North is supplied from the Military pipeline to Rome). It is not easy to provide additional dyes which would be satisfactory. It is hoped that at some not too distant date, the provision of uncoloured petrol will be possible. It is pointed out that it is not a simple task to remove the dye from petrol once dyed.

4. Because of what is set out in paragraph 3 above, control of POL can only be exercised through control of circulating permits which must, therefore, be related to the available quantities of petrol. It is hoped that this point will again be stressed with all Regional, Provincial, and Italian responsible officers.

5. In view of the development which has been caused by ENAC, this Section agrees to the view expressed in paragraph 7 of your letter,

./.

- 2 -

and considers that you should arrange for the Regional authorities to issue petroleum in weekly quantities only. It will be appreciated that this Section is not able to undertake this work.

6. This Section is continuing this examination of the possibility of introducing undyed petrol for civilian consumption.

H.B. EYLES
Colonel
Petroleum Section

HEADQUARTERS ALLIED COMMISSION

APO 394

COMMERCE SUB-COMMISSION

ASB/hp

Ref. AC/5146/2/B/Commerce/POL 19

Tel. ROME 478829

31 January 1945

SUBJECT: POL - Italian Government

TO : Economic Section

1. Your 13/01/ES of 29 January 1945 refers.
2. Whilst the intention is that the Italian Government should be made responsible for POL Control in Territory handed over to them, it would not be practicable to hand over responsibility immediately the transfer of territory takes place for a number of reasons as under.
3. The transfer usually takes place suddenly and in areas which do not correspond to our Regions whereas control of POL allocation needs some considerable period for collection of information and allocation itself on the part of the Italian Government and a fairly exact knowledge, which can only be arrived at after some months of experience, as to actual requirements by AFHQ Petroleum Section, who have to assess the bulk allocation to be made to the Italian Government to cover their new liabilities.
4. In the period of stabilisation, which follows assumption of control by Regions of Territory handed over by AMG Armies, many questions inevitably arise and corresponding adjustments have to be made in allocations which are much more easily handled through AMG/AC channels on a Regional basis than would be possible through the Italian Government with its poor Communications and Embryonic Provincial set up.
5. In fact grave difficulties would inevitably result from any attempt to effect a turn-over of too small areas at too early a stage and it is certain that essential services are much better cared for during this period by the flexible control exercised by AMG/AC Supply Officers located on the spot.
6. Discussions are at present in progress with the Italian Government as a result of which it is hoped to hand over control, w.e.f. 1st March 1945, of Lazio-Umbria Region less Umbria, and Marche Abruzzi Region less Marche which are still AMG territories. These seem suitable territorial areas and will enable a worth - while addition to the Italian Government's bulk allocation to be made.

./.

5945

- 2 -

7. Even so it may be added that we shall have to supply the Italians with the information on which to base their allocations during the first month as it is required at least three weeks ahead under our system and more under their more complicated set up.
8. It should be emphasised that control of the State Railways and of allocations to certain other services will not be handed over the Italians so long as they are operated by the Military.

TRANSLATION

21 December 1944

SUBJECT: Consumption of fuel for motor-vehicles registered with ENAC.

TO : Col. L.D. Densmore.

FROM : General Direction of ENAC.

1. Pursuant to our agreement, we send you the attached tables showing the number of motor-vehicles in working condition registered with ENAC up to this date. The above tables are divided as follows: trucks run by gasoline (table 1), motor-cars run by gasoline (table 2), trucks run by gasoil (table 3), and a summary (table 4) of the amount of fuel required.

2. If our requests will be complied with, ENAC will be in condition to start functioning on February 1, 1945 and, if possible, even before, in the provinces of Calabria, Lucania, Apulia, Campania, as well as in the provinces of Campobasso, Rome, Frosinone and Littoria. In the provinces of Sicily and Sardinia, and in those lately returned to the jurisdiction of the Italian Government, ENAC is being organized and will probably be able to start functioning very soon.

3. By February 1, 1945, ENAC will also be prepared to allocate the fuel and the lubricants supplied to it, to supervise the use made of them, and to give an account thereof.

4. To this purpose each motor-vehicle registered with ENAC will be supplied with a regular work-ticket.

5. With the exceptions mentioned in para 6, the fuel will be allocated by means of coupons to be delivered for each trip on the basis of the number of kilometers to be covered and the consumption of fuel per kilometer, calculated according to the type of each vehicle shown in the attached tables. (Encl. 5)

5343

- 2 -

6. The exceptions mentioned in para 5 are the following:
- a) public services (gas, electricity, telephone, street cleaning, post service, etc.)
 - b) services of a continuous character for industrial and agricultural concerns.

In the above cases the fuel will be allocated monthly on the basis of the number and types of motor-vehicles in operation and of the requirements of each service.

Each motor-vehicle will be supplied with a work-booklet on which the firm concerned, before effecting a trip, will put down the kilometers to be covered and the merchandise to be transported, and, when the trip is over, the fuel consumption.

ENAC will thus be in condition to operate an efficient control of the fuel allocated and of its consumption.

7. In the second ten-day period of each month, ENAC will report to the AC about the tons x kms of transportation effected during the preceding month and give an exact account of the consumption of fuel and lubricants.

OGGETTO:

- 5) Il carburante, salvo per le eccezioni che seguono, sarà assegnato con buoni di volta in volta e per ogni viaggio in base al percorso ed al consumo chilometrico relativo al tipo di ciascun automezzo che è indicato nelle tabelle (allegato 5)
- 6) Le eccezioni di cui è detto nel punto 5 sono:
- a) Servizi pubblici e di pubblico interesse (gas, luce, telefoni, nettezza urbana, trasporti postali, ecc.).
 - b) servizi a carattere continuativo per Aziende industriali ed Agricole.
- Per gli usi di cui sopra il carburante sarà assegnato mensilmente in base al numero e tipo degli autoveicoli e alle rispettive esigenze di ciascun servizio.

Ogni autocarro sarà accompagnato

OGGETTO:

In tal modo l' E.N.A.C. ritiene di poter eseguire un efficace controllo del carburante che gli verrà assegnato e del relativo consumo.

7) Dentro la seconda decade di ogni mese l' E.N.A.C. sarà in grado di documentare a codesta A.C. le Tonn.x x Km. di trasporto eseguite nel mese precedente e di giustificare con ogni esattezza il relativo consumo di carburante e lubrificanti.

Consumo Carburanti per autoveicoli iscritti all' E.N.A.C.

1. In seguito a precedente intesa si trasmettono gli allegati prospetti indicanti il numero di autoveicoli efficienti iscritti a tutt'oggi all'ENAC e che sono in grado di funzionare per esso. Tali prospetti sono suddivisi in: autocarri funzionanti a benzina (prospetto N° 1), motocarri a benzina (Prospetto N° 2), autocarri funzionanti a gasolio (Prospetto N° 3), e un riassunto (Prospetto N° 4) dei quantitativi di carburante richiesti.
2. L'ENAC, se otterrà quanto si richiede sarà in grado di funzionare con il 1 Febbraio p.V. e possibilmente anche prima nelle provincie della Calabria, Lucania, Puglia, Campania ed in quelle di Campobasso, Roma, Frosinone, Littoria. Nelle altre provincie della Sicilia e della Sardegna, nonché in quelle passate recentemente all'amministrazione del Governo Italiano è in corso l'organizzazione e si prevede che l'Enac potrà andare in funzione al più presto.
3. L'ENAC per quella data sarà pure in grado di eseguire la distribuzione dei carburanti e dei lubrificanti ad esso assegnati, di controllarne l'uso e di renderne esatto conto.
4. A tale uso ogni autocarro iscritto all'ENAC sarà munito di regolare documento di viaggio.
5. Il carburante, salvo per le eccezioni che seguono, sarà assegnato con buoni di volta in volta e per ogni viaggio in base al percorso ed al consumo chilometrico relativo al tipo di ciascun mezzo che è indicato nelle tabelle (Allegato 5).
6. Le eccezioni di cui è detto nel punto 5 sono:
 - a) servizi pubblici e di pubblico interesse (gas, luce, telefonia, nettezza urbana, trasporti postali, ecc.)
 - b) servizi a carattere continuativo per Aziende industriali agricole. Per gli usi di cui sopra il carburante sarà assegnato mensilmente in base al numero e tipo degli autoveicoli e alle rispettive esigenze di ciascun servizio.Ogni autocarro sarà accompagnato da un registro di esercizio, nel quale per ogni viaggio, l'azienda interessata dovrà notare preventivamente il percorso e la merce da trasportare, e a via compiuto il carburante consumato.

- 2 -

In tal modo l'ENAC ritiene di poter eseguire un efficace controllo del carburante che gli verrà assegnato e del relativo consumo.

7. Dentro la seconda decade di ogni mese l'ENAC sarà in grado di documentare a cotesta A.C. le Tonn. x Km. di trasporto eseguite nel mese precedente e di giustificare con ogni esattezza il relativo consumo di carburanti e lubrificanti.
